Missouri-American Water Company
Name of Issuing Corporation

For

Missouri Service Area
Community, Town or CityRules And Regulations Governing The Rendering of
Water ServiceRule 1 DEFINITIONS APPLICABLE TO THESE RULES AND REGULATIONS

1. "Agreement and Encumbrance": An agreement used only when the Company becomes aware that an existing Customer's Water Service Line is not in compliance with the Company's rules by crossing or encroaching upon another property owner's property, and the Company will permit the existing Customer's Water Service Line to remain in its original location under certain conditions. *
2. "Applicant": Any person, group of persons, firm, business, municipality, land developer, or other entity who is seeking water service, or seeking to construct or have constructed a water main extension for property owned and/or controlled by them, or both *
3. "Appurtenances": Parts and accessories that are related to transmission and distribution Water Mains, Service Lines and Meter Settings that are used to assemble pipelines and parts, contain and control the flow of water, or are used for construction, maintenance and operations; appurtenances include but are not limited to pipe fittings, connecting parts, valves and check valves, location and marking devices, and other related parts and devices installed to cover or protect such parts or aid in utility operations. +
4. "Approved Backflow Prevention Assembly" (Device): Any testable assembly that is approved by the Missouri Department of Natural Resources. +
5. "Auxiliary Supply": Any water supply on or available to the premises other than the approved public water supply. +
6. "Backflow": The undesirable reversal of the normal flow of water or mixtures of water and other liquids, gases, or other substances into the distribution system of the public water supply due to backpressure and/or backsiphonage. +
7. "Backflow Device": A device owned by a party other than the Company which is installed to allow water to flow only in one direction, from the Company's distribution system into a premises. Can include a Detector Check Valve or a Reduced Pressure Zone (RPZ) Valve or other approved Backflow Prevention device. +
8. "Bill": A written demand for payment for service and the taxes, franchise fees, and other charges related to it. +
9. "Billing Period": A normal usage period of not less than twenty-six (26) days or more than thirty-five (35) days for a monthly billed Customer or not less than eighty-five (85) days or more than one hundred (100) days for a quarterly billed Customer, except for initial, corrected or final bills. +
10. "Commercial Service": Non-residential, non-industrial business enterprises. It includes hospitals, churches, shopping centers, offices, restaurants and other commercial business establishments. At the Company's discretion, service may be provided to this class through one or more meters. +
11. "Commission" or "PSC": The Missouri Public Service Commission. +

12. "Company": Missouri-American Water Company, acting through its officers, managers or other duly authorized employees or agents. +
13. "Complaint": An informal or formal complaint pursuant to Commission Rules. +
14. "Containment": The application of a proper backflow prevention assembly on the line feeding the building so that any contamination is contained within the premises and does not enter the pipelines of a public water system. +
15. "Cross-Connection": Any actual connection between a public water system used to supply water for drinking purposes and any source or system containing an unapproved water or substance that is not or cannot be approved as safe, wholesome, and potable. By-pass arrangements, jumper connections, removable sections, swivel or changeover assemblies, or other assemblies through which backflow could occur, shall be considered to be Cross-Connections. The term "Direct Cross-Connection" shall mean a Cross-Connection that is subject to both backsiphonage and backpressure. The term "Indirect Cross-Connection" shall mean a Cross-Connection that is subject to backsiphonage only. +
16. "Curb Stop/Stop Cock": A shutoff valve attached on a service line, usually installed near the curb, which may be operated by a valve key to start or stop the flow of water to the Customer's service line. +
17. "Customer": Any person, group of persons, firm, business, municipality, or other entity who has complied with all of the following: +
- a) Has applied for and has been accepted for water service, and
 - b) Has assumed the obligation for payment of water service covered under one or more of the applicable rate schedules of the Company, and
 - c) Is not in violation at the time accepted as a new Customer of any of the applicable Rules and Regulations of the Company, Federal and/or State regulatory agencies.
 - d) If required, the Company has set a meter at the premises to be served, and
 - e) Water has been turned on by the Company for a metered water service line, or, when a tap is made for a private fire protection service.
- Applicants who enter into a water main extension agreement with the Company, but do not have water service to the related premises turned on in their name, are not considered to be customers. Applicants who establish service in their name merely to collect a refund from a prearranged agreement are not considered to be a Customer. +
18. "Delinquent": An account remaining unpaid by a Customer for more than twenty-one (21) days after the date of rendition of the bill by the Company. +

46. Reduced Pressure Detector Check Backflow Prevention Assembly" (RPDA): An assembly consisting of two (2) independently operating approved check valves together with a hydraulically operating, mechanically independent, pressure differential relief valve located between the check valves and at the same time below the first check valve. The assembly shall include properly located test cocks for the testing of the check and relief valves and tightly closing resilient seated shut-off valves at each end of the assembly. In addition, the device has a by-pass line with a water meter and two (2) independent check valves together with a hydraulically operating, mechanically independent, pressure differential relief valve located between the check valves and at the same time below the first check valve located within that line. It shall be installed with no plug or additional piping attached to the discharge of the pressure relief valve port (except for the air gap supplied by the manufacturer).
47. "Reduced Pressure Principle Backflow Prevention Assembly" (RP): An assembly consisting of two (2) independently operating approved check valves together with a hydraulically operating, mechanically independent, pressure differential relief valve located between the check valves and at the same time below the first check valve. The assembly shall include properly located test cocks for the testing of the check and relief valves and tightly closing resilient seated shut-off valves at each end of the assembly. It shall be installed with no plug or additional piping attached to the discharge of the pressure relief valve port (except for the air gap supplied by the manufacturer).
48. "Rendition of a Bill": The mailing, electronic or hand delivery of a bill by the Company or its agents to a Customer.
49. "Resale Service": The provision of or use of water service directly to an entity whose intended purpose is to resell the service to its Customers under that entity's own rate structure.
50. "Residential Service": Individually metered residences. Residences are defined as consisting of one or more rooms, with space for eating, living, sleeping and permanent provision for cooking and sanitation.
51. "Service Line" or "Water Service Line": Generally referring to a pipeline between the main and the Customer's premises, and includes related valves, fittings and other appurtenances except the water meter, used for the purpose of providing water service to the Customer, and further defined as follows:
- a) "Customer's Service Line or Customer's Water Service Line": that portion of the service line from and including:

- f) "Private Fire Service Line": A pipeline, owned by the Customer, used to supply water from the main or Company Service Line to a Customer's private fire protection system to be used exclusively for the extinguishing of fires in or on the property of the Customer.
- g) "Master Water Service Line" – A privately owned pipeline that can only be installed at the sole discretion of the Company, in areas where a public water main extension is not necessary, and said pipeline would be capable of supplying domestic and/or fire protection water service to more than a single premises on one or more lots or parcels of land with one or multiple ownerships being involved. Notwithstanding other rules pertaining to Water Service Lines, the entire Master Water Service Line shall be owned and maintained solely by the customer or customers being served by it in the St. Louis County, Joplin and St. Joseph Operations and said pipeline includes the valve and connection to the Company's water main as well as the entire pipeline from the Company's water main to and throughout the structures or premises being served. For all other Operations excluding the St. Louis County, Joplin and St. Joseph Operations, the Company shall own and maintain that portion of the Master Water Service Line between the Company's water main and the customer's property line, the remaining portion of the Master Water Service Line shall be owned and maintained solely by the customer. +

Rules And Regulations Governing The Rendering of
Water Service

Rule 2 GENERAL

- A. Every Customer, upon completing an application for any service rendered by the Company, or upon taking of water service, shall be considered to have expressed consent to be bound by these rates, rules, and regulations.
- B. The Company's Rules and Regulations governing rendering of service are set forth in these numbered sheets. The rates and charges applicable to appropriate service(s) are set forth in these Rules and Regulations.
- C. The Company may, subject to the approval of the Commission, prescribe additional rates, rules or regulations or to alter existing rates, rules or regulations as it may from time to time deem necessary or proper.
- D. At the effective date of these revised Rules and Regulations, all new facilities, construction contracts, and written agreements shall conform to these Rules and Regulations in accordance with the statutes of the State of Missouri and rules of the Commission. However, nothing in these revised Rules and Regulations shall require reconstruction or alteration of existing facilities, contracts, or written agreements to provide conformance either at the effective date or thereafter, excepting where such alteration is mutually agreeable between the Company and the Customers involved, or is considered necessary by the Company.
- E. Unless specifically authorized by the Company, in writing, Customers supplied with water by the Company will not be permitted to resell, redistribute, or resupply water for use by others. This includes not permitting others to use or have access to hose connections or other attachments.
- F. The properly authorized agents of the Company shall have the right to enter upon the premises of the Customer at all reasonable times for the purpose of inspecting any Company-owned devices or appurtenances, or devices owned by the Customer used in connection with this service, or for compliance with these rules. Refusal to grant such access may result in discontinuance of service.
- G. Normal business hours for the office where Customers may have a need to conduct business will generally be from 8 a.m. to 5 p.m. Monday through Friday excluding holidays. Based on local operation's business needs, the office may be closed for a period of up to one hour from noon to 1 p.m.
- H. Payment of water bills:
1. Payments shall be made by mail, at the office of the Company (St. Louis County and St. Joseph only), at authorized sub pay stations, by electronic funds transfer, or by credit card. Except for special cases, Company employees can receive payment of water bills only at the Company office.
 2. In addition to any and all other charges due to the Company, the Customer will be charged an item fee for each check or electronic funds transfer returned to the Company for insufficient funds (NSF) or

Rule 3 LIABILITY OF THE COMPANY

CANCELLED - Missouri Public Service Commission - 05/28/2025 - WR-2024-0320 - JW-2025-0157

- A. The Company shall in no event be liable for any damage or inconvenience caused by reason of any break, leak or defect in the Customer's service or fixtures or in the physical connection between the Customer's service and the Company owned service connection.
- B. If for any reason beyond the control of the Company it becomes necessary to shut off water in the mains, the Company will not be responsible for any damages occasioned by such shut off. The Company will not be responsible for damages caused by turbid water which may be occasioned by cleaning of pipes, reservoirs or standpipes, or the opening or closing of any gates or hydrants, or any other cause when the same is due to no lack of reasonable care on the part of the Company.
- C. Employees or agents of the Company are expressly forbidden to demand or accept any compensation for any service rendered to its Customers except as covered in the Company's Rules and Regulations.
- D. The Company shall not be responsible in damages for any failure to supply water to the premises or for interruption if such failure or interruption is without willful default or negligence on its part.
- E. The Company shall not be liable for damages resulting to Customer or to third persons, unless due to contributory negligence on the part of the Company, and without any contributory negligence on the part of the Customer or such third party.
- F. No employee or agent of the Company shall have the right or authority to bind it by any promise, agreement or representation contrary to the letter or intent of these Rules and Regulations. Nor shall any employee or agent of the Company have authority to bind it by any promise, agreement, or representation not provided for in these rules.
- G. The Company shall use reasonable diligence in providing a regular and uninterrupted supply of water, but in case the supply of water is interrupted by reason of-strike, riot, invasion, storm, fire, accident, breakdown, legal process, state or municipal interference or any cause beyond its control, the Company shall not be liable for damage to the Customer for interruption in service due to any of the aforesaid causes.

