In the event the Company is unable to meet total natural gas requirements due to extreme weather conditions, reduction in supply or other system operating conditions, or a combination thereof, the Company shall temporarily curtail natural gas loads to the extent necessary to maintain service required to protect basic human needs. This reduction shall be accomplished through the following steps which are designed to protect industry, commercial enterprise, and basic human needs to the extent possible during such periods of supply deficiency.

Company reserves the right to deviate from the prescribed steps on a system wide basis in the event that it becomes necessary to protect isolated areas from a supply deficiency. This deviation shall be limited to the extent required to protect basic human needs within such areas.

21.1 Curtailment Steps

Step 1. All service to seasonal and interruptible customers is to be interrupted.

Step 2. Service to firm customers with alternate fuel capabilities is to be curtailed to the extent of such alternate fuels.

Step 3. Before implementing further curtailment steps, the Company shall request voluntary load reduction of all customers.

Step 4. Curtail all schools using natural gas for heating to the lowest temperature levels consistent with building protection and suspend operations of all industrial customers with firm contracts with gas usage to be reduced to minimum volumes essential only for dormant plant and product protection. Such curtailment shall not be applicable to essential food processors and applications or uses required for the maintenance of essential public services.

The Insulation Financing Program is a program whereby Laclede, subject to certain restrictions, will grant loans to eligible residential customers for the purpose of making certain home energy conservation improvements, some of which must entail, where feasible, a specified increase in the customer's ceiling insulation. The major provisions of the program are as follows:

- (A) The maximum loan per dwelling unit is \$2,000.

A customer can make a loan for attic, floor, wall and duct insulation; attic ventilation; caulking and weatherstripping; storm doors and storm windows; provided the amount of insulation in the customer's attic when the customer applies for a loan is less than R-38 and part of the loan funds are used to increase the insulation level to at least an R-38 level. A minimum of R-38 ceiling insulation shall be required before other measures will be financed unless it is demonstrated that such R-38 level is not feasible.

In all cases where the total amount of the contract including the financing cost is \$500 or more, a Uniform Commercial Code Financing Statement (UCC-1) must be prepared and submitted with the appropriate sales contract. The UCC-1 will be filed for a lien on the property until the loan is repaid in full.

- (B) A residential customer must meet the following requirements to be eligible:

- 1) The applicant must be a residential customer of Laclede Gas Company or Missouri Natural Gas Company.

26. Settlement Agreement and Extension Agreement

(1) When the Company and a customer arrive at a mutually satisfactory settlement of any dispute or the customer does not dispute liability to the Company but claims inability to pay the outstanding bill in full, the Company and the customer may enter into a settlement agreement. A settlement agreement which extends beyond (60) days shall be in writing and mailed or otherwise delivered to the customer.

(2) Every settlement agreement resulting from the customer's inability to pay the outstanding bill in full shall provide that service will not be discontinued if the customer pays the amount of the outstanding bill specified in the agreement and agrees to pay a reasonable portion of the remaining outstanding balance in installments until the bill is paid. For purposes of determining reasonableness, the parties shall consider the following: the size of the delinquent account, the customer's ability to pay, the customer's payment history, the time that the debt has been outstanding, the reasons why the debt has been outstanding, and any other relevant factors relating to the customer's service.

(3) If a customer fails to comply with the terms and conditions of a settlement agreement, the Company may discontinue service after notifying the customer in writing by personal service or first class mail in accordance with 4 CSR 240-13.050--that the customer is in default of the settlement agreement; the nature of the default; that unless full payment of all balances due is made, the Company will discontinue service; and the date upon or after which service will be discontinued.

(4) The Company may enter into an extension agreement upon the request of a customer who claims an inability to pay the bill in full.

27. Cold Weather Maintenance of Service (Continued):

Service Commission

(A) Notwithstanding paragraph (8)(C)(2) of Rule 27 to the contrary, the Company shall restore service for those customers who have defaulted on a payment plan under the cold weather rule upon initial payment of twenty-five (25) percent of the preexisting arrears or \$250, whichever is less, with the deferred balance to be paid in equal installments over the following eighteen (18) months and with the Company's estimate of the ensuing bills on a twelve-month level payment basis. The customer and the Company may by mutual agreement reduce or extend the installment period. Any reconnection fee, trip fee, collection fee or other fee related to reconnection, disconnection or collection shall also be deferred. Any customer who has defaulted on a payment plan under the cold weather rule and is threatened with disconnection may retain service by entering into a payment plan as described in this paragraph, and all disconnect notices shall inform customers of this option. Any payment plan entered into under this emergency amendment shall remain in effect (as long as its terms are adhered to) for the term of the payment plan even after the effective period of this amendment has expired.

(B) Default on an agreement entered into under this paragraph can be cured by payment of all installments delinquent under the agreement.

(C) No deposits shall be required of any customer under this paragraph except for amounts owed due to unauthorized interference, diversion or unauthorized use of the gas utilities service.

(D) Notwithstanding paragraph (5) of Rule 27 to the contrary, before discontinuance of service for nonpayment of a delinquent amount, the Company shall take into consideration to the extent feasible the balance of any of the customer's security deposit plus accrued interest to the delinquent amount to eliminate or reduce the amount required to avoid the discontinuance. This provision shall not apply to customers who have an amount owed due to unauthorized interference, diversion or unauthorized use of the gas utilities service.

(E) Late payment charges shall not be assessed on the deferral amount of any agreements entered into under this section, nor shall the Company charge customers interest on the account balance for the deferral period.

(F) The cost of complying with the special provisions of this paragraph (13) of this rule shall be recovered by the Company in accordance with the Stipulation and Agreement in Case No. GR-2001-629.

(G) This section shall be in effect through March 31, 2002.
