13.7 DID/AIOD SERVICE-(Continued)

13.7.2 Automatic Identified Outward Dialing Service From Customer Premises-
Located Switching Systems-(Continued)

A. Additional General Regulations

1. Automatic Identified Outward Dialing (AIOD) Service from customer premises-located switching systems is furnished subject to equipment and facility limitations and the availability of telephone numbers.

(CP)

2. The service includes the central office equipment necessary for the identification of outgoing Long Distance Message Telecommunications Service messages by station number. The billing of messages by station number is the responsibility of the interexchange carrier providing the Long Distance service connection. The billing of messages by station is limited to the cases where the interexchange carrier subscribes to Southwestern Bell Telephone Company's Billing and Recording service as provided in Section 8 of the Access Services Tariff.

The service provides for the identification of outgoing Long Distance Message Telecommunications Service messages and the billing of these messages by station number where the Long Distance Message Telecommunications Service is provided by Southwestern Bell Telephone Company.

3. The service will be provided on calls placed over PBX trunks or Network Access Lines from the local serving central office only. Where AIOD is not available in the customer's local serving central office, it may be provided from a distant serving central office subject to the availability of facilities. In such a case, the PBX trunks or Network Access Lines over which outward calling takes place must be served from the AIOD serving office. In addition, Type 322 interoffice channels, interoffice channel terminals and/or interexchange channels and interexchange channel terminals, as provided in Section 2 of the Private Line Service Tariff, are applicable for the required Data Link.

4. The service must be provided on all lines in a trunk or Network Access Line group. Where the service is requested and provided on more than one trunk or Network Access Line group, each such group will be considered a separate service in determining charges.

(MT)

13.8 DIRECT SALE PLAN

13.8.1 General

The Telephone Company will offer for sale to subscribers or persons entitled to be subscribers of telecommunications services of the Telephone Company items of telephone equipment and associated services as listed in this Section of the Tariff. A copy of any applicable warranties is available for inspection at all Telephone Company locations where equipment is sold and will be given to customers with each purchase. Pursuant to Telephone Authority No. 763, Southwestern Bell Telephone Company will establish and maintain separately identifiable accounts for direct sale items in accordance with the Uniform System of Accounts.

The Company will periodically review its service offerings to determine whether additional items should be added as salable offerings.

MISCELLANEOUS SERVICE OFFERINGS

13.10 GROUP ALERTING AND DISPATCHING SYSTEMS

13.10.1 Regulations-General

The quoted rates are based upon such limitations as appear below and in other applicable Tariffs of the Telephone Company and would be higher if the liability were extended or unlimited. Group Alerting and Dispatching, Group Alerting and Public Emergency Reporting and Conference/ Alerting Telephone Systems are furnished only subject to the following conditions and regulations:

- A. The Group Alerting and Dispatching, Group Alerting and Public Emergency Reporting, Emergency Reporting and Dispatching and Conference/Alerting Telephone Systems are supplied only for the benefit of the customer, and no other person shall derive any rights from the furnishing of these systems by the Telephone Company. When the Group Alerting and Dispatching, the Group Alerting and Public Emergency Reporting, Emergency or Dispatching and Conference/Alerting Telephone System is furnished to a corporation, city, town or municipality, as no person other than the corporation, city, town or municipality, as a legal entity or governmental body, shall be deemed to be a customer, and service furnished to any legal entity or governmental body shall not be interpreted, construed or regarded as being for the benefit of, or creating any contractual rights in or duty toward any individual connected with such corporation, or any individual resident of any city, town or municipality. Any benefit derived from the use of the Group Alerting and Dispatching or the Group Alerting and Public Emergency Reporting and Conference/Alerting Telephone Systems by persons other than the customer is to be considered as incidental. These offerings are subject to the availability and limitations of facilities.
- B. The rates charged for the Group Alerting and Dispatching, the Group Alerting and Public Emergency Reporting, Emergency Reporting and Dispatching or the Conference/Alerting Telephone Systems do not contain constant monitoring by the Telephone Company to discover operating defects and malfunctions. The customer shall have the responsibility of discovering such operating defects and malfunctions, and assumes the duty of, and will make such tests as are in the judgment of the customer, required to determine whether the system is functioning properly. The customer shall forthwith notify the Telephone Company whenever the system is not functioning properly.