Rules And Regulations Governing The Rendering of
Water Service

- J. The Customer's Water Service Line shall be installed by the Customer at that Customer's expense. A Customer's Water Service Line shall not be used to supply more than a single premises without the consent of the Company.
- K. Neither the Company Water Service Line nor the Customer's Water Service Line will be permitted to be extended along public right-of-way or on private property along, parallel, or across public or private streets or roadways to obtain connection to the Company's main to serve a premises on a parcel of property which would circumvent the need to construct a proper main extension under Rule 23 or to circumvent other applicable Water Service Line rules. Customers, however will be permitted to extend a Water Service Line into or across a driveway owned by the Customer, or into or across a street or roadway to connect to a water main installed within or immediately adjacent to that street or roadway to serve property fronting either side of that street. Water Service Lines must be located on property owned in fee by the owner of the premises to be served. A Water Service Line may not be located on an easement, with the exception of the portion of the line which enters Company's existing easement, to reach the main installed in that easement: and with the exception also of the situation where, in the Company's sole discretion, property ownership abutting the Company's water main is unobtainable and the proposed Water Service Line installation on an easement is in an area where water main extensions would serve no useful purpose for present or potential Customers.
- L. The Company may require the Customer to execute one of the following agreements before allowing a service connection: Master Water Service Agreement, Encumbrance Agreement, and/or Looped Multi-Feed Agreement.
- M. Waiver of Service Connection and matching of offers made by other water suppliers' charges:
1. Where the Company faces competition for business with other water suppliers, the Company may waive all or part of any service connection charges and/or match offers made by other water suppliers in order to effectively compete with offers made to developers and/or Customers by other water suppliers after requesting approval of the waiver from the Commission on a case-by-case basis and receiving an Order granting the waiver for good cause shown.
 2. "Good cause" shall be shown where the Company has provided the Commission Staff with reasonable and adequate documentation that:
 - a) Bona fide competition exists between water suppliers for new Customers;
 - b) The addition of Customers for whom the waiver applies would not likely result in a positive revenue requirement; and
 - c) A positive net income will likely be achieved within a five-year period from the time the first new construction is placed in service.

Rule 6 – Inside Piping and Customer Water Service Line

- A. Each applicant for service must, at Customer's own expense, equip their service supply line with an accessible stop and waste valve inside the foundation wall, as well as all piping and attachments, all of which shall be constructed and maintained by the Customer, subject to the approval of any authorized inspectors and in accordance with the Rules and Regulations of the Company in force at that time.
- B. For all new or replacement Water Service Lines the installation must be in accordance with the requirements of all governmental agencies having jurisdiction, and these Rules and Regulations. The minimum Water Service Line requirements for material and construction shall be as follows:
 - 1. The Customer's water service pipe shall be of a size not smaller than the service connection, and the minimum size shall be three-quarter inch (3/4"). The type of pipe shall conform to existing plumbing codes and the reasonable requirements of the Company in furnishing adequate and safe service.
 - 2. In all operations where a Company water service line exists between the main and the meter setting, stop box, property or curb line, as applicable, and the Company is responsible for such meter setting or stop box, the Customer shall be responsible for construction and maintenance of the Customer's water service line between the meter setting, stop box or Company water service line, as applicable, and the premises. The Company may agree to make the physical connection between the Customer's water service line and the Company-owned pipeline or components, but the Company by so doing shall assume no maintenance responsibility for the Customer Service Line.
 - 3. All Customer's Water Service Lines must be installed at least forty-two inches (42") below the surface of the ground (finished grade) at any point.
 - 4. If the Company becomes aware of a Customer's new or replacement Water Service Line not being installed as herein provided, the Company will not permit a new tap and will not install a Company Water Service Line or metering equipment until the Customer's Water Service Line is installed as herein provided.
- C. The Company reserves the right to inspect Customer's installation prior to rendering water service and from time to time thereafter, but assumes no responsibility whatsoever for any portion thereof. Charges for inspection by Company personnel shall be in accordance with approved fees and as set out in the applicable Schedule of Service Charges.
- D. Unless otherwise specified by local codes or ordinance, when street main pressure exceeds eighty (80) p.s.i., Customer shall install, at his expense, an approved pressure reducing valve in the Customer Water Service Line near its entrance to the building to reduce the water pressure to eighty (80) p.s.i. or lower, except where the Customer Water Service Line supplies water directly to a water pressure booster system,

1. The Customer's water service pipe shall be of a size not smaller than the service connection, and the minimum size shall be three-quarter inch (3/4"). The type of pipe shall conform to existing plumbing codes and the reasonable requirements of the Company in furnishing adequate and safe service.
 2. For all water service lines in the St. Louis County Operations, and for private fire service lines and Master Water Service Lines in the Joplin and St. Joseph Operations, the Customer shall be responsible for construction and maintenance of the Customer's water service line from the main to the premises, including all stop boxes, valves, and meter setting components. In all operations except St. Louis where a Company water service line exists between the main and the meter setting, stop box, property or curb line, as applicable, and the Company is responsible for such meter setting or stop box, the Customer shall be responsible for construction and maintenance of the Customer's water service line between the meter setting, stop box or Company water service line, as applicable, and the premises. The Company may agree to make the physical connection between the Customer's water service line and the Company-owned pipeline or components, but the Company by so doing shall assume no maintenance responsibility for said connection.
 3. All Customer's Water Service Lines must be installed at least forty-two inches (42") below the surface of the ground (finished grade) at any point.
 4. If the Company becomes aware of a Customer's new or replacement Water Service Line not being installed as herein provided, the Company will not permit a new tap and will not install a Company Water Service Line or metering equipment until the Customer's Water Service Line is installed as herein provided.
- C. The Company reserves the right to inspect Customer's installation prior to rendering water service and from time to time thereafter, but assumes no responsibility whatsoever for any portion thereof. Charges for inspection by Company personnel shall be in accordance with approved fees and as set out in the applicable Schedule of Service Charges.
- D. Unless otherwise specified by local codes or ordinance, when street main pressure exceeds eighty (80) p.s.i., Customer shall install, at his expense, an approved pressure reducing valve in the Customer Water Service Line near its entrance to the building to reduce the water pressure to eighty (80) p.s.i. or lower, except where the Customer Water Service Line supplies water directly to a water pressure booster system,

Rule 6 INSIDE PIPING AND CUSTOMER WATER SERVICE LINE

- A. Each applicant for service must, at Customer's own expense, equip their service supply line with an accessible stop and waste valve inside the foundation wall, as well as all piping and attachments, all of which shall be constructed and maintained by the Customer, subject to the approval of any authorized inspectors and in accordance with the Rules and Regulations of the Company in force at that time.
- B. For all new or replacement Water Service Lines the installation must be in accordance with the requirements of all governmental agencies having jurisdiction. The minimum Water Service Line requirements for material and construction shall be as follows:
1. The Customer's water service pipe shall be of a size not smaller than the service connection, and the minimum size shall be three-quarter inch (3/4"). The type of pipe shall conform to existing plumbing codes and the reasonable requirements of the Company in furnishing adequate and safe service.
 2. In the St. Louis County Operations the Customer shall be responsible for construction and maintenance of the Customer's water service line from the main to the premises, including all stop boxes, valves, and meter setting components. In all other service areas where a Company water service line exists between the main and the meter setting, stop box, property or curb line, as applicable, and the Company is responsible for such meter setting or stop box, the Customer shall be responsible for construction and maintenance of the Customer's water service line between the meter setting, stop box or Company water service line, as applicable, and the premises. The Company may agree to make the physical connection between the Customer's water service line and the Company-owned pipeline or components, but the Company by so doing shall assume no maintenance responsibility for said connection.
 3. All Customer's Water Service Lines must be installed at least forty-two inches (42") below the surface of the ground (finished grade) at any point.
 4. If the Company becomes aware of a Customer's new or replacement Water Service Line not being installed as herein provided, the Company will not permit a new tap and will not install a Company Water Service Line or metering equipment until the Customer's Water Service Line is installed as herein provided.
- C. an elevated water gravity tank, or pumps provided in connection with a hydropneumatic or elevated gravity water supply tank system.

- E. Customers must take necessary precaution to prevent pipes and meters from freezing in cold weather. In locations with Customer owned meter boxes, the meter boxes must be properly installed free from water, mud, and debris at all times. The Company will make ordinary repairs to meters, but if meters are damaged through freezing, hot water backing up into the meter, or neglect of the Customer, the repairs will be assessed against the Customer and payment for such repairs will be enforced the same as bills for service.
- F. Customers at their own expense shall make all changes in their Customer Water Service Line required by changes of grade, relocation of mains, or other causes.
- G. Separate premises must have separate Customer Water Service Line, service valves, and meters, unless specifically authorized by the Company.
- H. Repairs or maintenance necessary on the Customer Water Service Line or on any pipe or fixture in or upon the Customer's premise including the connections to the Company's metering installation, but excluding the Company-owned meter, shall be the responsibility of the Customer. Such pipe and fixtures shall be kept and maintained in good condition, protected from freezing and free from all leaks. Customer's failure to do so may result in discontinuance of service.

7. A cross connection is specifically identified; or
8. Due to proprietary or classified restrictions the Company is not permitted to enter upon the premises to inspect plumbing and water using equipment.
- E. When a premises is served by multiple service lines, wherever backflow protection is determined to be required on the Customer's premises, all such water supply lines from the Company's mains entering such premises shall be protected by an approved backflow prevention assembly of a proper type.
- F. Temporary connections to the public water supply are prohibited unless authorized by the Company in writing. This includes the use of fire hydrants. If a temporary connection is permitted the proper metering and backflow prevention assembly, as approved by the Company, will be required. The backflow device shall be an RP, and it shall be tested each time it is placed into service.
- G. Backflow protection on private fire protection systems shall be as required by Rule 22.
- H. The type of protection that shall be required to prevent backflow into the public potable water supply shall be commensurate with the degree of hazard (either actual or potential) that exists on the Customer's premises, and subject to the reasonably exercised judgment of the Company.
- I. The St. Louis County Department of Public Works administers a cross connection control (CCC) program in St. Louis County. This Rule applies in St. Louis County, however the Company does not directly manage the CCC program.

Rule 9 BILLS FOR WATER SERVICE

- A. The charges for water service shall be at the rates specified in the applicable Rate Schedules. The point of sale shall be at the meter installation for all metered service or at the tap for all unmetered services. Service charges for connection (turn-on) or disconnection (turn-off) of service are set forth in the applicable Schedule of Service Charges.
- B. A Customer who has made application for water service to a premises shall be held liable for all charges for water furnished to such premises until the Customer's requested date of termination.
- C. Bills for water service will be distributed on a monthly or quarterly basis. The due date on the bill shall be twenty-one (21) days after the "date of rendition" of the bill to the Customer. The Customer's bill will be due and payable by this due date. The date printed on the bill shall be no less than twenty-one (21) days after the date of the postmark of the bill. Any accounts remaining unpaid after the due date shall be considered delinquent and the Company may take such action as specified in its filed rules and regulations. +
+
+
+
- D. A separate Customer account shall be created, with separate billings rendered for each meter installation, and the use of water by the same Customer in the same or different premises or localities will not be combined unless an agreement exists between the Customer and the Company for combining multiple meter readings into one bill.
- E. Each Customer is responsible for furnishing the Company with the correct bill mailing address. Failure to receive bills will not be considered an excuse for non-payment nor reason to permit an extension of the date when the account would be considered delinquent.
- F. Bills and notices relating to the Company or its business will be mailed or delivered to the service address entered in the Customer's application unless the Company is notified by the Customer of a change of address or an alternate mailing address.
- G. Payments shall be made at authorized locations as designated by the Company.
- H. The Company shall have the right to read meters and render bills either monthly, quarterly, semi-annually or annually and such bills shall be due and payable on the due date indicated on the bill.
- I. Water bills are rendered for the entire premises as served through a single metering point, whether served by a single meter, a compound meter, or a series of meters set on a service line, and will not be subdivided by the Company.
- J. The Company may render a bill based on estimated usage if:
1. Extreme weather conditions, emergencies, labor agreements, or work stoppages prevent actual meter readings; or

2. The Company is unable to obtain access to the Customer's premises for the purposes of reading the meter, or in situations where conditions make or the Customer makes reading the meter unnecessarily difficult.
- K. When the Company renders an estimated bill, it shall clearly and conspicuously note on the bill that it is based on estimated usage.
- L. The Company will not be bound by bills rendered under mistake of fact as to the quantity of service rendered, or as a result of clerical error.
- M. When bills are rendered for a period of less than a complete billing period due to the connection or termination of service, the billing shall be for the proportionate part of the billing period. Where water usage is the basis for the charge, it will be at the appropriate rate for water usage unless other charges apply based on local tariffs.
- N. Where a meter fails to register, or if the Company is unable to obtain a meter reading due to reasons outlined in Rule 9J. above, the Customer's bill for water usage shall be estimated by using the Customer's usage during the same period in the most recent year for which actual meter readings are available. In the event the Customer was not provided water service the previous year, then the Customer's bill for water usage shall be estimated based upon the average usage of similar Customers. If a Customer has not had water service for three (3) months, the average used for an estimated bill will be based on the number of months the Customer has had water service.

