6.1 DESCRIPTION

6.1.1 General

REC'D JAN 28 2000

AT&T MEGACOM 800 Service is a custom switched telecommunications service which permits inward 800 number calling from stations located in the State of Missouri to an AT&T MEGACOM 800 Service Central Office. Intrastate service is an add on to the interstate AT&T MEGACOM 800 Service provided in this Company's Tariff F.C.C. No. 2. AT&T MEGACOM 800 Service rates and charges apply to calls completed from calling stations to AT&T MEGACOM 800 Service Central Offices. Customers may subscribe to the basic service which includes the entire state or to customer selected NPA(s) within the state. Calls from points outside the selected NPA(s) will be blocked. AT&T MEGACOM 800 Service calls are dialed and completed without the assistance of a Company operator, and do not include.

- Person-to-Person calls,
- Collect calls,
- Conference calls,
- Any other classification of operator handled calls.

6.2 REGULATIONS

6.2.1 Provision of AT&T MEGACOM 800 Service

AT&T MEGACOM 800 Service is offered under this tariff subject to the availability of suitable service components furnished by this Company or obtained from others. The Company will determine which of those components shall be used and make modifications to those components at its option. "Service components" shall include, but not be limited to, the existence of access and/or billing arrangements on an originating and/or terminating basis. In the absence of access arrangements between the Company and the access provider at a particular Station, a Customer may be unable to place calls from or to the affected Station.

AT&T MULTIQUEST SERVICE

8.1 DESCRIPTION

DEC 18 1997

8.1.1 General

AT&T MultiQuest Service is a custom switched telecommunications service which permits interactive communications via a 900 number from locations within the State of Missouri to an AT&T MultiQuest Service Central Office. Intrastate service is an automatic add-on to the interstate AT&T MultiQuest Service provided in this Company's Tariff F.C.C. No. 1. The AT&T assigned 900 prefix telephone number(s) will provide recorded and/or live customer information to the caller.

AT&T will provide, upon written request from any caller to AT&T MultiQuest Service, the customer's name, address and local exchange telephone number as indicated on the Company's records.

The customer must maintain an adequate number of access lines for AT&T MultiQuest Service to handle the customer's expected demand in order to prevent interface or impairment of this service or any other service provided by the Company considering, (1) total call volume and (2) peak calling period. When a customer's total number of busy and ring/no answer calls exceeds 25% of all calls (completed calls, ring/no answers and busies) for three consecutive billing periods, the Company, without incurring any liability, may disconnect or refuse to furnish AT&T MultiQuest Service to that customer. In case of disconnection, the customer will be notified at least five days in advance of the disconnect. Notification may be by mail or in person.

Customer advertisements, publications or any other communication containing the AT&T MultiQuest Service telephone number shall contain:

- A. the period of time customer information is available to the caller;
- B. a statement informing the caller that a call to AT&T MultiQuest Service may be connected to an acknowledgment or to a message provided by the customer, or may be answered personally; and
- C. any geographic limitations.

8.2 REGULATIONS

8.2.1 Provision of AT&T MultiQuest Service

AT&T MultiQuest Service is offered under this tariff subject to the availability of suitable service components by this Company or obtained by others. The Company will determine which of those components shall be used and make modifications to those components at its option. "Service components" shall include, but not be limited to, the existence of access and/or billing arrangements on an originating and/or terminating basis. In the absence of access arrangements between the Company and the access provider at a particular Station, a Customer may be unable to place calls from or to the affected Station. Service will be provided where facility and billing capability exist. (AT)

8.2.2 Availability

AT&T MultiQuest Service is available at designated AT&T MultiQuest Service Central Offices specified in this Company's Tariff F.C.C. No. 10.

8.2.3 Minimum Payment Period

The minimum payment period for AT&T MultiQuest Service is one month.

8.2.4 Notice of Discontinuance

The customer's order to discontinue service must be received by the Company one month prior to the day on which the service is to be discontinued. Monthly recurring charges apply for that period from the date the Company receives the discontinuance notice or until the requested discontinuance date, whichever is later. The charges will continue to apply whether or not the customer continues to use the service.

8.2.5 Cancellation of an Order

The minimum period to cancel an order for AT&T MultiQuest Service without liability, is 30 days prior to the originally requested service date. For orders canceled on less than 30 days' notice, a cancellation charge applies. The cancellation charge is 1/30 of the sum of the basic service monthly charge, installation charge and the additional telephone number monthly charge, if applicable. The cancellation charge is applied to each day less than the required 30 days' notice.

