- A. **Sheet Numbering** - Sheet numbers appear in the upper right corner of the sheet. Sheets are numbered sequentially within each Section. However, new sheets are occasionally added to the tariff. When a new sheet is added between pages already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. **Sheet Revision Numbers** - Revision numbers also appear in the upper right corner of each sheet. These numbers are used to determine the most current sheet version on file with the Commission. For example, the fourth revised sheet 14 cancels the third revised sheet 14.
- C. **Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- D. **Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some sheets). The tariff user should refer to the latest Check Sheet to find out if a particular sheet is the most current on file with the Commission.

**APPLICATION OF TARIFF**

This Tariff contains the regulations and rates applicable to intrastate telecommunications services provided by Company to Customers for telecommunications between points within the State. Company's services are furnished subject to the availability of facilities and subject to the terms and conditions of this Tariff.

The rates and regulations contained in this Tariff apply only to the services furnished by Company and do not apply, unless otherwise specified, to the lines, facilities, or services provided by a local exchange telephone company or other common carrier for use in accessing the services of Company.

Customer is entitled to limit the use of Company's services by end users at the Customer's facilities, and may use other common carriers in addition to or in lieu of Company.

SECTION 1.0 - DEFINITIONS (continued)

**Port** is a connection to the Company's switching network with one or more voice grade or DS-1 level communications channels, each with a unique network address (telephone number), dedicated to the customer. Each port is equipped with a Terminal Interface.

**Recurring charges** are the same as monthly recurring charges.

**Service commencement date** is the first day following the date on which the Company notifies the customer that the requested service or facility is available for use, unless extended by the customer's refusal to accept service which does not conform to standards in the service order or this tariff, in which case the service commencement date is the date of the customer's acceptance. The Company and customer may mutually agree on a substitute service commencement date.

**Service order** is the written request for network services executed by the customer and the Company. The signing of a service order by the customer and acceptance by the Company begins the respective obligations of the parties in that order and under this tariff. The duration of the service is calculated from the service commencement date.

**Shared** refers to a facility or equipment system that can be used simultaneously by several customers.

**Station** refers to telephone equipment from or to which calls are placed.

**Terminal Interface** is the method of physical connection between a Company-provided service and a Customer's or User's transmission cable, inside wiring, or terminal equipment. Depending upon the service ordered by the Customer, there may be a choice of terminal interfaces. The Customer is responsible for ordering a terminal interface that is compatible with the Customer's or User's terminal equipment. All terminal interfaces will be provided by industry-standard connectors as specified in or authorized by Subpart F of Part 68, Title 47, Code of Federal Regulations.

**Transmission** is the sending of electrical or optical signals over a line to a destination.

**Trunk** is a communications path connecting two switching systems in a network, used in the establishment of an end to end communication.

**V & H Coordinates** are geographic points which define the originating and terminating points of a call in mathematical terms so that the airline mileage of the call may be determined. Call mileage is used for the purpose of rating calls.

**WATS** is Wide Area Telecommunications.

**SECTION 2.0 – UNDERTAKING OF THE COMPANY**

**2.1 General**

- 2.1.1** The Company undertakes to furnish communications service under the terms of this tariff for communications originating from and terminating to points within Missouri.
- 2.1.2** Customers and Users may use services and facilities provided under the tariffs of the Company to obtain access to services offered by other companies. The Company is responsible for the services and facilities provided under its tariffs, and for its unregulated services provided pursuant to contract, and it assumes no responsibility for any service (whether regulated or not) provided by any other entity that purchases access to the Company network in order to originate or terminate such entity's own services, or to communicate with such entity's own customers.
- 2.1.3** The Customer's charges for services are based upon the total time the Customer actually uses the service subject to billing increments set forth herein and any additional charges which may apply.
- 2.1.4** The Company shall have no responsibility with respect to billings, charges or disputes related to services used by the Customer which are not included in the services herein including, without limitation, any local, regional or long distance services not offered by the Company. The Customer shall be fully responsible for the payment of any bills for such services and for the resolution of any disputes or discrepancies with the service provider.

**2.2 Description of Service**

Ionex Communications, Inc. service consists of any of the services offered pursuant to this tariff, either individually or in combination. Each service is offered independent of the others, unless otherwise noted. Service is offered via the Company's facilities or in combination with transmission facilities provided by other certificated carriers.

**2.3 Application for Service**

Customers desiring to obtain Ionex Communications, Inc. service must complete the Company's standard service order form(s).

**SECTION 2.0 – UNDERTAKING OF THE COMPANY (Continued)**

**2.5 Terms and Conditions**

**2.5.1** Service is provided for a minimum period of thirty days, 24-hours per day. For the purpose of computing charges in this tariff, a month is considered to have 30 days.

**2.5.2** Customers shall be required to enter into written or oral Service Orders which shall contain or reference a specific description of the Service ordered, the rates to be charged, the duration of the Services, and the Terms and Conditions in this tariff. Customers will also be required to execute any other documents as may be reasonably requested by the Company.

**2.5.3.** Except as otherwise stated in the tariff, at the expiration of the initial term specified in each Service Order, or in any extension of the Service Order, Service shall continue on a month-to-month basis at the then current rates unless terminated by either party upon 30 days Written Notice. Any termination shall not relieve the Customer of its obligation to pay any charges incurred under the Service Order and this tariff prior to termination. The rights and obligations which by their nature extend beyond the termination of the term of the Service Order shall survive such termination.

**SECTION 2.0 – UNDERTAKING OF THE COMPANY (continued)**

**2.6 Liability of the Company (continued)**

**2.6.5** The Company does not guarantee nor make any warranty with respect to installations it provides for use in an explosive atmosphere. The Customer shall indemnify and hold the Company harmless from any and all loss, claims, demands, suits, or other action, or any liability whatsoever, whether suffered, made, instituted, or asserted by any other party or person(s), and for any loss, damage, or destruction of any property, whether owned by the Customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal presence, condition, location, or use of any installation so provided.

**2.6.6** The Company reserves the right to require each Customer to sign an agreement acknowledging acceptance of the provisions of this paragraph as a condition precedent to such installations.

**2.6.7** The Company is not liable for any defacement of or damage to Customer or User premises resulting from the furnishing of services or equipment on such premises or the installation or removal thereof, unless such defacement or damage is caused by negligence or willful misconduct of the Company's agents or employees.

**2.6.8** The entire liability for any claim, loss, damage or expense from any cause whatsoever shall in no event exceed sums actually paid the Company by Customer for the specific services giving rise to the claim. No action or proceeding against the Company shall be commenced more than one year after the service is rendered, or as required by Missouri Law.

**SECTION 2.0 – UNDERTAKING OF THE COMPANY (continued)**

**2.7 Notification of Service-Affecting Activities**

To the extent possible, the Company will provide the Customer reasonable notification of service-affecting activities that may occur in normal operation of its business. Such activities may include, but are not limited to, equipment or facilities additions, removals or rearrangements and routine preventative maintenance. Generally, such activities are not specific to an individual Customer but affect many Customers' services. No specific advance notification period is applicable to all service activities. The Company will work cooperatively with the Customer to determine the reasonable notification requirements. With some emergency or unplanned service-affecting conditions, such as an outage resulting from cable damage, notification to the Customer may not be possible.

