APPLICATION

The rules and regulations specified herein apply to the intrastate services and facilities furnished by Chariton Valley Telecom Corporation, hereinafter referred to as the Telephone Company, or Company. Failure on the part of the subscribers to observe the rules and statutes of the Missouri Public Service Commission, after due notice of such failure, gives the Telephone Company the privilege to discontinue the furnishing of service.

In the event of a conflict between any rate, rule, regulation or provision contained within this tariff and any rule or statutes of the Missouri Public Service Commission, the rule or statutes of the Missouri Public Service Commission shall prevail.

This Tariff cancels and supersedes all other local tariffs of the Telephone Company issued and effective prior to the effective dates of this tariff.

Except as noted otherwise, this tariff applies to all exchanges of the Company.

The exchanges served by Chariton Valley Telecom Corporation are as follows:

- Macon
- Mexico*
- Rocheport*
- Kirksville*
- Chillicothe*
- Palmyra*
- Moscow Mills*
- Vandalia*
- Tipton*
- Hermann*

(N)

*All retail services provided in these exchanges will be provided pursuant to individual customer based contracts, not pursuant to the provisions of this tariff.

Customer Owned Pay Telephone Service	\$48.95

C. Fees or Taxes to be Billed to Customers

When any municipality, other political subdivision or local agency or government, imposes upon the Company any license, occupation, or other similar charge or tax applicable to service by the Company to the customer, or imposes a charge or tax based upon a percentage of gross receipts, net receipts, or revenues from sale of telephone service by the Company, the charges for local service to customers within such municipality, other political subdivision or local agency of government shall be increased by an amount equal to each such customer's proportionate part of any such charge or tax, and such amount shall be shown separately on the customer's bill.

SERVICE CONNECTION CHARGES**A. General**

The term "Service Connection Charges or Service Charges" are used to define the non-refundable charges made for the establishment of a class of telephone service or subsequent additions, moves, or changes to that service.

Service Connection Charges are in addition to any other scheduled rates and charges normally applying under the tariffs. They apply in addition to and not in lieu of Mileage Charges, Installation Charges, or Construction Charges made because of unusual costs in establishing service.

Service Connection Charges are payable at the time application is made for the particular service or facility, and prior to the establishment of service, or upon presentation of a bill. Service may be established in advance of payment in the case of Service Connection Charges for additions to the service of existing subscribers or for Departments, Administrations, and Agencies of the Federal, State, County, Township, or Municipal Governments.

Incumbent Local Exchange Carrier (ILEC) charges apply only when services requested by or provided to the subscriber require the Telephone Company to order or purchase facilities or services from the ILEC. The ILEC charges contained herein are in addition to the service connection charges of the Telephone Company and all other rates and charges located in other parts of this tariff.

Service Charges are nonrecurring charges shown in this Section and apply when the following activities are performed at the request of a customer:

1. Service Connections New installations or subsequent additions of telephone service and/or semi-public telephone equipment. A move of an existing service to a different premise.
2. Inside Moves Transfer of telephone service and/or semi-public telephone equipment from one location to another location within the same building or that portion of the same building occupied by the same customer, where there is not interruption of the service other than is incident to the work involved.
3. Changes Substitution of semi-public telephone equipment, or rearrangement of such equipment and/or wiring which does not involve changes in location of the equipment or wiring. Also includes directory listing changes and other modifications or rearrangements that do not involve equipment or wiring.
4. Restoral Charge Applicable for work associated with reconnecting service which has been temporarily disconnected for nonpayment.

The charges specified herein do not contemplate work being performed by Company employees at a time when overtime wages apply. If the customer requests that overtime labor be performed, a charge in addition to the specified charges will be made equal to the additional cost involved.

Lifeline (Low-Income) Program

A. General Regulations

1. Lifeline service is a discounted voice telephony service available to qualifying residential subscribers.
2. The monthly discount will be the maximum amount allowed by the Missouri Public Service Commission and the Federal Communications Commission; however, this discount will not exceed the sum of the federal subscriber line charge and the recurring charges for voice telephony service. The monthly discount will be the same for Lifeline customers solely subscribing to voice telephony service and for Lifeline customers subscribing to a bundle of services.
3. A Lifeline subscriber’s voice telephony service will not be disconnected for non-payment of charges unless the subscriber fails to pay charges directly related to voice telephony service.
4. Lifeline service is available with optional toll blocking or toll limitation service restricting access to 1+, 0+ and 0- dialed calls at no charge.
5. A household is limited to one discount. A Lifeline subscriber cannot receive additional discounts for Lifeline service from another provider or through the Missouri Disabled program.