8.2.6 Retention of 900 Telephone Number

Nothing herein or elsewhere in this tariff shall give any Customer, assignee or transferee any interest or proprietary right to any AT&T MultiQuest Service 900 telephone number.

8.2.7 Facility Call Volume Capacity

The call volume capacity of the facilities used to furnish AT&T MultiQuest Service is limited. Calling volumes in excess of that capacity could interfere with the operation of the telecommunications network and adversely affect other services offered by the Company that use the telecommunications network. Accordingly,

- A. each customer request for AT&T MultiQuest Service will be evaluated by the Company with respect to the possibility of adverse impact upon other services on the telecommunications network. Only those AT&T MultiQuest Service arrangements which, in the judgment of the Company, will not adversely impact other services will be furnished; and
- B. AT&T MultiQuest Service may be temporarily suspended when the calling volume and/or characteristics adversely affect other telecommunications network services. No usage charges will be incurred during the period that the service is suspended.

8.2.8 Continuity of Information

The Customer is responsible for the continuity and audio quality of any messages provided to the AT&T MultiQuest network. If the audio quality is unacceptable (e.g., noisy, level too low), the Company may suspend service until the unacceptable condition is corrected. No usage charges will be incurred during the period that the service is suspended.

AT&T One Line WATS Service in Missouri is a custom service which permits direct dialed calling from stations located in the State of Missouri to any station located in the State of Missouri outside the LATA in which the call is originated*. Because the AT&T One Line WATS Service in Missouri is an add on to the interstate AT&T WATS Service, only the intrastate usage rates for that service are provided in Section 9.4.1 of this tariff. The rates for the One Line WATS Access Line, interstate usage charges, non-recurring charges, and volume discounts are provided pursuant to the terms of AT&T's Tariff F.C.C. No. 2, Sec. 3.6.1. AT&T One Line WATS Service calls are dialed and completed without the assistance of a company operator, and do not include:

- Person-to-Person calls,
- Collect calls,
- Operator handled conference calls,
- Any other classification of operator handled calls.

* 1+ intraLATA calls will be handled and billed by the Local Exchange Company.

AT&T 800 PLAN K*

**Missouri Public
Service Commission**

13.1 DESCRIPTION

13.1.1 General

REC'D JAN 28 2000

AT&T 800 Plan K is a custom switched telecommunications service which permits inward 800 number calling from stations located in the state of Missouri to a station associated with a Customer's local exchange telephone number. Intrastate AT&T 800 Plan K is an add-on to the interstate AT&T 800 Plan K Service and is available only to customers who subscribe to the interstate service provided in this Company's Tariff F.C.C. No. 2. AT&T 800 Plan K rates and charges apply to calls completed from calling stations to a telephone number associated with the Customer's local exchange service access line. Customers may receive calls from the entire state, or from customer selected NPAs within the state. If a customer selects NPAs, calls from points outside of the selected NPAs will be blocked.

AT&T 800 Plan K calls are dialed and completed without the assistance of a Company operator, and do not include:

- Person-to-Person calls
- Calling Card calls
- Collect calls
- Conference calls
- Any other classification of operator handled calls

AT&T 800 Plan K consists of an 800 telephone number associated with a Customer's local exchange telephone number. AT&T 800 Plan K is provided on a Customer's existing local exchange access line, which is not obtained under this tariff.

13.2 REGULATIONS

13.2.1 Provision of AT&T 800 Plan K

AT&T 800 Plan K is offered under this tariff subject to the availability of suitable service components furnished by this Company or obtained from others. The Company will determine which of those components shall be used and make modifications to those components at its option. "Service components" shall include, but not be limited to, the existence of access and/or billing arrangements on an originating and/or terminating basis. In the absence of access arrangements between the Company and the access provider at a particular Station, a Customer may be unable to place calls from or to the affected Station.

A. Usage Charges

AT&T 800 Plan K has two optional rate schedules available: Option A, at a per minute rate and Option B at a block-of-time rate schedule.

Option A

Usage charges are billed in arrears. Usage is billed per AT&T 800 Plan K telephone number and charges are calculated on a per call basis. Individual calls will be measured with a minimum initial period of 1 minute and additional 1 minute increments, rounded to the next highest minute or full increment. Total usage charges will be rounded to the nearest cent

Option B

Usage charges for Option B are determined on a minimum average time requirement. Usage is billed per AT&T 800 Plan K telephone number. Charges for total chargeable hours will be determined and rounded to the nearest cent.

