1.1.1 This tariff applies to telephone service furnished or made available by the Southwestern Bell Telephone Company in the state of Missouri and is governed by the General Exchange Tariff, P.S.C. Mo.-No. 35, which is hereby made a part of this tariff. The charges quoted are for periods of one month and are payable monthly in advance.

1.1.2 Where Extended Area Service is provided which involves an exchange or zone of Southwestern Bell Telephone Company and another telephone company, Extended Area Service rate additives apply to all customers served from the Southwestern Bell Telephone Company exchange or zone.

1.1.3 Multiparty Service

At locations where facilities permit, multiparty service is not offered to customers requesting new telephone service or to customers requesting a change in their existing telephone service.

Those locations in which facilities permit the exclusive provision of one-party service for all customers within the area will be designated on the appropriate Exchange Area Map, Zone Area Map and/or Base Rate Area Map of the Local Exchange Tariff approved by the Missouri Public Service Commission. Existing multiparty customers will be allowed to continue their service until such time as they are upgraded by the Telephone Company as shown on the approved maps. At the time the customer's multiparty service is upgraded to one-party service, the application of the normal Service and Equipment Charge will not apply.

The multiparty conversion will consist of the following:

1. The Telephone Company will remove the party-line instrument adapter, or, if modifiable, rewire the instrument. The customer will not be charged for a premises visit or for rewiring the instrument when required.
2. One-party rates will be effective for each customer on the date the customer's service is upgraded to one-party service. Where service is furnished to customers located outside the base rate area, a mileage charge also applies as specified in Section 12 of the General Exchange Tariff.

This promotion will also provide for a waiver of the installation charges associated with both the access line and additional services. This promotion may not be used in conjunction with any other discounts on multi-line hunting lines or on the additional services in this offer.

If a customer disconnects the line and/or any required additional services prior to the end of their commitment, they will be charged and billed a sum that equals the total of the discounts they received for the package components while they were under term plus all waived installation charges. The termination liability will be billed on the customer's next bill, following early termination.

This promotion offers optional term discounts for business customers and waives applicable nonrecurring Service and Equipment Charges associated with installation of the line. This promotion will be available from August 29, 2003 through July 14, 2004. This promotion is also known as The SBC MegaSaver Plan. Eligible services under this promotion are Flat Rate 1-Party, Multi-Line and Flat Rate Trunk Local Exchange Service. Business Flat Rate Access Line and Trunk Services that rate reference the eligible services listed above are also eligible for the promotion. The Promotion provides for 12-, 24-, 36-, month discounts.

All rules, regulations, fees and surcharges normally applicable to eligible services apply. Applicable Service and Equipment Charges as contained in the Local Exchange Tariff, will be waived.

Customers subscribing to the promotion must commit to a service agreement in a form designated by SBC Missouri establishing the term period and discount percentage to be applied to the monthly rate in effect at the time the customer enters into the service agreement. The discount rate will remain fixed through the life of the commitment, however, if the base flat rates for lines/trunks change, the price per month will change accordingly.

Customers may choose to terminate an existing service agreement before the end of the term period without paying termination charges as long as they negotiate a new service agreement that is greater than the existing term and contains an equal or greater number of Business Access Lines than their existing service agreement. The new service agreement will be based upon the monthly Business Access Line Rates in effect at the time the new service agreement is established. Termination charges will also not apply if a customer upgrades to another SBC Missouri service under a service contract whose term period is equal to or greater than the term period remaining on the service agreement being terminated. Customers requesting the termination of a service agreement prior to the expiration date, excluding the circumstances mentioned above, will be charged a termination charge.

Upon expiration of a service agreement, the service will automatically be billed at the monthly rates set forth in the Local Exchange Tariff, in effect at the time the service agreement expires unless a new service agreement is negotiated.
