20.2.4 Guarantees (Continued)

MISSOURI

D. AT&T 800 Gold Service Call Completion Guarantee **Public Service Commission**

The AT&T 800 Gold Service Call Completion Guarantee applies to AT&T 800 Gold Services. AT&T 800 Gold Service will provide call completion from the originating AT&T 4ESS switch to the terminating AT&T 4ESS switch equal to or greater than 99.9% of AT&T 800 Gold Service call attempts across the AT&T Network.

The call completion percentage will be calculated on a calendar month basis as an aggregate of all interstate and intrastate AT&T 800 Gold Service call attempts. A call attempt is any call accepted for transport by an originating 4ESS. The call completion percentage equals the number of complete call attempts divided by the total number of call attempts. Call attempts unable to traverse the AT&T Network and arrive at the terminating AT&T 4ESS, for whatever reason, will be considered incomplete. All other call attempts will be considered complete through the AT&T Network.

If AT&T fails to provide the call completion percentage as shown above for AT&T 800 Gold Service in any calendar month, AT&T will apply a credit to the Customer's bill equal to the service's Monthly Service Charge.