**2.8 Provision of Equipment and Facilities**

**2.8.1** All services along the facilities between the point identified as the Company's origination point and the point identified as the Company's termination point will be furnished by the Company, its agents or contractors.

**2.8.2** The Company shall undertake to use reasonable efforts to make available services to a Customer on or before a particular date, subject to the provisions of and compliance by the Customer with, the regulations contained in this tariff.

**2.8.3** The Company undertakes to use reasonable efforts to maintain only the facilities and equipment that it furnishes to the Customer. The Customer, Joint User, or Authorized User may not, nor may they permit others to, rearrange, disconnect, remove, attempt to repair, or otherwise tamper with any of the facilities or equipment installed by the Company, except upon the written consent of the Company.

**2.8.4** Equipment the Company provides or installs at the Customer's premises for use in connection with the services the Company offers shall not be used for any purpose other than that for which the Company provided the equipment.

**2.8.5** The Customer shall be responsible for the payment of service charges as set forth herein for visits by the Company's agents or employees to the premises of the Customer, Joint User, or Authorized User when the service difficulty or trouble report results from the use of equipment or facilities the Customer, Joint User, or Authorized User provided.

**2.8 Provision of Equipment and Facilities (continued)**

**2.8.6** The Company shall not be responsible for the installation, operation, or maintenance of any Customer provided communications equipment. Where such equipment is connected to the facilities furnished pursuant to this tariff, the responsibility of the Company shall be limited to the furnishing of facilities offered under this tariff and to the maintenance and operation of such facilities; subject to this responsibility the Company shall not be responsible for:

i.) The transmission of signals by Customer provided equipment or for the quality of, or defects in, such transmission; or

ii.) The reception of signals by Customer provided equipment. The Customer, Authorized User, or Joint User is responsible for ensuring that Customer provided equipment connected to Company equipment and facilities is compatible with such Company equipment and facilities. The magnitude and character of the voltages and currents impressed on Company provided equipment and wiring by the connection, operation, or maintenance of such equipment and wiring shall be such as not to cause damage to the Company provided equipment and wiring or injury to the Company's employees or to other persons. Customer will submit to Company a complete manufacturer's specification sheet for each item of equipment that is not provided by the Company and which shall be attached to the Company's facilities. The Company shall approve the use of such item(s) of equipment unless such item is technically incompatible with Company's facilities. Any additional protective, equipment required to prevent such damage or injury shall be provided by the Company at the Customer's expense.

**2.8.7** Any special interface equipment necessary to achieve compatibility between the facilities and equipment of the Company used for furnishing Ionex Communications, Inc. services and the channels, facilities, or equipment of others shall be provided at the Customer's expense.

**2.8.8** Other carriers may not interfere with the right of any person or entity to obtain service directly from the Company. No person or entity shall be required to make any payment, incur any penalty, monetary or otherwise, or purchase any services in order to have the right to obtain service directly from the company.

**2.9 Non-routine Installation**

At the customer's request, installation or maintenance may be performed outside the Company's regular business hours or in hazardous locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays or night hours, additional charges may apply.

**2.10 Ownership of Facilities**

Title to all facilities provided in accordance with the tariffs of the Company remains with the Company, its agents or contractors. The Customer shall not have, nor shall it assert, any right, title or interest in all the fiber optic or other facilities and associated equipment provided by the Company hereunder.

**2.11 Optional Rates and Information Provided to the Public**

The Company will promptly advise Customers who may be affected of new, revised or optional rates applicable to their service. Pertinent information regarding the Company's services, rates and charges shall be provided directly to Customers, or shall be available for inspection at the Company's local business.

**2.12 Continuity of Service**

In the event of prior knowledge of an interruption of service for a period exceeding one day, the Customers will, if feasible, be notified in writing, by mail, at least one week in advance.

**SECTION 2.0 – UNDERTAKING OF THE COMPANY (Continued)**

**2.13 Governmental Authorizations**

The provision of Services is subject to and contingent upon the Company obtaining and retaining such approvals, consents, governmental authorizations, licenses and permits, as may be required or be deemed necessary by the Company. The Company shall use reasonable efforts to obtain and keep in effect all such approvals, consents, authorizations, licenses and permits that may be required to be obtained by it. The Company shall be entitled to take, and shall have no liability whatsoever for, any action necessary to bring the Services into conformance with any Rules, Regulations, Orders, Decisions, or Directives imposed by the Federal Communications Commission or other applicable agency, and the Customer shall fully cooperate in and take such action as may be requested by the Company to comply with any such Rules, Regulations, Orders, Decisions, or Directives.

**2.14 Dispute Resolution**

This Section applies to any dispute, controversy, or claim, whether based in contract, tort, equity, statute or any other legal theory, between the Customer and the Company arising out of, or relating to, any Service, product, facilities, charge, advertising, representation, Act or Omission of the Company, or any other dispute, controversy, or claim arising from the relationship between the Parties that either the Customer or the Company has against the other, regardless of the date of accrual and even if the dispute, controversy, or claim arises after Service has terminated (hereinafter collectively referred to herein as "Dispute" or "Disputes"). All Disputes must be resolved as described in this Section. BY ORDERING AND/OR CONTINUING SERVICES PROVIDED IN THIS TARIFF, THE CUSTOMER AGREES THAT ANY DISPUTE WILL BE RESOLVED BY THE DISPUTE RESOLUTION PROCESS DESCRIBED HEREIN AND NOT BY A JUDGE OR JURY IN COURT.

If the Customer has a Dispute with the Company, the Customer must first call the Company's Customer Service Department, at the number listed on the Customer's invoice, to attempt to resolve the Dispute. The Customer must describe the Dispute and provide the Company with any supporting documentation reasonably requested by the Company. Likewise, if the Company has a Dispute with the Customer it will notify the Customer by letter sent to the Customer's billing address and attempt to resolve it before pursuing arbitration.

If the Parties are unable to resolve the Dispute within 60 days of the initial notice, either Party may request arbitration as described below.

**2.13 Governmental Authorizations**

The provision of services is subject to and contingent upon the Company obtaining and retaining such approvals, consents, governmental authorizations, licenses and permits, as may be required or be deemed necessary by the Company. The Company shall use reasonable efforts to obtain and keep in effect all such approvals, consents, authorizations, licenses and permits that may be required to be obtained by it. The Company shall be entitled to take, and shall have no liability whatsoever for, any action necessary to bring the Services into conformance with any rules, regulations, orders, decisions, or directives imposed by the Federal Communications Commission or other applicable agency, and the Customer shall fully cooperate in and take such action as may be requested by the Company to comply with any such rules, regulations, orders, decisions, or directives.