B. Eligibility and Subscriber Requirements

1. An applicant must submit a completed application form along with proof of meeting one of the following eligibility criteria:
 1. Missouri HealthNet (Medicaid)
 2. Food Stamps
 3. Supplemental Security Income (SSI)
 4. Federal public housing assistance (Section 8)
 5. Low Income Home Energy Assistance Program
 6. Temporary Assistance for Needy Families
 7. National School Free Lunch Program;
 8. The customer’s income, as defined in 47 CFR Section 54.400(f), is at or below 135% of the Federal Poverty Guidelines, effective June 1, 2012.

SERVICE CONNECTION CHARGES - Continued**Link Up Missouri Service Connection Program****A. General Regulations**

The Link Up Missouri Connection Program is a Federal Lifeline assistance program applicable to eligible residential subscribers, as defined below, and designed to promote subscribership to the telephone network among low-income residential households.

1. Service Connection Charges, as set forth in this tariff *, for initial installation of the main residential service access line, will be discounted at a rate of 50 percent, or \$30.00, whichever is less. These reduced charges shall be assessed only for a single residential telephone access line per eligible household at the principal place of residence.
2. The customer may defer payment on up to \$200 of the above charges without interest for a period not to exceed one year. The deferred charges do not include any permissible security deposits required. Payments shall be equally paid over a twelve-month period.
3. A qualifying low-income customer may choose either 1 or 2, or both 1 and 2 as described above.
4. Link Up assistance is available for a second or subsequent time only for a principal place of residence with an address different from the residence address where assistance was previously provided.
5. The premises at which the residence service is requested must be the applicant's principal place of residence.
6. There can only be one telephone access line serving the residence premises. The residence premises household (dwelling unit) shall consist of that portion of an individual house or building or one flat or apartment occupied by a single family or individuals functioning as one domestic establishment.
7. Link Up will not be furnished on a Foreign Exchange service.

* The discount established herein does not apply to other charges that may be required at the initiation of service such as security deposit, contributions in aid of construction, customer advances, etc.

Lifeline Service

A. General Regulations

1. Lifeline Service is available to qualifying low-income subscribers for single party residence service.
2. Lifeline Service is a reduction in the monthly residential access line rate charges normally paid by qualifying low-income consumers. Eligible Lifeline subscribers will receive a total reduction of their residential access line rate for one party service of \$5.25. The components of the reduction to basic residential one-party rates are as follows:

State reduction in local rate:	\$1.75
Federal baseline Lifeline reduction:	\$3.50

The Federal baseline lifeline reduction shall be used to waive the consumer's Federal End-User Common Line charge.
3. Lifeline Service will not be furnished on a Foreign Exchange service.
4. Lifeline Service shall not be disconnected for non-payment of toll charges providing the Lifeline customer subscribes to Toll Blocking Service.
5. Toll Blocking Service provides a means of restricting access to the Long Distance Message Telecommunications Network. Toll Blocking for the purposes of Lifeline Service will restrict 1+, 0+ and 0- (operator handled) calls.
 - a. If the customer chooses "Toll Blocking Service" the company will not charge a service deposit.
 - b. Toll Blocking Service is offered to Lifeline subscribers at no charge.
6. Lifeline Assistance Service can only be associated with the primary residential connection.
7. Funding for Lifeline service is obtained from a universal service support mechanism to which all telecommunications carriers that provide interstate telecommunications services contribute on an equitable and nondiscriminatory basis.

SERVICE CONNECTION CHARGES - Continued**Lifeline Service - Continued****C. Missouri USF Program****1. Low-Income Assistance**

A. General – A low-income customer is any customer who requests or receives residential essential local telecommunications service and who has been certified by the Department of Social Services (DSS) as economically disadvantaged. Qualified individuals will receive discounted services under either the low-income assistance or the disabled assistance program.

B. Regulations – Low income assistance is available to all residential customers who demonstrate, by self certifying with the company under penalty of perjury, that they are eligible for support by participation in:

1. Medicaid
2. Food Stamps
3. Supplementary Security Income (SSI)
4. Federal Public Housing Assistance or section 8
5. Low Income Home Energy Assistance Program (LIHEAP)
6. Temporary Assistance to Needy Families (TANF) (N)
7. National Free Lunch Program (N)

C. Eligible Services – Essential local telecommunications service is defined as two (2) way switched voice residential service within a local calling scope as determined by the commission, comprised of the following services and their recurring charges:

1. Single line residential service, including touch-tone dialing and any applicable mileage or zone charges
2. Access to local emergency services, including, but not limited to, 911 service established by local authorities
3. Access to basic local operator services
4. Access to basic local directory assistance
5. Standard intercept service
6. Equal access to Inter-Exchange Carriers consistent with rules and regulations of the FCC
7. One (1) standard white pages directory listing
8. Toll blocking or toll control for qualifying low-income customers

D. Support Amount – Customers eligible under the established criteria can receive a discount from their bill for essential local telecommunications service equal to the amounts approved by the Missouri Public Service Commission and the Federal Communications Commission. The amount of combined federal and state lifeline support for any customer will not exceed the sum of the federal Subscriber Line Charge (SLC) and the recurring charges for essential local telecommunications services (including the basic service rate, Touch-Tone calling charge, extended area service additive, and mileage additives, if any).

