3.9.1.4 Residential RZB-1 Service¹

Residential RZB-1 Service is available to Customers who enroll in Residential RZB Service on their primary line as described in this tariff who have two or more lines on their account.

Customers who subscribe to this voice service must 1) select and designate MCImetro as its Local Exchange Carrier (LEC) and MCI WorldCom telecommunications as both its Interexchange Carrier (IXC) for interstate and intrastate calling and as its intraLATA toll provider for intraLATA toll calling, 2) subscribe to Residential RZB Service as described in this tariff, and 3) concurrent with enrollment in this plan, customers must also enroll in the companion residential service offered in <http://www.mci.com/service> and in MCI WorldCom Communications Tariff No. 1.

A monthly recurring charge will apply to this service. This charge is identical to and shall not be in addition to any monthly recurring charge applicable to companion Federal Service or to companion State Service.

Touch tone is included in the monthly fee. The following are not included in the monthly recurring charge: non-recurring charges, operator assistance, directory assistance, directory listing options, interstate line charge, data/internet usage charge, blocking options, taxes, surcharges, per use charges and custom calling features not included in the list below. MCI WorldCom customers will be charged the intraLATA and long distance rates as specified in the companion residential long distance service as set forth in <http://www.mci.com/service> and MCI WorldCom Communications Tariff No. 1.

Customer will receive unlimited local usage. Customer will receive the following features, where facilities are available: Call Waiting, Caller ID, 3-Way Calling, Speed Dial 8, Anonymous Call Rejection.

The Company reserves the right to discontinue offering the service and grandfather existing customers on one day's notice to the Commission, in the event that 1) facilities are not available to the Company to adequately provide the service, and 2) such lack of facilities is the result of the failure of any carrier (from whom the Company is securing facilities to provide the service) to provide adequate service to the Company. The Company will abide by the Commission's discontinuance of service regulations regarding termination of service of a residential customer.

¹Effective August 24, 2002, Residential RZB-1 Service will no longer be available to new customers.

²This service is for voice use by residential customers. The Company reserves the right to adjust a customer's service upon appropriate customer notification. Usage for non-voice applications (e.g. dial-up internet service, fax service, etc.) is limited to 2000 minutes per month. If it is determined that non-voice usage exceeds these limits, the Company will notify the customers that the customer's usage exceeds the 2,000 minute allowance and give the customer one to two months to comply with the monthly allowance. If the customer remains out of compliance with the data usage limits, the Company may disconnect the customer's service after providing appropriate notice. The customer may continue to receive the service if he or she agrees to pay a \$50.00 monthly recurring data usage charge. The Company will abide by the Commission's notification of disconnect policies prior to disconnecting a customer in the event the customer refused to pay the \$50 monthly recurring data usage charge.

IntraLATA calls are not included in the monthly Residential RLD-2 charge. Customers who have selected MCI WorldCom as their primary intraLATA exchange carrier will be charged the intraLATA rates as specified in MCI WorldCom Communications Inc. Missouri PUC Tariff No. 1.

The Company reserves the right to discontinue offering the service and grandfather existing customers on one day's notice to the Commission, in the event that 1) facilities are not available to the Company to adequately provide the service, and 2) such lack of facilities is the result of the failure of any carrier (from whom the Company is securing facilities to provide the service) to provide adequate service to the Company.

This service is for use by residential customers. The Company reserves the right to adjust a customer's service upon appropriate customer notification. If it is determined that non-voice usage applications (including, but not limited to, dial-up internet service or facsimile service) exceed reasonable limits, the Company may use its discretion either to disconnect the customer's residential service upon appropriate customer notification or to charge a \$50 monthly recurring data/internet usage charge in addition to all charges set forth in customer's residential service.

Residential RLD-4 Service

Customers who subscribe to this voice service will receive one home phone line that includes touch-tone service.

Customer will receive unlimited local exchange service. Customers receive the following features, where facilities are available: Call Waiting, 3-Way Calling, Anonymous Call Rejection. Customers will receive Block 900 & 976 with this service at no additional charge. Customers of Lifeline service are not eligible to receive this product.

The following are not included in the monthly line charge: non-recurring charges, operator assistance, directory assistance, directory listing options, Interstate line charge, data/internet surcharge, blocking options, taxes, surcharges, custom calling features not included in features. Usage from any other residential service offerings cannot be aggregated with this service. Customers will receive Block 900 & 976 with this service at no additional charge.