Rules And Regulations Governing The Rendering of
Water Service

3. The failure to pay the bill of another Customer, unless the Customer whose service is sought to be discontinued received substantial benefit and use of the service.
 4. The failure of a previous owner or occupant of the premises to pay an unpaid or delinquent bill except where the previous occupant remains an occupant or user.
 5. The failure to pay a bill correcting a previous under billing, whenever the Customer claims an inability to pay the corrected amount unless a utility has offered the Customer a payment arrangement equal to the period of under billing.
- C. Except for Provision A.8., above, notwithstanding any other provision of this Rule, the Company may postpone the discontinuance of water service to a residential Customer for a time of at least twenty-one (21) days if the Company is advised the discontinuance will aggravate an existent medical emergency of the Customer, a member of his family or other permanent resident of the premises where service is rendered. The Company may require a Customer to provide satisfactory evidence that a medical emergency exists.
- D. The Company will provide reasonable notice of any discontinuance of service to a Customer as practicable. However, notwithstanding any other provision of this rule, the Company may discontinue service temporarily to a Customer without advance notice for reasons of health, safety, property damage or other emergencies.
- E. If a Customer disputes a particular bill, the Company will not discontinue service for non-payment so long as the Customer:
1. Pays the undisputed portion of the bill (if the parties are unable to determine the undisputed portion, the Customer shall pay to the utility fifty percent (50%) of the bill in dispute);
 2. Pays all future periodic bills by the due date; and
 3. Enters into discussions with the Company to settle the dispute in accordance with rules of the Missouri Public Service Commission. If agreement cannot be reached on settlement of the dispute, the Customer may register his dispute with the Missouri Public Service Commission in accordance with Commission rules.
- F. Except for Provision A.8., above, the Company shall not discontinue residential service pursuant to Provision A., above, unless written notice by first class mail is sent to the Customer at least ten (10) days prior to the date of the proposed discontinuance. Service of notice by mail is complete upon mailing. As an alternative, the Company may deliver a written notice in hand to the Customer at least ninety-six (96) hours prior to discontinuance. A notice of discontinuance of service shall not be issued as to that portion of a bill which is determined to be an amount in dispute pursuant to the Commission's Rules that is currently the subject of a dispute pending with the utility or complaint before the Commission, nor shall

such a notice be issued as to any bill or portion of a bill which is the subject of a settlement agreement except after breach of settlement.

- G. On the date specified on the notice of discontinuance or within twenty (20) business days for quarterly billed Customers and eleven (11) business days for monthly billed Customers after that, and subject to the requirements of these rules, the Company may discontinue service to a residential Customer between the hours of 8:00 a.m. and 4:00 p.m. Service shall not be discontinued on a day when Company personnel are not available to reconnect the Customer's service or on a day immediately preceding such a day unless the Company is prepared to reconnect service on such day, subject to payment of the applicable standard charge as required. After the twenty (20) business day effective period of the notice for quarterly billed Customers and eleven (11) business day effective period of notice for monthly billed Customers, all notice procedures required by this rule shall again be followed before the Company will discontinue service. (Refer to a variance granted in Case No. WE-2010-0136.)
- H. The Company shall make reasonable effort to communicate with the Customer, at least twenty-four (24) hours prior to any discontinuance, regarding the reason(s) for discontinuance of service, and the resolution. If discontinuance of service would affect an occupant who is not the Company's Customer, or is not responsible for payment of the bill, then the Company shall make reasonable effort to inform such occupant(s).
- I. Company personnel shall identify themselves and announce the intention to discontinue service, or leave a conspicuous notice of the discontinuance.
- J. The provisions of paragraphs H. and I., above, may be waived if safety of Company personnel while at the premises is a consideration.
- K. Discontinuance of the supply of water to a premises for any reason shall not prevent the Company from pursuing any lawful remedy by action at law or otherwise for the collection of moneys due from the Customer.
- L. In case the Company discontinues its service for any of these causes or is through fault of the Customer, prevented from supplying water according to the provisions of any contract or agreement, then there shall forthwith become due and payable to the Company as liquidated damages, and not as penalty, the amount remaining unpaid, and also the amount which is guaranteed by the contract or agreement as a minimum payment for same.
- M. If the Company shall ever have lawful cause to discontinue water service to any one of the Customers using a Master Water Service Line, whether due to nonpayment of bills, leaks in the metering facilities or any other lawful cause whatsoever, the water service to the entire Master Water Service Line may be discontinued and all Customers dependent on the line can be deprived of water service because of the actions or inactions of one of said Customers.
- N. The Company reserves the right to shut off the supply of water without notice for the following reasons:

- A. The Company may require a security deposit or other guarantee as a condition of new water service due to any of the following:
1. The Customer has outstanding with the Company an unpaid service account which accrued within the last five (5) years and at the time of the request for water service remains unpaid and not in dispute.
 2. The Customer has in an unauthorized manner interfered with or diverted the service of a utility situated on or about or delivered to the Customer's premises within the last five (5) years.
 3. The Customer is unable to meet credit rating standards for water utilities. The Customer shall be deemed to have established an acceptable credit rating if the Customer meets any of the following criteria:
 - a) Owns or is purchasing a home;
 - b) Is and has been regularly employed on a full-time basis for at least one year;
 - c) Has an adequate regular source of income; or
 - d) Can provide adequate credit references from a commercial credit source.
- B. The Company may require a security deposit or other guarantee as a condition of continued water service due to any of the following:
1. The service of the Customer has been discontinued by the Company for nonpayment of a delinquent account not in dispute.
 2. In an unauthorized manner, the Customer interfered with or diverted the service of the Company situated on or about or delivered to the Customer's premises.
 3. The Customer has failed to pay an undisputed bill before the delinquency date for five (5) billing periods out of twelve (12) consecutive billing periods or two (2) quarters out of four (4) consecutive quarters.
- C. A security deposit required by the Company is subject to the following terms and conditions:
1. A deposit shall not exceed two (2) times the highest bill for water charges actually incurred or estimated to be incurred by the Customer during the most proximate twelve (12) month period at the service location or, in the case of a new Customer, who is assessed a deposit under Provision A.3. of this rule, one-sixth (1/6) of the estimated annual bill for monthly billed Customers and one-third (1/3) of the estimated annual bill for quarterly billed Customers for water charges at the requested service

- CANCELLED - Missouri Public Service Commission - 05/28/2025 - WR-2024-0320 - JW-2025-0157
- A.

The Customer shall notify the Company at least three (3) business days in advance of the day termination is desired. The Customer shall remain responsible for all service used and the billing therefore until service is terminated pursuant to such notice. Upon receipt of such notification the Company shall read the Customer's meter and charges for water service rendered up to and including the time of shut-off shall be computed and will become due and payable immediately.
- B.

The Company may, on verbal notice of the Customer, or his agent, temporarily turn-off and reinstate service for repairs or alterations without in any way affecting the existing application. Applicable fees may apply.
- C.

Termination of water service to a premises for any reason shall not prevent the Company from pursuing any lawful remedy by action at law or otherwise for the collection of monies due from Customer.

Rules And Regulations Governing The Rendering of
Water Service

Rule 15 METERS AND METER INSTALLATIONS

- A. All permanent connections shall be metered. The Company's installed meter shall be the standard for measuring and/or billing water service. All meters shall be furnished, installed, maintained, and removed by the Company and shall remain its property. No one who is not an employee or agent of the Company shall be permitted to access, tamper or remove such property therewith.
- B. For the St. Louis County Operations, construction, ownership and maintenance responsibility of all meter setting installations shall be the responsibility of the Customer. For all other operations, the Company will furnish parts, material and construction of the outdoor meter setting located at or near the property line, in accordance with these rules and in consideration of approved charges as specified in the applicable Schedule of Service Charges. The Company will maintain the installation and it will remain the property of the Company.
- C. Unless otherwise permitted by the Company, the size of the meter installed by the Company will not be greater than the smallest size of any portion of the water service line. The style and size of the meter(s) will be determined by the Company based on:

1. The service line configuration chosen by the Customer from those alternatives which are permissible by the Company's Rules, Regulations, and/or specifications then in effect; and/or
2. The basis of the Customer's stated flow requirements.

If flow requirements increase or decrease subsequent to installation and a larger or smaller meter is requested by the Customer, the cost of installing such meter and appurtenances shall be borne by the Customer.

- D. The meter shall only be installed in a dry meter box/vault of a size and design acceptable to the Company and located accessibly on the premises served.
- E. For the St. Louis County Operations where the water service line is owned in its entirety by the Customer, the Customer must provide proper and approved connections and piping for installing the meter in the water service line, as well as an approved meter box/vault.

The meter installations shall be at or near the property line, in front of the premises served unless the Company approves another location. In the cases where the location of the Company's main and the routing of the water service line prevents efficiently locating the meter box/vault at or near the property line, the meter location will be determined by the Company to facilitate proper and efficient meter reading.

- F. All meter installations must be protected from flooding, and constructed of materials acceptable to the Company. Also to minimize meter freezing problems and improve accessibility for meter reading all meter boxes, unless specifically allowed by the Company, must be located outside of paved or graveled areas, such as driveways, sidewalks, and parking lots, etc. In addition all meter installations must be kept clear of

enclosures, vegetation or landscaped plantings that would inhibit accessibility for efficient meter reading and maintenance.