**SECTION 2.0 – UNDERTAKING OF THE COMPANY (Continued)**

**2.14 Dispute Resolution (Continued)**

MANDATORY ARBITRATION OF DISPUTES: ANY DISPUTE OF ANY KIND BETWEEN THE CUSTOMER AND THE COMPANY, OR ANY EMPLOYEE, AGENT, PRIVY OR AFFILIATED ENTITY OF EITHER PARTY, WILL BE RESOLVED BY FINAL AND BINDING ARBITRATION AS PRESCRIBED IN THIS SECTION. THE FEDERAL ARBITRATION ACT, NOT STATE LAW, GOVERNS THIS PROCESS, INCLUDING THE ARBITRABILITY OF ANY DISPUTE UNDER THIS TARIFF AND THE REVIEW OF ANY AWARD.

The arbitration will be conducted by and under the then-applicable Commercial Arbitration Rules of the American Arbitration Association (“AAA”) at the nearest AAA Case Management Center or other location as agreed upon by Customer and Company. A single neutral arbitrator engaged in the practice of law will conduct the arbitration. The arbitrator will be selected according to the rules of the American Arbitration Association or, alternatively, may be selected by agreement of the Parties, who will cooperate in good faith to select the arbitrator. All expedited procedures prescribed by the applicable Rules will apply. All required fees and costs will be paid equally by the Parties as set forth in the AAA Commercial Arbitration Rules. The arbitrator’s decision and award will be final and binding, and judgment on the award rendered by the arbitrator may be entered in any court with jurisdiction.

No Dispute may be joined with another lawsuit, claim, dispute, or arbitration brought by any other person, or resolved on a class-wide basis. The arbitrator may not award damages that are barred by this tariff and may not award punitive damages.

If any Party files a judicial or administrative action to resolve a Dispute without first complying with the provisions of this Section and another Party successfully stays such action and/or compels arbitration, the Party filing that judicial or administrative action must pay the other Party’s costs and expenses incurred in seeking such stay and/or compelling arbitration, including attorney’s fees.

Notwithstanding the provisions of this Section, the Customer may file a complaint with the Commission as described in Section 5.11.

If any portion of this Section is determined to be invalid or unenforceable, the remainder of this Section and this tariff shall remain in full force and effect.

The customer shall be responsible for:

- (a) the payment of all applicable charges pursuant to the tariffs of the Company;
- (b) damage to or loss of the Company's facilities or equipment caused by the acts or omissions of the Customer or of any User; or by the noncompliance by the Customer or any User with these regulations; or by fire or theft or other casualty on the Customer's or any User's Premises, unless caused by the negligence or willful misconduct of the employees or agents of the Company;
- (c) providing at no charge, as specified from time to time by the Company, any needed personnel, equipment space and power to operate the Company facilities and equipment installed on the premises of the Customer or any User; and the level of heating and air conditioning necessary to maintain the proper operating environment on such premises;
- (d) any and all costs associated with obtaining and maintaining of the rights-of-way from the point of entry at the Customer's location to the termination point where service is finally delivered to the Customer, including, but not limited to, the costs of installing conduit or of altering the structure to permit installation of Company provided facilities. The Customer's use of such rights-of-way shall in all respects be subject to the terms, conditions and restrictions of such rights-of-way and of agreements between the Company and such third parties relating thereto, including without limitation, the duration applicable to and the condemnation of such rights-of-way, and shall not be in violation of any applicable governmental ordinance, law, rule, regulation or restriction. Where applicable, the Customer agrees that it shall assist the Company in the procurement and maintenance of such right-of-way. The Company shall require the Customer to demonstrate its compliance with this section prior to accepting an order for service.

SECTION 4.0 – CUSTOMER AND EQUIPMENT AND CHANNELS

4.1 General

A User may transmit or receive information or signals via the facilities of the Company. The Company's services are designed primarily for the transmission of voice-grade telephonic signals, except as otherwise stated in the tariffs of the Company. A User may transmit any form of signal that is compatible with the Company's equipment, but except as otherwise specifically stated in its tariffs, the Company does not guarantee that its services will be suitable for purposes other than voice-grade telephonic communication.

4.2 Station Equipment

4.2.1 Terminal equipment on the User's Premises and the electric power consumed by such equipment shall be provided by and maintained at the expense of the User. The User is responsible for the provision of wiring or cable to connect its terminal equipment to the Company's Point of Connection.

4.2.2 The Customer is responsible for ensuring that Customer-provided equipment connected to the Company equipment and facilities is compatible with such equipment and facilities. The magnitude and character of the voltages and currents impressed on Company-provided equipment and wiring by the connection, operation, or maintenance of such equipment and wiring shall be such as not to cause damage to Company-provided equipment and wiring or injury to the Company's employees or to other persons. Any additional protective equipment required to prevent such damage or injury shall be provided by the Company at the Customer's expense.

Customer provided station equipment may be attached to services provided under the tariffs of the Company subject to Part 68 of the FCC Rules and to any applicable provisions of the tariffs of the Company and is the sole responsibility of the Customer.

4.2.3 The Company is not responsible for malfunctions of Customer-owned telephone sets or other Customer-provided equipment, or for misdirected calls, disconnects or other service problems caused by the use of Customer-owned equipment.

**4.3 Interconnection of Facilities**

- 4.3.1** Any special interface equipment necessary to achieve compatibility between the facilities and equipment of the Company used for furnishing Communications Services and the channels, facilities, or equipment of others shall be provided at the Customer's expense.
- 4.3.2** Communications Services may be connected to the services or facilities of other communications carriers only when authorized by, and in accordance with, the terms and conditions of the tariffs of the other communications carriers which are applicable to such connections.
- 4.3.3** Facilities furnished under the tariffs of the Company may be connected to customer provided terminal equipment in accordance with the provisions of the tariffs of the Company. All such terminal equipment shall be registered by the Federal Communications Commission pursuant to Part 68 of Title 47, Code of Federal Regulations; and all User provided wiring shall be installed and maintained in compliance with those regulations.

**4.4 Tests and Adjustments**

Upon suitable notice, the Company may make such tests, adjustments, and inspections as may be necessary to maintain the Company's facilities in satisfactory operating condition. No interruption allowance will be credited to the Customer for the period during which the Company makes such tests, adjustments, or inspections.

**4.5 Inspections**

- 4.5.1** Upon suitable notification to the customer, and at a reasonable time, the Company may make such tests and inspections as may be necessary to determine that the customer is complying with the requirements under Section 2.8 for the installation, operation, and maintenance of customer-provided facilities, equipment, and wiring in the connection of customer-provided facilities and equipment to Company-owned facilities and equipment.

**SECTION 5.0 – PAYMENT ARRANGEMENTS**

**5.1 Payment for Service**

The Customer is responsible for the payment of all charges for facilities and services furnished by the Company to the Customer and to all Users authorized by the Customer, regardless of whether those services are used by the Customer itself or are resold or shared with other persons.

**5.2 Billing and Collection of Charges**

**5.2.1** Nonrecurring charges are due and payable within 30 days after the date an invoice is mailed to the Customer by the Company.

**5.2.2** The Company shall present invoices for Recurring Charges monthly to the Customer, in advance of the month in which service is provided, and Recurring Charges shall be due and payable within 30 days after the invoice is mailed.

**5.2.3** Charges based on measured usage will be included on the next invoice rendered following the end of the month in which the usage occurs, and will be due and payable within 30 days after the invoice is mailed.

