APPLYING TO SEWER SERVICE

RECEIVED

MAY - 4 1982

MISSOURI
Public Service CommissionRULE 1 General

(a) Every Customer, upon signing an application for any service rendered by the Company, or upon taking of sewer service, shall be considered to have expressed consent to the Company's rates, rules and regulations.

(b) The Company reserves the right, subject to the authority of the Public Service Commission of Missouri, to prescribe additional rates, rules or regulations or to alter existing rates, rules or regulations as it may from time to time deem necessary or proper.

(c) The sewer service made available under these rules is for the use of the Customer on his premises, and he shall not re-sell any of it without written consent of this Company.

(d) The Company's rates are predicated upon the supply of service being rendered separately for each premise and the ultimate usage in or on such separate premises.

(e) The properly authorized agents of the Company shall have the right to enter upon the premises of the Customer at all reasonable times for the purpose of inspecting to check for compliance with these rules and regulations.

RULE 2 Definitions

(A) The "COMPANY" is Southwest Sewer Corporation through its officers, managers, or other duly authorized employees or agents, its successors and assigns.

(B) The "CUSTOMER" is any person, firm, corporation, institution or governmental body which has contracted with the Company for sewer service or is receiving sewer service from the Company in accordance with the terms of these tariffs.

(C) A "COLLECTING SEWER" is a pipeline which is owned and maintained by the Company, located on public property or on private easements, and used to transport sewage wastes from a customer's service sewer to a central point for treatment and/or disposal.

(D) A "CUSTOMER'S SERVICE SEWER" is a pipe with appurtenances installed, owned, and maintained by the Customer, used to conduct sewage from the Customer's premises of service connection to the collecting sewer.

(E) A "SERVICE CONNECTION" is the point at which the Customer's service sewer is connected to the collecting sewer.

(F) The "DATE OF CONNECTION" shall be the date of the permit for installation and connection issued by the Company. In the event no permit is taken and a connection is made, the date of connection shall be the date of commencement of construction upon the property.

(G) "DOMESTIC SEWAGE" is sewage, excluding storm and surface water, resulting from normal household activities.

(H) "NON-DOMESTIC SEWAGE." All sewage other than domestic sewage, including, but not limited to, commercial or industrial wastes. (See Rule pertaining to Improper Waste and Excessive Use.)

(I) "FOUNDATION DRAIN." A pipe installed inside or outside the foundation of a structure for the purpose of draining ground or subsurface water away from the foundation.

(J) "PH." The relative degree of acidity or alkalinity of water as indicated by the hydrogen ion concentration. PH is indicated on a scale reading from 1-14, with 7 being neutral, below 7 acid, and above 7 alkaline; more technically defined as the logarithm of the reciprocal of the hydrogen ion concentration.

(K) Biochemical Oxygen Demand ("B.O.D."). The quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory conditions expressed in milligrams per liter.

(L) "SUSPENDED SOLIDS." The concentration of insoluble materials suspended or dispersed in waste expressed in milligrams per liter on a dry weight basis as determined by standard procedures.

(M) "INDIVIDUAL TREATMENT PLANT." An individual treatment plant is a Jett Model J-153, 1,200 gallon National Sanitation Foundation approved individual sewage treatment plant as manufactured by Interstate Sewage Treatment Co., of Mount Vernon, Missouri, or with the written approval of the Company, an individual sewage treatment plant of comparable quality and capacity. Said treatment facility shall initially treat sewage discharged by a Customer before it enters the collecting sewers of the Company for final treatment at a central plant.

RULES AND REGULATIONS GOVERNING
RENDERING OF SERVICE

RULE 3 Applications for Sewer Service

(A) A written application for sewer service, accompanied by the appropriate fees and other information required by these Rules and Regulations, will be tendered to the Company before sewer service is provided to any premises. Said application must state the name of the owner of said premises and, in the case of a commercial customer, must also state the quantity and strength of effluent to be discharged from said premises into Company's sewer system. The Company shall have the right to reject any application for service that does not comply with the Rules and Regulations herein. In any case, where unusual construction or equipment expense is necessary to furnish the service, the Company may require additional assurances and payments for such reasonable periods of time as the Company deems appropriate in the circumstances.

