GENERAL AND LOCAL EXCHANGE TARIFF

DIGITAL DATA AND NETWORK SERVICESINTEGRATED SERVICES DIGITAL NETWORK (ISDN)SINGLE LINE SERVICES

A. General

Digital (ISDN) Single Line Service is a local exchange telecommunications service available only to customers served from suitably equipped central offices where operating conditions permit. Digital (ISDN) Single Line Service is provided via Integrated Services Digital Network-Basic Rate Interface (ISDN-BRI) technology. It is a central office based service arrangement which consists of host central office interface equipment and software located on Company premises. This service provides local exchange access, interexchange access, and features.

B. Conditions

1. Services offered in accordance with this tariff are provided exclusively from central offices equipped with digital facilities. The availability of services and ability to provide services may vary among serving central offices. Digital (ISDN) Single Line services will be provided where central office capabilities and conditions permit.
2. Customer-provided equipment used in conjunction with services provided in accordance with this tariff must conform with the technical specifications of the Company.
3. The Company may change telecommunications services, equipment, operations, or procedures while remaining consistent with the Federal Communications Commission's Rules and Regulations. If changes cause a customer's equipment or communications system to become incompatible with services or if changes cause terminal equipment to require modification or become less effective, the Company shall not be responsible.
4. Customer requested temporary disconnections of Digital (ISDN) Single Line services are not permitted.

Issued: July 18, 2002

DIGITAL DATA AND NETWORK SERVICES

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

SINGLE LINE SERVICES

B. Conditions (Cont'd)

5. Digital (ISDN) Single Line Service is composed of the following elements:
 - Single Line Access
 - Line/Channel Configuration - choose one or a combination of:
 - B-Voice/CSD, per line
 - D-Packet, per channel
 - Usage Options - must choose one:
 - 25 hours block of time (Residence Only)
 - 50 hours block of time (Residence or Business)
 - 100 hours block of time (Business Only)
 - Flat rate (Residence Only)
 - Measured Service (Business Only)
6. Digital (ISDN) Single Line Service is digital exchange service.
7. Each Packaged Service is associated with a digital local loop, not with a channel.
8. Each digital local loop is arranged with a B-Channel or D-Channel configuration, or both a B-Channel and D-Channel configuration.
9. Digital (ISDN) Single Line Access is a service which terminates a digital local loop at the central office and permits access to the exchange network. Only one Digital (ISDN) Single Line access element is required for each digital local loop.
10. A customer may order multiple Single Lines.

GENERAL AND LOCAL EXCHANGE TARIFF

DIGITAL DATA AND NETWORK SERVICESINTEGRATED SERVICES DIGITAL NETWORK (ISDN)SINGLE LINE SERVICES

B. Conditions (Cont'd)

11. A Digital (ISDN) Single Line Access arranges a digital local loop for an individual user.
12. The B-Voice/Circuit Switched Data Channel (B-V/CSD) assigns voice and circuit switched data traffic to two B-Channels of a digital local line. The CSD mode operates at a maximum speed of 64 kbps (Switched 64 kbps) but may be used at a speed of 56 kbps (Switched 56 kbps).
13. Data sent to interexchange carriers over B-V/CSD Channels in the CSD mode can be transmitted at either 64 kbps or 56 kbps. (Some interexchange carriers do not offer transmission at 64 kbps).
14. The D-Packet Switched Data Channel allows transmission of packet-switched data over a D-Channel. Subscription to a D-Packet Service without subscription to B-Channel Service is permitted.
15. Additional Telephone Numbers

Up to two primary telephone numbers are provided with each activated Digital (ISDN) Single Line one for each of two channels. If an additional telephone number is required on either channel, an additional number charge applies for each additional number. The additional telephone numbers are available at the rate shown in this section. Additional telephone numbers may be published in the directory at the additional listing rates as found in Section 9.

(N)

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

SINGLE LINE SERVICES

B. Conditions (Cont'd)

- 16. Digital (ISDN) Single Line Access
 - a. Digital (ISDN) Single Line Access provides support for connecting from one to eight terminals belonging to the same customer on an individual digital local line.
 - b. Only one user will be connected to each B-Channel. Other users on the same digital local loop can access the D-channel only.
 - c. Up to six users can simultaneously share the same D-Channel of a D-Channel packet switching arrangement. Additional telephone numbers are required for each additional terminal.
 - d. A maximum of eight terminals belonging to the same customer are permitted per Digital Single line.
- 17. A change in service from a basic exchange service to Digital (ISDN) Single Line service is a discontinuation of service and an establishment of service and will cause a temporary interruption of service. All applicable installation and service connection charges and all charges applicable to the establishment of Digital (ISDN) Single Line Services apply.
- 18. If a customer chooses blocks of time (usage option), all local, originating voice and circuit switched data calls will be charged toward blocks of time.
- 19. The Telephone company makes no guarantee and assumes no liability for resale or sharing by the customer of the Digital (ISDN) Single Line Service and its associated facilities, including (without limitation) the failure of any person to pay the customer's or reseller's billing for any reason whatsoever, including (without limitation) denied toll calls and toll fraud.

GENERAL AND LOCAL EXCHANGE TARIFF

DIGITAL DATA AND NETWORK SERVICESINTEGRATED SERVICES DIGITAL NETWORK (ISDN)SINGLE LINE SERVICES

20. Private Line arrangements or Special Access Services connected with Digital Single Line Service are subject to rates, rules, and conditions as set forth in the appropriate tariffs.
21. If ISDN is not available from a customer's normal serving central office, CenturyTel may choose, at the company's discretion, to provide service from the nearest ISDN-capable office. If ISDN is available from a customer's normal serving central office, the customer must accept service from that office and ISDN Foreign Central Office/Foreign Exchange is not available to the customer.
22. At the Company's discretion, Digital (ISDN) Single Line Service may be provided to a non-capable central office. In this instance, if the customer is served from a central office/exchange which has the same local calling scope as his normal serving central office/exchange, NO Foreign Central Office/Foreign Exchange charges as specified in this tariff shall apply.

Should the customer be served from a different local calling scope from the customer's normal serving central office/exchange, the applicable Foreign Central Office/Foreign Exchange charges as specified in this Tariff shall apply.

23. When ISDN service becomes available from the customer's normal serving central office, the customer will accept a number change to a number associated with the ISDN serving central office. The customer will be subject to calling areas associated with the normal serving central office, as specified in Company's tariffs. If the customer does not wish take ISDN service from the normal serving central office after the service is available from their office, but continues to utilize service from an alternate serving central office, then charges as outlined above will continue to apply.

No charge will apply to transfer the customer back to their normal serving central office as set forth above. Provisioning of ISDN from noncapable ISDN offices is solely at the discretion of the Company.

GENERAL AND LOCAL EXCHANGE TARIFF

DIGITAL DATA AND NETWORK SERVICES

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

SINGLE LINE SERVICES

B. Conditions (Cont'd)

24. One bill will be rendered for each Digital (ISDN) Single Line Service.
25. Digital (ISDN) Single Line Service is offered on a term commitment basis commencing on the date the service is established.
26. Digital (ISDN) Single Line Service Line and Feature Packages rates apply each month from the time the system is placed in service until the Digital Single Line Service is discontinued.
27. If remote units are required to provide switching capabilities for intracommunication purposes, they will be located on Company provided sites located on the customer's premises. Any remote units and all system cabling used in association with Digital Single Line Service are provided by and remain the property of the Company.
28. Rates and charges for Digital (ISDN) Single Line Service contemplate the use of central office equipment selected by the Company. When special central office equipment or features are provided at the request of the customer, special assembly rates and charges may be applied in addition to those shown herein.
29. A minimum service period of three months is required for each ISDN Single Line service.
30. Certain optional feature capabilities may not be compatible with other Feature Packages or Optional System features.

DIGITAL DATA AND NETWORK SERVICES

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

SINGLE LINE SERVICES

B. Conditions (Cont'd)

31. Space Requirements

- a. Suitable and sufficient space for any remote units required shall be leased by the Company from the customer.
- b. Suitable space includes provisions for atmospheric control and encompasses the following environmental requirements:
 - Dust free
 - Controlled temperatures ranging from 50° to 86° Fahrenheit, with consideration given to heat loss and/or gain of the equipment
 - Relative humidity of 20% minimum and 55% maximum
- c. Commercial power necessary to operate the remote units, if required, shall be provided by the customer and located on the customer's premises.