2. Disabled Assistance

- A. **General-** A disabled customer, or a dependent, is a customer who requests or receives residential essential local telecommunications service, as defined in section 1(c) of this tariff, and meets the eligibility requirements set forth in this tariff.
- B. **Regulations-** Disabled assistance is available to all residential customers who demonstrate, by self certifying with the company under penalty of perjury, that they, or a dependant, are totally and permanently disabled or blind and receiving any of the following:
 - 1) Federal Social Security Disability benefits.
 - 2) Federal Supplemental Security income benefits
 - 3) Veterans Administration benefits
 - 4) State blind pension pursuant to Section 209.010 to 209.160 RSMo
 - 5) State aid to blind persons pursuant to Section 209.240 RSMo
 - 6) State supplemental payments pursuant to Section 208.030, RSMo Section 660.100.2 RSMo 2000.
- C. **Support Amount-** Customers eligible under the established criteria can receive a discount equal to the amount approved by the Missouri Public Service Commission from their bill for essential local telecommunications service. The amount of state lifeline support for any customer will not exceed the recurring charges for essential local telecommunications services (including the basic service rate, Touch-Tone calling charge, extended area service additive, and mileage additives, if any.)

3. "Missouri Universal Service Fund"

- A. Company will place on each end retail end-user customer's bill, a surcharge equal to the Missouri Universal Service Fund percentage assessment ordered by the commission.
- B. The surcharge will appear as a separate line item detailed as "Missouri Universal Service Fund."
- C. The surcharge percentage will be applied to the total of each customer's charges for intrastate regulated telecommunications services that meet the definition of net jurisdictional revenues at 4 CSR 240-31.010(12).

(N)

MILEAGE CHARGES

RF(1) JUN 10 2003

Mileage rates apply for extending standard voice grade intra-exchange service between premises where technically capable and adequate facilities exist. The rates and charges contained herein are in addition to all other applicable rates and charges located in other parts of this tariff or assessed by other carriers or providers.

A. General

- 1. Mileage charges apply to line extensions. All mileage is measured on an airline basis unless otherwise indicated.

B. Conditions

- 1. Applicable line extension mileage will be determined in the following manner:
 - a. Off-premises mileage charges are assigned to telephone stations not located on the same contiguous property as the central office access line or PBX frame. Routing of facilities will be provided in such manner as the Company may select. Mileage applications include but are not limited to extensions for services such as Telephone Answer Bureau Service.
 - b. If the loop of the additional station is bridged at the Central Office with the loop of the central office access line, the airline distance between the central office and the additional stations is the mileage measurement. The mileage measurement includes inter-central office airline mileage if the two points are located in different central office areas of the same multi-office exchange. If the additional station is connected with the central office access line by a nonloop, the airline distance between the central office access line and additional station is the mileage measurement.
 - c. If the circuit connecting a PBX station with a PBX frame is routed through the central office in a loop, the airline distance between the demarcation point for the PBX station and PBX frame via the central office is the mileage measurement. If the circuit connecting the PBX station and PBX frame is not routed through the central office, the airline distance between the demarcation points for the PBX station and PBX frame is the mileage measurement.
 - d. Mileage charges are made on the basis of quarter mile airline units between the demarcation points for the station and the central office access line or PBX frame, with each fractional quarter mile unit counting as an additional full quarter mile unit.

REC'D JUN 10 2003

B. Conditions (continued)

- 2. Special equipment or arrangements in addition to that regularly provided may be provided at charges and/or rates based upon costs incurred.
- 3. Off premises extensions (OPX) will be allowed under the following conditions:
 - a. The service is limited to intraexchange individual central office access lines only (not semi-public service).
 - b. A business customer may have an extension from the customer's business to another business location if the other location is also the same billed account in the same exchange. A separate central office access line is not required in this instance.
 - c. Business stations may be located on the premises of another business when each party has its own separate central office access line.
 - d. Extensions from residence to residence are permitted when each party has its own separate central office access line.
 - e. Extensions from residence to business are permitted when each party has its own separate central office access line. If residence OPX service is installed at a business location, the residence main service and OPX must change to business rates.
 - f. Extensions from business to residence are permitted when the residence location has its own separate central office access line. If a proprietor actually lives in his business establishment, a separate central office access line is not required for extension service.
 - g. The offering is subject to the availability of facilities. If special construction is required in regard to the installation of extensions, construction charges will be applied. If the OPX leaves the serving wire center, construction charges may also apply.
 - h. When facilities must be constructed to provide service to the applicant beyond the Base Rate boundary, charges shall be determined as found under Line Extension Mileage in this Tariff.