**5.2.4** When service does not begin on the first day of the month, or end on the last day of the month, the charge for the fraction of the month in which service was furnished will be calculated on a pro rata basis. For this purpose, every month is considered to have 30 days.

**5.2.5** Billing of the Customer by the Company will begin on the Service Commencement Date, which is the first day following the date on which the Company notifies the Customer that the service or facility is available for use, except that the Service Commencement Date may be postponed by mutual agreement of the parties, or if the service or facility does not conform to standards set forth in the tariffs of the Company or the Service Order. Billing accrues through and includes the day that the service, circuit, arrangement or component is discontinued.

**5.2.6** With respect to Customers, if any portion of the payment is received by the Company after the date due, or if any portion of the payment is received by the Company in funds which are not immediately available, then a late payment penalty shall be due to the Company. The late payment penalty shall be the portion of the payment not received by the date due, net of taxes, not compounded, multiplied by a monthly late factor of 1.5% or at the highest rate allowed by law, whichever is less.

**SECTION 5.0 – PAYMENT ARRANGEMENTS (continued)**

**5.4 Deposits (continued)**

5.4.3 An initial deposit or an additional deposit will be required of an existing customer when high risk is indicated and existing security is insufficient. Such requirement will be imposed when a payment history includes a suspension of service for nonpayment during the previous twelve-month period.

5.4.4 The Company shall provide for two equal installment payments of the deposit if the circumstances warrant.

5.4.5 Any deposit required of an existing Customer is due and payable within ten days after the requirement is imposed. This requirement shall be in writing and the payment date shall be on or after the due and payable date for the current bill. If said deposit or installment thereof, as appropriate, is not paid within the aforementioned time frame, the Company shall suspend service of the Customer without further notice. The following are exceptions to this provision:

A. In the event service is suspended for a Customer for nonpayment, an initial or additional deposit shall be required prior to the restoration of service if existing security is insufficient.

B. In the event prior indebtedness or prior unsatisfactory credit has been determined subsequent to the initial establishment of service due to misrepresentation of the facts by the Customer, a deposit shall be due and payable within five days upon verbal notification and written confirmation or within ten days when notification can only be provided in writing. The ten day period shall be measured from the mailed date of the written notice. If said deposit is not paid within the aforementioned time frame, the Company shall suspend service to the Customer without further notice.

5.4.6 The amount of the deposit shall be the estimated charges for the service, which will accrue for a 2-month period. All applicants and existing Customers shall be treated uniformly for the determination and application of deposits.

**SECTION 5.0 - PAYMENT ARRANGEMENTS (continued)**

**5.4 Deposits (continued)**

5.4.7 When it is determined that a deposit is required under the conditions specified above, the applicant or Customer may, in lieu of or in addition to making the deposit, arrange for an acceptable third party to guarantee payment of his charges by executing on his behalf a Guarantee of Payment Agreement with the Company. An acceptable third party guarantor for service is a current non residential customer with at least two years continuous service, whose payment history for the most recent twelve month period is satisfactory.

5.4.8 The fact that a deposit has been made in no way relieves the Customer from complying with the Company's regulations as to advance payments, or the prompt payment of bills on presentation.

5.4.9 The deposit will bear simple interest computed from the date of its receipt by the Company to the date the deposit is refunded, or service is terminated, or annually upon request of the Customer. In the event that a deposit is retained during time periods having different rates of interest, the interest accrued on the deposit will be calculated using the interest rate applicable to each time period.

5.4.10 The rate of interest to be paid shall be nine percent (9%) per annum.

5.4.11 When the Customer is a candidate for political office or is a person or organization acting on behalf of a candidate for political office the deposit requirement will be adjusted monthly to reflect twice the current month's actual billing. Under these circumstances, a security, i.e., surety bond or bank letter of credit equal to the Company's deposit requirement will be the only acceptable substitutes for a cash deposit.

5.4.12 When service is terminated, the amount of the initial or additional deposit, with any interest due, will be credited to the Customer's account and any credit balance which may remain will be refunded. After an existing customer has established satisfactory credit, the amount of the deposit, with any interest due, will be either credited to the account or at the option of the Customer, refunded. Satisfactory credit for a Customer is defined as twelve consecutive months of service without suspension for nonpayment and with no more than one notification of intent to suspend service for nonpayment.

**SECTION 5.0 – PAYMENT ARRANGEMENTS (continued)**

**5.5 Discontinuance of Service for Cause**

- 5.5.1** Upon nonpayment of any amounts owing to the Company, the Company shall, by giving five days prior written notice to the Customer, discontinue or suspend service without incurring any liability.
- 5.5.2** Upon violation of any of the other material terms or conditions for furnishing service the Company shall, by giving five days prior notice in writing to the Customer, discontinue or suspend service without incurring any liability if such violation continues during that period.
- 5.5.3** Upon condemnation of any material portion of the facilities used by the Company to provide service to a Customer, or if a condition immediately dangerous or hazardous to life, physical safety or property exists, or if a casualty renders all or any material portion of such facilities inoperable beyond feasible repair, the Company, by notice to the Customer, shall discontinue or suspend service without incurring any liability.
- 5.5.4** Upon the Customer's insolvency, assignment for the benefit of creditors, filing for bankruptcy or reorganization, or failing to discharge an involuntary petition within the time permitted by law, the Company shall immediately discontinue or suspend service without incurring any liability.
- 5.5.5** Upon any governmental prohibition or required alteration of the services to be provided or any violation of an applicable law or regulation, the Company shall immediately discontinue service without incurring any liability.
- 5.5.6** Upon the Company's discontinuance of service to the Customer under Section 5.5.1 and Section 5.5.2 above, the Company, in addition to all other remedies that may be available to the Company at law or in equity or under any other provision of the tariffs of the Company, may declare all future monthly and other charges which would have been payable by the Customer during, the remainder of the minimum term for which such services would have otherwise been provided to the Customer to be immediately due and payable (discounted to present value at six percent (6%)).

**SECTION 5.0 – PAYMENT ARRANGEMENTS (Continued)**

**5.7 Changes in Service Requested**

If the Customer makes or requests material changes in circuit engineering, equipment specifications, service parameters, premises locations, or otherwise materially modifies any provision of the application for Service, the Customer's Installation Fee shall be adjusted accordingly.

**5.8 Taxes and Fees**

The Customer is responsible for the payment of all sales, use, gross receipts, excise, access, bypass, franchise, or other local, state, and Federal taxes, fees, or charges, however designated, imposed on or based upon the provision, sales or use of the Services delivered by the company, other than taxes imposed generally on corporations. All such taxes, fees, and charges shall be separately designated on the Company's invoices, and are not included in the tariffed rates.

Missouri Universal Service Fund

- A. The Company will place on each retail end-user customer's bill a surcharge equal to the Missouri Universal Service Fund percentage assessment ordered by the Commission.
- B. The surcharge will appear as a separate line item detailed as "Missouri Universal Service Fund."
- C. The surcharge percentage will be applied to the total of each customer's charges for intrastate regulated telecommunications services that meet the definition of net jurisdictional revenues at 4 CSR 240-31.010(12).