32. Termination Liability Terms and Conditions, See Section 2, Rules and Regulations.

Issued: July 18, 2002

Effective: September 1, 2002

Jeffrey Glover
Vice President External Relations
Monroe, Louisiana

GENERAL AND LOCAL EXCHANGE TARIFF

DIGITAL DATA AND NETWORK SERVICESINTEGRATED SERVICES DIGITAL NETWORK (ISDN)SINGLE LINE SERVICES

B. Conditions (Cont'd)

33. Individual Line Loop Extension

- a. Digital (ISDN) Single Line Individual Line Loop Extension provides a physical extension of the Digital (ISDN) Single Line loop from approximately 18,000 feet to approximately 36,000 feet (These distances are for planning purposes. The actual distances are dependent on decibel (dB) loss and not just physical loop length.) This physical extension is accomplished by means of a CO installed power module and an outside plant installed regenerator or U-Repeater.
- b. The deployment method is based on dB loss and not on specific cable footage. The vendor installation information indicates that up to a 34 dB loss at 40 kHz in either direction of the field repeater is acceptable. With the GTE engineering practice of maximum loss for the Digital Centrex (ISDN) loop to be 38 dB at 40 kHz, it is assumed, if the customer's distance would exceed the 38 dB for standard installation, the U-Repeater would be mounted within the stated range of 34 dB and the customer's length would be extended another 34 dB from the U-Repeater installation point. Only one power module and U-Repeater can be used per Digital (ISDN) Single Line.
- c. The customer's network access line is preengineered to determine when the U-Repeater/power module are required. The customer will not be charged the Digital (ISDN) Single Line Individual Line Loop Extension rate unless the equipment is actually used. The charge will not be invoked based on the cable footage. The power module is designed to be used only with the U-Repeater and the repeater can only be used with the power module. The appropriate Individual Line Loop Extension rate will apply in addition to rates for Digital (ISDN) Single Line Service.
- d. One interexchange carrier must be selected for all voice and circuit switched data telephone numbers associated with the same digital local loop, however 10XXX or 101XXXX access to other Carriers is provided. A separate interexchange carrier may be chosen for packet service.

DIGITAL DATA AND NETWORK SERVICES

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

SINGLE LINE SERVICES

C. Features Offered (Cont'd)

3. General Definitions

B-Channel (Bearer Channel) - A channel used to carry digitized voice and data information at a speed of 64 kbps.

Basic Rate Interface (BRI) - BRI supports two 64 kilobits per second (kbps) B-Channels and one 16 kbps D-Channel (2B+D).

Clear Channel Capability - The capability to transport 64 kbps over a channel with no constraint on the quantity or on the sequence of bits.

Channel - The electrical path provided by the Company between two or more terminating points for the transmission of information or intelligence.

D-Channel (Delta Channel) - A communications path that operates at 16 kbps in support of network control signals and 9.6 kbps X.25 packet data.

D-Packet - A service which permits a customer to use a D-Channel for packet switched data. Utilizes 9.6 of the 16 kbps on BRI ISDN D-Channel and allows for more than one data device.

Issued: July 18, 2002

Effective: September 1, 2002

DIGITAL DATA AND NETWORK SERVICES

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

SINGLE LINE SERVICES

C. Features Offered (Cont'd)

3. General Definitions (Cont'd)

Digital (ISDN) Single Line - Single Line Service provided by ISDN-BRI. One line includes 2 B-Channels and 1 D-Channel.

Digital (ISDN) Single Line Access - The central office termination of a BRI Line arranged for access to the public switched network.

Integrated Services Digital Network (ISDN) - A set of standards which enable end-to-end digital transmission, access integration, and established standardization of points of interconnection over a single access line. End-to-end digital transmission eliminates the necessity for voice-band modems that use analog processing techniques. Access integration refers to utilizing a single ISDN line, whereby an end user over one line can access a wide variety of user information services such as voice, circuit switched data, and packet switched data.

Kbps - Kilobits Per Second.

Mbps - Megabits Per Second.

User - A member of a business system.

MBKS - Multibutton Key Set.

Issued: July 18, 2002

Effective: September 1, 2002

Vice President External Relations
Monroe, Louisiana

GENERAL AND LOCAL EXCHANGE TARIFF

DIGITAL DATA AND NETWORK SERVICESINTEGRATED SERVICES DIGITAL NETWORK (ISDN)SINGLE LINE SERVICES

C. Features Offered (Cont'd)

4. Feature Package Elements and Definitions

a. Basic Operating Features

Automatic Identification of Outward Dial - Identifies all calls leaving the customer group by the station number from which calls are placed.

Calling Number Identification Delivery (CNID) - is an arrangement which permits a customer with local exchange service, other than foreign central office service, to be immediately apprised of the calling telephone number of a call placed to the customer.

At the time the incoming call is placed, the calling telephone number is forwarded from the terminating central office to compatible customer display equipment associated with the customer's local exchange service. The calling telephone number is then delivered to the display device during the first silent interval of ringing.

For calls originating from a line with a multiline hunt group, ordinarily the main telephone number is delivered. If the calling identification information is not available for forwarding to the called party, the customer's display device will give an anonymous indication. Calling identification information is unavailable from calls made through some large PBX systems, from most cellular radio calls, and currently from interexchange carrier calls. Nor is the calling identification information made available when incoming calls have been handled by an operator or charged to credit cards.

Customers subscribing to CNID will be responsible for the provision of compatible display equipment. The Company assumes no liability for any incompatibility of the customer provided display equipment.

Issued: July 18, 2002

Effective: September 1, 2002

DIGITAL DATA AND NETWORK SERVICESINTEGRATED SERVICES DIGITAL NETWORK (ISDN)SINGLE LINE SERVICES

C. Features Offered (Cont'd)

4. Feature Package Elements and Definitions

a. Basic Operating Features (Cont'd)

Calling Number Identification Delivery (CNID) (Cont'd) - CNID information may not be sold or given to another without the caller's consent. CNID information may only be used for: (a) routing or completion of calls, (b) billing of calls, (c) account management purposes, (d) services directly related to the call or transaction, (e) verification of calling party identity and (f) marketing products or services that are directly related to those previously acquired by the customer for the number delivery services subscriber. This applies if the number services subscriber has an existing relationship with the customer. CNID customers failing to comply with any of these conditions will have their service terminated.

Cancel Calling Number Delivery (Per Call or Per Line) is also available to subscribers as described in Section 6 of this Tariff.

Direct Inward Dialing - Allows incoming calls from the exchange network to reach a specific station without attendant assistance.

Direct Outward Dialing - Allows station users to place external calls to the exchange network without attendant assistance.

Distinctive Ringing - Permits a station user to determine by the cadence of the ringing, whether a call is internal or external.

Touch Call - Equips all station lines for touch call dialing.

Issued: July 18, 2002

Effective: September 1, 2002

C. Features Offered (Cont'd)

4. Feature Package Elements and Definitions

b. MBKS Basic Service

Analog Shared Directory Number - Allows several MBKS station sets to share one or more DNs. Originating and terminating events on one station set affect all stations sharing that DN. The shared DNs can have multiple call appearances, multiple calls can exist on one DN, and more than one station sharing the DN can have a call active on that shared DN.

Call Alternation - This feature allows a station user to hold one call, make another call then talk alternately between the two parties.

Call Forwarding - This feature provides the option of fixed and/or variable forwarding of a station's incoming calls to a predetermined number. Includes all incoming calls to a predetermined number. Includes all calls or only calls reaching a busy or no answer conditions (Fixed Forwarding is established and changed by the Telephone Company, whereas variable forwarding is established and changed by the station user).

Conference Calling - allows a user to set up a conference call. Conference calls can include members of the customer group and parties outside the group. Up to six parties can be connected.

Drop - Allows a user to disconnect the last party added to a conference call, or the other party if only two parties are conferenced.

Hold - Allows the MBKS set user to place a call on hold by pressing the function button. Any MBKS set with the call appearance for call on hold can pick up the call by pressing the call appearance button.

Key System Coverage for Analog Lines - Allows an analog station set to share calls with the ISDN station set.

Issued: July 18, 2002

Effective: September 1, 2002

DIGITAL DATA AND NETWORK SERVICESINTEGRATED SERVICES DIGITAL NETWORK (ISDN)SINGLE LINE SERVICES

C. Features Offered (Cont'd)

4. Feature Package Elements and Definitions (Cont'd)

b. MBKS Basic Service (Cont'd)

Multiple Directory Number Buttons - Provide access to more than one Directory Number (DN) on the MBKS set. Indicator lights show the status of the DN (idle, call on hold, call in progress, etc.)

Shared Call Appearances of Directory Numbers - Allows several MBKS station sets to share one or more Directory Numbers. Originating and terminating events on one station set affect all stations showing that Directory Number. The shared Directory Numbers can have multiple call appearances, multiple calls can exist on one Directory Number, and more than one station showing the Directory Number can have a call active on that shared Directory Number.