CLASS Service

By *FRS 5*
Public Service Commission
MISSOURI

A. General Regulations

CLASS Service is a group of central office call management features offered in addition to basic telephone service. Class Service consists of the following features:

1. Definitions of Feature Offerings

Automatic Callback

Automatic Callback, when activated, automatically redials the last number the customer attempted to call. If the called line is not busy, the call will be placed. If the called line is busy, a confirmation announcement is heard, the customer hangs up and a queuing process begins. For the next 30 minutes, both the calling and called lines are checked periodically for availability to complete the call. If during the queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place the call. When the customer picks up the telephone, the call will automatically be placed.

Automatic Recall

This feature enables a customer to place a call to the telephone number associated with the most recent call received, whether or not the call was answered or the number is known. The customer can dial a code to request that the network place the call.

If the called line is not busy, the call is placed. If the called line is busy, a confirmation announcement is heard, the customer hangs up, and a queuing process begins. For the next 30 minutes, both the calling and the called lines are checked periodically for availability to complete the call. If during this queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place the call. When the customer picks up the telephone, the call will automatically be placed.

Caller ID - Number

This feature enables the customer to view on a display unit the Directory Number (DN) on incoming telephone calls.

When Caller ID is activated on a customer's line, the Directory Numbers of incoming calls are displayed on the called CPE during the first long silent interval of the ringing cycle.

Any calling party of the Company may prevent the delivery of the calling party number (CPN) to the called party by dialing an access code immediately prior to placing a call. The access code activates per call blocking. Per call blocking is available at no charge. The blocking of CPN will not be provided on calls originating from public, semi-public and Customer-Owned Pay Telephone Service.

Telephone CPN information transmitted via Caller ID is intended solely for the use of the Caller ID subscriber. Resale of this information is prohibited by this Tariff. CPN will not be displayed if the called party is off-hook or if the called party answers during the first ringing interval. CPN will be displayed for calls made from another central office only if it is linked by interoffice appropriate facilities. Caller ID is not available on operator handled calls.

OPTIONAL SERVICES - Continued

CLASS Service - Continued

REC'D JUN 10 2003

A. General Regulations - Continued

1. Definitions of Feature Offerings - Continued

Distinctive Ringing \ Call Waiting

Distinctive Ringing \ Call Waiting provides a distinctive ringing pattern to the subscribing customer for calls received from specific telephone numbers.

The customer creates a screening list of up to thirty telephone numbers through an interactive dialing sequence. When a call is received from one of the predetermined telephone numbers, the customer is alerted with a distinctive ringing pattern. Calls from telephone numbers not included on the screening list will produce a normal ring.

If the customer subscribes to Call Waiting and a call is received from a telephone number on the Selective Distinctive Ringing \ Call Waiting screening list while the line is in use, the Call Waiting tone will also be distinctive.

When a telephone number on the Selective Distinctive Ringing \ Call Waiting screening list also appears on the Selective Call Forwarding list, the Selective Call Forwarding will take precedence. Likewise, when the same number is shown on the Selective Call Rejection list, the call will be blocked.

A customer's line will not produce a distinctive alert if the calling line is not referenced to and originated by the main telephone number or a Telephone Number identified number than represents all the lines in a collection of lines, such as multi-line hunt groups.

Selective Call Acceptance

This feature provides the customer the ability to screen incoming calls against a list of up to thirty subscriber-specified directory numbers and then accepts any calls only from those specified directory numbers.

A screening list is created by the customer either by adding the last number associated with the line (incoming), or by pre-selecting the telephone numbers to be accepted. When a call is placed to the customer's number from a number not on the screening list, the call receives an announcement indicating that the party he is attempting to call does not wish to receive calls at this time.

This feature will not work if the incoming call is from a telephone number in a multi-line hunt group, unless the telephone number is the main telephone number for the hunt group, or is Telephone Number identified.