(B) The Customer shall, upon request of the Company, present in writing to the Company a list of the devices which are to be attached to the Company's lines, giving the location of the devices within any buildings. The Company will then advise the form and the character of the waste collection facilities available.

(C) The Company reserves the right to refuse sewer service to any applicant unless said applicant agrees to install a water meter accessible to the Company, in order that there will be a basis for sewer charges.

(D) No substantial addition to the water using equipment or appliances connected to the sewer system of the Company shall be made except upon written notice to and with the written consent of the Company.

(E) Any change in the location of an existing service connection requested by the Customer shall be made at his expense.

RENDERING OF SERVICERULE 4 Bills and Payment for Service (Cont'd)

(E) Bills and notices relating to the Company or its business will be mailed or delivered to the mailing address entered in the Customer's application, unless the Company is notified, in writing, by the Customer of a change in address.

(F) Payments shall be made at the office of the Company, or at such other places conveniently located as may be designated by the Company, or by ordinary mail. However, payment must be received by the close of business on the date due.

(G) The Company will not be bound by bills rendered under mistake of fact as to the quantity of service rendered or as a result of clerical error.

(H) A separate bill shall be rendered for each Customer with itemization of all sewer service charges.

(I) The Company shall have the right to render bills, either monthly or quarterly, and such bills shall be due and payable to Company no later than twenty-one (21) calendar days from the date of rendition, if billed monthly, or sixteen (16) calendar days if billed quarterly.

(J) All bills for service shall bear a due date. Bills unpaid after twenty-one (21) days (or sixteen (16) days, if billed quarterly) from the date of rendition will be delinquent, and the Company shall have the right to assess a late payment charge of Five Dollars (\$5.00) on each delinquent bill. In addition, the Company shall have the right, to discontinue all service to such delinquent Customers as provided by these rules and shall not be required to restore or connect any new service for such delinquent Customers until the unpaid account due the Company under these Rules and Regulations has been paid in full or arrangements satisfactory to the Company have been made to pay said account.

(K) If payment is not made within thirty (30) days after said payment shall become due and payable, the Company may file a notice of delinquency with the recorder of deeds of the applicable county.

of Missouri, stating the names of the parties holding legal title to the premises on which the payment is delinquent, the address of said persons, the legal description of the property, and the amount due at the date of filing. The delinquent owners shall pay the accrued charges, including any disconnect costs, all costs of filing, recording, reasonable attorney's fees, and costs of releasing the lien. Upon filing of the notice of delinquency by the Company, the amount due and costs thereon shall become a first lien upon said property. In addition to placing a lien upon the property as above set out by reason of nonpayment of charges for sanitary sewer service as provided, the Company may discontinue service, pursuant to these rules.

(L) When water usage determines sewer charge and two or more separate premises are served by a single meter, the minimum charge shall be multiplied by the number of premises served.

(M) When water usage determines sewer charges and a meter fails to register; or if the Company is unable to gain access to Customer's premise, the Customer's meter reading shall be estimated from the record of meter readings for a comparable prior period.

(N) When bills are rendered for a period of less than a complete billing period due to the connection or termination of service, the billing shall be for the proportionate part of the monthly charge, or where water consumption is the basis for the charge, at the appropriate rate for water consumed, or a proportionate part of the residential rate, whichever is applicable. Customers terminating with less than one month's service shall pay not less than the monthly minimum.

(O) All sewer Customers whose sewer service charges are determined on the basis of water use, who use in excess of 15,000 gallons of water per month and can show to the satisfaction of the Company that a portion of the water measured by the water meter or meters does not and cannot enter the sanitary sewage system may ask the Company to determine in such manner and by such method as the Company may deem practicable the percentage of metered water entering the sanitary sewage system. Such percentage

RENDERING OF SERVICERULE 5 Discontinuance of Service

(A) The Company reserves the right upon, the giving of thirty (30) days' written notice to the Customer by certified mail, return receipt requested, and a copy to the Missouri Public Service Commission, to discontinue service for nonpayment of sewer bills, or for violation of or refusal to comply with these Rules and Regulations.

