Mr. Steven Reed, Executive Secretary
Missouri Public Service Commission
200 Madison Street
Suite 500
Jefferson City, MO 65102-0360

RE: Hypercube Telecom, LLC
P.S.C MO No. 1 (Access)

Dear Mr. Reed:

Enclosed for filing please find the original of the above referenced tariff filing submitted on behalf of Hypercube Telecom, LLC. This filing implements the Federal Communications Commission's second phase of the intercarrier compensation restructuring, WC Docket No. 07-135 et al., mirroring interstate access rates and rate structures. This filing also adds text to Calculation and Application of Percent-VoIP-PSTN Usage Factors. The Company respectfully requests an effective date for this filing of July 1, 2013.

The following tariff pages are included with this filing:

2 nd Revised Page 28.3	Adds text to Calculation and Application of Percent-VoIP-PSTN Usage Factors
2 nd Revised Page 28.4	Adds text to Calculation and Application of Percent-VoIP-PSTN Usage Factors
3 rd Revised Page 50	Makes text changes and removes terminating access rates; moves text
2 nd Revised Page 51	Location for moved text; refers terminating access traffic to the Company's FCC Tariff No. 4 and refers current rates to Section 4.5.3 of the intrastate tariff.

Any questions you may have regarding this filing should be directed to my attention at 407-740-3002 or via email to cwightman@tminc.com. Thank you for your assistance in this matter.

Sincerely,

/s/ Connie Wightman
Consultant

ACCESS SERVICES TARIFF

SECTION 2 - RULES AND REGULATIONS, (CONT'D.)

2.3 Obligations of the Customer, (Cont'd.)

2.3.5 Identification and Rating of Toll VoIP-PSTN Traffic, (Cont'd.)

D. Rating of Toll VoIP-PSTN Traffic

The relevant Toll VoIP-PSTN Access Traffic identified in accordance with this tariff section will be billed at rates equal to the Company's applicable tariffed switched access rates as specified in Section 4 of this tariff.

E. Calculation and Application of Percent-VoIP-Usage Factor

For the Customer that selects Option 1 – Self Reporting, the Company will determine the number of relevant VoIP PSTN Traffic minutes of use ("MOU") to which interstate rates will be applied under subsection D, above, by applying a Percent VoIP Usage ("PVU") factor to the total intrastate access MOU exchanged between a the Company and the Customer. By default, the effective PVU will be equal to the total number of incumbent LEC and non-incumbent LEC VoIP subscriptions in the State divided by the sum of those reported VoIP subscriptions plus incumbent LEC and non-incumbent LEC switched access lines, based on the FCC's Local Competition Report, as released periodically. If the Customer proposes to use a different PVU, it must be derived and applied as follows:

1. Except as otherwise noted in Section 2.3.5.E.3 below, the Customer will calculate and furnish to the Company a factor (the "PVU-A") representing the whole number percentage of the total terminating intrastate access MOU that the Customer exchanges with the Company in the State, that is sent to the Company and that originated in IP format. Beginning July 1, 2014, the Customer's PVU-A shall be based on access MOU the Customer exchanges with the Company in the State that is (a) sent to the Company that originated in IP format, (b) is received from the Company and terminated in IP format, or (c) indicated via the JIP parameter (RFC-5503). This PVU-A shall be based on information that is verifiable by the Company such as traffic studies, actual call detail, or other relevant and verifiable information. (T)

ACCESS SERVICES TARIFF

SECTION 2 - RULES AND REGULATIONS, (CONT'D.)

2.3 Obligations of the Customer, (Cont'd.)

2.3.5 Identification and Rating of Toll VoIP-PSTN Traffic, (Cont'd.)

E. Calculation and Application of Percent-VoIP-Usage Factor, (Cont'd.)

2. Except as otherwise noted in Section 2.3.5.E.3 below, the Company will, likewise calculate a factor (the "PVU-B") representing the whole number percentage of the Company's total terminating intrastate access MOU in the State that terminates in IP format. Beginning July 1, 2014, the PVU-B shall be based on intrastate access MOU in the State that originates or terminates in IP format. This PVU-B shall be based on information such as the number of the Company's retail VoIP subscriptions in the state (e.g., as reported on the FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information. (T)
3. The Company will use the PVU-A and PVU-B factors to calculate an effective PVU factor that represents the whole number percentage of total terminating access MOU that is terminated in IP format by the Company and/or originated in IP format by the Customer. Beginning July 1, 2014, the PVU factor will represent the total access MOU exchanged between the Company and the Customer that is originated and/or terminated in IP format, whether at the Company's end, at the Customer's end, or at both ends. The effective PVU factor will be calculated as the sum of: (A) the PVU-A factor and (B) the PVU-B factor times (1.0 minus the PVU-A factor).

Note: PVU factors will not be provided or collected by the Company for the traffic period from July 1, 2013 through June 30, 2014. This represents the period during which the Company's terminating intrastate rate is equal to its terminating interstate rate and PVU is not applied to originating traffic. Traffic on or after July 1, 2014 will be subject to the most recently available PVU factor on file with the Company for application of charges to originating access traffic. PVU updates must be received at least 30 days prior to July 1, 2014 if a new factor will apply. (T)

ACCESS SERVICES TARIFF

SECTION 4 - SWITCHED ACCESS RATES, (CONT'D.)

4.4 Rates and Charges

4.4.1 Originating Access (T)

A. Local Transport – Per Access Minute of Use (T)

<u>Competing ILEC Service Area</u>	<u>Local Transport Per Access Minute</u>	(D)
	<u>Originating</u>	(D)
AT&T Areas	\$0.00666000	(D)
Other ILEC Areas	\$0.01500000	(D)

B. Local Switching, per minute of use (T) (M)

<u>Competing ILEC</u>		
AT&T Areas	<u>Originating</u> (D)	\$0.00822200 (D)
Other ILEC Areas	<u>Originating</u> (D)	\$0.02361700 (D)

C. Carrier Common Line, per minute of use (T)

<u>Competing ILEC</u>	<u>Originating</u>	(D)
AT&T Areas	\$0.00838500	(D)
Other ILEC Areas	\$0.02949400	(D)