Surcharges or billing line items other than taxes and jurisdictional franchise fees must be authorized in tariffs approved by the Commission.

**5.9 Bad Check Charge**

A service charge equal to \$25.00 will be assessed for all checks returned by a bank or other financial institution for: insufficient or uncollected funds, closed account, apparent tampering, missing signature or endorsement, or any other insufficiency or discrepancy necessitating return of the instrument at the discretion of the drawee bank or other financial institution.

**SECTION 6.0 – CANCELLATION OF SERVICE**

**6.1 Cancellation of Application for Service**

~~6.1.1~~ Applications for service are noncancellable unless the Company otherwise agrees. Where the Company permits the Customer to cancel an application for service prior to the start of service or prior to any special construction, no charges will be imposed except for those specified below.

6.1.2 Where, prior to cancellation by the Customer, the Company incurs any expenses in installing the service or in preparing to install the service that it otherwise would not have incurred, a charge equal to the costs the Company incurred, less net salvage, shall apply, but in no case shall this charge exceed the sum of the charge for the minimum period of services ordered, including installation charges, and all charges others levy against the Company that would have been chargeable to the Customer had service begun (all discounted to present value at six percent (6%)).

6.1.3 Where the Company incurs any expense in connection with special construction, or where special arrangements of facilities or equipment have begun, before the Company receives a cancellation notice, a charge equal to the costs incurred, less net salvage, applies. In such cases, the charge will be based on such elements as the cost of the equipment, facilities, and material, the cost of installation, engineering, labor, and supervision, general and administrative expense, other disbursements, depreciation, maintenance, taxes, provision for return on investment, and any other costs associated with the special construction or arrangements.

6.1.4 The charges described above will be calculated and applied on a case-by-case basis.

SECTION 6.0 – CANCELLATION OF SERVICE

6.2 Cancellation of Service by Customer

If a Customer cancels a Service Order or terminates services before the completion of the term for any reason whatsoever other than a Major Service Interruption, Customer agrees to pay to the Company the following sums, within 21 days of the effective date of the cancellation or termination and be payable under the terms set forth in Section 5, preceding: all costs, fees and expenses reasonably incurred in connection with:

- 1) All Nonrecurring charges as specified in the Company's tariffs, plus
- 2) Any disconnection, early cancellation or termination charges reasonably incurred and paid to third parties by the Company on behalf of Customer, plus
- 3) All Recurring Charges specified in the applicable Company tariff for the balance of the then current term.

**SECTION 7.0 – ALLOWANCE FOR INTERRUPTION IN SERVICE**

**7.1 General**

A credit allowance will be given when service is interrupted, except as specified in Section 7.2 following. A service is interrupted when it becomes inoperative to the customer, e.g., the customer is unable to transmit or receive, because of a failure of a component furnished by the Company under this tariff.

An interruption period begins when the customer reports a service, facility or circuit to be inoperative and, if necessary, releases it for testing and repair. An interruption period ends when the service, facility or circuit is operative.

If the customer reports a service, facility or circuit to be interrupted but declines to release it for testing and repair, or refuses access to its premises for test and repair by the Company, the service, facility or circuit is considered to be impaired but not interrupted. No credit allowances will be made for a service, facility or circuit considered by the Company to be impaired.

The customer shall be responsible for the payment of service charges as set forth herein for visits by the Company's agents or employees to the premises of the customer when the service difficulty or trouble report results from the use of equipment or facilities provided by any party other than the Company, including but not limited to the customer.

**7.2 Limitations of Allowances**

No credit allowance will be made for any interruption in service:

- A. due to the negligence of or noncompliance with the provisions of this tariff by any person or entity other than the Company, including but not limited to the customer or other common carriers connected to the service of the Company;
- B. due to the failure of power, equipment, systems, connections or services not provided by the Company;
- C. due to circumstances or causes beyond the reasonable control of the Company;
- D. during any period in which the Company is not given full and free access to its facilities and equipment for the purposes of investigating and correcting interruptions;

**SECTION 7.0 – ALLOWANCE FOR INTERRUPTION IN SERVICE (continued)**

**7.2 Limitations of Allowances (continued)**

- E.** during any period when the customer has released service to the Company for maintenance purposes or for implementation of a customer order for a change in service arrangements;
- F.** that occurs or continues due to the customer's failure to authorize replacement of any element of special construction; and
- G.** that was not reported to the Company within 30 days of the date that service was affected.
- H.** A service will not be deemed to be interrupted if a customer continues to voluntarily make use of the such service. If the service is interrupted, the customer can get a service credit, use another means of communications provided by the Company (under Section 7.3), or utilize another service provider;

**7.3 Use of Another Means of Communications**

**SECTION 7.0 – ALLOWANCE FOR INTERRUPTION IN SERVICE (continued)**

**7.4 Application of Credits for Interruptions in Service**

**7.4.1** If a customer's service is interrupted other than by the negligence or willful act of the customer, and it remains out of order for eight normal working hours or longer after access to the premises is made available and after being reported to be out of order, appropriate adjustments or refunds shall be made to the customer. The amount of adjustment or refund shall be determined on the basis of the known period of interruption, generally beginning from the time the service interruption is first reported. The refund to the customer shall be a pro rata part of the month's flat rate charges for the period of days and that portion of the service facilities rendered useless or inoperative. The refund may be accomplished by a credit on a subsequent bill for the service.

**7.4.2** For calculating credit allowances, every month is considered to have 30 days.

**SECTION 8.0 – USE OF CUSTOMER’S SERVICE BY OTHERS**

**8.1 Resale and Sharing**

Any service provided under the Company tariffs may be resold to or shared with other persons at the option of Customer, except as provided in Section 8.3, following. Customer remains solely responsible for all use of services ordered by it or billed to its telephone number(s) pursuant to the tariffs of the Company, for determining who is authorized to use its services, and for notifying the Company of any unauthorized use. Rates apply to all service that is resold or shared.

**8.2 Joint Use Arrangements**

Joint use arrangements will be permitted for all services available for resale and sharing pursuant to the Company tariffs. From each joint use arrangement, one member will be designated as the Customer responsible for the manner in which the joint use of the service will be allocated. Ionex Communications, Inc. will accept orders to start, rearrange, relocate, or discontinue service only from the Customer. Without affecting the Customer’s ultimate responsibility for payment of all charges for the service, each Joint User shall be responsible for the payment of the charges billed to it.

**8.3 Transfers and Assignments**

Neither the Company nor the Customer may assign or transfer its rights or duties in connection with the services and facilities provided by the Company without the written consent of the other party and any appropriate authorizations, if necessary, except that the Company may assign its rights and duties (a) to any subsidiary, parent company or affiliate of the Company, (b) pursuant to any sale or transfer of substantially all the assets of the Company; or (c) pursuant to any financing, merger or reorganization of the Company.

