Sewer Service Schedule No. 1

NOV 22 1977

AVAILABILITYMISSOURI
Public Service Commission

Available to any sewer customer located on Company's collecting mains suitable for supplying the service requested.

This schedule is applicable to all customers within a service area being provided with sanitary sewage disposal service through trunk sewer mains designed to provide disposal service from two or more subdivisions or drainage areas with the trunk sewer main/s disposing of said sanitary sewage into an approved sewage treatment facility designed to provide service for a partial or full watershed.

RATEMonthly

- A.-Single Family Residential Service (per unit) \$6.50
 B.-Apartment Complexes (per unit) \$6.00
 (Two or more units under single ownership)
 C.-Mobile Home Residential Service (per unit) \$6.00
 (Two or more units under single ownership)
 D.-Commercial, Industrial, Institutional and
 other Services.....Based upon Monthly
 consumption of water used on premises:

1st 25,000 cu.ft. used @ \$.65 per 100 cu.ft.
 Next 10,000 cu.ft. used @ \$.57 per 100 cu.ft.
 Next 10,000 cu.ft. used @ \$.46 per 100 cu.ft.
 Next 15,000 cu.ft. used @ \$.40 per 100 cu.ft.
 All Over 60,000 cu.ft. used @ \$.34 per 100 cu.ft.

Minimum billing for D. above \$6.50

Bills based on water consumption shall be computed from cubic feet used based on water meter readings.

These rates do not included any Municipal, State or Federal taxes. Any such taxes applicable shall be added as separate items in rendering each bill.

Rule 1 GENERAL

- (a) Every Customer, upon signing an application for any service rendered by the Company, or upon application for public service, shall be considered to have expressed consent to be bound by these rates, rules and regulations.
- (b) The Company's rules and regulations governing rendering of service are set forth in these numbered sheets. The rate applicable to appropriate service or rate determination areas are set forth herein and in the alphabetically numbered appendixes to these rules and regulations.
- (c) The Company reserves the right, subject to authority of the Public Service Commission of Missouri, to prescribe additional rates, rules and regulations or to alter existing rates, rules or regulations as it may from time to time deem necessary or proper.
- (d) Every Customer, upon signing an application for sewage disposal service to be rendered by the Company, shall be considered to have expressed consent to notify the Company twenty-four hours in advance of making installations that connect to the Company's sewer mains in order that the Company may inspect the installations for conformance with its specifications.
- (e) At the effective date of these rules and regulations, all new facilities, construction contracts, and written agreements shall conform to these rules and regulations in accordance with the statutes of the State of Missouri. However, nothing in these rules and regulations shall require reconstruction or alteration of existing facilities owned or operated by the Company to provide conformance either at the effective date or thereafter, excepting where such alteration is mutually agreeable between the Company and the Customers involved, where such alteration of the Customer's facilities are necessary to protect the health and welfare of other Customer's and their properties or is considered necessary by the Company.

MISSOURI

Public Service Commission

- (e) A "COLLECTION SEWER" is a pipeline which is owned and maintained by the Company, located on public property or on private easements, and used to transport sewage wastes to a central point for disposal into a Trunk Sewer Line for disposal into a treatment facility.
- (f) A "CUSTOMERS SERVICE SEWER" is a pipe with appurtenances installed, owned and maintained by the Customer, used to transvey sewage from the Customer's premise to the main.
- (g) A "SERVICE CONNECTION" is the point at which the Customer's service sewer is connected to the main through a "Y" branch or "saddle".
- (h) A "LIFT STATION" is that portion of the sewage system which is used to lift the sewage to a higher elevation.
- (i) "SEWAGE" means ground garbage, human and animal excretions, and all other liquid waste normally disposed of by a residential, commercial, or industrial establishment, through the sanitary sewer system.
- (j) The "SEWER SYSTEM" includes all pipes, pumps, lagoons, plants, structures and appliances, and all other real estate, fixtures and personal property, owned, operated, controlled or managed in connection with or to facilitate the collection, carriage, transveyance, treatment and disposal of sewage for municipal, domestic or other beneficial or necessary purposes.
- (k) An "OUTLET" is a service sewer connection to the collecting sewer main.
- (l) A "TREATMENT FACILITY" is an oxidation lagoon system or mechanical treatment plant in which the raw sewage is collected and treated.
- (m) A "SEWER SERVICE" is the removal and treatment of sewage from a premise.

SEP 16 1974

MISSOURI

Public Service Commission

- (a) The Company shall not be responsible in damages for any failure to remove waste water from _____ interruption if such failure or interruption is without wilful default or negligence on its part.
- (b) The Company shall not be liable for damages resulting to Customer or to third persons, unless due to contributory negligence on the part of the Company, and without any contributory negligence on the part of the Customer or such third party.
- (c) The Company shall not be liable for damages because of any interruption of sewer service or for damages caused by defective piping and/or appliances on the Customer's premises.
- (d) The Company shall not be liable for damages resulting to Customer or to third persons because of sewage back-up into Customer or third persons premises, unless due to contributory negligence on the part of the Company, and without any contributory negligence on the part of the Customer or such third party.
- (e) The Company shall not be liable for damages or making of repairs for or on broken sewer mains and/or appurtenances for which it is not the legal owner or for which the contributor has failed to provide proper and adequate easements.
- (f) Employees or agents of the Company are expressly forbidden to demand or accept any compensation for any service rendered to its Customers except as covered in the Company's rules and regulations.
- (g) No employee or agent of the Company shall have the right or authority to bind it by any promise, agreement or representation contrary to the letter or intent of these rules and regulations. Nor shall any employee or agent of the Company have authority to bind it by any promise, agreement, or representation not provided for in these rules, unless such authority is in writing and signed by the President or Officer of the Company.