Speed Calling - (Also known as Abbreviated Dialing) permits the customer to dial selected numbers using fewer digits than normally required. This is accomplished through the assignment of abbreviated codes to frequently called numbers. One and two-digit speed calling lists are available. The Speed Calling Feature is available to individual lines, two-party lines, and members (some of all) of a multiline hunt group. Speed Calling lists assigned to individual lines can be shared by other lines at the customer's request. For the BRCS feature, the service providers can define list sizes and up to three digit access codes.

SINGLE LINE SERVICES

C. Features Offered (Cont'd)

4. Feature Package Elements and Definitions (Cont'd)

c. Circuit Switched Data 1000 Package

Data Call Forward - allows a customer to forward incoming calls to another telephone number.

Data Multi-Line Hunt Group - provides sequential hunting among lines in a hunt group for calls to a pilot number.

Data Speed Call-Short Lis - allows speed calling over a Circuit Switched Data Channel. A short list allows storing up to eight numbers.

Data Toll Restriction - denies toll calls attempted from Circuit Switched Data Channels.

d. Circuit Switched Data 2000 Package - includes CSD 1000 Package plus

Data Circular Hunting - searches for a vacant line in a hunt group for calls to a pilot number. The hunting starts from the idle line found by the previous hunt.

Data Speed Call-Long List - allows speed calling over a Circuit Switched Data Channel. A long list allows storing up to thirty numbers.

C. Features Offered (Cont'd)

4. Feature Package Elements and Definitions (Cont'd)

e. X.25 Basic Package

X.25 Flow Control Parameter Negotiation permits negotiation on a per call basis of the flow control parameters. This consists of automatically negotiating the maximum packet size and window size for each direction of data transmission.

X.25 Incoming Calls Barred prohibits a data terminal from terminating an incoming call.

X.25 Outgoing Calls Barred prohibits a data terminal from originating outgoing virtual calls.

X.25 Reverse Charge permits a called party to be billed for a call.

X.25 Reverse Charge Acceptance allows a called party to accept charges for incoming calls.

X.25 Throughput Class Negotiation allows the calling data terminal to request specific throughput classes in a call request package for both directions of data transmission.

X.25 Transmit Delay Selection and Indication allows the data terminal to specify an acceptance transit delay on a per-call basis for virtual call.

Issued: July 18, 2002

C. Features Offered (Cont'd)

4. Feature Package Elements and Definitions (Cont'd)

f. X.25 Deluxe Package - Includes X.25 Basic Package plus the following:

X.25 Closed User Groups allows ISDN subscribers to establish subnetworks within which the members of a closed user group can communicate. A member can not communicate with parties outside of the closed user group. Closed user groups are established by a service order. A user can belong to more than one closed user group.

X.25 Fast Select allows a data terminal to send as many as 128 bytes of data in addition to call setup and clearing packets.

X.25 Fast Select Acceptance allows transmitting incoming call packets with the fast select facility to a compatible destination terminal.

X.25 Hunt Groups allows grouping access lines so that a packet switched data call incoming to a hunt group is completed if there is an open channel on an access line within the hunt group. A Hunt Group is established by service order. Members of a Hunt Group can be distributed among the ISDN switching modules within the central office switch, but the Hunt Group cannot span switches. A Basic Rate Interface line within a Hunt Group can have its own address (individual line addressing) and can accept calls independent of the Hunt Group. A Hunt Group can have multiple group addresses.

X.25 One-Way Outgoing Logical Channel allows an ISDN subscriber to specify the number of channels to be used for originating calls.

X.25 Permanent Virtual Circuit allows packet switching to be implemented over a dedicated channel without needing call setup or clearing.

DIGITAL DATA AND NETWORK SERVICES

Integrated Services Digital Network - Primary Rate Interface (ISDN-PRI)

A. General

1. Integrated Services Digital Network (ISDN) - Primary Rate Interface (PRI) is a central office based service arrangement that is an alternative for individual access services, such as Direct Inward Dialing (DID), Direct Outward Dialing (DOD), 800/888 Services, Wide Area Telecommunications Services, and local business trunks.
2. ISDN-PRI is provisioned on a clear channel 1.544 megabit per second (Mbps) facility and uses the ISDN architecture of 23 "B" channels and one "D" channel or 24 "B" channels to provide the customer with the capabilities of simultaneous access, transmission and switching of voice, data and imaging services via channelized transport.
3. ISDN-PRI provides the capability to transport customer information in the form of circuit-switched voice or data up to 64 Kbps over any "B" channel. One "D" channel can control up to 20 PRI trunks. In these cases, a single "D" channel in one ISDN-PRI trunk handles all signaling and control functions of the other trunks in the arrangement, which allows supplemental trunks to consist of 24 "B" channels.
4. ISDN-PRI and other local services are offered on an end user basis only. Use of such services for transmitting interexchange traffic that does not either originate or terminate at the customer premises is prohibited. (N)

GENERAL AND LOCAL EXCHANGE TARIFF

DIGITAL DATA AND NETWORK SERVICESIntegrated Services Digital Network - Primary Rate Interface (ISDN-PRI)
(Continued)

B. Regulations

1. ISDN-PRI service is available from serving central offices equipped with the necessary "clear channel" facilities to provide ISDN-PRI service. Feature availability and service capabilities are dependent on the facilities and the digital technology providing the service.
2. Customer Provided Equipment (CPE) must be NI-2 compliant (meet the National Standard for PRI). Any CPE that requires custom switch features not supported in the NI-2 specification may be supported as an exception. Each exception may require additional transport charges that can be found in the PSC MO No. 6 Digital Data Transmission Services Tariff.
3. In the event the serving central office is not so equipped, upon the Company's discretion, CENTURYTEL will provide PRI service from an alternate local (or foreign) serving central office (determined by CENTURYTEL), within the same calling scope at no additional charge to the customer.
4. When a customer's serving central office is not suitably equipped and the customer chooses to subscribe to ISDN-PRI Service from another Telephone Company designated ISDN-PRI serving central office, the customer will utilize the dialing plan associated with the designated ISDN-PRI serving central office. The PRI Access and PRI Facility charges will apply in addition to the special transport, as specified in PSC MO. NO. 6 Digital Data Transmission Services Tariff.
5. This Tariff provides for PRI switching capabilities only and additional services must be subscribed to under separate sections of this Tariff. Each ISDN-PRI trunk group is provided with one telephone number. Additional numbers may be purchased at the rates specified in Section 10 for DID Service.

DIGITAL DATA AND NETWORK SERVICES

Integrated Services Digital Network - Primary Rate Interface (ISDN-PRI)
(Continued)

B. Regulations (Continued)

6. This tariff does not provide for the transmission of packet data on the "B" or "D" channels, but can be provided on an individual case basis.
- .7. Termination Liability Terms and Conditions, See Section 2, Rules and Regulations.

8. During the initial term commitment, the customer may add PRI services at the same monthly rate specified in the customer's original contract.
9. If a customer discontinues other CenturyTel services and establishes ISDN-PRI that utilizes the same facilities (i.e., Digital Channel Service) the nonrecurring charge associated with the ISDN-PRI facilities (DS1 facilities) will be waived for the same quantity replaced by the ISDN-PRI facilities to which the customer currently subscribes. The nonrecurring charges associated with the ISDN-PRI access portion of the new service applies in all instances.
10. The PRI Subsequent Activity Charge (SAC) is applicable for any changes to customer configurations after the initial installation. The SAC is applicable per occurrence and not based on the number of trunks.

Issued: July 18, 2002

Effective: September 1, 2002

Jeffrey Glover
Vice President External Relations
Monroe, Louisiana

DIGITAL DATA AND NETWORK SERVICESIntegrated Services Digital Network - Primary Rate Interface (ISDN-PRI)
(Continued)

C. PRI Features

The following B-channel features are offered to the customer, at no additional charge.

1. Caller ID Number is a standard feature within a system between an ISDN-PRI Service and a Centrex System or between two or more ISDN-PRI Services belonging to the same customer.
2. "D" Channel Back-Up automatically takes over for a failed "D" channel in case of trouble. This may be subscribed to as part of a 23B+D Channel Back-Up arrangement.
3. Call-by-Call Service Selection provides an option to the dedicated channel configuration by allowing channels to be configured to access multiple services on a per call basis. With this feature, separate facilities are not required for individual services, such as DID, DOD, WATS, 800/888 services, and local switched access lines.
4. Clear Channel Capability allows the customer to transport 64 Kbps over the PRI channels with no constraint on the quantity or sequence of bits using the "Bipolar with Eight Zero Substitution" method of providing bit sequence independence.
5. Fractional DS1 ISDN-Originating allows the customer to set up N x 64 Kbps calls from an ISDN-PRI in real-time and in the same manner as any circuit switched ISDN call.
6. Fractional DS1 ISDN-Terminating allows the customer to receive N x 64 Kbps calls from an ISDN-PRI in real-time and in the same manner as any circuit switched ISDN call.
7. Non-Facility Associated Signaling (NFAS) allows the D-channel signaling entity to assign calls to channels on more than one interface (including the one containing the D-channel). The collection of these B-channels and the controlling D-channel is called a PRI group. Up to 20 DS1 Facilities can be assigned to a PRI group.