IntraLATA calls are not included in the monthly Residential RLD-4 charge. Customers who have selected MCI WorldCom as their primary intraLATA exchange carrier will be charged the intraLATA rates as specified in MCI WorldCom Communications Inc., MO PSC Tariff No. 1.

The Company reserves the right to discontinue offering the service and grandfather existing customers, in the event that 1) facilities are not available to the Company to adequately provide the service, and 2) such lack of facilities is the result of the failure of any carrier (from whom the Company is securing facilities to provide the service) to provide adequate service to the Company.

This service is for use by residential customers. The Company reserves the right to adjust a customer's service upon appropriate customer notification. If it is determined that usage is not consistent with residential voice applications, customers service may be assessed a \$50 monthly recurring data/internet usage charge or disconnected.

Service Commission

The following features are provided where facilities are available:

Anonymous Call Rejection (ACR):

Rejects incoming call that have been marked anonymous or blocked.

Call Forwarding: Automatically routes all incoming local or long distance calls to any number customer specifies (maximum 24 digits). The customer will hear a short ring on the forwarded line each time a call is forwarded as a reminder that this feature is activated. Call Forwarding may ring once before the call is forwarded but the call cannot be answered. The user has control of the activation and deactivation process, but only from the base station where the feature is provisioned. Applied on a per line basis. Cannot be selected with Remote Access Call Forwarding

Call Forwarding Busy: Automatically forwards calls to a pre-selected telephone number on a different premise when the called telephone number is busy. Applied on a per line basis. Cannot be selected with Voicemail.

Call Forwarding Busy with Customer Control: Includes the Call Forwarding Busy feature and in addition provides the capability to Activate or Deactivate Call Forwarding Busy from the base station using dial codes. Applied on a per line basis. Cannot be selected with Call Forwarding Busy, Multi-ring 2, Multi-Ring 3, or Voicemail.

Call Forwarding No Answer: Automatically forwards unanswered incoming calls to an alternate TN after a pre-selected number of rings (customer may select between 2 and 7 rings). Cannot be selected with Voicemail. The customer must specify the number to which calls are forwarded and the approximate number of ringing cycles at the time the feature is ordered. Applied on a per line basis.

Call Forwarding No Answer with Customer Control: Includes the Call Forwarding No Answer feature and provides the capability to activate or deactivate Call Forwarding No Answer from the base station using dial codes. Applied on a per line basis. Cannot be selected with Call Forwarding No Answer, Call Forwarding No Answer w/ Ring Control, Multi-ring 2, Multi-ring 3, or Voicemail. The customer must specify the number to which calls are forwarded and the approximate number of ringing cycles at the time the feature is ordered.

Call Forwarding No Answer with Ring Control:

Allows subscribers real-time control over the number of seconds, or ring cycles that occur prior to forwarding an unanswered call to voice mail or another telephone number. Applied on a per line basis. Cannot be selected with Call Forwarding No Answer, Call Forwarding No Answer w/ Customer Control, or Voicemail. The customer must specify the number to which calls are forwarded.

The following features are provided where facilities are available:

Anonymous Call Rejection (ACR):

Rejects incoming call that have been marked anonymous or blocked.

Call Waiting: When on a call, Call Waiting alerts the customer with a special tone that another call is waiting. It allows the waiting call to be answered without disconnecting from the existing call. Allows switching between the calls whenever desired. Allows either call to be ended at any time. The customer has the ability to disable and reactivate the feature at will.

Caller ID-Number Only: This feature enables the customer to view on a display unit the Directory Number of incoming telephone calls. When Caller ID - Number Only is activated on a customer's line, the Directory Numbers of incoming calls are displayed on the called CPE during the first long silent interval of the ringing cycle with the exception of numbers where the caller is marked "private". The number information is only transmitted when the customer's receiver is on-hook. Calling party number information via Caller ID - Basic is not available on operator handled calls. Utilization of the full capabilities of Caller ID- Number Only requires the use of an Analog Display Services Interface (ADSI) - compatible telephone at the customer's premises. The installation, repair and the technical capability of the ADSI-compatible CPE to function in conjunction with the features specified herein is the responsibility of the customer.

Caller ID - Name and Number: This feature enables the customer to view on a display unit the Directory Name and Directory Number on incoming telephone calls. A maximum of 15 characters is allowed for transmission of the calling party name. When Caller ID - Name and Number is activated on a customer's line, the Directory Name and Directory Number on incoming calls will be displayed on the called CPE during the first long silent interval of the ringing cycle. The date and time of the call is also transmitted to the Caller ID - Name and Number customer. Utilization of the full capabilities of Caller ID- Name and Number requires the use of an Analog Display Services Interface (ADSI) - compatible telephone at the customer's premises. The installation, repair and the technical capability of the ADSI-compatible CPE to function in conjunction with the features specified herein is the responsibility of the customer.