SECTION 9.0 - NOTICE AND COMMUNICATIONS

- A. The Customer shall designate on the Service Order an address to which the Company shall mail or deliver all notices and other communications, except that Customer may also designate a separate address to which the Company's bills for service shall be mailed.
- B. The Company shall designate on the Service Order an address to which the Customer shall mail or deliver all notices and other communications, except that the Company may designate a separate address on each bill for service to which the Customer shall mail payment on that bill.
- C. All notices or other communications required to be given pursuant to the tariffs of the Company will be in writing. Notices and other communications of either party, and all bills mailed by the Company, shall be presumed to have been delivered to the other party on the third business day following placement of the notice, communication or bill with the U.S. Mail or a private delivery service, prepaid and properly addressed, or when actually received or refused by the addressee, whichever occurs first.
- D. The Company or the Customer shall advise the other party of any changes to the addresses designated for notices, other communications or billing, by following the procedures for giving notice set forth herein.

**SECTION 10.0 – SPECIAL CONSTRUCTION AND SPECIAL ARRANGEMENTS (continued)**

**10.2 Basis for Charges**

Where the Company furnishes a facility or service on a special construction basis, or any service for which a rate or charge is not specified in the Company's tariffs, charges will be based on the costs incurred by the Company and may include, (1) nonrecurring type charges; (2) recurring type charges, (3) termination liabilities; or (4) combinations thereof. The agreement for special construction will ordinarily include a minimum service commitment based upon the estimated service life of the facilities provided.

**10.3 Basis for Cost Computation**

The costs referred to in 10.2 preceding may include one or more of the following items to the extent they are applicable:

- (A) installed costs of the facilities to be provided including estimated costs for the rearrangements of existing facilities. Installed costs include the cost of:
- (1) equipment and materials provided or used,
  - (2) engineering, labor and supervision,
  - (3) transportation,
  - (4) rights of way, and
  - (5) any other item chargeable to the capital account;

**SECTION 10.0 – SPECIAL CONSTRUCTION AND SPECIAL ARRANGEMENTS (continued)**

**10.3 Basis for Cost Computation (continued)**

- (B) annual charges including the following:
- (1) cost of maintenance;
  - (2) depreciation on the estimated installed cost of any facilities provided, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage;
  - (3) administration, taxes and uncollectible revenue on the basis of reasonable average costs for these items;
  - (4) any other identifiable costs related to the facilities provided; and
  - (5) an amount for return and contingencies.

**10.4 Termination Liability**

To the extent that there is no other requirement for use by the Company, the Customer may have a termination liability for facilities specially constructed at the request of the customer, if and only if such liability is clearly stated in a written agreement between the Company and the Customer.

1. The maximum termination liability is equal to the total cost of the special facility as determined under 10.3, preceding, adjusted to reflect the redetermined estimate net salvage, including any reuse of the facilities provided.
2. The maximum termination liability as determined in paragraph (1) shall be divided by the original term of service contracted for by the Customer (rounded up to the next whole number of months) to determine the monthly liability. The Customer's termination liability shall be equal to this monthly amount multiplied by the remaining unexpired term of service (rounded up to the next whole number of months), discounted to present value at six percent (6%), plus applicable taxes.

**10.5 Term**

The minimum term for any Ionex Communications, Inc. Non-Switched Local Exchange Service shall not be less than one (1) year, unless otherwise agreed to by the Company. The Customer and Company may agree to longer minimum terms for particular services.

**SECTION 11.0 – LIABILITY FOR UNAUTHORIZED USE OF THE NETWORK**

**11.1 Customer Liability for Unauthorized Use of the Network**

Unauthorized use of the network occurs when a person or entity that does not have actual, apparent, or implied authority to use the network, obtains the Company's services provided under this tariff.

**11.1.1 Customer Liability for Fraud and Unauthorized Use of the Network**

- A. The customer is liable for the unauthorized use of the network obtained through the fraudulent use of a Company calling card, if such a card is offered by the Company, or an accepted credit card, provided that the unauthorized use occurs before the Company has been notified.
- B. A Company calling card is a telephone calling card issued by the Company at the customer's request, which enables the customer or authorized user to place calls over the network and to have the charges for such calls billed to the customer's account.

An accepted credit card is any credit card that a cardholder has requested or applied for and received, or has signed, used, or authorized another person to use to obtain credit. Any credit card issued as an renewal or substitute in accordance with this paragraph is an accepted credit card when received by the cardholder.

- C. The customer must give the Company written or oral notice that an unauthorized use of a Company calling card or an accepted credit card has occurred or may occur as a result of loss or theft.

**SECTION 12.0 - INTEREXCHANGE SERVICE**

**12.1 General Description of Interexchange Service**

**12.1.1** The Company offers a combination of resold and facilities-based intrastate long distance message telephone service to customers. Interexchange (IXC) carrier services includes, but is not limited to, access, switching, transport, termination and other services for the direct transmission and reception of voice, data and other types of communications.

**12.1.2** The Company will resell the services of underlying carriers approved to provide such services by the Commission.

**12.1.3** Accounting codes are available to identify the Customers or User groups on an account. The numerical composition of the codes shall be set by the Company to assure compatibility with the Company's accounting and billing systems and to avoid the duplication of codes.

**12.2 Calculation of Distance**

**12.2.1** Usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call.

**12.2.2** The airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers involved.

**12.2.2.A** FORMULA:

SECTION 12.0 - INTEREXCHANGE SERVICE (continued)

12.3 Minimum Call Completion Rate

Customers can expect a call completion rate of 98% during peak use periods for all Feature Group D Equal Access 1+ services. The call completion rate is calculated as the number of calls completed (including calls completed to a busy line or to a line which remains unanswered by the called party) divided by the number of calls attempted.

12.4 Timing of Calls

Long distance usage charges are based on the actual usage of the Company's network. Usage begins when the called party picks up the receiver. When the called party picks up timing is determined by hardware answer supervision. Chargeable time ends when either party "hangs up" thereby releasing the network connection. Ionex Communications, Inc. does not bill for uncompleted calls.

12.5 Service Area

The service area of the Company includes all Equal Access points in Missouri.

**12.6.1 Ionex Switched Long Distance Service**

Ionex Switched Long Distance Service is a Switched Access Service that gives the Customer the ability to directly dial long distance using 1+ the area code and telephone number. Calls can also be placed directly by choosing Ionex Communications, Inc. as the Equal Access Carrier, or by dialing the toll free access, 950-0859 or through Feature Group D access. After dialing the number to be called the Customer then inserts the Customer Identification number (CID) for account billing. Project codes may be required in addition to the CID should the account need further breakdown of identification of callers on that account. Calls are rated by LATA, state, and U.S. as determined at time of setup. All calls are billed in six-second increments

(C)

**12.6.2 Toll-Free Service**

Toll-Free (800/888/877/866-NXX-XXXX) Service is an inward Wide Area Telephone Service, or WATS Service, which allows the Called Party, rather than the Calling Party, to be billed for the call. "N" is a digit between 2 and 9 and 'X' is a digit between 0 and 9. The Called Party is the toll-free subscriber. Toll-Free Service permits calls to the Customer's location from diverse geographical locations. All calls are billed in six-second increments.