- G. When the Company determines that there is no suitable location for a meter box, a meter may be installed in a basement in a suitable location acceptable to the Company. In such case, installation of a remote reading device will also be required.
- H. Approved meter installation locations in dry basements, sufficiently heated to keep the meter from freezing, may remain, provided the meter remains readily accessible, as determined by the Company, for servicing and reading, the meter space provided is located where the water service line enters the building, and a properly installed electrical ground wire is installed around the water meter. Meter space guidelines are based on meter size and will be provided to Customer by the Company upon request. It is the responsibility of the Customer to provide a location for the meter, which in the event of water discharge as a result of leakage from the meter or couplings will not result in damage. If a Customer refuses to provide a reasonable and an accessible location for a meter installation and servicing as determined by the Company, the Company will notify the Customer and the Missouri Public Service Commission before ultimately refusing service or proceeding to discontinue service.
- I. Unless otherwise permitted by the Company, all water meters must be installed at the same time that a water service line tap to the Company's main is made.
- J. All service to any one Customer at one building shall be furnished through a single metering installation, except as authorized by agreement between the Company and the Customer. Where a building or a parcel of property with more than one building is occupied by more than one Customer, Company will set as many meters as there are separate applications for service, and will connect the meters to one service line under a Master Water Service Line Use Agreement and Encumbrance for Condominiums and Commercial Developments. . The Company's meters will be in a location approved by the Company. Where service is supplied through two or more meters to a location having two (2) or more separate premises, the service shall be considered a multiple service at the Company's option. The Customer may rearrange piping, at Customer's own expense, so as to separate the multiple services and permit the Company to install a separate meter for each premise.
- K. Units of multi-storied buildings, including condominiums, townhouses, duplexes, wherein each unit is individually owned, will not be separately metered unless all units therein conform to requirements of Company rules which relate to the installation requirements for water service lines which all units shall have owned ground floor space.
- L. The meters and meter installations furnished by the Company shall remain its property and the owners of premises wherein they are located shall be held responsible for their safekeeping and liable for any damage thereto resulting from the carelessness of said owner, his agent, or tenant. For failure to protect same against damage, theft, or loss, the Company may refuse to supply water until the Company is paid for such damage. The amount of the charge shall be the cost of

Rules And Regulations Governing The Rendering of
Water Service

- M. Customers must take necessary precaution to prevent pipes and meters from freezing in cold weather and must keep the meter box/vault area free from water, mud, and debris at all times. The Company will make ordinary repairs and/or replacement to meters, but if meters are damaged through freezing or neglect of the Customer, the cost of repairs and/or replacement will be assessed against the Customer and payment for such repairs and/or replacement will be enforced the same as bills for service. The Customer will similarly be held responsible for preventable damage to any remote meter reading attachment. The Customer shall promptly notify the Company of any defect in, or damage to, the meter, its connections or housing.
- N. No person except an authorized employee of the Company, or other person duly authorized by the Company, shall make any connection to or disconnection from the water main of the Company, nor shall unauthorized individuals set, change, remove, interfere with, bypass, or make any connection to, the Company's meter or other property. The Customer shall be responsible for any violations of this rule and the consequences thereof. The Customer shall promptly notify the Company of any defects in, or damage to, the meter, its connections or housing as soon as it comes to their knowledge. The Company may put seals on any water meter, or on its couplings, in and for any premises, and may discontinue water service if such seals are found broken or removed, pursuant to Rule 10.
- O. Any change in the location of any existing service connection, meter or meter installation at the request of the Customer shall be made at the expense of the Customer.
- P. If additional meters are desired by the Customer and/or property Owner for showing subdivision of the supply within a premise, they shall be furnished, installed, operated, and maintained at the expense of said Customer and/or property Owner with written permission from the Company.
- Q. Plumbing appurtenances, such as pressure reducing valves, auxiliary shutoff valves, gauges, backflow prevention devices, lawn sprinkler connections, etc., or any other construction shall not be located inside a meter box/vault containing the meter and shall not interfere with installation, removal operation, servicing or reading of the meter. Only those water service line or plumbing appurtenances of a design acceptable to the Company will be permitted to be installed in the meter box/vault.
- R. Meter requirements for private fire protection shall be as specified in Rule 22.
- S. On a split service, the Company will provide all meters used, but the size of the meter installed on the domestic line will not be larger than necessary for the reasonably anticipated domestic usage requirements of the Customer. If the "fire flow" meter alternative is required by the Company or is chosen by the Customer if not required by the Company, the Customer and/or property Owner must pay to the Company as a contribution-in-aid-of-construction, in consideration of a) the extraordinary cost of a "fire flow" meter, and b) fire flow potential demand, the difference between the actual cost of the "fire flow" meter and the costs of the meter(s) otherwise deemed appropriate by the Company for the split service line arrangement. The Company does not pay the cost of any required meter settings, boxes/vaults or related plumbing requirements, regardless of which service line configuration is utilized, these costs are borne by the Customer and/or property Owner as part of installation of a new service.

Rule 16 METER TESTS AND TEST FEES

- A. Meters are periodically tested and/or replaced in accordance with the Commission's regulations and or guidance. The Company may at any time remove any meter for routine tests, repairs or replacement and may, at its option and expense, test any meter when the Company has reason to believe that it is registering inaccurately. Customers shall accept the meter installed by the Company as the standard of measurement for water service.
- B. Any Customer and/or Owner may request the Company to make a special test of the accuracy of the meter through which water is supplied to the premises in question. This test will be made in accordance with the standard regulations of the Commission.
- C. The Company will make a test of the accuracy of any water meter, free of charge, upon request of a Customer, provided that the meter had not been tested within twelve (12) months previous to such request. If a Customer requests a test of a meter and the meter has been tested within twelve (12) months previous to such request, the cost of the most recent request shall be borne as specified by the Commission.
- D. A meter test requested by the Customer will be witnessed by the Customer, Owner, or their duly authorized representative, except tests of meters larger than two inches (2") inside diameter will be conducted by either the meter manufacturer or qualified meter testing service and a certified copy of the test will be provided to the Customer, Owner or duly authorized representative.
- E. Unless otherwise allowed or ordered by the Commission, each water service meter installed will be periodically removed, inspected and tested in accordance with the rules of the Commission. If the meter, when inspected and tested using the test streams prescribed by the Commission shall be found to be more than five percent (5%) defective or incorrect to the prejudice of the Customer or the Company, the Company shall adjust the Customer's bill according to these tariff rules.

Rule 17 BILL ADJUSTMENTS BASED ON METER TESTS

- A. Whenever any test by the Company of a meter while in service or upon its removal from service shall show such meter to have an average error of more than five percent (5%) on the test streams prescribed by the Commission, the Company shall adjust the Customer's bills by the amount of the actual average error of the meter and not the difference between the allowable error and the error as found. The period of adjustment on account of the under-registration or over-registration will be determined as follows:
1. Where the period of error can be shown, the adjustment shall be made for such period subject to limitations set out below.
 2. Where the period of error cannot be shown, the error found shall be considered to have existed for three (3) months preceding the test.
- B. **Under-register:** If the meter is found on any such test to under-register, the Company may render a bill to the Customer concerned for the estimated consumption not covered by bills previously rendered during the period of inaccuracy as above outlined but not to exceed twelve (12) monthly or four (4) quarterly billing periods. Such action shall be conditioned upon the Company's not being at fault for allowing the inaccurate meter to remain in service.
- C. **Over-register:** If the meter is found to over-register more than allowable according to Commission rules, the Company shall refund to the Customer concerned any overcharge caused thereby during the period of inaccuracy as above defined not to exceed sixty (60) monthly or twenty (20) quarterly billing periods. Said refund may, at the Company's option, be in the form of a credit to the Customer's bill.

Rule 18 FAILURE TO OBTAIN METER READING (CUSTOMER READINGS AND ESTIMATED BILLS)

- A. The Company shall attempt to secure an actual reading at least once annually for monthly billed Customers, at least once every one and one-half (1-1/2) years for quarterly billed Customers not submitting Customer readings, and at least once every two (2) years for quarterly billed Customers submitting Customer meter reads.
- B. If the Company is unable to obtain an actual meter reading, the Customer shall be notified under Provision D. or E. of this rule and offered the following options:
1. Provide access to the meter at the regularly scheduled reading time, which is provided to the Customer, upon request;
 2. Provide Customer readings to the Company by the date specified;
 3. Request an appointment reading during regular business hours, subject to a service charge as specified on the applicable schedule of service charges;
 4. Contract for and permit the installation of a remote meter reading attachment; or
 5. Provide a meter box at or near the property line together with approved connections and piping for installations of a meter.
- C. The Company shall notify the Customer that if usage is not reported by the Customer and if the Customer fails, after written request, to grant access to the meter, then service may be discontinued in accordance with Rule 10 and the Commission's Rules.
- D. If usage is not reported by the Customer, the Company shall notify the Customer by first class mail or personal delivery as follows:
1. After three (3) consecutive quarterly or monthly estimated bills without a Customer read, the Company shall send a letter to the Customer advising that bills are based on estimates and the options set out above are available.
 2. After five (5) consecutive estimated quarterly bills or six (6) consecutive estimated monthly bills, without a Customer read, the Company shall send a second letter similar to the first reminding the Customer that the Company must get a reading and listing the options above.
 3. After six (6) consecutive estimated quarterly bills or twelve (12) consecutive estimated monthly bills without a Customer read, a third letter shall be sent advising the Customer that a reading must be obtained by a specific date to avoid discontinuance in accordance with Rule 10, above and listing options set out in Provision B.3., 4. and 5., above.
- E. Customers reporting usage shall be notified that the Company must gain access to verify the meter read as follows:
1. After seven (7) quarterly billings or eleven (11) monthly billings where the Company is unable to obtain

Rule 19 ACCESS TO CUSTOMER'S PREMISES (CUSTOMER READINGS AND ESTIMATED BILLS)

- A. Authorized personnel of the Company shall have access at all reasonable hours to the premises supplied for the purpose of making necessary examination of the plumbing and fixtures, taking meter readings, changing meters, installing, removing or servicing remote reading attachments, and for any other reasons deemed necessary by the Company. Such access must be provided as specified in this rule to avoid discontinuance of service.
- B. CUSTOMER READINGS: Customers may read the meter and submit readings. These readings must be submitted to the Company within the time allotted to be used as a basis for billing. In addition, Customers must permit Company personnel access to obtain an actual meter reading by electing one of the options set out in Provision D.1., 2., 3. or 4., below, to confirm the Customer meter readings at least once annually for monthly billed Customers, and at least once every (2) two years for quarterly billed Customers.
- C. ESTIMATED BILLS: If the Company is unable to obtain an actual meter reading and a Customer read is not submitted to the Company within the time allotted, the Company will estimate the bill in accordance with Rule 9J. and K., and Rule 18, above. If no usable (timely received) Customer meter readings are provided to the Company, the Customer must permit Company personnel to obtain a meter reading as set out in Provision D.1., 2., 3. or 4., below, at least once every year for monthly billed Customers, and at least once every six (6) quarters for quarterly billed Customers.
- D. The Company may discontinue service as provided in this rule if a Customer fails to cooperate with the Company to obtain an actual meter reading by not:
1. Providing access to the meter at the regularly scheduled reading time, as provided to the Customer;
 2. Requesting an appointment reading during regular business hours, subject to a service charge as specified on the applicable schedule of service charges;
 3. Contracting for and permitting the installation of a remote meter reading attachment; or
 4. Providing a meter box at or near the property line together with approved connections and piping for installation of a meter.

Rules And Regulations Governing The Rendering of
Water Service

3. Adhering to the Company's instructions about the hours, the size of pipes or hose, rates of flow, and other specifications concerning the manner of usage and allowed usages.

If the Company becomes aware of any violation of this Rule, the Company will withdraw authorization and/or discontinue such service.