MISSOURI
Public Service Commission

Customer specific special arrangements may be furnished in addition to existing tariff offerings. Rates, terms, and conditions plus any additional regulations, if applicable, for the special service arrangements will be developed upon the customer's request. Unless otherwise specified, regulations for the special service arrangements are in addition to the applicable regulations specified in other sections of this tariff. Special service arrangements are established for specialized or customized customer service requirements and are not available for contract pricing.

The specific terms and conditions applicable to each special service arrangement will be described below.

A. FEDERAL TELECOMMUNICATIONS SYSTEM (FTS 2000)

AT&T has contracted with the General Service Administration (GSA) to provide telecommunications services to support FTS 2000. FTS 2000 is a communications system that provides interstate and intrastate telecommunications services only to agencies of the United States government. The intrastate portion of these services is provided as an add-on to the interstate service. The FTS 2000 contract will be renegotiated during fourth and seventh year of the ten year term.

2. Timing of Messages

- a. On AT&T PRO WATS/Plan Q Service calls, chargeable time begins when connection is established between the calling telephone and the called telephone, Miscellaneous Common Carrier mobile radio system or PBX System.
- b. Chargeable time ends when the calling station "hangs-up", thereby releasing the network connection. If the called station "hangs-up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the telephone network.
- c. When AT&T PRO WATS/Plan Q Service is connected to a customer provided communications system through a service terminating arrangement or connecting arrangement, chargeable time begins when a call from the telecommunications network terminates in or passes through the first multiline terminating system or terminal equipment on that communications system. It is the customer's responsibility to furnish appropriate answer supervision to the point of connection with the telephone service so that chargeable time may begin.

A. SCHEDULE A Usage Discounts

The Volume Discount offers a customer a discount based on total gross qualified usage charges billed to the customer's AT&T PRO WATS/Plan Q Service Main Billed Account. The same percent discount will be applied to every dollar of usage, based on the highest discount level attained by a customer as indicated below (the discount is not applied on an incremental basis). Usage charges in excess of \$10,000 will not be discounted.

<u>Monthly Usage Volume</u>	<u>Discount Level</u>
Over \$1000.00	15%

A discount of 10% is automatically applied to the total billed amount of all eligible calls to the single area code with the highest monthly usage charges. At the option of the Customers, one additional area code having the next highest usage charges will be included under the discount plan.*

In addition, a discount applies, equal to 10% of the total eligible, intrastate and interstate gross monthly usage charges, billed to the Customer's Main Billed Account, for the Dial Station calls and AT&T Customer Dialed CIID/891 Calling Card calls that are not included in the gross monthly usage charges used in applying the Area Code Discount specified above.

* Beginning February 13, 1995, AT&T PRO WATS/Plan Q Service Optional Area Code Discount is not available to new customers who do not have the AT&T PRO WATS/Plan Q Service Optional Area Code Discount on order by February 13, 1995.

Reimbursement Promotion **MO. PUBLIC SERVICE COMM**

Beginning with the effective date of this tariff and ending December 31, 2000, AT&T will offer the following promotion to new and existing Customers who enroll and concurrently convert their lines from another interexchange carrier's switched service to AT&T CustomNet Simply Better Flexible Pricing Option. All converted lines associated with this promotion must be installed no later than January 5, 2001.

Specifically, under this promotion, AT&T will reimburse Customers, a total of \$5.00 for the interexchange carrier's Carrier Change Charge for each outbound line that the Customer converts for intraLATA use under this promotion from the switched services of another interexchange carrier to AT&T as their primary carrier.

The Customer will receive the \$5.00 PIC reimbursement in the form of a bill credit that will appear on the Customer's AT&T CustomNet Simply Better Flexible Pricing Option bill no later than the third full billing month after enrollment in this promotion. The \$5.00 intraLATA PIC reimbursement will be assessed on a per-line basis. If the Customer changes both the interstate interLATA PIC and the intrastate intraLATA PIC on the same line and at the same time, only the interLATA PIC charge will be reimbursed at \$5.00 per line. There is a limit of one such reimbursement per-line per-Customer, which applies whether or not a reimbursement is made pursuant to this promotion or any other promotion.

Customers enrolling in this promotion are ineligible for any other PIC reimbursement for the services associated with this promotion.