(B) In case of violation by the Customer of any of the provisions of these Rules or if a condition shall exist which, in the opinion of the Company, renders further service to the Customer dangerous to his health and safety or to the health and safety of other parties, or any other lawful reason, the Company may discontinue service immediately upon the giving of verbal or written notice to the Customer and to the Commission.

(C) In all cases of discontinuance of sewer service for non-payment of a bill, sewer service may be discontinued at the option of the Company and will not be resumed again, except upon payment by the Customer of the actual cost to reconnect service plus any delinquent service charges.

(D) Discontinuance of sewage service to a premise for any reason shall not prevent the Company from pursuing any lawful remedy by action at law or otherwise for the collection of monies due from the Customer.

RENDERING OF SERVICE

RULE 7 Interruption in Sewer Service

(A) The Company reserves the right to limit sewer service in its collecting sewer at any time, without notice, for making repairs, extensions or alterations to the collection system or station equipment. The Company may ask the Customer to limit waste discharges into the collecting sewers during the time repairs are being made to the sewer system. When it is reasonably possible Company will notify affected Customers in advance of when sewer service will be limited.

(B) No refunds of charges for sewer service will be made for interruptions of service unless the interruption was due to willful misconduct by the Company.

(C) In order to avoid overloading capacities of Company collecting sewers and treatment facilities, the Company reserves the rights, at all times, to determine the limit of, and regulate, in a reasonable and non-discriminatory manner, the maximum amounts or strength of the wastes discharges into Company collecting sewers.

RENDERING OF SERVICE

RULE 8 Service Sewer Connections

(A) Applications for service connections shall be filed with the Company at least twenty-four hours in advance of the connection, if it is to be made to an existing collecting sewer, and shall state in writing the street, the house number, name of applicant, name of property owner, and time at which connection is to be made. The Company will designate on a plat or survey of the service area the point at which service sewer connections will be made and Customer will furnish a "Y" branch or other outlet to connect to the Company collecting sewers. All connections are to be made by licensed plumbers, and such connection shall be subject to inspection by and approval of the Company.

(B) The Company will not be required to supply sewer service until each such connection has been inspected and approved by it. If excavation is required to inspect the connection it shall be done at the Customer's expense. Any Customer failing to obtain a service inspection shall be disconnected by the Company at Customer's expense. Customer will be liable for any damages to Company's collecting sewers resulting from such unauthorized connection.

(C) The Customer's service sewer shall be installed by and at the expense of the Customer. A "Customer service sewer" connection shall not be used to connect more than a single Customer without the express written consent of the Company.

(D) Customer's service sewer will not be extended along public streets or roadways or through property of others to the point of connection with the collecting sewers.

(E) Any change in the location of an existing service sewer connection requested by the Customer shall be made at the Customer's expense.

MISSOURI
Public Service CommissionRULE 9 Inside Piping and Customer Service Sewers

(A) The Customer will provide the Customer's Service Sewer at his expense and risk. As a condition of service, inside requirements of all appropriate governmental bodies and the Company's Rules and Regulations, must be met at the time of connection to the system. The Company shall deny service or discontinue service where footing drains, downspouts, or other sources of surface or storm water are permitted to enter the sewer system through either the inside piping or through the building sewer.

(B) A separate and independent Customer Service Sewer shall be required for every building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard, or driveway, the Customer's Service Sewer from the front building may be extended to the rear building and the whole considered as one Customer's Service Sewer.

(C) Old Customer Service Sewers may be used in connection with new buildings only when they are found on examination and test to meet all requirements of the Company.