GENERAL AND LOCAL EXCHANGE TARIFF
DIGITAL DATA AND NETWORK SERVICES

Business Assist™

(N)

A. General

1. Business Assist™ provides an intra-exchange digital facility between the customer premises and the local serving wire center and will be used by the customer to aggregate their telecommunication services onto a digital local loop. It is an intra-exchange service that can be utilized with other intra-state services that provide transport between two or more central offices. Business Assist™ includes:

- a Exchange Dial Tone service, e.g., exchange lines/trunks.
- b Digital Data Services (56/64 Kbps increments)

2. Business Assist™ is comprised of the following components:

Business Assist™ Facility
Business Assist™ Digital Channels

- a Connection charges will be at the rates and charges specified in Section 5.C of this Tariff.
- b Business Assist™ is available as a DS1 (1.544 Mbps) facility with increments of up to 24 DS0 channels. Term Payment Plans are available in quantities of 12, 24 or 36 months. At the expiration date of the customer's selected Term Payment Plan period, the customer may continue service under a new Term Payment Plan or on a month-to-month basis at the 12 month Term Payment Plan. Rates for service under these options will be the current rates as specified in this Tariff.

3. This service is not available for use in transmitting interexchange traffic that neither originates or terminates at the customer premises.

GENERAL AND LOCAL EXCHANGE TARIFF

Business Assist™ (Cont'd)

(N)

B. Digital Architecture

1. Business Assist™ provides a common line link between the customer and the local serving wire center. End-to-end private line and exchange services may utilize this digital link to the customer's premise, rather than the analog loop that might otherwise be provided. This architecture is intended to promote more efficient connectivity of analog and digital networks.
2. Business Assist™ will be available on a digital basis at the network interface on a customer's premises. Traditional analog services can be provided on a digital basis to a customer's premises by the Company when a customer desires them encoded in a DS1 bit stream. Under those conditions, they will be provided as DS0 channels by the Company. Each digital channel provided will have an identity only as a "time slot" within a DS1 loop. Both the Company and the customer have joint responsibilities to ensure the proper transmission of the provided services. Normal analog channel network interface specifications will be superceded by the electrical specifications of the 1.544 Mbps (DS1) that is actually terminated. Compatible digital-to-channelized conversion equipment must be provided by the customer to derive the desired analog services. Any terminating equipment necessary for digital services is the responsibility of the customer.

Business Assist™ (Cont'd)

(N)

C. Definitions

1. Terminating Equipment. The network channel terminating equipment provided by the customer to terminate digital facilities on the customer's premises such as a Channel Service Unit/Data Service Unit (CSU/DSU) or Integrated Access Device (IAD).
2. Business Assist™ Facility. A multifunctional DS1 or signal between the customer premises and the local serving wire center. This digital link can be used to transport switched and dedicated services. This element acts as the transport medium for the network services ordered by the customer. The Business Assist™ Facility is available in quantities of DS1 facilities.
3. Business Assist™ Digital Channel. The connection between the Business Assist™ Facility and the network service accessed.
4. DS0. The term DS0 denotes a channel service expressed in terms of its digitally encoded data bit rate in accordance with the North American hierarchy of digital signal levels. It is generally referred to as having a 64 Kbps transmission bit rate signal; however, customer transmission rates may be limited to 56 Kbps by existing or available central office equipment.
5. DS1. The term DS1 denotes a channel service expressed in terms of its digitally encoded bit rate in accordance with the North American hierarchy of digital signal levels. It has a 1.544 Mbps transmission bit rate and provides for the two-way simultaneous transmission of isochronous timed, Bipolar Return-to-Zero (BPRZ) bit stream format. Unframed signal formats are not permitted or compatible with Company equipment. DS1 facilities are normally provided on copper transmission medium.

D. Regulations

1. Business Assist™ is furnished subject to the availability of facilities and requisite digital equipment located in a central office building owned or leased by the Company. Service inquiries will be necessary to determine availability.
2. Special Construction Charges as specified in Section 2.P.1.c of this Tariff may be applicable.
3. The Private Line Service – Digital Data Service as specified in Section 7 of this tariff will apply when Business Assist™ is extended beyond the customer's local serving wire center.
4. The customer may activate any number or combination of digital channels within the limitations as set forth in Section D.5 following. Digital channels may be activated coincident with or at any time subsequent to the initial installation of Business Assist™. Once activated, a digital channel is subject to a minimum service period (month to month).
5. A minimum of six voice channels and two data channels must be activated for Business Assist™. The total number of digital channels activated by the customer may not, at any time, exceed the total Business Assist™ Facility capacity.
6. When individual digital channels are activated to provide the local loop link for services offered in other sections of this Tariff, the regulations, rates, and charges specified in this Tariff will apply.
7. All Business Assist™ facilities must be terminated at a single equipment location on a customer's premises.
8. Channelization on a customer's premises will be provided by the customer.

Business Assist™ (Cont'd)

(N)

D. Regulations (Cont'd)

9. Joint provisioning of channelized services introduces joint responsibilities between the customer and the Company as specified following:
- a. Responsibilities of the Company:
- (1) The Company will endeavor to activate its portion of joint service in a timely manner on the negotiated date to support installation requirements.
 - (2) The Company will provide the customer with information regarding the type and manufacturer of Central Office channelization equipment to be used in each application.
 - (3) The Company reserves the right to change its equipment vendors should equipment availability, price or technological advantages make such a change attractive or necessary.
 - (4) The Company will notify the customer, generally a minimum of six months in advance, of any need to change its central office equipment to allow the customer sufficient time to respond, make any necessary changes, and schedule cooperative testing for cutover, if required.
 - (5) Digital synchronization timing for Business Assist™ will be provided by the Company.
- b. Responsibilities of the Customer:
- (1) The customer must be prepared to activate his portion of joint service in a timely manner on the negotiated date, providing testing equipment and personnel to support installation requirements, as may be necessary.
 - (2) The customer will be responsible for selecting his own equipment. Customer equipment must be compatible with the Company provided channelization at the Central Office.
- c. Trouble resolutions:
- (1) The Company will assist the customer in resolving any installation or day-to-day Business Assist™ problems. However, the Company does not assure responsibility for the compatibility or suitability of the customer's equipment. Dispatches to customer premises caused by customer equipment troubles will result in a Premises Visit Charge as specified in Section 5 F.2.a.1).
 - (2) When a customer's Business Assist™ is interrupted due to any cause other than the negligence or willful act of the customer or the failure of the facilities provided by the customer, a pro-rata adjustment of the monthly charges involved will be allowed for the service and facilities rendered useless and inoperative by reason of the interruption during the time said interruption continues in excess of 24 hours from the time it is reported to or detected by the Company except as otherwise specified in this Tariff. The adjustment shall not be applicable for the time that the Company stands ready to repair the service and the customer does not provide access to the Company for such restoration work.

E. Application of Rates

1. Two basic rate elements; Business Assist™ Facility, and Business Assist™ Digital Channels are applicable to each Business Assist™.
2. The Business Assist™ Facility element includes the transport between the customer premises and the local serving wire center. The Business Assist™ Facility is offered with 12, 24 or 36-month Term Payment Plan periods. At the expiration date of the customer's selected Term Payment Plan period, the customer may continue service under a new Term Payment Plan or on a month-to-month basis at the 12 month Term Payment Plan. Rates for service under these options will be the current rates as specified in this Tariff.
3. Digital Channel charges are recurring charges applicable for each network service (switched or dedicated, voice or data) required by the customer. Voice and data services include connectivity to the local serving wire center and associated charges such as trunk port charges or channel termination charges. Business Assist™ Digital Channels are offered on a month-to-month basis for each digital channel (DS0) connection.
4. Monthly rates and charges as specified in Section F.2.a following for the Business Assist™ Facility apply according to the requested channel capacity and the type of service used. These rates apply to the number of digital channels that are actually activated by the customer. (C)
(C)
5. Rates and charges specified in other Tariff sections for services such as Custom Calling Services, etc., are in addition to the monthly rates for Business Assist™.
6. Rates and charges for other services not included in Business Assist™ such as EAS, DID Numbers and Metro Calling Plan are in addition to the rates specified in this Tariff for Business Assist™. (C)

F. Rates and Charges

1. Nonrecurring Charges

a. Nonrecurring charges are one-time charges that apply for specific work activity, (i.e., installation of service or change to an existing service). The types of nonrecurring charges that apply for Business Assist™ are those listed below.

(1) Installation of Business Assist™. These are nonrecurring charges associated with the work performed by the Company in connection with the physical installation activities involving central office and/or outside plant facilities during initial installation.