CLASS Service - Continued

A. General Regulations - Continued

1. Definitions of Feature Offerings - Continued

Selective Call Forwarding

Selective Call Forwarding allows the customer to transfer selected calls to another telephone number. A screening list of up to thirty numbers is created by the customer and placed in the network memory via an interactive dialing sequence. Subsequently, calls are forwarded to the Call Forwarding telephone number only if the calling number can be obtained and is found to match a number on the screening list.

If the customer also subscribes to Selective Call Rejection and the same telephone number is entered on both screening lists, the Selective Call Rejection features must be deactivated to allow the call to forward.

This feature will not work if the calling line is not referenced to and originated by the main telephone number, or a Telephone Number identified number that represents all the lines in a collection of lines such as multi-line hunt groups.

Selective Call Rejection

This feature provides the customer the ability to prevent incoming calls from up to thirty different telephone numbers.

A screening list is created by the customer either by adding the last number associated with the line (incoming), or by pre-selecting the telephone numbers to be blocked. When a call is placed to the customer's number from a number on the screening list, the caller receives an announcement indicating that the party he is attempting to call does not wish to receive calls at this time.

If the customer also subscribes to Selective Call Forwarding and/or Selective Distinctive Ringing \ Call Waiting and the same telephone numbers appear on those screening lists, Selective Call Rejection will take precedence.

This feature will not work if the incoming call is from a telephone number in a multi-line hunt group, unless the telephone number is the main telephone number for the hunt group, or is Telephone Number identified.

PROMOTIONS**A. General**

From time to time, the Telephone Company may elect to offer special promotions to its customers. These promotions will generally consist of a reduced price, a waiver of installation charges, or a free service with a purchase of another service.

Any promotional waiver or discounted rate will apply only one time per customer for each service in any given wire center prefix during the course of the promotional period.

The Company will provide written notice to the Commission no less than seven (7) days prior to the beginning of each promotion period identifying the promotion and the exchanges within which the promotion will be offered. It is deemed that promotional tariffs are approved by the commission on the effective date unless notification from the commission is received to the contrary. If facilities permit, all residence and / or business customers will be offered the same opportunity to take advantage of the same terms and conditions under the promotions in which to subscribe to residence or business services.

B. Specific Promotion**1. Local Edge Optional Expanded Local Calling Plan Promotion**

The Company will be offering the following promotion to new subscribers in the Macon exchange during the period August 1, 2005 through December 31, 2005:

(T)

- a. This promotion offers a \$6.00 per month rebate for the first six months of service to residence and business customers who connect new service, transfer or upgrade their existing service and to subscribe to the Local Edge Optional Expanded Local Calling plan for a period of twelve months.

2. Local Calling Promotion

- a. The company will offer a Local Calling Promotion to Macon Subscribers for the period August 1, 2005 through December 31, 2005. The promotion is the CV Extended Local Calling Plan.
- b. Macon customers who subscribe to the plan will receive a calling allowance and then calling at a reduced rate to all exchanges in the 524 LATA.
- c. Any applicable non-recurring charges will be waived for customers who subscribe to the plan. The monthly recurring charge applies in addition to other applicable charges such as the access line, custom calling, etc.
- d. The plan is applicable to only one-way originating dial station-to-station Intra-LATA calling. The monthly charge is applied per line and is billed in advance. Unused minutes do not carry over from one month to the next

LOCAL OPERATOR SERVICES

Local Directory Assistance Service

A. General Regulations

Directory Assistance service is defined as furnishing aid in obtaining telephone numbers. The Directory Assistance charges specified in this tariff apply when a customer within Missouri request the telephone numbers of other customers within the same LATA.

B. Conditions

1. All accounts are entitled to three free direct dialed calls per month to Directory Assistance service for each individual access line.
2. Call allowances are not transferable between accounts.
3. For the purposes of administering this tariff the full allowance will apply for service on record as of the customer's billing date.
4. Rates specified in C.1. below are not applicable to:

-Calls placed from hotels and motels.

-Calls placed from hospitals.

-Calls placed from residence telephones where a member of the customer's household has been certified by a qualified authority as unable to use a directory or from the business telephone of a certified customer where other assistance is not available. A qualified authority is defined as including doctors of medicine, ophthalmologists, optometrists, registered nurses, therapists, and professional staff of hospitals, institutions and public welfare agencies. Certification of physical disability sufficiently severe to prevent reading or using conventional reading or using conventional reading materials may also be made by professional librarians or by any person whose competence in this area is acceptable to the Librarian of Congress of the United States.

-Calls from certified exempt customers and charged to their Calling Card.