Call Waiting ID - Name and Number: When the customer is on the phone and receives another call, Call Waiting Id displays the name and number of the incoming caller.

Speed Dial- 8: This provides for the calling of pre-selected telephone numbers by dialing an abbreviated code for up to 8 phone numbers. When the designated code is entered, the telephone number assigned to the code will be dialed.

Three Way Calling: Allows another party to be added to a call already in progress. The added party may be local or long distance. Toll or local measured service charges will apply to each leg of a Three Way Call.

Repeat Dialing (66): Repeat Dialing, when activated, automatically redials the last number the customer attempted to call. If the called line is not busy, the call will be placed. If the called line is busy, a confirmation announcement is heard. The customer hangs up and a queuing process begins. For the next 30 minutes, both the calling and called lines are checked periodically for availability to complete the call. If during this queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place the call. When the customer picks up the telephone the call will automatically be placed. In some locations, due to technological limitations Repeat Dialing must be purchased with Call Return.

Call Return (69): This feature enables the customer to dial back the number of the last incoming call whether the call was answered or not. If the line is busy call return will keep trying to complete the call for 30 minutes.

Call Trace (57) This feature provides a detailed record of the last incoming call, including call-waiting calls. It automatically records the phone number, time, and date of the call. MCI security processes this information and provides it to the appropriate law enforcement agency should customer decide to file a complaint.

Three-Way Calling (71) Allows another party to be added to a call already in progress. The added party may be local or long distance. Toll or local measured service charges will apply to each leg of a Three Way Call.

3.10 Small Business Service

Service Commission

- A. Application of Small Business Service: Small Business service is defined as service that is furnished primarily or substantially of a business professional, institutional, or otherwise occupational nature. The Company reserves the right to disconnect customer's Small Business service upon appropriate customer notification if it is determined that usage is not consistent with normal business applications.
- B. Rates and Charges: Usage charges are based on local usage. Chargeable time for the customer shall begin when the called party answers and shall end upon disconnection by either party. Local calls are billed on a per call basis unless otherwise indicated. Calls are rounded to the next higher full minute. If the computed charge includes a fraction of a cent, the fraction is rounded to the nearest whole cent. Per-call calls will be charged according to the rate period the call originates in.
- C. All Small Business service set forth in this Section of this tariff is presently only available to those customers who presently have service on lines with Southwestern Bell Telephone or with MCImetro or another carrier who provisions service either via resale of Southwestern Bell Telephone services or via UNE-Platform service provided by Southwestern Bell Telephone.

3.10 Small Business Service (Cont.)

3.10.9 Features and Options

The following features are available on customer's primary or additional lines for customers subscribing to Small Business Service on or after June 1, 2003. For customers subscribing to Small Business Service prior to June 1, 2003, the following features only are available: Call Forwarding, Call Waiting, Caller ID-Name and Number, Call Waiting ID-Name and Number, Speed Calling 8, and Three Way Calling; these features may be included on customer's primary line only. T/N

Call Forwarding: Automatically routes incoming calls to a designated answering point, regardless of whether the user's station is idle or busy.

Call Waiting: When on a call, Call Waiting alerts the customer with a special tone that another call is waiting. It allows the waiting call to be answered without disconnecting from the existing call. Allows switching between the calls whenever desired. Allows either call to be ended at any time. The customer has the ability to disable and reactivate the feature at will.

Caller ID - Name and Number: This feature enables the customer to view on a display unit the Directory Name and Directory Number on incoming telephone calls. A maximum of 15 characters is allowed for transmission of the calling party name. When Caller ID - Name and Number is activated on a customer's line, the Directory Name and Directory Number on incoming calls will be displayed on the called Customer Provided Equipment (CPE) during the first long silent interval of the ringing cycle. The date and time of the call is also transmitted to the Caller ID - Name and Number customer. Caller ID - Name and Number also includes Anonymous Call Rejection (ACR). Utilization of the full capabilities of Caller ID- Name and Number requires the use of an Analog Display Services Interface (ADSI) - compatible telephone at the customer's premises. The installation, repair and the technical capability of the ADSI-compatible CPE to function in conjunction with the features specified herein is the responsibility of the customer. Customer selecting this feature will also receive the Anonymous Call Rejection feature at no additional charge. N

Call Waiting ID - Name and Number: When the customer is on the phone and receives another call, Call Waiting Id displays the name and number of the incoming caller. Customer selecting this feature will also receive the Anonymous Call Rejection feature at no additional charge. N

Speed Dial- 8: This provides for the calling of pre-selected telephone numbers by dialing an abbreviated code for up to 8 phone numbers. When the designated code is entered, the telephone number assigned to the code will be dialed. T

Three Way Calling: Allows another party to be added to a call already in progress. The added party may be local or long distance. Toll or local measured service charges will apply to each leg of a Three Way Call.

