Rules and Regulations Governing Rendering of Sewer Service	
Rule 1 <u>GENERAL</u>	
(a) Every Customer, upon signing an application for service or accepting service rendered by the Company, shall be considered to have expressed consent to be bound by these rates, rules and regulations.	
(b) The Company's rules and regulations governing rendering of service are set forth in these numbered sheets. The rates applicable to appropriate class of service are set forth in rate schedules and constitute a part of these rules and regulations.	
(c) The Company reserves the right, subject to the authority of the Public Service Commission of Missouri, to prescribe additional rates, rules or regulations or to alter existing rates, rules or regulations as it may deem necessary or proper.	
(d) At the effective date of these rules and regulations, all new and existing facilities, construction contracts, and written agreements shall conform to these rules and regulations in accordance with the statutes of the State of Missouri and authority of the Public Service Commission of Missouri.	
(e) The Company shall have the right to enter upon the Customer's premises for the purpose of inspecting for compliance with these rules and regulations. Company personnel shall identify themselves and such inspections shall be conducted during reasonable hours.

Rules and Regulations Governing  
Rendering of Sewer Service

OCT 18 1987

Rule 2 DEFINITIONS

- (a) The "COMPANY" is the Meadows Water Company, acting through its officers, managers, or other duly authorized employees or agents.
- (b) The "CUSTOMER" is any person, individual, partnership, association, corporation or governmental body which has contracted with the Company for sewer service or is receiving sewer service from the Company, or whose facilities are connected for utilizing sewer service.
- (c) The word "UNIT" shall be used herein to define the standard user or property served and shall include mobile homes or any building, residential, commercial, or industrial, owned or leased and each tenant of any multi-unit structure.
- (d) A "COLLECTING SEWER" is a pipeline, including force lines, gravity sewers, interceptors, laterals, trunk sewers, manholes, lampholes and necessary appurtenances, including service wyes, which is owned and maintained by the Company, located on public property or on private easements, and used to transport sewage waste from the Customer's premises to the point of disposal.
- (e) A "CUSTOMER'S SERVICE SEWER" is a pipe with appurtenances installed, owned and maintained by the customer, used to conduct sewage from sewer, excluding service wyes.

- (f) A "SERVICE CONNECTION" is the connection of a service sewer to the Company collecting sewer either at the bell of a "Y" branch or the bell of a saddle placed on the barrel of the collecting sewer.
- (g) The "DATE OF CONNECTION" shall be the date the permit for a service connection is issued by the Company. In the event no permit is taken and a service connection is made, the date of connection shall be the date of commencement of construction of the building upon the property served.
- (h) "DOMESTIC SEWAGE" is sewage, excluding storm and surface water, resulting from normal household activities.
- (i) "NON-DOMESTIC SEWAGE" is all sewage other than domestic sewage including, but not limited to, commercial or industrial wastes. (See Rule 6 pertaining to Improper Waste and Excessive Use.)
- (j) A "FOUNDATION DRAIN" is a pipe installed inside or outside the foundation of a structure for the purpose of draining ground or subsurface water away from the foundation.
- (k) "PH" is the relative degree of acidity or alkalinity of water as indicated by the hydrogen ion concentration. PH is indicated on a scale reading from 1-14, with 7 being neutral, below 7 acid, and above 7 alkaline; more technically defined as the logarithm of the reciprocal of the hydrogen ion concentration.

OCT 19 1987

Rule 4 APPLICATIONS FOR SEWER SERVICE

- (a) A written application for service, signed by the customer and accompanied by the appropriate fees and other information required by these rules and regulations, must be received from each Customer before service is provided to any premises. Said application must state the name of the owner of said premises and, in the case of a commercial or industrial Customer, must also state the quantity and strength of effluent to be discharged from said premises into Company's sewer system. Every Customer, upon signing an application for any service rendered by the Company or upon taking of service, shall be considered to have expressed consent to the Company's rates, rules and regulations. The Company shall have the right to reject any application, for failure to comply with the rules and regulations herein. In any case, where unusual construction or equipment expense is necessary to furnish the service, the Company may require a contract specifying a reasonable period of time for the Company to provide the service.
- (b) A commercial or industrial Customer shall, upon request of the Company, present in writing to the Company a list of the devices which are to be attached to the Company's lines, giving the location of any buildings. The Company will then advise the Customer of the form and the character of the waste water collection facilities available.

Rule 4 APPLICATIONS FOR SEWER SERVICE (continued)

- (c) No substantial addition to the water using equipment or appliances connected to the sewer system of the Company for commercial or industrial customers shall be made except upon written notice to and with the written consent of the Company.
- (d) Any change in the location of an existing service connection requested by the Customer shall be made at his expense.
- (e) Customer service connections will not be extended along public streets or roadways or through property of others in connecting with collecting sewers. If a service connection is requested at a point not already served by a collecting sewer of adequate capacity, the collecting sewer shall be extended in accordance with Rule 12.
- (f) New service connections shall be authorized when a service connection fee is paid to the Company based on the schedule of fees.
- (g) When a service is to be connected the plumber employed by the Customer shall obtain the connecting accessories from the Company. The plumber shall advise the Company 24 hours in advance of when he expects to have service installed so a representative of the Company can inspect the installation.