Rule 4 SERVICE CONNECTIONS

- (a) A written application or contract, properly executed, is required for new service connections. No construction of facilities to be connected to Company sewer mains.
- (b) The Customer shall, upon request of the Company, present in writing to the Company, a list of devices which are to be connected to the Company's mains, giving the location of the building, and the Company will then advise the Customer as to the form and character of the waste collection and treatment facilities available.
- (c) The Company will locate the point to which Customer's service connection will be made through a "Y" branch or "saddle connection" at the collecting sewer which shall be located in dedicated utility easement or public right-of-way.
- (d) Any change in the location of an existing service connection requested by the Customer shall be made at his expense.
- (e) Customer services will not be extended along public streets or roadways or through property of other, except within dedicated easements, in connecting with collecting sewers. If a service connection is requested at a point not already served by a collecting sewer of adequate capacity, the Company shall extend its mains as provided in Rule 10.
- (f) No substantial additions to the water using equipment or appliances connected to the sewer system of the Company shall be made except upon written notice to, and with the written consent of, the Company.
- (g) The Customer or the Customer's plumbing contractor shall notify the Company twenty-four (24) hours in advance of commencing excavations for connections of Customer's service connection to Company's collecting sewer in order that Company may inspect such connection.

Rules and Regulations Governing Rendering of Sewer Service

Rule 5 INSIDE PIPING AND CUSTOMER SERVICE SEWER

- (a) The Customer will provide the customer service sewer at his expense and risk. As a condition of piping and building sewer construction must meet all of the requirements of the latest editions of the Plumbing Rules and Regulations of Lincoln County, Missouri, at the time of connection to the sewer system. The Company shall deny service where footing drains, downspouts, or other sources of uncontaminated water are permitted to enter the system through either the inside piping or through the building sewer.
- (b) A separate and independent Customer service sewer shall be required for every building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, courtyard or driveway, the Customer's service sewer from the front building may be extended to the rear building and the whole considered as one Customer service sewer, provided that the secondary building service sewer is solely for the use of the occupants of the main building as part of their quarters.
- (c) Old Customer service sewers may be used in connection with new buildings only when they are found on examination and test to meet all requirements of the Company.
- (d) The Customer's service sewer shall be cast iron soil pipe, Vitrified clay pipe with neoprene gasketed joints, plastic pipe, all meeting ASTM specifications or equal, or suitable material approved by the Company. Joints shall be tight and water proof. Any part of the Customer's service sewer that is located within ten feet (10') of a water service pipe shall be constructed of cast iron soil pipe with leaded or neoprene gasketed joints. Cast iron pipes with neoprene gasketed or leaded joints may be required where the Customer's service sewer is exposed to damage by tree roots. If installed in filled or unstable ground, the Customer's service sewer shall be of cast iron soil pipe, except that non-metallic material may be accepted if laid on a suitable concrete bed or cradle as approved by the said Company.

SEP 16 1974

- (e) The size and slope of the Customer's service sewer shall be subject to the approval of the Company. In any event shall the diameter be less than four (4) inches I.D. The slope of such four inch (4") pipe shall not be less than one-eighth (1/8) inch per foot.
- (f) Whenever possible the Customer's service sewer shall be brought to the building at an elevation below the basement floor. No building sewer shall be laid parallel to or within three (3) feet of any bearing wall. The depth shall be sufficient to afford protection from frost. The Customer's service sewer shall be laid at uniform grade and in straight alignment in so far as possible. Changes in direction shall be made only with properly curved pipes, fittings and with clean-out provisions.
- (g) In all buildings in which any building drain is too low to permit gravity flow to the Company's main, sanitary sewage carried by such drains shall be lifted by approved artificial means and discharged to the building sewer. No water operated sewage ejector shall be used.
- (h) All excavations required for the installation of a Customer's service sewer shall be open trench work unless otherwise approved by the Company. Pipe laying and backfill shall be performed in accordance with the latest published Engineering Specifications of the Manufacturer of the materials used and the Lincoln County Plumbing Codes, except that no backfill shall be placed until the work has been inspected by the Company. Only those jointing materials and methods which are approved by the Company may be used.
- (i) The connection of the Customer's service sewer into the main shall be made at the "Y" branch, if such branch is available at a suitable location. If the Company's main is twelve inches (12") in diameter or less and no properly located "Y" branch is in the Company's main at the location specified by the Company, a "Y" branch must be installed. Where the Company's main is greater than twelve inches (12") in diameter, and no properly located "Y" branch is available to receive the Customer's service sewer, a "Y" branch may be installed or a neat hole may