(D) The Customer's service sewer shall be cast iron soil pipe, ASTM specification or equal; vitrified clay sewer pipe, ASTM specification or equal; or other suitable material approved by the Company. Joints shall be tight and waterproof. Cast iron pipes with leaded joints may be required where the Customer's Service Sewer is exposed to damage by tree roots. If installed in filled or unstable ground, the Customer's Service Sewer shall be of cast iron soil pipe, except that non-metallic material may be accepted if laid on a suitable concrete bed or cradle as approved by the said Company.

(E) The size and slope of the Customer's Service Sewer shall be subject to the approval of the Company, but in no event shall the diameter be less than four inches (4"). The slope of such four-inch (4") pipe shall not be less than one-eighth inch (1/8") per foot.

RULES AND REGULATIONS GOVERNING
RENDERING OF SERVICE

RULE 9 Inside Piping and Customer Service Sewer (Cont'd)

(F) Whenever possible, the Customer's Service Sewer shall be brought to the building at an elevation below the basement floor. No building sewer shall be laid parallel to or within three feet (3') of any bearing wall. The depth shall be sufficient to afford protection from frost. The Customer's Service Sewer shall be laid at a uniform grade and in straight alignment insofar as possible. Changes in direction shall be made only with properly curved pipes and fittings.

(G) In all buildings in which any building drain is too low, to permit adequate gravity to flow to the collecting sewer, sanitary sewage carried by such drains shall be lifted by approved artificial means and discharged to the building sewer. No water operated sewage ejector shall be used.

(H) All excavations required for the installation of a Customer's Service Sewer shall be open trench work, unless otherwise approved by the Company. Pipe laying and backfill shall be performed in accordance with the latest published Engineering Specifications of the Manufacturer of the materials used and all applicable local plumbing codes, except that no backfill shall be placed until the work has been inspected by the Company. Only those jointing materials and methods which are approved by the Company may be used.

(I) The connection of the Customer's Service Sewer into the collecting sewer shall be made at the "Y" branch, if such branch is available at a suitable location. If the Company's collecting sewer is twelve inches (12") in diameter or less and there is no properly located "Y" branch in the Company's collecting sewer at the location specified by the Company, a "Y" branch must be installed. Where the Company's collecting sewer is greater than twelve inches (12") in diameter, and no properly located "Y" branch is available, a neat hole may be cut in the Company's sewer to receive a saddle, to which the Customer's service will be connected. The invert of the Customer's Service Sewer at the point of connection shall be at the centerline or higher elevation than the invert of the Company's collecting sewer.

RULES AND REGULATIONS GOVERNING
RENDERING OF SERVICERULE 11 Extension of Collecting Sewers

(A) This rule shall govern the extension of collecting sewers by the Company in areas where there are no collecting sewers on streets and/or public right-of-ways or easements available to the Company. The Company will extend its easements available to the Company within its certificated area to serve new customers under the following terms and conditions:

(1) Upon receipt of written application(s) as required by these Rules, the Company will provide applicant(s), or whoever is proposing to pay for the cost of extensions, with an estimate of the cost of the proposed extension. Said estimate shall include all labor and materials required, reconstruction of existing collecting sewers, if necessary, supervision, engineering, permits, insurance, tool expense, accounting, legal, and related expenses, and all other costs incident to the installation of said extension.

(2) Applicant(s), or whoever is proposing to pay for said extension, shall enter into a contract with the Company for the installation of said extension and shall tender to the Company a contribution-in-aid-of construction equal to the amount determined in Section A(1). Applicant(s) shall have the option of installing the extension pursuant to the provisions of Section B of this Rule.

(3) Refunds of cost of extension shall be made to applicant(s) as follows:

(a) Should the actual cost of extension be less than the estimated cost, the Company shall refund the difference as soon as the actual costs have been ascertained.

(b) Company shall divide the actual cost of the extension by the number of lots abutting said extension to obtain the per lot extension cost. When counting lots, corner lots which abut an existing main shall be excluded. As additional

RULE 11 Extension of Collecting Sewers (Cont'd)

Customers are directly attached to the extension, these additional Customers shall pay to applicant the per lot construction cost for the lot being connected.