C. Residence and Business Rates

1. Customer originated calls (maximum of two requests per call), each.....\$.50

LOCAL OPERATOR SERVICES – Continued

Busy Verification, Interrupt Service and Local Operator Assistance

A. General

1. Local Operator Service is furnished to customers upon their request in order to complete local calls.
2. There are four classes of local service offered: Busy Line Interrupt, Busy Line Verify, Operator Station Calls and Person-to-Person calls. When operator assistance is required to complete a local call, the rates appearing in this Tariff will apply.
 - a. Busy Line Interrupt – The operator, at the request of the customer, will interrupt conversation on the line and inform the called party that an attempt to place a call to that line is being made.
 - b. Busy Line Verify – The operator, at the request of the customer, will determine the status of an exchange service line (e.g., conversation in progress) and report the status to the customer.
 - c. Operator Station Calls – Customer dialed “0-” calls where the operator completes the call and arranges billing. Can be billed to the originating telephone number, calling card, collect or to a third number. Includes operator placed calls to Directory Assistance.
 - d. Person-to-Person Calls – Customer dialed “0-” calls where the operator completes the call and arranges billing. Can be billed to the originating telephone number, calling card, collect or third number.
3. Customers who identify themselves as being disabled and unable to dial the call, will not be required to pay local operator service charges for sent paid station-to-station calls from public and semi-public coin telephones.

B. Conditions

1. Local operator assistance charges will not apply to calls placed to the Company business office, Company repair service, emergency calls, 911 or the law enforcement and public safety agencies.

LATE PAYMENT CHARGE

A. General

A Late Payment Charge will be applied to each customer's account receiving a disconnect notice. This charge is to compensate for the additional administrative expenses associated with these accounts.

B. Charges

**Nonrecurring
Charges**

- 1. Late Payment Charge
 - a. Residence or Business \$ 5.00

C. Conditions

- 1. The Late Payment Charge applies each time a customer's account is mailed a disconnect notice.
- 2. See Discontinuance of Service section in this tariff.

ACCESS TARIFF CONCURRENCE**Intrastate Access Services****A. Access Tariff Concurrence**

Access services are those services which are described in the Access Services Tariff of Oregon Farmers Mutual Telephone Company. These services are offered by the Company to intrastate interexchange customers (ICs) in accordance with the rules and regulations specified in the Access Services Tariff of Oregon Farmers Mutual Telephone Company except for those items listed in section 34.D. as exceptions and approved by the Missouri Public Service Commission, and in any amendments thereto and authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for access services of Oregon Farmers Mutual Telephone Company. Rates for these services are set out in the following pages of this concurrence.

B. Provision of Services

The Company, to the extent that such services are or can be made available with reasonable effort and after provisions have been made for the Company's telephone exchange services, will provide to an intrastate IC, upon reasonable notice, services of the type offered in Oregon Farmers Mutual Telephone Company's Access Services Tariff pursuant to the terms and conditions specified therein except for those items listed in section 34.D. as exceptions and at the rates specified in the following pages of this concurrence. The Company's concurrence in Oregon Farmers Mutual Telephone Company's Access Services Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company.

ACCESS TARIFF CONCURRENCE – Continued

Intrastate Access Services – Continued

C. Cancellation Rights

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

D. Exceptions to the Access Services Tariff of the Oregon Farmers Mutual Telephone Company

1. The Company will not apply provisions of the Minimum Monthly Charge set out in Section 6.7.3 of the Oregon Farmers tariff.

2. Reserved for Future Use

(D)
|
(D)

3. The Company includes nonrecurring (one-time) charges for specific activities in conjunction with the installation of service (to include engineering), changes to an existing Switched Access Arrangement or activation/deactivation of a Carrier Identification Code (CIC).

a. Switched Access Ordering charges are associated with the work performed by the Company in connection with the receiving, recording, and processing of customer service requests. There are two types of service order charges:

1) Initial Ordering Charge – Switched Access

This charge applies on a per Access Service Request (ASR) basis, including requests to add additional lines or trunks or activate an existing trunk as a result of additional trunks or BHMCs ordered for an existing service. Additionally, this would include the activation/deactivation of a Carrier Identification Code (CIC).

2) Subsequent Ordering Charge – Switched Access

This charge applies on a per ASR basis for modifications to an existing service. This would include activities such as:

- Changes and/or additions to end office services optional arrangements (changes in hunt group or screening arrangements).

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

D. Exceptions to the Access Services Tariff of the Oregon Farmers Mutual Telephone Company

1. The Company will not apply provisions of the Minimum Monthly Charge set out in Section 6.7.3 of the Oregon Farmers tariff.
2. Switched Access local transport as described in Section 6.2(A) of the Oregon Farmers tariff will be distance sensitive for FGD calls. To determine the mileage to be billed, compute the mileage using the V&H coordinates method, as set forth in the NATIONAL EXCHANGE CARRIER ASSOCIATION TARIFF - WIRE CENTER & INTERCONNECTION INFORMATION. When the calculation results in a fraction of a mile, always round up to the next whole mile before determining the mileage and applying the rates.
3. The Company includes nonrecurring (one-time) charges for specific activities in conjunction with the installation of service (to include engineering), changes to an existing Switched Access Arrangement or activation/deactivation of a Carrier Identification Code (CIC).