- I. During freezing weather, the city, town, village or fire district shall notify the Company after it has opened any fire hydrant.
- J. Whenever a change in the location of a fire hydrant is ordered, requested or made necessary due to change in line or grade of any public place, street, avenue, alley, bridge, roadway, curb or walk, or for any other reason, said change will be made by the Company at the expense of the city, town, municipality, fire protection district, governmental entity, road authority or other ordering entity, requesting, or making necessary such change excluding Jefferson City Operations.
- K. In the Jefferson City Operations, whenever a change in the location of a public fire hydrant, water mains, pipes, appurtenances or other facilities is ordered or requested by the City of Jefferson or made necessary due to a change by the City of Jefferson in line or grade of any roadway, street, avenue, alley, bridge, curb or walk or public place, such change will be made by the Company and the cost of such change will be paid one-half (1/2) by the Company and one-half (1/2) by the City of Jefferson, under the provisions of Franchise Ordinance No. 8036 approved July 1, 1968.
- L. In the event that a city, town, village or fire district by ordinance or resolution, shall order the installation of additional public fire hydrants on existing water mains having an internal diameter of six inches (6") or larger, the Company will install such fire hydrants at the cost of the Company and such fire hydrants will be maintained by and at the expense of the Company excluding the City of Joplin Operations.
- M. All public fire hydrants shall become the property of the Company and shall be maintained by the Company, excluding public fire hydrants within the City of Joplin.
- N. In the City of Joplin Operations, applicable only within the Joplin city limits – Per Franchise Ordinance:
1. All public fire hydrants shall be furnished and installed by the Company, at the cost of the City, ordering the installation of same. Any such hydrant, after installation, will be maintained by and at the expense of the Company.
 2. When it is necessary or desirable to replace existing public fire hydrants, such hydrants shall be removed and the replacement hydrants furnished and installed only by the Company, and under the following terms and conditions:

Rule 21 FIRE HYDRANT USAGE AND PERMITS

- A. Customers, or their agents, fire departments or fire districts, and all others are forbidden to open any fire hydrants, valves, or other openings not on their metered service for any purpose other than fire protection (fire protection includes filling of a tank or fire fighting equipment by a fire department or fire district), unless authorized by franchise agreement without first:
1. Obtaining written authorization from the Company;
 2. Certifying that they will comply with DNR Regulations; and
 3. Adhering to the Company's instructions about the hours, the size of pipes or hoses, rates of flow, and other specifications concerning the manner of usage and allowed usages.
- B. Requirements to obtain a permit from the Company to use a public fire hydrant include the following:
1. Permits to use a public fire hydrant may be issued in writing to an individual or business for uses deemed reasonable by the Company.
 2. Anyone requesting to use a public hydrant must apply in writing in person with valid identification (Driver License or Company Identification) at the Company and pay up front the non-refundable fees associated with the hydrant use based on the applicable rates and charges approved by the Commission.
 3. Permittee, at the time of application, must present an acceptable backflow prevention device along with a certificate or letter from the appropriate governing authorities that the device has been properly tested and inspected and is in good working condition. Once such a certificate or letter is on file at the local office of the Company, it is not necessary for the permittee to bring in the physical device on subsequent requests for a permit until such time that such certificate or letter expires. The permittee must also display the proper hydrant wrench tool which must be used at all times when opening and closing the hydrant.
 4. Permittee must also read and sign a document which gives instructions on the proper operation of the hydrant, which instructions shall include but not be limited to:
 - a) Turning direction for opening and closing;
 - b) Proper speed in which to open and close the hydrant;
 - c) Use of the correct hydrant wrench;
 - d) Use of the correct nozzle, specifically stating that the large nozzle should not be used;

Rules And Regulations Governing The Rendering of
Water Service

Rule 22 PRIVATE FIRE PROTECTION SERVICE

- A. Application for private fire protection service will be considered by the Company subject to the availability of water mains of sufficient size, and the furnishing of fire protection service shall be on the basis of pressure and volumes as may exist in the locality, which pressures and volumes are not guaranteed by the Company. The private fire protection service is not designed to extinguish a fire, but rather to suppress or retard its growth to protect persons and property.
- B. When fire flows are necessary (whether for a single premises or on a Master Water Service Line which is metered at its connection to the Company's main), the meter(s) must be capable of measuring a full range of flows required by the Customer (both domestic and fire flows). The Customer with approval from the Company may choose the preferred method of:
1. A combination service line with a meter designed for both domestic flows and fire flows, typically referred to as a "fire flow" meter, or an approved meter by the Company. For residential single or two (2) family premises combination services only, this meter may not be a "fire flow" meter designed and warranted for use on residential fire suppression systems. That portion of the dual purpose service line from the Company main to the property line shall be the property of the Company in consideration of its perpetual maintenance and upkeep excluding St. Louis County Operations;

Based on Customer's needs and premises requirements, the Customer with approval from the Company may also choose between:

2. A split service line configuration which uses a detector check meter(s) on the fire line and a meter suitable for the reasonably anticipated domestic usage requirements on the line not used for fire protection; or
3. A dedicated fire service line with detector check meter, which is separate from the domestic water service line.

If a Customer chooses a combination service configuration for a one or two (2) family residential premises that is sized to meet fire flows, this service line will be considered an oversized Domestic Service Line and must conform to the rules for service connections and Customer water service lines as provided in Rules 3 and 5 in this tariff. An "Application for Special Connection" must be completed and approved in writing by the Company, as well as by the applicable Fire Protection Authority.

A Customer who receives both domestic water and fire protection services through a combination or split service line acknowledges that discontinuance of service for any reason will result in the discontinuance of fire protection service.

- C. If unauthorized usage is made of the fire protection facilities, or unusual circumstances develop, the Company reserves the right, at any time, to install a meter or flow-detection device. In such circumstances

Company's office, and then only after such application has been approved in writing by the Company, as well as by the applicable Fire Protection Authority.

- M. A valve controlling the entire supply, as approved by the Company, shall be placed either at the curb or at such other point as may be approved by the Company, and said valve shall be at the expense of the Customer, and any valve pit or vault which may be required will also be furnished by and at the expense of the Customer.
- N. Where split services are used for both general and fire purposes, separate charges will be made for each type of service in accordance with the established schedule of rates.
- O. The Company shall not be considered in any manner an insurer of property or persons, or to have undertaken to extinguish fire or to protect any persons or property against loss or damage by fire, or otherwise.
- P. The Company shall not in any way or under any circumstance be held liable or responsible for personal injury, death, property damage, or any other claim of loss following or resulting from: the termination or discontinuance of a Customer's service; a deficiency in the pressure, volume or supply of water due to the malfunction or failure of a meter; or a deficiency in the pressure, volume or supply of water while meters or service lines are being repaired or replaced, unless such injury, damage or loss is due to the willful misconduct or gross negligence of the Company.
- Q. In the operations located in St. Louis County, St. Joseph and Joplin, the Customer owns and maintains the entire Private Fire Service Line including the connection to the Company's water main. In all other operations, the Company owns the portion of the line from the connection to the Company's water main to the Customer's property line, the remainder of the Private Fire Service line is owned and maintained by the Customer.

For

Missouri Service Area
Community, Town or CityRules And Regulations Governing The Rendering of
Water ServiceRULE 23 EXTENSION OF COMPANY MAINS

A. This rule shall govern the extension of the Company's water mains after the date hereof which are necessary to serve Customers within its service area. The Company's water mains can be extended within the service territory of each of its operations within the State of Missouri either by the Company's forces, Company's contractor or by an Applicant's contractor in accordance with Company's standards and contractual requirements. For any design/installation option, the following terms and conditions shall apply:

1. When an Applicant makes a request for an extension of water main, the Company shall first determine the closest adequate and reliable source of water in its existing distribution system. The Company will then determine the sizes, types, route and location of mains, loops and other tie-ins if necessary, replacement and upsizing of existing mains if necessary to meet the Applicant's requirements, and ancillary equipment needed to serve Applicant's property. Design of the extension will be based on domestic flow requirements as stated by the Applicant and fire flow requirements as determined by the local fire authority and the direct impact of the additional domestic flow and fire flow requirements of the Applicant to the Company's existing Customers. If there is no local fire authority or the local fire authority declines to impose a flow requirement, then the fire flow requirements will be determined by the Applicant and approved by the Company. At a minimum, the fire flow requirements determined by the Applicant will meet Insurance Services Office, Inc. (ISO) standards. The local fire authority will determine fire hydrant locations unless there is no local fire authority or the local fire authority declines to locate fire hydrants, in which case the Company will determine the fire hydrant locations.
2. The Company will be responsible for all main extensions where the cost of the extension does not exceed four (4) times the estimated average annual revenue from the new Applicant(s) whose service pipe(s) will immediately be connected directly to the extension and from whom the Company has received application(s) for service upon forms provided by the Company for this purpose. New Applicants shall be those who commit to purchase water service for at least one year, and guarantee to the Company that they will take water service at their premises within one hundred twenty (120) days after the date the Company accepts the main and determines it ready for Customer service. Estimates of annual revenue will be made by the Company, and will be based on the experience of the Company from the previous year regarding use of water by other Customers similarly situated.
3. If the estimated cost of the proposed extension required in order to furnish general water service exceeds four (4) times the Company's estimate of average annual revenue from the new Applicant, the Applicant and Company shall fund the remaining cost (i.e., total cost less four (4) times the estimated average annual revenue from any new Applicant(s)) of the proposed water main extension at a ratio of 95:5 (i.e., 95% Applicant funded and 5% Company funded) for St. Louis Metro District, and 86:14 (i.e., 86% Applicant funded and 14% Company funded) for all other districts.
4. Applicants requesting a main extension to serve a single premises in a recorded, residential single lot development can choose the aforementioned option in Provision A.2. and 3., above, or the option whereby the

Company will be responsible for all of the costs, except easement acquisition, associated with extending the main up to one hundred feet (100') (Free Extension). If the main extension required is greater than one hundred feet (100') in length, all costs above the Free Extension shall be borne by the Applicant calculated on a per-foot basis.

5. The Applicant/Company funding ratio of 95:5 for St Louis Metro District and 86:14 for all other districts, will only apply to the cost for main extensions and may include, but is not limited to, all material and labor costs of piping, public fire hydrants (as applicable), valves, fittings, casing pipe, inspection fees, testing (including but not limited to: bacteriological, chlorination, de-chlorination, pressure and flushing), water used for flushing purposes, and all overheads charged to all materials, labor, services, etc. provided by the Company.
6. The Applicant/Company funding ratio of 95:5 for St. Louis Metro District and 86:14 for all other districts, shall not apply to restoration charges or easement acquisition costs. Applicant will be responsible for one hundred percent (100%) of the restoration charges and easement acquisition costs for the main extension, except the Company will be one hundred percent (100%) responsible for restoration charges related to the Free Extension.
7. In those instances where the Company determines that the water service requirements, including supply for fire protection of the Applicant requires the reconstruction, replacement or reinforcement of the Company's existing water mains or other appurtenances (e.g. Pressure Reducing Valves, Booster Stations, Air Valves, water service lines, etc.), the Applicant will be responsible for such reconstruction, replacement or reinforcement including all the material, labor costs, engineering and engineering review, inspection fees, testing (including but not limited to: bacteriological, chlorination, de-chlorination, pressure and flushing), restoration costs, all abnormal layout or layout review costs incurred by the Company as well as all overheads charged to all materials, labor, services, etc. provided by the Company. The Applicant may also be responsible for all, or a portion, of the costs for any new booster stations, water storage tanks, and water plant upgrades that Company determines are necessary solely to provide service to the development for which the main extension is requested.
8. The Applicant will also be required to pay all costs associated with the acquisition and preparation of any easements or permits necessary for the installation of the aforementioned facilities relating to the main extension.
9. The Applicant or the Applicant's authorized agent shall contract with the Company for such extension in accordance with the Company's standards and contractual requirements.

B. Installations by the Company or Company's Contractor: If the Applicant or Applicant's authorized agent contracts with the Company to install the main extension, the following shall apply:

1. At the Applicant's option, the Company will either lay out the required water main extension on plans furnished by the Applicant at the cost of the Applicant, or the plans and specifications for the main extension may be prepared by the Applicant's engineer and submitted for Company approval.

