**Re: Tariff Schedule to Adjust Demand Side Investment Mechanism Rider Rate
of Kansas City Power & Light Company**

Dear Mr. Woodruff:

Pursuant to 4 C.S.R. 240-3.163(8) of the regulations of the Missouri Public Service Commission (“Commission”), Kansas City Power & Light Company (“KCP&L” or the “Company”) hereby submits proposed rate schedules to adjust charges related to the Company’s approved Demand Side Investment Mechanism Rider (“DSIM Rate”). The proposed rate schedules bear an issue date of June 1, 2015, and an effective date of August 1, 2015.

Please provide a copy of all correspondence, notices, orders, and other communications that relate to this filing to the following as well as undersigned counsel:

Tim Rush
Director - Regulatory Affairs
Kansas City Power & Light Company
1200 Main Street – 19th Floor
Kansas City, Missouri 64105
Phone: (816) 556-2344
Fax: (816) 556-2110
Email: Tim.Rush@kcpl.com

The adjustment reflects actual Program Costs, TD-NSB, and retail base sales for October, November, and December 2014 in order to true-up estimates previously included in the December 2014 true-up filing in addition to actuals for January, February and March 2015. Also included in this true-up are estimates for Program Costs, TD-NSB, and retail base sales for April, May, and June 2015. These estimates for Program Costs and TD-NSB reflect forecast changes

Mr. Morris Woodruff, Secretary

Page 2

that are anticipated for the remainder of 2015 and are based on current estimates of participation levels for each program. The adjusted rate also includes estimates for the Program Costs and TD-NSB through the next six-month period or December 2015, and retail base sales for July 2015 through January 2016. Since a Performance Incentive will not be earned until after the Evaluation, Measurement, Verification is complete, the calculated rate for the period through June 2015 reflects adjustment for actual Program Costs and TD-NSB only and no Performance Incentive component adjustment is included for the period through December 2015. For a residential customer using 1,000 kWh's, this would mean a decrease of \$2.20 per month.

As explained in the Direct Testimony and supporting schedules of Tim Rush, which are submitted concurrently herewith, the overall DSIM Rate reflects progress towards achievement of energy and demand savings originally established in the MEEIA filing made in File No. EO-2014-0095. Also provided herewith are schedules containing the information required by 4 C.S.R. 240-3.163(8), including all workpapers that support the proposed rate schedules.

Copies of the proposed DSIM Rate schedules and all supporting materials described in this letter will be served electronically, this date, on the Commission's General Counsel, the Office of Public Counsel, and each party to File No. EO-2014-0095.

Respectfully submitted,

/s/ Roger W. Steiner