**12.6.3 Toll-Free Features and Account Codes**

**12.6.3.A Area of Service Screening**

An arrangement when ordering Basic Toll-Free Service where the toll free number subscribed provides access from all 50 states unless the customer elects to block calls from certain geographic areas. Calls can be blocked based on state, area code, exchange or ANI. When this feature is used to block calls to the Customer's toll free number, the call is blocked by the LEC where the call originates. The Caller will hear a generic announcement by the LEC.

**12.6.3.B Geographic Routing Service**

Allows a Toll-Free Customer to route calls to several predetermined Customer locations based on the Caller's state, area code or area code and exchange.

**12.6.3.C Time of Day Routing Service**

Allows Customer to route calls to an alternate answering location based on the day of the week.

**SECTION 15.0 –NON-SWITCHED LOCAL EXCHANGE SERVICES**

Non-Switched Local Exchange Services will be offered only to customers of business service. Non-Switched Local Exchange Services consist of the services offered pursuant to this section, either individually or in combination. Each service is offered independently of the others. Service is offered via the Company's facilities for the transmission of one-way and two-way communications, unless otherwise noted. The Customer must purchase a minimum of 1 year of service for Non-Switched Local Exchange Services.

**15.1 Services Offered**

**15.1.1** The following Non-Switched Local Exchange Services are offered in this tariff.

DS0 Service (up to 64 kbps)  
DS1 Service (1.5 Mbps)  
DS3 Service (44.7 Mbps)  
Digital Data Service (2.4 to 56 kbps)  
T1 Service (1.544mbps)  
Primary Rate Interface (PRI)

**15.1.2** Other Services may be provided by the Company on an Individual Case Basis (ICB).

**15.2 Type I and Type II Services**

**15.2.1** DS1 Service and DS3 Service may be provided as either Type I or Type II Services, depending upon the availability of facilities. Type I Service rates apply when both endpoints of the channel are served by the Company's network. Type II Service rates apply when one endpoint of the transmission channel is served by another local exchange carrier's network (Type II Services are provided via a combination of the Company's facilities and another local exchange carrier's facilities).

**15.2.2** DS1 and DS3 channels where both endpoints are served by another local exchange carrier's network will be provided at the sole discretion of the Company, on an Individual Case Basis (ICB), applied in a nondiscriminatory manner.

**SECTION 15.0 – NON-SWITCHED LOCAL EXCHANGE SERVICES (continued)**

**15.3 DSO Service**

**15.3.1** DSO Services are Digital Channels furnished by the Company at transmission speeds of 2.4 kbps, 4.8 kbps, 9.6 kbps, 19.2 kbps, 56 kbps, 64 kbps, or in multiples of 64 kbps up to 1.544 Mbps. Such channels will be configured by the Company to transmit digital data at specified data rates or analog signals converted to digital signals, as described below. Interconnections to such channels and equipment interfacing to such channels shall meet the technical characteristics described below in connection with each service configuration. The NCI Codes referenced below are defined in Bell Communications Research (Bellcore) publication TR-NPL-000335.

**15.3.2** Each DSO channel will be provided in one of the following configurations, as specified by the Customer.

**15.3.2.A** Effective 2-Wire Service

Provides a digital transmission channel capable of normally carrying, among other information, the digitized representation of human speech. At the Company's point of interconnection with the Customer, the service will have the technical characteristics of a standard 2-wire analog telephone circuit. Specific configurations are as follows:

**15.3.2.A.1** 2-Wire Transmission Only

2 wire, 600 ohm, open loop (continuously connected) with industry standard demarcation (NCI Code: 02NO2). C4 conditioned circuit connecting two locations, typically used for voice-grade data services.

**15.3 DSO Service (continued)**

**15.3.2.B Digital Services**

Provides a digital transmission channel capable of normally carrying synchronous digital data signals. The following service configurations are available:

**15.3.2.B.1 64 Kbps Data Service**

A 4-wire 135 ohm handoff. Other possible handoffs are RS232/DB25, RS422/DB25, or V.35. Provides point-to-point, 64 Kbps clear channel for a full-duplex synchronous data circuit. No error correction or in-band control codes are supported. (Possible NCI Code: 04DU5-64).

**15.3.2.B.2 DS1 Aggregating Service**

DS1 Aggregating Service allows a Customer to aggregate up to 24 DS0 channels that terminate in the same location into a single DS1 and the distribution of End Link circuits.

**SECTION 13.0 - NON-SWITCHED LOCAL EXCHANGE SERVICES (continued)**

**15.4 DS1 Service (1.544Mbps)**

**15.4.1** DS1 Service is composed of digital channels provided at 1.544 Mbps for the transmission of one-way and two-way communications. Interconnections to such channels and equipment interfacing to such channels shall meet the following technical characteristics:

- Line Rate: 1.544 Mbps + 130 ppm
- Line Code: AMI: bipolar with at least 12.5% average ones density and no more than 15 consecutive zeros;  
- or -
- B8ZS: no minimum density of ones and no consecutive zeros limit.
- Test Load: 100 ohms resistance.
- Pulse Shape: The pulse amplitude shall be between 2.4 and 3.6 volts.
- Power Levels: For an all-ones transmitted pattern, the power in a 2 KHz band about 772 KHz shall be 12.4-18.0 dBm and the power in a 2 KHz band about 1544 KHz shall be at least 29 dB below that in a 2 KHz band about 771 KHz.
- Pulse Imbalance: There shall be less than 0.5 dB difference between the total power of the positive pulses and the negative pulses.

**NOTES:**

1. The CCITT specification is + or - 50 ppm.
2. Recommended for new equipment: The power in a 2 KHz band about 772 KHz shall be 12.6-17.9 dBm. CCITT requirements: The power in a 3 KHz band about 772 KHz is 12.0-19.0 dBm.
3. CCITT requirements: The power in a 3 KHz band about 1544 KHz shall be at least 25 dB below that in a 3 KHz band about 772 KHz.

**15.4 DS1 Service (1.544Mbps)**

**15.4.2** Digital channels at 1.544 Mbps will be provided in one of the following configurations, as specified by the Customer:

**15.4.2.A** Unframed DS1: A DS1 signal that does not follow standard framing formats of 192 bits for data and a 193 Rd bit for framing. An unframed DS1 cannot be synchronized to the network and is not performance monitored.

**15.4.2.B** D4/SF DS1: A framed DS1 consisting of 12 frames (2316 bits) of 192 bits preceded by one framing bit (F bit). This service can be coded as AMI or B8ZS.

**15.4.2.C** ESF DS1: Extends superframe structure from 12 to 24 frames (4632 bits) and redefines the 8 kbps pattern into 2 kbps for mainframe and robbed-bit signaling synchronization, 2 kbps for CRC-6 and 4 kbps for terminal-to-terminal data link. This service can be coded as AMI or B8ZS.

**15.4.3 DS1 Aggregating Service**

DS1 Aggregating Service allows a Customer to aggregate up to 28 DS1 channels that terminate in the same location into a single DS3.