(2) Service Change Charge. This charge is applied per Business Assist™ payment plan and is associated with a customer request for additions or modifications to an existing Business Assist™. This would include activities such as, but not limited to:

- Change of associated channel assignment.
- Addition of supplemental features
- Activate/Deactivate service connections
- Early service termination.

(3) Service Ordering Charges:

	<u>Nonrecurring Charge</u>
(a). Service Installation	\$300.00

COIN AND COINLESS TELEPHONE SERVICECUSTOMER OWNED PAY TELEPHONE SERVICE

A. General

1. Customer Owned Pay Telephone Service (COPTS) will apply for use with customer provided instrument-implemented pay telephones at locations accessible to the public, e.g., stores, business places, including boarding or rooming houses, employee lounges and school or college buildings, where desired by the owner of the premises. Customer Owned Pay Telephone Service provides network access for coin, coinless, card reader or a combination of coin/card reader telephones.
 2. Customer Owned Pay Telephones must be connected to a Customer Owned Pay Telephone access line. Only one Customer Owned Pay Telephone may be connected to a Customer Owned Pay Telephone access line. The access line must be equipped for Touch Calling.
 3. Joint User Service may be furnished in connection with Customer Owned Pay Telephone Service. (1)
 4. Directory listings may be provided under the regulations governing the furnishing of listings for business main line subscribers. However, listings (not indicating a business or profession) provided in connection with Customer Owned Pay Telephone Service furnished at boarding or rooming houses or at other locations where the party desiring the additional listings resides, are furnished under the regulations covering the furnishing of listings in connection with residence main line service.
 5. For purposes of this Tariff, the term "customer" is defined as the party responsible for payment of the Customer Owned Pay Telephone Service access line.
 6. Any surcharge established with a rate recovery mechanism to recover the costs of implementing and maintaining programs as provided for in R. S. MO 190-300 (8) and 209.255, e.g., surcharges for Emergency Telephone Number Service (9-1-1) or Dual Party Relay/Telecommunication Relay Service, shall not be imposed on access lines used to provide pay telephone service.
- (1) Joint User Service is limited to existing customers at their existing locations.

B. Responsibility of the Customer

1. The customer shall be responsible for the installation, operation and maintenance of any customer-provided instrument-implemented pay telephones used in connection with this service.
2. The customer shall be responsible for payment of charges for all local and toll messages originating from or accepted at this type of service, including any applicable Directory Assistance Charges. Calls to 1411 or 1+555-1212 Directory Assistance will be charged to COPTS line customers as specified in Section 9 of this Tariff.
3. Customer-provided instrument-implemented pay telephones must be registered in compliance with Part 68 of the FCC's Registration Program or connected behind an FCC registered coupler.
4. Such customer-provided instrument-implemented pay telephones must have the following operational characteristics:
 - a. Must be able to access the Company operator at no charge and without using a coin.
 - b. Must be able to access 911 Emergency Service, where available, at no charge and without using a coin.
 - c. Must be able to access all interexchange carriers.
 - d. Must comply with all applicable federal, state and local laws and regulations concerning the use of these telephones by disabled persons and the hearing impaired.
 - e. Must allow the completion of both local and long distance calls.
 - f. Must be able to access Directory Assistance.

B. Responsibility of the Customer (Cont'd)

5. Each customer must provide, attached to the set, instructions for use of the telephone, in form and substance, that comply with the applicable Federal and State regulatory rules and regulations.
6. The customer shall not program or cause to be programmed any such telephone used in connection with this service to limit the duration of a local message.
7. The customer shall be responsible for obtaining a Certificate of Service Authority (CSA) to provide Customer Owned Pay Telephone Service and for providing proof of said authority prior to installation of service.

C. Violation of Regulations

1. Where any customer-provided instrument-implemented pay telephone is in violation of this Tariff, the Company will promptly notify the customer of the violation and will take immediate action, including the disconnection of service, as is necessary for the protection of the telecommunications network and Company employees.
2. The customer shall discontinue use of the customer-provided instrument-implemented pay telephone or correct the violation and notify the Company in writing within five days after receipt of such notice that the violation has been corrected.
3. Failure of the customer to discontinue such use or to correct the violation will result in the suspension of the customer's service until such time as the customer complies with the provisions of this tariff.

GENERAL AND LOCAL EXCHANGE TARIFFCOIN AND COINLESS TELEPHONE SERVICECUSTOMER OWNED PAY TELEPHONE SERVICE - COIN LINE SERVICE

A. General

1. Customer-Owned Pay Telephone (COPT) Coin Line Service is a coin voice grade exchange line that provides switch based dial tone first (DTF) coin line functionalities for non-local exchange company customer-owned pay telephones.
2. COPT Coin Line Service is provided at the request of a COPT provider that provides pay telephone service with switch based coin line functionalities to the public on a resale basis.
3. A COPT Coin Line subscriber must use a separate COPT Coin Line for each pay telephone instrument installed and will be billed the tariffed rate for each line. Off-premise extensions to a COPT Coin Line are not permitted.
4. Where COPT Coin Line Service is provided, any type or grade of residence or business service offered regularly at that location may also be furnished, provided such residence or business service is confined to locations solely for use by the particular establishment.
5. The Company shall not be liable for shortages of coins deposited and/or collected from the COPT Coin Line subscriber's equipment.
6. The Company shall not be liable for end-user fraud associated with failure of the subscriber's equipment to perform.
7. Suspension of service for nonpayment, as specified in Section 2 of this Tariff, is not applicable to COPT Coin Line Service unless the instrument is located within an establishment which is temporarily closed and, as such, will be totally inaccessible to the general public for the period of suspension. In all cases, the decision to permit suspension of service for a COPT Coin Line rests with the Company.
8. The carriage and completion of local and intraLATA toll messages are provided by the Company.
9. COPT Coin Line Service will be provided from central offices where facilities are available and where technically feasible.

GENERAL AND LOCAL EXCHANGE TARIFF

COIN AND COINLESS TELEPHONE SERVICECUSTOMER OWNED PAY TELEPHONE SERVICE - COIN LINE SERVICE

B. Features

1. Service is provided in equal access Stored Program Control (SPC) central offices where coin line control equipment is available.
2. Service is provided on a one-way or a two-way basis at the customer's option.
3. Coin signaling, including coin collect and coin return, is provided by the network. Coin collect identifies when a call is completed. Coin return occurs when a no answer or busy signal is encountered.
4. Billed Number Screening (BNS) is provided for the automatic blocking via validation data bases of third number billing, collect billing, or both to the line.
5. Selective Class of Call Screening is provided to alert operator services systems (live and mechanical) that a call is originating from a COPT Coin Line which may require special handling and billing treatment.
6. Central office 900 and 976 blocking is provided.
7. Standard recorded announcements used for calls from the Company's Public Telephone Service pay telephones are used for calls that originate from a COPT Coin Line.
8. All 0-, 0+ and 1+ intraLATA toll calls and 0+ local calls are handled by the Company's operator service system.
9. All 0+ interLATA calls are routed to the presubscribed carrier.
10. Coin sent paid interLATA calls from COPT Coin Lines may be routed to any Interexchange Carrier selected by the customer who has the required coin signaling capabilities (i.e., coin recognition, coin control, etc.) which are required to complete the call.

COIN AND COINLESS TELEPHONE SERVICE

CUSTOMER OWNED PAY TELEPHONE SERVICE - COIN LINE SERVICE

C. Responsibility of the Subscriber

1. The subscriber is subject to the requirements for COPT Service as set forth in previously.
2. The subscriber is responsible for the payment of all charges for outgoing sent-paid local calls and message toll telephone service calls.
3. Special billing and coin sharing arrangements between a COPT Coin Line Subscriber and another carrier are the responsibility of the COPT Coin Line subscriber.
4. It is the subscriber's responsibility to ensure instruments used in conjunction with the COPT Coin Line Service are compatible with the Company's network.

DIRECTORY ASSISTANCE SERVICE

A. General

1. The Company furnishes Directory Assistance Service whereby customers may request assistance in determining telephone numbers when the listed name is provided.
2. The regulations and rates as set forth following apply to calls from customers who request assistance in obtaining telephone number information. Regarding such directory assistance calls, handling will be as follows:
 - a. Customers who dial 1+411 or 411 will receive telephone number information, as a local Directory Assistance call, for any exchange in which the Company has presence within the state of Missouri.
 - b. Customers who dial 1+ Foreign Area Code +555+1212 will be transferred from a Company operator to a non-Company operator to obtain telephone number information from that Company. Customers who dial 1+ Foreign Area Code +555+1212 are transferred to their Primary Interexchange Carrier (PIC).
 - c. Customers who dial 1+411, 411, 1+ Home Area Code +555+1212 or 555+1212 and request telephone number information outside of the state of Missouri, or outside the Company's exchange presence within the state, may obtain this information through the Company's National Directory Assistance/Customer Name and Address Service (Please refer to this service in this Section of the Tariff).
3. Upon request, the address information normally published in the directory will be given out by the Directory Assistance attendant for listed customers. Information for nonpublished customers will not be provided.