2. The Company shall provide the Applicant with an estimate in the form of a written proposal, which will describe payment alternatives and all other contractual preconditions to the installation, along with a copy of the water main layout.
3. The proposal will include the costs related to the facilities specified in Provision A.1. plus the Company's anticipated costs of materials, labor, labor related expenses (such as pension and welfare costs), supervision, engineering, inspection fees, insurance, tools, easements, permits, appropriate taxes, and other miscellaneous expenses (such as stores expenses, administrative salaries, overhead expenses, transportation expenses, water used for flushing purposes and construction equipment expenses and similar expenses). The Company may at its discretion charge up to five percent (5%) for contingencies. The cost contained in the proposal is based on the Company's estimate of the actual cost of the job.
4. If the Applicant has chosen the option provided in Provision A.2. and 3., above, the Applicant in the St. Louis Metro District shall provide payment of ninety-five percent (95%) of the estimated costs for any project that exceeds four (4) times the estimated average annual revenue, and the Applicant in any of the Company's other Districts shall provide payment of eighty-six percent (86%) of the estimated costs for any project that exceeds four (4) times the estimated average annual revenue. The Applicant shall pay to Company such estimated costs prior to the Company scheduling the work. If after completion of the main extension, the initial payment provided to the Company is above the Applicant's percent of the total actual cost of the project, as determined by the Company, the Company will refund the excess to the Applicant. If the initial payment provided by the Applicant to the Company is below the Applicant's percent of the total actual cost of the project, the Company will bill the shortfall to the Applicant.
5. For Applicants who have chosen the option of a one hundred foot (100') Free Extension:
 - a) If the Applicant has chosen the option of a one hundred foot (100') Free Extension, as provided for in Provision A.4. above, and the extension will be one hundred feet (100') or less in length, then the Company will perform the necessary construction to extend its main(s).
 - b) If the Applicant has chosen the option of a one hundred foot (100') Free Extension and the extension is greater than one hundred feet (100') in length, the Applicant shall provide payment of one hundred percent (100%) of the estimated costs in excess of the one hundred foot (100') Free Extension, if any, as provided by the Company prior to the Company scheduling the work. If after completion of the main extension, the initial payment provided to the Company is above the Applicant's share of the total actual cost of the project, the Company will refund the excess to the Applicant. If the initial payment provided by the Applicant to the Company is below the Applicant's share of the total actual cost of the project, the Company will bill the shortfall to the Applicant.

C. **Installations by Applicant's Contractor (Developer Lay Option):** The Applicant, or the Applicant's agent, may elect to use its own contractor to construct the main extension (also known as the Developer Lay option). Under this option, the Applicant's contractor must be approved by the Company and the following terms and conditions shall apply:

1. At the Applicant's option, either the Company will lay out the required water main extension on plans furnished by the Applicant, or the plans and specifications will be prepared by the Applicant's engineer and submitted for Company approval.
2. Upon request, the Company will provide written specifications and other related documents for the proposed extension and a Developer Lay Proposal for the installation by Applicant's contractor, along with a copy of the water main layout.
3. The Developer Lay Proposal costs will include the Company's estimated costs of materials, labor, inspection fees, and other miscellaneous expenses such as stores expenses, administrative salaries, overhead expenses, transportation expenses, water used for flushing purposes and construction equipment expenses and similar expenses.
4. The Applicant, or the Applicant's agent, shall execute a Main Extension Contract with the Company on forms provided by the Company. Upon completion of the main extension, the Applicant, or the Applicant's agent, shall agree to convey the completed main extension and necessary easements to the Company on the terms and conditions stated in the Main Extension Contract.
5. Upon execution of the Main Extension Contract by the Applicant and the Company, the Applicant will pay to the Company the total estimated Developer Lay Proposal costs as determined in Provision C.3., above. Applicant will also provide all additional information as detailed in the Main Extension Contract.
6. Upon completion of the Main Extension, and prior to acceptance of the extension by the Company, the Applicant will provide to the Company a final statement of Applicant's costs to construct such extension. This final statement of costs will be added to the actual costs for Company to provide services as per the Developer Lay Proposal. Upon acceptance of the main extension, the Company will then issue payment to the Applicant of five percent (5%) (for St. Louis Metro District contracts) and fourteen percent (14%) (for all other district contracts) of the total, final costs that exceed four (4) times the estimated average annual revenue pursuant to Provision A.2. and 3., above. The Company will adjust its payment based on the shortfall or excess of the difference between the actual Developer Lay costs and the Developer Lay Proposal payment made by the Applicant pursuant to Provision C.5., above.
7. For Applicants who have chosen the option of a one hundred foot (100') Free Extension:
 - a) If the Applicant has chosen the option of a one hundred foot (100') Free Extension, pursuant to Provision A.4. above, and the extension will be one hundred feet (100') or less in length, then

Company will perform the necessary construction to extend its main(s).

- b) If the Applicant has chosen the option of a one hundred foot (100') Free Extension and the extension is greater than one hundred feet (100') in length, then prior to the Applicant scheduling the main extension, the Applicant shall advance payment equal to the Company's total estimated Developer Lay Proposal costs (Provision C.3. above). After completion of the main extension by the Applicant, Applicant must provide support to the Company of the total costs incurred by Applicant, exclusive of the advanced payment for the Developer Lay Proposal costs. Upon verification of the costs supplied by Applicant, Company will add those costs to the actual Developer Lay Proposal costs it incurred and divide the sum by the number of feet in the main extension project to determine a cost per linear foot. The cost per foot will be multiplied by 100 to arrive at the cost of the one hundred foot (100') Free Extension to be borne by the Company. The Company will add the amount of the one hundred foot (100') Free Extension to the advanced payment made by Applicant, in accordance with Provision C.3. above, and subtract the actual Developer Lay Proposal costs incurred by the Company to arrive at an amount to be paid to, or by, the Applicant.

As an example for Provision C.7.b), above:

Applicant pays to Company \$500 for estimated total Developer Lay Proposal costs
Applicant pays his own contractor \$1000
Actual Developer Lay Proposal costs incurred by Company are \$200
Total Main Extension in feet is 400 feet

Calculation:

	\$ 1000.00	(Cost incurred by Applicant exclusive of advanced payment for Developer Lay Proposal)
Plus	\$ 200.00	(Actual Developer Lay Proposal Costs)
Equals	\$ 1,200	
Divide by	400	(Main Extension in Linear Feet)
Equals	\$ 3.00	per foot
Multiply by	100	
Equals	\$ 300.00	(Cost for first 100 linear feet that Company will absorb)
Add	\$ 500.00	(Amount Applicant advanced to the Company for estimated Developer Lay Proposal costs)
Subtract	(\$ 200.00)	(Actual Developer Lay Proposal Costs)
	\$ 600.00	Amount Company pays to Applicant

D. Miscellaneous Provisions

provide all necessary easements commensurate with the main extension as originally proposed by the Applicant.

10. Water main extensions must be installed in accordance with the Company's then current specifications and standards.
11. At the Company's discretion, the Company, the Company's contractor or an Applicant's contractor in accordance with Company's standards and contractual requirements, will make all connections to Company's water mains.
12. At the Company's discretion, any necessary reconstruction of existing mains or installation of mains larger than twelve inches (12") in diameter will be done by Company's forces, Company's contractor or by an Applicant's contractor in accordance with the Company's standards and contractual requirements.
13. The Company reserves the right to assess additional charges if the Company is required to create multiple layouts or to perform multiple reviews pursuant to an Applicant's request.

E. Customer Frontage Charge Refunds

1. If requested by the Applicant at the time of entering into the Main Extension Contract with the Company, the Applicant shall have the option of requesting a Customer Frontage Charge Refund. The Customer Frontage Charge Refund only applies to that portion of the main extension that is to be installed by or on behalf of an Applicant to reach a public, private, commercial, government or religious development or personal dwelling described in the Main Extension Contract. The Customer Frontage Charge Refund will be made to Applicant, or its assignee, subject to the following conditions:
 - a) A Customer Frontage Charge will be collected in advance from each new Customer, (in addition to the tap fee, connecting a new-metered service line) when the new Customer connects to the portion of the main extension covered by the Applicant's contract.
 - b) The Customer Frontage Charge is calculated at the rate of fifty percent (50%) of the actual per foot cost of the mains as paid by the Applicant, with appurtenances, times the front footage (front footage shall mean the property footage along the main) of the premises to be served.
 - c) No Customer Frontage Charge Refunds will be made for mains required to serve within platted subdivisions, except for main extensions made above the Free Extension serving recorded, residential single lot developments, or for the lots located within the subdivision that is to be served by the Applicant's main extension.
 - d) Customer Frontage Charge Refunds shall only be made for the first five (5) years after the Applicant's main extension is accepted into the Company's system. At the expiration of the five (5) year period, the refund account will be closed, and no further Customer Frontage Charge

Missouri-American Water Company
Name of Issuing Corporation

For

All Missouri Service Areas
Community, Town or City**Rules and Regulations Governing the Rendering of
Water Service****Taxable Advances or Contributions in Aid of Construction**

The Company shall not accept into its system any taxable Advances or Contributions in Aid of Construction, whether in cash or property (except amounts paid for remote meter reading service), unless accompanied by an amount equal to the Tax Impact of such acceptance as defined as follows:

Tax Impact = (Company's Current Year Tax) – (Present Value of Company's Future Tax Benefits)

The foregoing Tax Impact shall be charged to an applicant making a taxable Advance or Contribution in Aid of Construction.

Company's Current Year Tax

C = Amount of taxable Advances or Contributions in Aid of Construction
F = Marginal Statutory Federal Income Tax Rate
S = Marginal Statutory State Income Tax Rate
T = Effective Combined Income Tax Rate

$$T = F \times (1 - S) + S \times (1 - F)$$

$$\text{Company's Current Year Tax} = C \times T$$

Present Value of Company's Future Tax Benefits

CF = Annual cash flow from tax savings due to tax depreciation taken on "C", based on Company's projected tax depreciation life and method in effect for the year in which taxes on "C" will be incurred.
R = Company's most recently allowed Rate of Return on original cost rate base
N = Tax life (in years) used to calculate tax depreciation taken on "C"

$$\text{Present Value of Company's Future Tax Benefits} = CF \times \left[\frac{1 - (1 + R)^{-N}}{R} \right]$$

Interest Offset

The contributor of taxable Advances or Contributions in Aid of Construction will receive an interest offset to be netted against the Tax Impact. The interest rate used will be the 3-month US Dollar LIBOR rate as published by the Federal Reserve Bank of St. Louis, and 2 months of interest will be netted against the Tax Impact payment.

$$\text{Interest Offset} = \text{Tax Impact} \times \text{Interest Rate} \times (2/12)$$

Water Service

Taxable Advances or Contributions in Aid of Construction

Effective June 12, 1996, the Company shall not accept into its system any taxable Advances or Contributions in Aid of Construction, whether in cash or property (except amounts paid for remote meter reading service), unless accompanied by an amount equal to the Tax Impact of such acceptance as defined as follows:

$$\text{Tax Impact (TI)} = \frac{1 - PV}{1 - T} - 1 \times C$$

Where PV = Present Value of tax savings from tax depreciation as follows:

$$PV = \frac{CF_1}{(1 + R)^1} + \frac{CF_2}{(1 + R)^2} + \dots + \frac{CF_n}{(1 + R)^n}$$

CF_j = Annual cash flow per \$1 of "C" for year j from tax savings due to depreciation on "C" as defined below calculated based on:

- (a) Company's projected tax depreciation life and method in effect for the year in which Taxes on "C" will be incurred with "n" equal to the tax life in years, and
- (b) Company's projected, combined, marginal, statutory income tax rate for each year in which the tax savings will be realized, including state and federal income taxes.

R = Company's most recently allowed Rate of Return on original cost rate base.