OCT 19 1987

Rule 5 INSIDE PIPING AND CUSTOMER SERVICE SEWER

- (a) The Customer will provide the service sewer at his expense and risk. As a condition of service, inside requirements of all governmental units having jurisdiction and the Company's rules and regulations must be met at the time of connection to the system. The Company may deny service or may discontinue service where footing drains, downspouts, or other sources of surface or storm water are permitted to enter the sewer system through either the inside piping or through the building sewer.
- (b) A separate and independent Customer service sewer shall be required for every building, except when one building stands at the rear of another building on an interior lot where no private service sewer is available and cannot be constructed to the rear building through an adjoining alley, courtyard, or driveway; in that situation, the Customer's service sewer from the front building may be extended to the rear building and it will be considered as one Customer's service sewer.
- (c) Existing service sewers may be used in connection with new buildings only when they are found on examination and test to meet all requirements of the Company.

Rule 5 INSIDE PIPING AND CUSTOMER SERVICE  
SEWER (continued)

- (d) The Customer's service sewer shall be one of the following: cast iron soil pipe, ASTM specification or equal; vitrified clay sewer pipe, ASTM specification or equal; VCP, ASTM specification or equal; or other suitable material approved by the Company. Joints shall be tight and waterproof. Any part of the Customer's service sewer that is located within ten (10) feet of a water service pipe shall be constructed of cast iron soil pipe with leaded joints. Cast iron pipes with leaded joints may be required where the Customer's service sewer is exposed to damage by tree roots. If installed in filled or unstable ground, the Customer's service sewer shall be of cast iron soil pipe, but nonmetallic material may be accepted if laid on a suitable bed or cradle as approved by the said Company.
- (e) The size and slope of the Customer's service sewer shall be subject to the approval of the Company, but in no event shall the diameter be less than four (4) inches. The slope of such four (4) inch pipe shall not be less than one-eighth (1/8) inch per foot.
- (f) Whenever possible the Customer's service sewer shall be brought to the building at an elevation below the basement floor. No building sewer shall be laid parallel to or within three (3) feet of any bearing wall. The depth shall be sufficient to afford protection from frost. The Customer's service sewer shall be laid at a uniform grade and in straight alignment insofar as possible. Changes in direction shall be made only with properly curved pipes and fittings.

OCT 19 1987

OFFICE OF THE COMMISSIONER

Rule 6 IMPROPER OR EXCESSIVE USE

- (a) The following requirements for the use of sewer service provided by the Company shall be observed. Violation of the requirements will result in the discontinuance of service to the Customer or an additional charge for excess load, or the requirement that the Customer install facilities to prevent excessive loads and other adverse impacts upon the Company's system.
- (b) No person shall discharge or cause to be discharged any storm water, surface water, ground water, swimming pool water, roof runoff, sub-surface drainage, or cooling water into Company's collecting sewers.
- (c) No person shall discharge or cause to be discharged any of the following described waste waters into the Company's collection sewers:
- (1) Any liquid or vapor having a temperature higher than 150 degrees F.
  - (2) Any waste water which may contain more than 100 parts per million, by weight, of fat, oil or grease.
  - (3) Any waste water which may contain more than 25 parts per million, by weight, of soluble oils.
  - (4) Any gasoline, benzene, naptha, fuel oil, or other flammable or explosive liquid, solid or gas.
  - (5) Any garbage that has not been properly shredded.

Rules and Regulations Governing  
Rendering of Sewer Service

**RULE 12 Extension of Collecting Sewers**

A. This rule shall govern the extension of collecting sewers by the Company in areas where there are no collecting sewers in the streets and/or roadways. The Company will extend its collecting sewers along streets or roads within its certified area to serve new customers under the following terms and conditions:

1. Upon receipt of written application for service in compliance with Rule 4, the Company will provide the Applicant(s) an itemized estimate of the cost of the proposed extension. Said estimate shall include the cost of all labor and materials required, including manholes, cleanouts, lift stations, reconstruction of existing sewers (if necessary), and the direct costs associated with supervision, engineering, permits, and bookkeeping. Applicable income tax cost will be added to this estimate calculated at the maximum rate.
2. Applicant(s) shall enter into a contract with the Company for the installation of said extension and shall tender to the Company a contribution in-aid-of construction equal to the amount determined in A.1, plus the appropriate customer connection fee(s). Applicant(s) shall have the option of installing the main extension under the provisions of Rule 12B in lieu of entering into said contract.
