RE: KCP&L Solar Rebate and Net-Metering Tariff Revisions

Dear Mr. Woodruff:

The tariff sheets listed on the Letter of Transmittal attached were filed as a revision of the Kansas City Power & Light Company's Solar Photovoltaic Rebate Program, Schedule SR, and the Net Metering Interconnection Application Agreement, Schedule NM. These tariff sheets are being issued August 27, 2018 to become effective on and after October 15, 2018.

The revisions being requested will revise the Company's tariffs to support implementation of RS MO 393.1670 which makes solar rebates available to customers whose solar generating facilities become operational on or after January 1, 2019.

The effective date proposed for these revisions is important as many customers and solar developers desire to understand the rules that will be in place governing the new solar rebates as soon as possible due to the solar rebate rate being reduced by 50% after June 30, 2019.

Sincerely,

A handwritten signature in black ink that reads 'Lois J. Liechti'. The signature is written in a cursive, flowing style.

Lois Liechti

Director Regulatory Affairs