The following features are available on customer's primary or additional lines at no additional charge:

Hunting-Sequential: Incoming calls are routed to a sequence of telephone numbers ("Hunt Group") on the account; the sequence is selected by the customer. Once the incoming call arrives at the last line in the Hunt Group, the line will either ring, provide a busy signal, or be sent to voice mail.

Hunting - Circular: Incoming calls are routed to a sequence of telephone numbers ("Hunt Group") on the account; the sequence is selected by the customer. Once the incoming call arrives at the last line in the Hunt Group, if the line is busy, the call will circle back to the first line in the Hunt Group, which will either ring, provide a busy signal, or send the call to voice mail.

3. Service Descriptions(Cont'd)

3.10 Small Business Service (Cont.)

Features and Options (Cont'd)

Anonymous Call Rejection (ACR): Rejects incoming calls that have been marked private or anonymous.

Call Forwarding-Busy: Allows the end-user to forward calls outside the end-user's switch type when the called telephone number is busy. Incoming calls are forwarded to a predetermined Call Forwarding Number. The Call Forwarding Number can be across state lines or outside of LATA boundaries, but local or long distance toll charges will apply from the call forwarding number to the forwarded-to number. Cannot be selected with Call Forwarding - Busy & No Answer or Call Forwarding No Answer.

Call Forwarding-No Answer: Automatically forwards unanswered incoming calls to an alternate telephone number after a pre-selected number of rings. Incoming calls are forwarded to a predetermined Call Forwarding Number. The Call Forwarding Number can be across state lines or outside of LATA boundaries, but local or long distance toll charges will apply from the call forwarding number to the forwarded-to number. Cannot be selected with Call Forwarding - Busy & No Answer or Call Forwarding Busy.

Call Forwarding-Busy & No Answer: Incoming calls may be forwarded to a long distance number pre-selected by the customer, but local or long distance toll charges will apply from the call forwarding number to the forwarded-to number. Calls must be forwarded to the same Call Forwarding Number on both a busy line condition and when the telephone is not answered after a predetermined Ringing Cycle. To forward calls to different Call Forwarding Numbers, separate features must be ordered. Cannot be selected with Call Forwarding-Busy or Call Forwarding-No Answer. Applied per line.

Call Return (*69): Enables the customer to dial back the number of the last incoming call whether the call was answered or not. Applied on a per line basis. Cannot be selected with Block Call Return.

Call Screening: This feature provides the customer the ability to prevent incoming calls from up to six different telephone numbers.

Caller ID - Name: This feature enables the customer to view on a display unit the Directory Name on incoming telephone calls. A maximum of 15 characters is allowed for transmission of the calling party name. When Caller ID - Name is activated on a customer's line, the Directory Name and on incoming calls will be displayed on the called Customer Provided Equipment (CPE) during the first long silent interval of the ringing cycle. The date and time of the call is also transmitted to the Caller ID - Name customer. Utilization of the full capabilities of Caller ID- Name requires the use of an Analog Display Services Interface (ADSI) - compatible telephone at the customer's premises. The installation, repair and the technical capability of the ADSI-compatible CPE to function in conjunction with the features specified herein is the responsibility of the customer.

Caller ID-Number Only: This feature enables the customer to view on a display unit the telephone number of the calling party. Requires display screen, purchased separately by customer from an appropriate vendor. Applied per line. Cannot be selected with Caller ID - Name and Number.

Repeat Dialing (66): Repeat Dialing, when activated, automatically redials the last number the customer attempted to call. If the called line is not busy, the call will be placed. If the called line is busy, a confirmation announcement is heard. The customer hangs up and a queuing process begins. For the next 30 minutes, both the calling and called lines are checked periodically for availability to complete the call. If during this queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place the call. When the customer picks up the telephone the call will automatically be placed. In some locations, due to technological limitations Repeat Dialing must be purchased with Call Return.

Call Return (69): This feature enables the customer to dial back the number of the last incoming call whether the call was answered or not. If the line is busy call return will kept trying to complete the call for 30 minutes.