Rules and Regulations Governing ~~Plant Capacity or~~ **RECEIVED**
of Sewer ServiceRule 10 EXTENSION OF COMPANY FACILITIES

SEP 16 1974

(A) The Company will reserve treatment plant capacity or will install additional plant facilities and will extend its sewer mains along public highways, roadways, streets or alleys where grades have been established, or within easements acceptable to the Company, on the following terms and conditions:

- (1) A written application is required from all persons desiring service, as set forth in Rule 4. If such service requires the construction or enlargement of existing mains or other Company facilities, the Company shall supply the Customer with an estimate showing the total cost of construction, providing that the Company requires a deposit for main extension other than service connection fees, and/or requirements for any contributions or deposits required in accordance with these rules and regulations. This estimate or agreement shall be dated and considered as effective and binding upon the Company for a period of sixty (60) days from such date.
- (2) Before the Company designs the required facilities and provides a final cost estimate, the applicant shall:
 - (a) Provide the Company, without cost, a copy of Certificate of Title to the premises, any plats, surveys, plans, or other available information requested by the Company. The applicant shall guarantee or qualify the accuracy of such data.
 - (b) Deposit with the Company a sum equal to ten percent (10%) of the estimated cost of construction to cover engineering costs. If no contract is executed by the applicant within 120 days from the date the Company provides the applicant with the final cost estimate,

- (a) The charges for sewer service shall be ~~as shown~~ ^{as shown} rates specified in the applicable rate schedules. The point of assumption of sewage shall be ~~at the main or lateral~~ ^{at the main or lateral} service connection.
- (b) A Customer who has made application for sewer service to a premise shall be held liable for all sewer service furnished to such premise until the Customer notifies the Company in writing to discontinue service.
- (c) For Customers not paying in advance, the Company shall have the right at any time to require the Customer to make a reasonable deposit, in an amount not to exceed the estimated bill for one billing period plus thirty (30) days in advance, to secure the prompt payment of bills. Interest at the rate of six percent (6%), payable upon return of the deposit, will be paid for the time such deposit was held by the Company unless such period of time be less than six (6) months. Such deposits shall be refunded at the termination of service after all charges that may be due and payable by the Customer have been paid.
- (d) Each Customer is responsible for furnishing the Company with his correct address. Failure to receive bills will not be considered an excuse for non-payment nor reason to permit an extension of the date when the account would be considered delinquent.
- (e) Bills and notices relating to the Company or its business will be mailed or delivered to the mailing address entered in the Customer's application unless the Company is notified in writing by the Customer of a change of address.
- (f) Payments shall be made at the office of the Company or at such other places conveniently located as may be designated by the Company.
- (g) The Company will not be bound by bills rendered under

MISSOURI
Public Service Commission

- (h) A separate bill shall be rendered for each Customer's sewer service.
- (i) The Company shall have the right to render bills either monthly or quarterly depending upon the class of service furnished and to receive annual payments when requested by the Customer. Such bills shall be due and payable on the due date indicated on each bill.
- (j) Where water usage determines sewer charges and a meter fails to register, or if the Company is unable to gain access to Customer's premises, the Customer's meter reading shall be estimated from the record of meter readings for a reasonable prior period.
- (k) When bills are rendered for a period of less than a complete billing period due to the connection or termination of service, the billing shall be for the proportionate part of the charge.
- (l) All sewer Customers whose sewer service charges are determined on the basis of water usage and who used in excess of 20,000 gallons of water per month, and can show to the satisfaction of the Company that a portion of the water as measured by the water meter or meters does not and can not enter the sanitary sewer system, the Company may determine in such manner and by such method as it may deem practicable the percentage of metered water entering the sanitary sewer system. Such percentage, when so determined shall then constitute the basis of sewage service charges; provided, however, that the Company in its discretion may require or permit the installation of additional meters at the expense of the Customer or other interested party in such a manner as to determine the quantity of water actually entering the sewer system, in which case the quantity of water used to determine the sewer service charge

RECEIVEDRule 12 SERVICE CHARGES

SEP 16 1974

- (a) An application for a service connection, or discontinuance of an existing service will be made during the Company's regular business hours without charge.
- (b) A serviceman call during the Company's regular business hours which results in collection of a delinquent account (in lieu of discontinuance in accordance with Rule 7) shall require collection of the delinquent amount plus Five Dollars (\$5.00), net, service charge to avoid discontinuance.
- (c) A service call at any time other than during the Company's regular business hours for connection, discontinuance or any other reason except a blockage or defect in Company's main or lateral, shall require a service charge of Ten Dollars (\$10.00), net. In instances where such a service call is for collection of a delinquent account, this service charge shall be collected in addition to any other amounts due prior to continuing of or reinstating of service.
- (d) Company personnel will not work on sewer piping or facilities not owned by the Company.
- (e) The service charges cited in the various sections of this Rule are "net" and do not include any applicable municipal, state or federal taxes computed on the Company's collections of such charges. Any such taxes applicable shall be added as separate items in rendering each bill.
