8. "Cost", as used in this section, is to be interpreted to mean the cost of labor and materials, including charges for supervision and other overhead expenses.

9. All telephone plant construction on private property must be in accordance with the Telephone Company's standard specifications and is to be under the exclusive control of the Telephone Company as long as it is used by the Telephone Company in the furnishing of its services, except that control of such pole line construction may be shared with another company using poles jointly with the Telephone Company.

10. Exposed wiring is the standard method of wiring in all buildings where no conduit or other means of concealment is provided. When concealed wiring is desired in buildings where no means of concealment is provided, the subscriber may be charged the difference between the installation costs of the concealed wiring and the costs of the standard exposed wiring. However, if suitable interior conduit, grooving, moulding, wainscoting, or other similar means of concealment are provided, either by the building owner or by the subscriber, the wiring is installed therein by the Telephone Company without additional charge.