ACCESS TARIFF CONCURRENCE - Continued

Intrastate Access Services - Continued

D. Exceptions to the Access Services Tariff of the Oregon Farmers Mutual Telephone Company

3. Cont'd

a. Cont'd

2) Cont'd

- The combination or splitting of FGA hunt groups.
- A move to a new point of termination within the same customer designated location.
- A change for rating purposes from one type of Transport to another (i.e. Switched to Special).
- The activation or deactivation of 900 SAC NXX codes on a per tandem level basis.
- The addition of Calling Party Number (CPN) Parameter, Carrier Selection Parameter, (CSP), and Charge Number (CN) Parameter when ordered subsequent to the provision of SS7 out of band signaling.
- Changes in FGD switched access and 800 SAC Access signaling from multifrequency address signaling to SS7 out of band signaling.

3) Administrative changes will be made without charge to the customer.

b. Design Change Charge

A design change is any change to a pending ASR or a change to an existing service which requires engineering review or changes. Design changes may include the addition or deletion of End Office service Optional Arrangements or changes in the signaling arrangements associated with the Interface Arrangements. Design changes do not include a change of Switched Access Interface Arrangement or facility type, Interexchange Customer Designated Location, end user premises, end office switch, or Feature Group type. Changes of this nature will require the issuance of a new ASR and the cancellation of the original ASR with the appropriate cancellation charges applied.

The Company will review the requested change, notify the customer whether the change can be accommodated and if a new service date is required. If the customer authorizes the Company to proceed with the design change, a Design Change Charge will apply.

ACCESS TARIFF CONCURRENCE - Continued**Intrastate Access Services - Continued****D. Exceptions to the Access Services Tariff of the Oregon Farmers Mutual Telephone Company**

3. Cont'd

b. Cont'd

The Design Change Charge will apply on a per ASR per occurrence basis for each request requiring a design change. The Design Change Charge is in addition to any Switched Ordering charges associated with the change requested. When the design change is on a pending ASR, the Initial Ordering Charge - Switched Access will apply. If the design change is to an existing service, the Subsequent Ordering Charge - Switched Access will apply.

4. The Company includes nonrecurring (one-time) charges for specific work activity, (i.e., installation of service or change to an existing service). The types of nonrecurring charges that apply for Special Access Service are listed below.

a. Special Access Ordering Charges are associated with the work performed by the Company in connection with the receiving, recording and processing of customer service requests. There are two types of service ordering charges.

1) Initial Ordering Charge - Special Access, applies on a per Access Service Request (ASR) basis, including those requests to add additional termination to an existing service.

2) Subsequent Ordering Charge - Special Access, applies on a per ASR basis for modifications to an existing service. This would include activities such as:

- Additions of supplemental features and multiplexing arrangements.
- Changes in the type of transport rate option from Switched to Special transport for FGA or FGB Switched Access.

a. Design Change Charge applies when a customer requests a design change to the service ordered. A design change is any change to a pending ASR for Special Access Service which requires engineering review. Design changes include such things as the addition or deletion of supplemental features or changes in the terminating options. Design changes do not include a change of Interexchange Customer Designated Location (CDL) or end user premises when its serving wire center changes or Special Access service type (e.g., 2-wire to 4-wire Voiceband or Voiceband to Program Audio, etc.). Changes to this nature will require the issuance of a new ASR and the cancellation of the original ASR.

ACCESS TARIFF CONCURRENCE - Continued**Intrastate Access Services - Continued****D. Exceptions to the Access Services Tariff of the Oregon Farmers Mutual Telephone Company**

4. Cont'd

The Company will review the requested change, notify the customer whether the changes can be accommodated and specify if a new service date is required. If the customer authorizes the Company to proceed with the design change, a Design Change Charge will apply.

The Design Change Charge will apply on a per ASR per occurrence basis, for each ASR requiring a design change.

5. Miscellaneous charges - Premium charges will apply all day Sunday and on all Telephone Company approved holidays.

6. Primary Interexchange Carrier (PIC) Change Charge

A Primary Interexchange Carrier is available for Inter and IntraLATA services. The end user customer may choose a carrier for Inter and/or IntraLATA MTS services. Should the end user or agent change the carrier of choice, a PIC change charge and the appropriate local tariff service order charges will be applicable.