T = Company's projected, combined, marginal, statutory income tax rate for the year in which the taxes will be Incurred, including state and federal income taxes. Calculated as follows:

$$T = F + S$$

$$F = \text{Marginal Statutory Federal Rate} \times (1 - S)$$

$$S = \text{Marginal Statutory State Rate} \times (1 - F)$$

C = Amount of cash advance or fair market value of Advance or Contribution in Aid of Construction, or in the case of refunds un Rule 18, all excluding the tax impact.

The foregoing Tax Impact shall be added to all costs charged to an applicant for all service installations under Rule 4.

Missouri-American Water Company
Name of Issuing Corporation

For

St Louis Metro Service Area
Community, Town or CityRATE A
METER RATE - RESIDENTIAL AND COMMERCIAL

AVAILABILITY – This rate is available to all residential (“domestic”), commercial, industrial, and other public authority metered customers.

RATE COMPONENTS:

MINIMUM CUSTOMER CHARGE - The minimum charge for water service available through the facilities of the Company for the billing period and for the meter size furnished the customer is:

Meter Size	(AM) Monthly Billing	(AQ) Quarterly Billing	Prorated Service Charge (2)
5/8"	\$14.42	\$21.13	\$16.09
3/4"	\$16.09	\$26.16	\$18.62
1"	\$19.50	\$36.29	\$23.64
1-1/2"	\$27.88	\$61.49	\$36.27
2"	\$37.95	\$91.73	\$51.38
3"	\$64.87	\$172.50	\$91.79
4"	\$95.12	\$263.32	\$137.18
6"	\$179.24	\$515.59	\$263.29
8"	\$280.14	\$818.32	\$414.66
10"	\$414.69	\$1,221.94	\$616.48
12"	\$549.24	\$1,625.59	\$818.29

COMMODITY CHARGE - In addition to the Minimum Customer Charge, for all water used as registered by the meter the Commodity Charge is \$2.5766 per 100 cubic feet or \$3.4447 per 1,000 gallons.

PAYMENT TERMS - Bills are net, and are due and payable within ten (10) days after date of bill.

Exclusive of every tax or payment imposed upon the Company by any political subdivision of the State of Missouri, for the right to do business in such political subdivision.

PRORATED SERVICE CHARGE(2): When quarterly bills are rendered for a period covering less than the normal full billing period, the bill shall consist of the sum of the “prorated service charge” and the commodity charge equal to the quantity of water used as determined by actual meter reading times the commodity rate.

Meter Rate – Residential, Commercial and Other

AVAILABILITY – This rate is available to all residential (“domestic”), commercial, industrial, and other public authority metered customers.

MINIMUM CUSTOMER CHARGE – The minimum charge for water service available through the facilities of the Company for the billing period and for the meter size furnished the customer is:

<u>Meter Size</u>	<u>Monthly Billing</u>
5/8"	\$10.00
3/4"	\$13.61
1"	\$18.42
1-1/2"	\$30.47
2"	\$44.92
3"	\$79.00
4"	\$126.79
6"	\$247.19
8"	\$421.71
10"	\$708.57
12"	\$850.28

COMMODITY CHARGE – In addition to the Minimum Customer Charge, the Commodity Charge for all water used as registered by the meter is \$0.83781 per 100 gallons or \$8.3781 per 1,000 gallons.

FLAT RATE - Customers who do not have water meters will be billed a monthly charge of \$43.50 (Rankin Acres, Whitebranch and Monsees Lake Estates) or \$32.00 (Table Rock Estates). When bills are rendered for a period of less than one-half (1/2) of a complete billing period due to connection or termination of service, the billing shall be for one-half(1/2) the monthly charge; if a bill is rendered for a period equal to or greater than one-half (1/2) of a complete billing period due to connection or termination of service, the billing shall be for the full monthly charge.

PAYMENT TERMS - All bills for service under this schedule will be rendered in arrears on a monthly basis. The due date on the tariff shall be ten (10) days after the "date of rendition" of the bill to the customer. The customer's bill will be due and payable after this due date. The delinquent date printed on the bill will not be less than twenty-one (21) days after the date of the postmark of the bill. Any accounts remaining unpaid at the expiration of twenty-one (21) days shall be considered delinquent and the Company may take such action as specified in its filed rules and regulations.

TAXES - These rates do not include any municipal, state or federal taxes computed on either billing or consumption basis. Any such taxes applicable shall be added as separate items in rendering each bill.

AVAILABILITY – This rate is available to all residential ("domestic"), commercial, industrial, and other public authority metered customers.

MINIMUM CUSTOMER CHARGE - The minimum charge for water service available through the facilities of the Company for the billing period and for the meter size furnished the customer is:

Meter Size	Monthly Billing
5/8"	\$15.33
3/4"	\$18.78
1"	\$25.41
1-1/2"	\$42.03
2"	\$61.98
3"	\$109.00
4"	\$174.93
6"	\$341.05
8"	\$581.84
10"	\$977.61
12"	\$1,173.13

+
+
+
+
+
+
+
+
+
+
+

COMMODITY CHARGE - In addition to the Minimum Customer Charge, for all water used as registered by the meter the Commodity Charge is 0.37424 per 100 gallons or \$3.7424 per 1,000 gallons.

+

MONTHLY FLAT RATE - Applicable to customers who do not have a water meter.

Rankin Acres \$58.00

Whitebranch \$58.00

Whitebranch (part-time) \$45.00

*
*
*

PAYMENT TERMS - All bills for service under this schedule will be rendered in arrears on a monthly basis. The due date on the tariff shall be ten (10) days after the "date of rendition" of the bill to the customer. The customer's bill will be due and payable after this due date. The delinquent date printed on the bill will not be less than twenty-one (21) days after the date of the postmark of the bill. Any accounts remaining unpaid at the expiration of twenty-one (21) days shall be considered delinquent and the Company may take such action as specified in its filed rules and regulations.

*
*
*
*
*

These rates do not include any municipal, state or federal taxes computed on either billing or consumption basis. Any such taxes applicable shall be added as separate items in rendering each bill.

Missouri-American Water Company

For

Missouri Service Area (Taney County, MO
and Vicinity)

Name of Issuing Corporation

Community, Town or City

**CLASSIFICATION OF SERVICE
GENERAL WATER SERVICE****Schedule of Rates**

Applicable to all water Customers located in the Company's certificated service territories.

Water Service Rates:

Monthly Customer Charge (5/8" meter)	\$11.07 per month
Monthly Customer Charge (1" meter)	\$25.52 per month
Monthly Customer Charge (2" meter)	\$78.53 per month
Monthly Usage Charge (for all usage > 2,000 gal/month)	\$0.71 per 1,000 gallons

Monthly Minimum Bill: Equals the applicable Monthly Customer Charge. The minimum monthly billing shall be billed Customer based on this charge. If a water meter is installed and in service the minimum monthly bill applies.

Taxes:

Any applicable Federal, State, or local taxes computed on billing basis shall be added as separate items in rendering each bill.

Late Payment Charge:

Billings will be made and distributed at monthly intervals. Bills will be rendered net, bearing the last date on which payment will then be considered delinquent. The period after which the payment is considered delinquent is twenty-one (21) days after rendition of the bill. A charge of five dollars (\$5.00) or three percent (3%) per month times the unpaid balance, whichever is more, will be added to delinquent amounts.

Returned Check Charge:

A returned check charge of twenty-five (\$25.00) per check will be paid on all checks returned from the bank for any reason.

Private Fire Protection

AVAILABILITY – This rate is available for fire protection systems installed on private property. Expense of the installations will be borne by the customer. If, in the opinion of the Company, a detector check meter is needed, the cost shall be a part of the installation. If a detector check meter has to be added to an existing service not having the check meter, the cost will be paid by the customer.

Fire Outlet or Tap Connection Size	Monthly Billing ¹	Annual Billing ¹
2" or Less	\$7.80	\$93.60
3"	\$25.17	\$302.04
4"	\$31.01	\$372.12
6"	\$69.81	\$837.72
8"	\$124.22	\$1,490.64
10"	\$194.03	\$2,328.36
12"	\$279.42	\$3,353.04

¹ Monthly billing for all customers, except that customers in St. Louis County may choose annual billing

PAYMENT TERMS - All bills for service under this schedule will be rendered in advance either on a monthly or on an annual basis. The due date on the tariff shall be ten (10) days after the "date of rendition" of the bill to the customer. The customer's bill will be due and payable after this due date. The delinquent date printed on the bill will not be less than twenty-one (21) days after the date of the postmark of the bill. Any accounts remaining unpaid at the expiration of twenty-one (21) days shall be considered delinquent and the Company may take such action as specified in its filed rules and regulations.

TAXES - These rates do not include any municipal, state or federal taxes computed on either billing or consumption basis. Any such taxes applicable shall be added as separate items in rendering each bill.

Rate J	
Rate for Manufacturers and Large Quantity Users of Water (Continued)	
<p><u>PRO-RATA ADJUSTMENT OF MONTHLY MINIMUM CHARGE</u> – If the customer is forced to close operations of its works for a period of 10 days or more on account of accidents, fires, damage to works, strikes of its own employees, act of God, governmental regulations or other physical cause not reasonably within its control, and customer gives water company written notice not later than forty days after such occurrence, the customer will be entitled to pro rata reduction in the monthly minimum charge which is based on 60% of the maximum usage during the previous months of June, July, August, or September for the period during which the customer is unable to use full water service for such cause.</p>	
<p><u>DURATION OF CLASSIFICATION</u> – Customers electing Tariff Rate J are required to remain in this classification for a period of at least twelve (12) months.</p> <p>A Rate J customer whose usage is less than 450,000 gallons per month more than two times during a twelve (12) month period will no longer meet the eligibility requirements of this classification.</p> <p>Customers who no longer meet the eligibility requirements of this classification, or elect to leave this classification, will be reclassified to Tariff Rate A, and must remain in the Rate A classification for a minimum of twelve (12) months and meet the monthly minimum usage requirements again before being reclassified under the Tariff Rate J.</p>	+
<p><u>PAYMENT TERMS</u> - All bills for service under this schedule will be rendered in arrears on a monthly basis. The due date on the tariff shall be ten (10) days after the "date of rendition" of the bill to the customer. The customer's bill will be due and payable after this due date. The delinquent date printed on the bill will not be less than twenty-one (21) days after the date of the postmark of the bill. Any accounts remaining unpaid at the expiration of twenty-one (21) days shall be considered delinquent and the Company may take such action as specified in its filed rules and regulations.</p>	+
<p><u>TAXES</u> - These rates do not include any municipal, state or federal taxes computed on either billing or consumption basis. Any such taxes applicable shall be added as separate items in rendering each bill.</p>	+

Bill Consolidation Tariff

DESCRIPTION AND TERMS:

To provide for the consolidation of water usage for billing purposes for customers in all districts owning and occupying contiguous properties served by multiple meters. Qualifying customers and facilities are those locations where a customer's property or contiguous properties are served by a single distribution main or distribution facility, although service is provided through more than one meter.

APPLICABILITY:

This consolidation will be provided to existing customers who apply and whose eligibility under the terms above is confirmed by the Company. Initiation of the bill consolidation for an existing customer will commence at the conclusion of the Company's next general rate case, except for The Boeing Company and Daimler Chrysler, for whom the experiment will start as soon as possible after the effective date of this tariff sheet. New customers may apply for such consolidation at the time service is requested. Bill consolidation will be applied for new customers to the first bill issued to the customer following application and the Company's confirmation of eligibility.