C. Exemptions

1. Those customers whose physical, visual, mental or reading handicaps prevent them from using the telephone directory are to be exempted from the charge for direct dialed calls to Directory Assistance; from the charge for placing a call to Directory Assistance via an operator; and the charge applicable when Directory Assistance Service charges are billed to a Company Calling Card. The method of exempting those physically, visually, mentally or reading handicapped customers shall be via the completion of an exemption form supplied by the Company and the Company's acceptance of that form.

GENERAL AND LOCAL EXCHANGE TARIFF

OPERATOR AND DIRECTORY SERVICESDIRECTORY ASSISTANCE SERVICE

B. Allowances (Cont'd)

2. In addition to the allowance set forth in Paragraph B.1 preceding, each customer shall be allowed one direct dialed long distance Directory Assistance call (within the home area code), if using dialing pattern 1+ home area code +555+1212, for each sent paid home area code long distance call appearing on the customer's bill.
3. Calls placed to the Directory Assistance attendant via an operator are not included in the allowance set forth in Paragraph B.1 and are always billed, except to those customers exempted by this tariff.
4. Third number, special billing number, or Company calling card Directory Assistance calls are not included in the allowance set forth in Paragraph B.1 and are always billed, except to those customers exempted by this tariff.
5. Where dial facilities are not available, calls to the Directory Assistance attendant via an operator shall be treated as customer direct dialed calls.
6. No credit will be given for any unused portion of the customer's allowance. No credit will be given for requested telephone numbers that are nonpublished. No credit will be given for requested telephone numbers that are not found in the directory.
7. Call allowances are not transferable between accounts.

C. Exemptions

1. Those customers whose physical, visual, mental or reading handicaps prevent them from using the telephone directory are to be exempted from the charge for direct dialed calls to Directory Assistance; from the charge for placing a call to Directory Assistance via an operator; and the charge applicable when Directory Assistance Service charges are billed to a Company Calling Card. The method of exempting those physically, visually, mentally or reading handicapped customers shall be via the completion of an exemption form supplied by the Company and the Company's acceptance of that form.

DIRECTORY CONNECT PLUS

A. General

1. Directory Connect Plus_ provides, an incoming Directory Assistance customer requesting a listed number, a mechanized announcement offering call completion to the requested listed number. The call is completed on a sent-paid basis (paid for by the calling customer). The Directory Connect Plus_ charge applies only to calls that are answered.
2. The mechanized announcement will instruct the caller that for an additional charge, the call will be automatically completed by depressing a specific digit on a touch-tone key pad. All completed calls will incur the Directory Connect Plus_ charge.
3. Customers may request blocking of Directory Connect Plus_ calls originating from their telephone lines by contacting the Company's business office. This stand-alone blocking arrangement is available to customers at no charge.

GENERAL AND LOCAL EXCHANGE TARIFF

OPERATOR AND DIRECTORY SERVICESNATIONAL DIRECTORY ASSISTANCE/CUSTOMER NAME AND ADDRESS SERVICE

A. General

1. National Directory Assistance (NDA) will provide the customer with directory listings from CenturyTel's directory assistance database. This database will make all CenturyTel listings available to any operator workstation along with national listings from other provider database(s). CenturyTel will provide listings for residential, business, government, GTE 1-800, and GTE local emergency numbers. Customer Name and Address (CNA) Service is a reverse search feature which allows the caller to request a customer's name and/or address after giving the directory assistance operator a complete phone number.

B. Conditions

1. The customer will receive a maximum up to two listings per call, i.e., two NDA numbers, one NDA number and one CNA listing or two CNA listings.
2. Customers who make operator assisted calls to National Directory Assistance or to obtain Customer Name and Address Service will be charged the NDA/CNA rate plus the applicable operator surcharge as set forth in the Company's tariff.
3. The Company shall not be liable for any errors or omissions, whether arising through negligence or otherwise, in the information furnished; and the customer shall indemnify and save the Company harmless against all claims (including costs and attorney's fees) that may arise from the use of the service.
4. The customer will have access to any in-or-out-of-franchise, number/address listing within the continental United States, Alaska and Hawaii, with the exception of non-published listings. When a non-published number/address is requested, the message "Non-published number/address" or "NP" is displayed and no information will be available.

GENERAL AND LOCAL EXCHANGE TARIFF

OPERATOR AND DIRECTORY SERVICEDIRECTORY LISTINGS

A. General

1. One Directory listing is furnished without charge to each customer in conformity to the Company's practices with respect to its directories. Listings are intended primarily for the purpose of identification and are limited to information which is essential to such identification. Directories are furnished only as an aid to the use of the telephone service facilities and the Company reserves the right to refuse to insert any listing in its directories which does not facilitate telephone service.

B. Conditions

1. A Primary Listing is furnished as part of and in the rates for telephone service. The Primary Listing may include the name, address and telephone number of:
 - a. The individual, organization, firm or corporation contracting for the service.
 - b. A residential Primary listing may consist of a dual name listing whereby two individuals with the same surname who reside at the same address may both be listed with no more than two given names. Each given name for the purposes of this Tariff is defined as any combination, not to exceed two, of the following:
 - 1) First name
 - 2) Middle name
 - 3) Initial
 - 4) Nickname
 - 5) Maiden name
 - c. A Duplicate Listing reversing the order of the individuals' given names above may be provided at the rates for Additional Listings.
 - d. When two or more lines serve a customer in a group arranged for a "hunting" operator, each group of lines is considered one telephone number and is entitled to only one Primary Listing.

GENERAL AND LOCAL EXCHANGE TARIFF

OPERATOR AND DIRECTORY SERVICEDIRECTORY LISTINGS

B. Conditions (Cont'd)

2. An Additional Listing may also include the same address and telephone number as the Primary Listing, except that a different address may be shown for off-premises stations located on other premises occupied solely by the customer.
 - a. Additional Listings may be furnished with business or residence service for persons who occupy the same premises.
3. An Alternate Listing (charged as an Additional Listing) refers a calling party to certain other telephone numbers after business hours or on Sundays or holidays, or if there is no answer on the first listed number.
 - a. Where the alternate call number is to be that of another customer, the listing will be furnished only when the other customer is agreeable to the use of their number.
4. Cross-Reference Listings (charged as an Additional Listing) enable a customer to use a former listing to refer customers to his new listing appearing elsewhere in the directory. Cross-Reference Listings do not include an address or telephone number and are permitted when, in the opinion of the Company, they are necessary for the proper identification of the customer, and are not desired to secure a preferential position in the directory or for advertising purposes.
 - a. As an aid to the service, Cross-Reference Listings may be provided without charge in connection with the service of federal, state or municipal governmental agencies.
5. A Foreign Listing is a listing in any of the Company's directory for which the customer does not have local service. The rate for a Foreign Listing will be the rate listed in the Tariff.
6. Line of Information (charged as an Additional Listing) is listed information in addition to a primary or extra listing that is intended to supply additional or special instructions to the calling parties, e.g., office hours.
7. Non published Service is the omission of a customer's listing from both the telephone directory and Directory Assistance records.
 - a. When Nonpublished Service is to be furnished, the customer will hold the Company harmless from any damages which might arise, and will absolve the Company from any responsibility for the failure of the customer to receive calls because of the nonpublished listing.
 - b. The rate for a Nonpublished Service is specified in this Tariff.