Initial end user and agent selection of a PIC by ballot or appearing on an IC list will not incur a charge. A change of PIC selection prior to the end office conversion will not incur a charge. Notification of a change in a PIC may be coordinated by the end user or agent with either the IC selected or the Company.

Should an end user or agent dispute authorization of the change in PIC assignment and if the IC cannot produce a letter of agency or confirmation from the end user or agent, the IC will be billed one PIC change charge for restoring the end user's or agent's prior IC assignment. If the IC produces the letter of agency or confirmation of choice within 15 days of the Company request, the end user or agent will be billed two PIC charges in lieu of charges to the IC. Charges are only applicable if a change in an end user's or agent's IC selection has actually been implemented in the switch.

The Company reserves the right to implement practices and/or procedures that require written notification and/or verification from the end user subscriber before a PIC change service order will be initiated.

Issued By:

William Biere, General Manager
606 Oak Street
Bucklin, Missouri 64631

Effective: July 24, 2003

LOCAL REACH OPTIONAL EXPANDED LOCAL CALLING PLAN

1. General

A. Service Description

1. Local Reach is an optional one way, outward service where, for a monthly recurring flat rate, customers can place calls within their LATA to other customers in exchanges within the Local Reach calling scope, as defined in sub-section 1.0-C of this section.
2. Qualified usage under this plan is intraLATA customer-dialed, sent-paid, non-coin calls originating at a subscriber's access line and terminating at an access line in an exchange within the Local Reach calling scope as defined in sub-section 1.0-C of this tariff.
3. Calls included in this plan are dialed using a seven-digit local dialing pattern.

B. Service Availability

1. This service is furnished subject to the availability of the required telecommunications facilities.
2. Subject to the restriction in paragraph B.1 above, service is available to Missouri local exchange customers of Chariton Valley Telecom Corporation as listed in the Local Exchange Tariff Section.

C. Local Reach Calling Scope

1. The Local Reach Calling Scope includes exchanges as listed below:

Brookfield
Carrollton
Kirksville
Marceline
Moberly

LOCAL REACH OPTIONAL EXPANDED LOCAL CALLING PLAN - continued

2. Regulations

A. Rules and Regulations

1. Unless otherwise stated, Local Reach is subject to the Rules and Regulations applying to all customer contracts as specified in the General Exchange Tariff.

B. Qualified Customers Accounts

1. This service is available to single-party, residence and business customers. The service is available to multi-line customers.
2. Local Reach is not offered in conjunction with Customer-Owned Pay Telephone Service.
3. Local Reach is not offered in conjunction with Cellular Service.
4. Local Reach is not offered in conjunction with Foreign Exchange Service.

C. Use Restrictions

1. Local Reach is not offered in conjunction with services designed to forward calls in mass including but not limited to Simultaneous Call Forwarding, Disaster Routing Service and Intelligent Redirect or similar services that might be offered under other names.
2. Local Reach is sold in conjunction with and solely for use on Local Exchange Telephone Service access lines and trunks.
3. Local Reach may only be used for the communications of a single end user. It may not be used to aggregate the communications of multiple end users for resale (including but not limited to, arrangements using services such as Simultaneous Call Forwarding to aggregate calling capability for resale or to provision communications services for others).
4. This tariff shall only be effective as long as the use restrictions and the rules and regulations in this tariff remain in effect for all users (including any exchange telecommunications company reselling this service, and their customers.) In the event any of these use restrictions or rules and regulations are held not to apply to all such users, upon notification by the Telephone Company to the Commission, this tariff shall not be available except to existing subscribers of the service at existing service levels at existing locations. The Company shall also have the right to withdraw this service offering in its entirety.

LOCAL REACH OPTIONAL EXPANDED LOCAL CALLING PLAN - continued

2. Regulations – continued

D. Multi-line Accounts

With the following exceptions, Local Reach subscribers are not required to purchase Local Reach on all access lines of a multi-line account. Exceptions are as follows:

1. In cases where a single working telephone number is used for multiple access lines, if Local Reach is purchased for one line in the arrangement, it must be purchased for all of the lines.
2. Within a multi-line hunting arrangement, if one access line is subscribed to Local Reach, all lines must be subscribed to Local Reach.

E. Minimum Service Period

1. The minimum service period for subscription to Local Reach is one month.

3. Rate Application

A. General

1. Local Reach rates and charges apply in addition to all other charges paid by the customer for other services of the Telephone Company.

B. Monthly Recurring Rates

1. The Local Reach monthly recurring rates apply on a per-line or per-trunk basis.
2. The Local Reach monthly recurring rates are billed one month in advance.