RATE CALCULATION

Customers qualifying for bill consolidation will be charged for each meter associated with each of the subject property or contiguous properties. Consumption rates under Rate J will be applied to the total aggregated usage of all meters at the property or contiguous properties to arrive at the total bill for service. For Rate J, the 60% maximum usage criteria for any of the months of June, July, August, or September will be based on the consolidated consumption volume. Thus, the customer's bill calculation will be governed by the rules for the Rate J tariff until such time the customer is no longer eligible under the Experimental Bill Consolidation Tariff.

Rate I Infrastructure System Replacement Surcharge (ISRS)			
<p>DESCRIPTION - Rate I is designed to recover the costs associated with the Company's eligible main, valve, and hydrant replacements, main relocations, and main cleaning and relining projects. This ISRS rate is calculated and implemented in accordance with the provisions of sections 393.1000 to 393.1006 RSMO. Any future changes to this rate will also be made in accordance with those provisions.</p> <p>APPLICABILITY - This rate is applicable to any customer class who benefits from the subject utility plant projects eligible for ISRS recovery. The surcharge is calculated consistent with the customer class cost-of-service study recognized by the Missouri Commission in a Company's recent applicable general rate proceeding.</p> <p>RATE COMPONENTS - In addition to the other charges provided for in the Company's tariffs, a separate charge for the ISRS will apply for service rendered on and after the effective date.</p>			
<u>Customer Rate Class</u>	<u>Rate per 100 Gallons</u>	<u>Rate per 1,000 Gallons</u>	
Rate A	\$0.02358	\$0.23581	+
Rate B	\$0.00073	\$0.00728	+
Rate J	\$0.00052	\$0.00518	+
<p>RULES AND REGULATIONS – The General Rules and Regulations set forth in this tariff shall govern the supply of service under this rate.</p> <p>PAYMENT TERMS - All bills for service under this schedule will be rendered in arrears on a monthly or quarterly basis. The due date on the tariff shall be ten (10) days after the "date of rendition" of the bill to the customer. The customer's bill will be due and payable after this due date. The delinquent date printed on the bill will not be less than twenty-one (21) days after the date of the postmark of the bill. Any accounts remaining unpaid at the expiration of twenty-one (21) days shall be considered delinquent and the Company may take such action as specified in its filed rules and regulations.</p> <p>TAXES - These rates do not include any municipal, state or federal taxes computed on either billing or consumption basis. Any such taxes applicable shall be added as separate items in rendering each bill.</p>

Missouri-American Water Company
Name of Issuing Corporation

For

St Louis County Operations
Community, Town or City**Rate I – Infrastructure System Replacement Surcharge (ISRS)**

DESCRIPTION: Rate I is designed to recover the costs associated with the Company's eligible main, valve, and hydrant replacements, main relocations, and main cleaning and relining projects. This ISRS rate is calculated and implemented in accordance with the provisions of sections 393.1000 to 393.1006 RSMO. Any future changes to this rate will also be made in accordance with those provisions.

APPLICABILITY: This rate is applicable to any customer class who benefits from the subject utility plant projects eligible for ISRS recovery. The surcharge is calculated consistent with the customer class cost-of-service study recognized by the Missouri Commission in a Company's recent applicable general rate proceeding.

RATE COMPONENTS: In addition to the other charges provided for in the Company's tariffs, a separate charge for the ISRS will apply for service rendered on and after the effective date.

Surcharge Rate (1)

	<u>Rate per CCF</u>	<u>Rate per 100 Gallons</u>	
Rate A & K Customers	\$.3477	\$.04644	+
Rate B Customers	\$.0241	\$.00325	+
Rate J Customers	\$.0134	\$.00176	+

RULES AND REGULATIONS: The General Rules and Regulations set forth in this tariff shall govern the supply of service under this rate.

(1) Exclusive of every tax or payment imposed upon the Company by any political subdivision of the State of Missouri, for the right to do business in such political subdivision.

Water & Sewer Infrastructure Replacement Surcharge (WSIRA)**DESCRIPTION** - Rate W is designed to recover costs associated with the Company's eligible infrastructure projects:

1) Replacement of or cleaning and relining of existing mains, hydrants, meters, service lines, laterals, sewer taps, curbstops and manholes, 2) Replacement of lead mains, goosenecks, lead service lines and associated valves and meters, 3) Replacement of booster station and lift station pumps, with equipment of similar capacity and operation, as well as related pipes, valves and meters, 4) Facilities relocations required due to construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain; provided that the costs related to such projects have not been reimbursed to the water or sewer corporation; 5) Replacement of water and wastewater treatment mechanical equipment with equipment of similar capacity and operation, including well and intake pumps, transfer pumps, high service or discharge pumps, and metering pumps, 6) Replacement of Supervisory Control and Data Acquisition Systems (SCADA) components necessary for the operation and monitoring of remote installations including radio and cellular communication equipment, and programmable logic controllers. The WSIRA rate is calculated and implemented in accordance with the provisions of sections 393.1500 to 393.1509 RSMO. Any future changes to this rate will also be made in accordance with those provisions.

APPLICABILITY - This rate is applicable to any customer class who benefits from the subject utility plant projects eligible for WSIRA recovery. The surcharge is calculated consistent with the customer class cost-of-service study recognized by the Missouri Commission in the Company's most recent general rate proceeding.

RATE COMPONENTS - In addition to the other charges provided for in the Company's tariffs, a separate charge for the WSIRA will apply for service rendered on and after the effective date.

<u>Customer Rate Class</u>	<u>Rate per 100 Gallons</u>	<u>Rate per 1,000 Gallons</u>
Rate A	\$0.15886	\$1.58864
Rate B	\$0.04890	\$0.48896
Rate J	\$0.03445	\$0.34453

RULES AND REGULATIONS – The General Rules and Regulations set forth in this tariff shall govern the supply of service under this rate.

PAYMENT TERMS - All bills for service under this schedule will be rendered in arrears on a monthly or quarterly basis. The due date on the tariff shall be ten (10) days after the "date of rendition" of the bill to the customer. The customer's bill will be due and payable after this due date. The delinquent date printed on the bill will not be less than twenty-one (21) days after the date of the postmark of the bill. Any accounts remaining unpaid at the expiration of twenty-one (21) days shall be considered delinquent and the Company may take such action as specified in its filed rules and regulations.

TAXES - These rates do not include any municipal, state or federal taxes computed on either billing or consumption basis. Any such taxes applicable shall be added as separate items in rendering each bill.

The WSIRA rate is calculated and implemented in accordance with the provisions of sections 393.1500 to 393.1509 RSMO. Any future changes to this rate will also be made in accordance with those provisions.</p> <p>APPLICABILITY - This rate is applicable to any customer class who benefits from the subject utility plant projects eligible for WSIRA recovery. The surcharge is calculated consistent with the customer class cost-of-service study recognized by the Missouri Commission in the Company's most recent general rate proceeding.</p> <p>RATE COMPONENTS - In addition to the other charges provided for in the Company's tariffs, a separate charge for the WSIRA will apply for service rendered on and after the effective date.</p> <table> <tr> <th>Customer Rate Class</th><th>Rate per 100 Gallons</th><th>Rate per 1,000 Gallons</th></tr> <tr> <td>Rate A</td><td>\$0.02559</td><td>\$0.25591</td></tr> <tr> <td>Rate B</td><td>\$0.00825</td><td>\$0.08246</td></tr> <tr> <td>Rate J</td><td>\$0.00894</td><td>\$0.08936</td></tr> </table> <p>RULES AND REGULATIONS – The General Rules and Regulations set forth in this tariff shall govern the supply of service under this rate.</p> <p>PAYMENT TERMS - All bills for service under this schedule will be rendered in arrears on a monthly or quarterly basis. The due date on the tariff shall be ten (10) days after the "date of rendition" of the bill to the customer. The customer's bill will be due and payable after this due date. The delinquent date printed on the bill will not be less than twenty-one (21) days after the date of the postmark of the bill. Any accounts remaining unpaid at the expiration of twenty-one (21) days shall be considered delinquent and the Company may take such action as specified in its filed rules and regulations.</p> <p>TAXES - These rates do not include any municipal, state or federal taxes computed on either billing or consumption basis. Any such taxes applicable shall be added as separate items in rendering each bill.</p>			Customer Rate Class	Rate per 100 Gallons	Rate per 1,000 Gallons	Rate A	\$0.02559	\$0.25591	Rate B	\$0.00825	\$0.08246	Rate J	\$0.00894	\$0.08936

RATE E
RATE FOR PUBLIC WATER SUPPLY DISTRICT 2

APPLICATION – This rate is applicable to water service provided to Public Water Supply District No. 2 ("District") in order to comply with the agreement dated August 23, 1997, between United Water Missouri ("Company") and the District, as well as subsequent amendments to that agreement. It is recognized that in accordance with said agreement and amendments, the Company has obtained the use of storage and well facilities owned by the District in exchange for certain operational responsibilities and charges. It is also recognized that the sources of water used by the District's customers are from its own wells and, in the course of operating the interconnected systems, also from the Company's treatment plant.

- (A) Pursuant to Paragraph 7 of the August 23, 1977 Agreement, the rate in this tariff shall be charged by the Company to the District for the quantity of water used by the District in any month in which the quantity of water used exceeds the maximum monthly quantity used in the previous calendar year, adjusted for growth in that calendar year, as determined by the formula set forth in Paragraph 7 of the Agreement.
- (B) To the extent that charges for water service have not been made under paragraph (A) above, this tariff rate shall apply to the net flow of "treatment plant" water from the Company to the District, as measured at the interconnections between the Company's and the District's systems, provided that there has been a net flow of "treatment plant" water into the District during the last 12-month period.

RATE – Per hundred cubic feet (CCF) \$2.4754

Minimum Customer Charge Rate for Low-Income Customers

AVAILABILITY- Customers that default on payments for two (2) consecutive months will no longer be eligible for this rate, and will not be allowed to requalify for twelve (12) months. Customers must reestablish eligibility on an annual basis. This rate will be available until the effective date of new rates in Missouri American Water's next general rate proceeding.

TARIFF QUALIFICATIONS

The program administrator will determine a customer's eligibility using the following criteria: the customer's household earnings meet the low-income guidelines for the Missouri Low-Income Home Energy Assistance Program (LIHEAP). Residential customers, who demonstrate a financial need and qualify for LIHEAP, should contact a local Community Action Agency referenced below or any subsequent program administrator whose contact information may be found on Missouri American Water's web site. Upon qualification for LIHEAP, residential customers with a 5/8" meter will receive a discount of 80% of the fixed 5/8" meter minimum customer charge. The current fixed monthly 5/8" meter minimum customer charge for St. Joseph, Brunswick, Platte County, and Lawson is \$9.00, the discount applied to the customer's monthly bill would be \$7.20.

Residential customers, who demonstrate a financial need and qualify for LIHEAP, should contact a local Community Action Agency referenced below or any subsequent program administrator whose contact information may be found on Missouri American Water's web site. Upon qualification for LIHEAP, residential customers with a 5/8" meter will receive a discount of 80% of the fixed 5/8" meter minimum customer charge. The current fixed monthly 5/8" meter minimum customer charge for District #2 is \$15.33, the discount applied to the customer's monthly bill would be \$12.26.

Missouri American Water Districts	County	Community Action Agency Contact (Available 8:00 am – 5:00 pm)
Brunswick	Chariton County	Missouri Valley Community Action Agency 660-548-3155
Parkville	Platte County	United Services Community Action Agency 816-858-5153
St. Joseph	Buchanan County	Community Action Partnership of Greater St. Joseph 816-233-8281

Availability

Customers that default on payments for two (2) consecutive months will no longer be eligible for this rate, and will not be allowed to requalify for twelve (12) months. Customers must reestablish eligibility on an annual basis. This rate will be available until the effective date of new rates in Missouri American Water's next general rate proceeding.