Issued: July 18, 2002

Effective: September 1, 2002

Jeffrey Glover
Vice President External Relations
Monroe, Louisiana

GENERAL AND LOCAL EXCHANGE TARIFFOPERATOR AND DIRECTORY SERVICEDIRECTORY LISTINGS

B. Conditions (Cont'd)

7. Non published Service is the omission of a customer's listing from both the telephone directory and Directory Assistance records. (Cont'd)
- c. The rate for non published and nonlisted services does not apply to the following:
- 1) Customer With a Published Listing - If a customer has both published and nonpublished/nonlisted listings for the same address and class for service, the nonpublished/nonlisted monthly recurring charge will not apply.
 - 2) Customer With a Nonpublished/Nonlisted Listing - If a customer has a nonpublished/nonlisted listing, only one monthly recurring charge will be applied for any nonpublished and/or nonlisted listings for the same customer with the same class of service at the same address. If the customer has a combination of nonpublished and nonlisted listings at the same address, the nonlisted monthly recurring charge will apply.
 - 3) Pay Telephone Service
 - 4) Special Reversed Long Distance Service
 - 5) Foreign Exchange/Zone Service
 - 6) Temporary Service (service provided for a period not more than 30 days)
 - 7) Special Services such as teletypewriters or data services provided for customers with impaired hearing having a limited requirement for voice communication.
 - 8) Local Exchange Service for customer living in a hotel, hospital, retirement complex, or boarding house provided the customer is listed under the telephone listing of the establishment.
 - 9) New listings provided to a customer because of unusual circumstances, such as harassing calls, threats, or other acts adversely affecting the health, welfare, security or service of the customer (service provided for a period not more than 30 days).
8. Nonlisted Service is the omission of a customer's listing from the telephone directory only. It may be obtained from the Directory Assistance Operator (see 7c. for rate application exceptions).
9. Service Charges apply to change listed directory service to Nonpublished Service or Nonlisted Service. Service Charges DO NOT apply to change from Nonpublished Service or Nonlisted Service to listed Primary Listing service.
10. The charge for Directory listings begins on the day the Directory Assistance records are posted.
11. The length of contract period is from the day on which the directory is published to the day the succeeding directory is published. Unless the listing no longer serves the customer because of disconnection, removal, etc., of the service, the minimum contract period will be at least 30 days.
12. Listings will be limited to such information as is necessary for proper identification.
13. The length of a listing may be limited by the use of abbreviations where the clarity of the listing and the identification of the customer will not be impaired.

GENERAL AND LOCAL EXCHANGE TARIFF

OPERATOR AND DIRECTORY SERVICE

INTERCEPT SERVICES

Basic Intercept Service

A. General

1. Basic Intercept Service provides a service to local exchange business and residence customers who have requested their service be discontinued because they have moved to a new location or requested a change in their telephone number. Dialing the customer's former number results in a prerecorded message which announces the new number.

B. Conditions

1. Basic Intercept Service is offered to residence and business customers subject to the availability of suitable facilities.
2. Basic Intercept Service will not be provided to customers disconnected for nonpayment.
3. On Company initiated telephone number changes, the charge will not apply, and the telephone number will be intercepted for the life of the directory.
4. At the time the customer places the request for a change in their telephone number, the customer must notify the Company of the number of days, up to the life of the directory, for calls to be intercepted and referred.

C. Rates and Charges

1. The following rate is in addition to any other applicable charges shown in the Company tariffs of this Company. The nonrecurring charge applies in addition to all other Service Charges when this service is ordered in conjunction with other services.

	<u>IOSC</u>	<u>NRC</u>	
		<u>Bus.</u>	<u>Res.</u>
a. The Company will provide Basic Intercept Service within the exchange, at no charge, for a period of 30 days, upon request by the customer. (1)	--	--	--
b. Each number intercepted for each 90 day period or fraction thereof	OSINNRC	\$10.80	\$10.80

(1) These charges are also applicable to Direct Inward Dialing (DID) Service.

GENERAL AND LOCAL ACCESS TARIFF

OPERATOR AND DIRECTORY SERVICELOCAL OPERATOR SERVICE

A. General

1. Local Operator Service is furnished to customers upon their request in order to complete local calls. Please refer to Long Distance Message Telecommunication Service PSC MO. NO. 3 for a more detailed description of the following services.
2. There are five classes of local service offered: Busy Line Interrupt, Busy Line Verify, Calling Card, Operator Station Calls and Person-to-Person Calls. When operator assistance is required to complete a local call, the rates appearing in this Tariff will apply.
 - a. Busy Line Interrupt - The operator, at the request of the customer, will interrupt conversation on the line and inform the called party that an attempt to place a call to that line is being made.
 - b. Busy Line Verify - The operator, at the request of the customer, will determine the status of an exchange service line (e.g., conversation in progress) and report the status to the customer.
 - c. Calling Card - Customer dialed calls where the person originating the call, including from a public or semi-public telephone, completes the call either with or without the assistance of an operator and is billed, where automatic billing equipment is available to a telecommunications company calling card.
 - d. Operator Station Calls - Customer dialed "0-" calls where the operator completes the call and arranges billing. Can be billed to the originating telephone number, calling card, collect or to a third number. Includes operator placed calls to Directory Assistance.
 - e. Person-to-Person Calls - Customer dialed "0-" calls where the operator completes the call and arranges billing. Can be billed to the originating telephone number, calling card, collect or a third number.

GENERAL AND LOCAL EXCHANGE TARIFF

GENERAL SERVICES

CALL RESTRICTION SERVICES

A. Billed Number Screening Service (BNS)

1. Billed Number Screening Service (BNS) is available to subscribers of the Company's local exchange services. This service prevents the billing of incoming collect and/or third number billed calls to a customer's telephone account.
2. The Company makes no guarantee and assumes no liability for the accuracy of Billed Number Screening Service. The customer agrees fully and completely to indemnify and save harmless the Company, its successors and assigns, from and against any and every claim, loss, damage, suit or liability arising out of the furnishing or failure to furnish Billed Number Screening Service.
3. Billed Number Screening Service is offered subject to the availability of suitable facilities. It is available to all classes of business and residence services.
4. The minimum contract period for Billed Number Screening Service is one month.
5. Rates and Charges
 - a. The following rates and charges apply to the provisioning of Billed Number Screening Service and are in addition to all other applicable charges as specified elsewhere in this Tariff. A Subsequent Service Order Charge applies as specified in this Tariff.

	<u>GSEC</u>	<u>Monthly Rate</u>
1) Option 1 - Collect and Third Number Billing, per line screened per COPTS line screened	IN SCREEN	\$ 4.10 .33
2) Option 2 - Third Number Billing, per line screened per COPTS line screened	IN SCREEN	4.10 .33
3) Option 3 - Collect Billing, per line screened per COPTS line screened	IN SCREEN	4.10 .33

GENERAL AND LOCAL EXCHANGE TARIFF

GENERAL SERVICESCALL RESTRICTION SERVICES

B. Selective Class of Call Screening Service

1. Selective Class of Call Screening is an optional service available to the Company's local exchange service customers and is offered on a per line basis. The service is offered to provide customers with a choice of originating screening options. The screening provides information that will allow the restriction of originating operator-handled toll calls to be billed outgoing to a credit card, a third number or to the called party.
 - a. The customer will specify, at the time of the order, the restriction or restrictions desired. The customer may specify any combination of the following to restrict the billing of outgoing toll calls to:
 - A Credit Card
 - A Third Number
 - Collect to the Called Number
 - b. This service provides for information designating the customer's line as having a requirement for special billing and defines these requirements for the CenturyTel operator.
 - c. The Company makes no guarantee and assumes no liability for the accuracy of Selective Class of Call Screening Service for calls outside the CENTURYTEL calling area. The customer agrees fully and completely to indemnify and save harmless the Company, its successors and assigns, from and against any and every claim, loss, damage, suit or liability arising out of the furnishing or failure to furnish Selective Class of Call Screening Service.
 - d. The minimum period for Selective Class of Call Screening Service is one month.
 - e. All local calls and calls to Company numbers, such as repair, Directory Assistance, and public emergency service numbers such as 9-1-1 will be permitted.
 - f. Selective Class of Call Screening Service is offered subject to the availability of suitable facilities.

Issued: July 18, 2002

Effective: September 1, 2002

C. Toll Blocking Service

1. Toll Blocking Service is a central office service that restricts one plus (1+), International (011+), zero plus (0+) and/or zero minus (0-) calling. Restricted calls are directed to a central office announcement. (C)
2. Four Toll Blocking Service options are available: (C)
 - a. Option 1 - Restricts any direct dialed one plus (1+) or direct dialed International (011+) call. This includes directory assistance (1+411, 1+555-1212, 1+NPA+555-1212). Option 1 also includes Originating Line Screening, which allows outgoing intraLATA toll calls to be charged to the called telephone, a third number, or a credit card account. Toll free 1+8XX calling will not be restricted. (T)
 - b. Option 2 - Restricts any direct dialed one plus (1+) or direct dialed International (011+) calls. This includes directory assistance (1+411, 1+555-1212, 1+NPA+555-1212). Option 2 also restricts any local or long distance zero plus (0+) or zero minus (0-) call. If 9-1-1 service is not available in an exchange, zero minus (0-) calls will be restricted to local operator assisted emergency calls. Toll free 1+ 8XX calling will not be restricted. (T)
 - c. Option 3 - Restricts any direct dialed one plus (1+) or direct dialed International (011+) calls. This includes directory assistance (1+411, 1+555-1212, 1+NPA+555-1212). Option 3 also restricts any local or long distance zero plus (0+) or zero minus (0-) call. If 9-1-1 service is not available in an exchange, zero minus (0-) calls will be restricted to local operator assisted emergency calls. Toll free 1+8XX calling will also be restricted with this option. (N)
 - d. Option 4 - Designed specifically for Customer Owned Pay Telephone Service (COPTS) and Coin Line Service subscribers, this option restricts direct dialed International (011+) calls only. (T)
3. Toll Blocking Service will be provided to residence and business COPTS/Coin Line individual line customers. This service will not be provided on party lines, trunks or Centrex lines.
4. Toll Blocking Service is offered subject to the availability of suitable facilities and is limited to central offices specifically equipped to provide this service.