(c) Each refund shall be paid directly to initial applicant(s) or their assigns, based upon the percentage of the actual extension cost contributed by each applicant.

(4) Extensions made under this Rule shall be and remain the property of the Company in consideration of its perpetual upkeep and maintenance.

(5) The Company reserves the right to connect future extensions to this collecting sewer and the attaching of Customers to such further extensions shall not entitle applicant(s) contracting for the original extension to additional refund.

(6) The pipe used in making extensions under this Rule shall be of a type and size which will be reasonably adequate to supply the area to be served. Such determination as to size and type of pipe shall be left solely to the judgment of the Company. If the Company desires to make the extensions in pipe larger than reasonably required to provide service to lots abutting said extension, the additional costs due to larger size shall be borne by the Company.

(7) Inspection fees for the inspecting of extensions of collecting sewers shall be \$10.00 per hour, not to exceed \$80.00 per day.

(B) This Rule shall govern the extension of collecting sewers to prospective Customers in areas where no collecting sewers exist where applicant(s) or someone in their behalf elects to construct said extension. The Company will connect said extensions to its existing collecting sewers and provide service to applicant(s) under the following terms and conditions:

APPLYING TO SEWER SERVICE

RECEIVED

RULE 13 Customers Served by Individual Treatments Plants MAY - 4 1982

1. All tariff rules and regulations of the Company not applying specifically to centrally treated sewage collection systems are incorporated herein by reference and are applicable to customers served by individual treatments plants. MISSOURI Public Service Commission

2. All components utilized in individual treatments plant shall be either purchased from the Company or meet its specifications which shall be on file at the Company's office.

3. The Customer shall furnish, at his own expense, as provided for in the rule, one individual treatment plant of suitable capacity which must either be purchased from or be approved by the Company prior to installation on the Customer's premises. Installation costs of the individual treatment plant, electrical service and Customer service sewers between the dwelling and the individual treatment plant, and the Company's collecting sewers shall be the responsibility of the Customer. Electricity costs for operation of the individual treatment plant shall be the responsibility of the Customer.

4. The Company will locate the point at which the service connection will be made and the Customer shall be responsible for all costs including labor and materials of connection from the individual treatment plant to the Company's collecting sewers, which shall be located in a public street or easement. Company shall inspect and approve the individual treatment plant and its connection to the collecting sewers prior to its actual connection to the collecting sewers. If Company determines that any defect exists in the individual treatment plant, the Customer service sewer or the tap, Company shall require the Customer to correct said defect at the Customer's expense. Application, accompanied by a \$25.00 inspection fee, must be filed in writing 24 hours in advance, stating the street, house number, name of applicant, name of property owner and time at which tap is to be made, and the Company shall not be required to supply sewer service until each such tap has been inspected and approved by the Company. The Customer shall be liable to the Company for any damages to the Company's collecting sewers resulting from such work.

One connection shall not service more than one property without the written consent of the Company.

MAY - 4 1982

MISSOURI
Public Service Commission

5. The Customer service sewer from the building to the individual treatment plant, and the Customer service sewer from the individual treatment plant to the collecting sewer shall be owned and maintained by the Customer.

6. After connection to the collecting sewers, the Company shall perform on the average two preventive maintenance calls per year on each individual treatment plant in service. The Company shall also perform emergency repairs on said individual treatment plants. At the Company's option, an emergency service call may constitute a preventive maintenance call if a reasonable amount of time has elapsed since the last preventive maintenance call, and if all other maintenance checks are performed. Should, however, the Company be called to service an individual treatment plant for any other reason, the Customer will be charged Company's cost for such service call plus an appropriate charge for any materials and parts.

7. For every 100 individual treatment plants in service, the Company shall have, on hand, two aerators and two repair kits.

8. The Company shall present to the Customer, at the time application for service is made, information regarding what services are available from the Company and what will be provided free of charge.