Line Rate: 44.736 Mbps +/- 20 ppm

Line Code: Bipolar with three-zero substitution

Test Load: 75 ohms resistive +/- 5 percent

Power Levels: For an all-ones transmitted pattern, the power in a 2 KHz band about 22.368 KHz shall be -1.8 to +5.7 dBm and the power in a 2 KHz band about 44.736 MHz shall be at least 20 dB below that in a 2 KHz band about 22.368 KHz.<sup>1</sup>

**NOTES:**

**SECTION 15.0 – NON-SWITCHED LOCAL EXCHANGE SERVICES (continued)**

**15.5 DS3 Service (44.736 Mbps) (continued)**

**15.5.2** Digital channels at 44.736 Mbps will be provided in one of the following configurations, as specified by the Customer:

**15.5.2.A** Clear Channel DS3: A DS3 signal that is transmitted intact and transparently as provided at the Customer interface. No performance monitoring is performed since all 44.736 Mbps are considered Customer data or voice.

**15.5.2.B** M13 Framed DS3: A DS3 that is channelized into 28 DS1 (1.544 Mbps) signals and include a predefined standard multiplexing scheme as defined in ANSI T1.107a. The M13 DS3 contains parity bits which can be monitored to offer an approximate measure of performance. 43.232 Mbps is Customer data (or voice), the remainder being used for framing, synchronization, parity, etc.

**15.5.2.C** C-bit Parity Framed DS3: A DS3 that can be used for subrated or nonsubrated DS3 signals. This allows DS3 signal monitoring for end-to-end performance measurement on an in-service basis, transmitted on the maintenance data communications channel. The C-bit parity format is defined in ANSI T1.107a. 43.232 Mbps is Customer data (or voice), the remainder being used for framing, synchronization, parity, etc.

**15.6 Digital Data Service (2.4 to 56k)**

Digital Data Service is a dedicated point-to-point or multi-point digital service providing data transmission at standard synchronous speeds of 2.4 , 4.8, 9.6, 19.2, and 56 kbps. Data travels over the digital line between the customer's premise and the serving central office. Then, the digital circuit routes to another customer location or to an interexchange carrier's point of presence (POP). Digital Data uses four-wire, full-duplex, synchronous circuits.

**SECTION 15.0 – NON-SWITCHED LOCAL EXCHANGE SERVICES (continued)**

**15.7 T1 Service (1.544 mbps)**

T1 is a digital transmission link with a total signaling speed of 1.544 mbps that can be provided as a channelized service for separate voice or data channels or as an unchannelized raw bit stream. The unchannelized service provides 1.536 mbps that can be split up anyway the Customer chooses. In network access applications, a T1 can also be used for private line networking.

T1 service will only be offered where technically feasible or where network facilities are available. In other instances T1 Service will be offered on an Individual Case Basis (ICB).

**15.8 Primary Rate Interface (PRI)**

The Basic Primary Rate Interface (PRI) as stated in this section applies only to the Non-Switched Local Exchange Service.

The basic Primary Rate Interface (PRI) structure consists of 23 B-channels and a D channel, for a total transmission rate of 1.544 Mbps, which is equivalent to a T1 facility. Each 64 kbps B-channel carries user information such as voice calls, circuit-switched data, or video. The D-channel is a 64 kbps channel that is used to carry the control or signaling information.

Circuit-Switched Data Primary Rate Interface consists of 23B+D, which is equivalent to a T1 facility. The Customer may use Customer's Premise Equipment to bond together 64 kbps B-channels for the transmission of circuit-switched data or video.

Primary Rate Interface may have the following Service Configurations:

- 15.8.A** 23B+D: This service configuration provides for 23 B-channels and 1 D-channel. The B-channels carry user information such as voice calls, circuit-switched data, or video while the D-channel handles signaling information. When equipped, the D-channel can control a maximum of 479 B-channels. The B-channels may be provisioned on the same facility as the D-channel or on other PRS T1 facilities.
- 15.8.B** 24B: This service configuration provides for 24 B-channels. The B-channels carry user information such as voice calls, circuit-switched data, or video. The signaling information is provided by a D-channel on the first T1 facility.
- 15.8.C** 23B+Back-up D: This service configuration provides for 23 B-channels and a back-up D-channel. The back-up D-channel is used if the primary D-channel, which provides signaling for multiple T1 facilities, fails. Active calls are not maintained during the switch-over to the back-up D-channel.

PRI Service will be offered where technically feasible or where network facilities are available. In other instances PRI Service will be offered on an Individual Case Basis (ICB).

**SECTION 15.0 – NON-SWITCHED LOCAL EXCHANGE SERVICES (continued)**

**15.9 Rates for Non-Switched Local Exchange Services**

**15.9.1 General**

Nonrecurring and monthly recurring rates apply for each Digital Transmission Service furnished by the Company. Monthly recurring rates vary according to the time period for which the Customer commits to take the service. Unless otherwise noted, these standard rate elements are used in calculating the monthly recurring rate for each service:

**15.9.1.A**            Interoffice Channel Mileage-Fixed: This rate element applies per digital channel whenever there is mileage associated with the channel; a digital channel has mileage associated with it when the endpoints of the channel are located in geographic areas normally served out of separate Customer premises or the Customer premise and the Company MegaPop. This rate element applies per circuit.

**15.9.1.B**            Interoffice Channel Mileage-Per Mile: This rate element applies whenever there is mileage associated with the digital channel. The unit rate is multiplied by the number of miles (Interoffice Mileage) between the two Customer premises or the Customer premise and the Company MegaPop. Fractions of a mile are rounded up to the next whole mile before rates are applied.

From time to time, Ionex Communications, Inc. may elect to offer special promotions to its customers. These promotions will generally consist of a reduced price, a waiver of installation charges, or a free service with a purchase of another service.

Any promotional waiver or discounted rate will apply one time per customer for each service in any given wire center prefix during the course of the promotional period, subject to prior notification and approval by the Missouri Public Service Commission.

The Company will provide written notice to the Commission no less than seven (7) days prior to the beginning of each promotion period identifying the promotion and the exchanges within which the promotion will be offered. If facilities permit, all residence and or business customer will be offered the same opportunity to take advantage of the same terms and conditions under the promotions in which to subscribe to residence or business service.

**Promotional Offerings:**

The company is offering a promotional rate of \$0.069 for Ionex Switched Intrastate Services to business customers. This promotional offering will expire on May 31, 2000.

The company will be offering a promotion which will commence on September 21, 2000, and will expire on December 21, 2000. The promotion is as follows:

- I. Up to 1250 Free Long Distance Minutes: Customers who spend more than \$50.00 per month during the prior three months on ionex long distance will receive up to 250 minutes of free long distance service per billing cycle for their first, second and third billing cycles. On the 12<sup>th</sup> billing cycle customers will receive up to 500 minutes of free long distance service.
- II. Up to 2500 Free Long Distance Minutes: Customers who spend more than \$250.00 per month during the prior three months on ionex long distance will receive up to 500 minutes of free long distance service per billing cycle for their first, second and third billing cycles. On the 12<sup>th</sup> billing cycle customers will receive up to 1000 minutes of free long distance service.

Eligible Criteria includes: 1) Customer must not have a past due balance on account; 2) Customers with a past due balance will not be awarded free minutes – as specified above; 3) Customers who cancel service during a given bill cycle will not be awarded free minutes for that bill cycle; and 4) Customers must contact Ionex to cancel service.