C. Toll Blocking Service

1. Toll Blocking Service is a central office service that restricts one plus (1+), International (011+), zero plus (0+) and/or zero minus (0-) calling. Calls to 800 Service will not be restricted (1+800+XXX-XXXX). Restricted calls are directed to a central office announcement.
2. Three Toll Blocking Service options are available:
 - a. Option 1 - Restricts any direct dialed one plus (1+) or direct dialed International (011+) call. This includes directory assistance (1+411, 1+555-1212, 1+NPA+555-1212). Option 1 also includes Originating Line Screening which allows outgoing intraLATA toll calls to be charged to the called telephone, a third number, or a credit card account.
 - b. Option 2 - Restricts any direct dialed one plus (1+) or direct dialed International (011+) calls. This includes directory assistance (1+411, 1+555-1212, 1+NPA+555-1212). Option 2 also restricts any local or long distance zero plus (0+) or zero minus (0-) call. If 9-1-1 service is not available in an exchange, zero minus (0-) calls will be restricted to local operator assisted emergency calls.
 - c. Option 3 - Designed specifically for Customer Owned Pay Telephone Service (COPTS) and Coin Line Service subscribers, this option restricts direct dialed International (011+) calls only.
3. Toll Blocking Service will be provided to residence and business COPTS/Coin Line individual line customers. This service will not be provided on party lines, trunks or Centrex lines.
4. Toll Blocking Service is offered subject to the availability of suitable facilities and is limited to central offices specifically equipped to provide this service.

E. 700 Blocking Service

1. 700 Blocking Service provides residence and business customers with the ability to block access from a particular network access line to all telephone numbers for which the 700 NPA must be dialed.

The service is classified as a local exchange telecommunications service.

2. The Company's obligation to furnish network facilities for 700 Blocking Service is dependent upon the availability of suitable facilities. Because of central office and other facility limitations, it may not be possible for the Company to provide all of the services that may be requested.

3. 700 Blocking Service is available only for blocking access to all 700 NPA telephone numbers from a particular network access line, and not for blocking access to a specific 700 NPA telephone number.

4. Rates and Charges

- a. The Subsequent Service Order Charge as stated in this Tariff is applicable to the initial business line blocked (GSEC -- BLK 700). Each additional line is subject to an additional charge as follows:

	<u>GSEC</u>	<u>Nonrecurring Charge</u>
1) Business, per additional line	NBLK	\$ 4.00
2) Residence, per additional line	-	-

- b. If 700, 900 and 976 Blocking Service are ordered at the same time only one Subsequent Service Order Charge or Nonrecurring Charge applies per line.

GENERAL SERVICES

CUSTOMIZED NUMBER SERVICE

A. General

1. Customers of the Company may request assignment of specific telephone numbers. If the telephone number or numbers requested by the customer are available, the Company may assign the number to the customer.
2. The Company will do its utmost to protect specific number assignments requested by the customer from changing. However, unavoidable circumstances may arise where the number assignment may need to be altered. In these instances, the Company reserves and retains the right:
 - a. To discontinue, change or reassign telephone numbers in any exchange area whenever it deems it necessary or appropriate in the conduct of its business, or in accordance with the rules and procedures of the Company. If this should occur, the Customized Number Service Charge will not be refunded to the customer.
 - b. To reject any request for specific telephone numbers for any reason, including but not limited to: relocation of a central office, limited central office capacity, or numbers that may, in the Company's sole opinion, be offensive to the public.
 - c. Of ownership of all telephone numbers and prohibits the assignment of a telephone number by or from any customer to another, except as otherwise provided in this Tariff.

B. Conditions

1. The Customized Number Service charge applies whenever a customer:
 - a. Requests a telephone number other than the next available number from the allocation list, and such requested number is placed into service within six months of the date of the request.
 - b. Requests a number change from their present number to a customized telephone number.

CUSTOMIZED NUMBER SERVICE

B. Conditions (Cont'd)

2. The Customized Number Service charge does not apply whenever a customer:
 - a. Requests assignment of the same telephone number that had been previously assigned to that customer.
3. Customized Number Service includes a standard directory listing consisting of the customer's name, address and telephone number. It does not include a directory listing where the number is reflected in alphabetical characters.
4. The Company shall not be liable to any customer for direct or indirect or consequential damages caused by a failure of service, change of number or assignment of a requested number to another customer whether prior to or after establishment of service. In any case the Company shall not be liable to any person, firm or corporation for an amount greater than such person, firm or corporation has actually paid to the Company for the Customized Number Service.

C. Rates and Charges

GENERAL AND LOCAL EXCHANGE TARIFFGENERAL SERVICESDIRECT INWARD DIALING SERVICE (DID)

A. General

1. Direct Inward Dialing Service to customer premises located switching systems is furnished subject to the availability of facilities and the availability of telephone numbers.
2. The service includes the central office switching equipment necessary for direct inward dialing from the exchange and long distance message telecommunications network directly to terminal equipment associated with customer premises located switching systems.
3. The service must be provided on all lines in a trunk or network access line group arranged for inward service. Routing of calls to selected numbers within the direct inward dialing number group over a separate trunk or network access line group is not contemplated.
4. The charges for the service, as provided in B. Rates following, are in addition to all applicable charges for PBX/PABX service with which this service is associated and the applicable network access line and service charges.
5. Operational characteristics of interface signal between the Company-provided connecting arrangements and the customer-provided switching equipment must conform to the rules and regulations the Company considers necessary to maintain proper standards of service.
6. The Company shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations or procedures of the Company render any facilities provided by a customer, authorized user or joint user obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.
7. Direct-in-dial Trunks may be provided in the quantity determined by the Company to be sufficient for adequate service, only in exchanges where the Central Office is equipped for such service. When otherwise provided, Direct-in-dial Trunks will be furnished at rates based on cost.

GENERAL AND LOCAL EXCHANGE TARIFF

GENERAL SERVICESDIRECT INWARD-OUTWARD DIALING (DIOD) SERVICE

A. General

Direct Inward-Outward Dialing (DIOD) Service is a Central Office based service that permits incoming calls to reach customer provided equipment, without the assistance of an attendant, and allows the trunk to be used to place outgoing calls. This service is provisioned with E&M signaling and a 4-wire connection at the customer's premises.

B. Conditions

- 1) DIOD Service is provided from Central Offices equipped to provide this service and subject to the availability of facilities and the availability of telephone numbers.
- 2) The assignment of telephone numbers and the sequence of numbers assigned to a customer are made at the discretion of the Company. Telephone number rules, regulations and charges found in Section 2 and the Direct Inward Dialing (DID) service section of this Tariff, apply to DIOD service.
- 3) Rotary hunt service does not apply.
- 4) Customer-Provided Switching Systems must handle calls to all assigned numbers, including those that are not currently used with Specific Stations. Calls to those that are not currently used with specific stations must be routed by the customer to a recorded announcement referring the caller to another number.
- 5) Trunks arranged for DIOD service may not be combined with trunk groups arranged to provide Direct Inward Dialing (DID) service. Overflow of calls between the two arrangements is not permitted.

Issued: July 18, 2002

Effective: September 1, 2002

GENERAL AND LOCAL EXCHANGE TARIFF

GENERAL SERVICESDIRECT INWARD-OUTWARD DIALING (DIOD) SERVICE (Cont'd)

B. Conditions (Cont'd)

- 6) If a customer's normal serving Central Office is not equipped to provide DIOD service or the customer so requests, the service may be provided if facilities permit, from a company Central Office different than that which normally serves the customer. However, the service must still be within the same LATA, at the additional prices specified herein and under the regulations applicable for Foreign Exchange (FX), or Foreign Central Office (FCO) service as found in this Section of the Tariff.
- 7) When DIOD service becomes available or is subsequently requested from the Central Office that normally serves the customer, the service may be transferred to the normal serving Central Office, if the customer requests such a transfer, the customer will be subject to a change in telephone numbers and will also incur Service Charges as found in Section 5 of this Tariff.
- 8) A change in Central Office equipment could require the customer to discontinue the service or obtain service from another Central Office. CENTURYTEL makes no guarantees and assumes no liability for loss of service to the customer, resulting from the conversion or upgrade of Central Office equipment.
- 9) The combining of flat rate, or message rate service is prohibited.
- 10) DIOD service works in conjunction with Direct Inward Dialing (DID) service and the charges specified following are in addition to applicable rates and charges for DID Service specified in this Section.