General Exchange Tariff
Section 13
Original Sheet 64

MISCELLANEOUS SERVICE OFFERINGS

13.10 GROUP ALERTING AND DISPATCHING SYSTEMS-(Continued)

13.10.1 Regulations-General-(Continued)

- C. The Telephone Company shall not be liable for any loss or damages arising out of interruptions, defects, failure or malfunctions of the Group Alerting and Dispatching, Group Alerting and Public Emergency Reporting, Emergency Reporting and Dispatching or the Conference/Alerting Telephone Systems which occur during the operation of the system until after it has been duly notified by the customer that the system is not functioning properly, and the Telephone Company has had a reasonable time there after to correct such defect or malfunction. Damages arising out of interruptions, defects, failures or malfunctions of the system after the Telephone Company has been so notified and has had a reasonable time to correct the same shall in no event exceed an amount equivalent to the charges made for the system for the period following notice from the customer until service is restored. The customer indemnifies the Telephone Company against all loss or damage to persons or property occurring from the use, attempted use or failure of the Group Alerting and Dispatching, Group Alerting and Public Emergency Reporting, Emergency Reporting and Dispatching or Conference/Alerting Telephone System before the Telephone Company has been notified as provided herein and before it has had a reasonable time to restore service.

13.10.2 Large System

- A. The Large Group Alerting and Dispatching System is designed to permit a simultaneous connection with a number of exchange telephones so that the customer may make an announcement to or alert those persons connected with the system. The system may be used only with dial central office equipment. Stations in different central offices within the same exchange area boundary may be connected to the system.

MISCELLANEOUS SERVICE OFFERINGS

13.10 GROUP ALERTING AND DISPATCHING SYSTEMS-(Continued)

13.10.6 Conference/Alerting System-(Continued)

B. System Features

Automatic Origination

A call dialed to a telephone number assigned to the system causes all stations to ring.

Manual Origination

The master conference station is placed off-hook manually causing all stations to ring.

Combined Origination

Employed when the master location is manned part-time. The attendant sets the control switch for manual origination when on duty and automatic origination when off duty.

Call Notification

Normal telephone service continues with no disruption except during a Conference/Alerting call. When activated, the Conference/Alerting System will supply a distinctive ring to an unoccupied conference station and:

1. Supply a distinctive tone signal to a conference station occupied with a call; or
2. Override a call in progress and connect the conference station into the Conference/Alerting System.

Conference Termination

1. The conference may be terminated when the last conference station goes on-hook; or
2. The conference may be terminated after a predetermined time out interval (adjustable between 1.5 and 5 minutes); or
3. The conference may be terminated when the master conference station goes on-hook. (Used with Manual and Combined Originations)

Remote Access

Provides the capability to access an ongoing conference from telephones not associated with the Conference/Alerting System.

13.10 GROUP ALERTING AND DISPATCHING SYSTEMS-(Continued)

13.10.7 Emergency Alerting Service

A. General Regulations

1. Emergency Alerting Service is designed to permit a simultaneous connection to a maximum of 20 single-party Exchange Access Lines and is composed of special central office equipment. The service may be used only when all stations are served from a single central office.
2. Message transmission is one-way.
3. Approval for connection of individual exchange lines into the Emergency Alerting Service shall be the responsibility of the customer.
4. A siren or other such signaling device associated with the Emergency Alerting Service shall be provided and maintained by the customer.
5. For the purpose of applying private line charges, the regulations and charges specified in Section 2 of the Private Line Service Tariff will apply.
6. The rates and charges for Emergency Alerting Service are in addition to the established charges for the service with which it is associated.

B. System Features

1. Manual Activation

Alerting is accomplished by going off-hook with a telephone connected into the system by means of a dedicated private line.

2. Call Notification

- a. On-Hook Stations
Stations ring at a distinctive rate permitting the called party to distinguish between a normal call and an emergency call.
- b. Off-Hook Stations
When the service is activated, the system will override a call in progress and automatically connect the station with the emergency call.

13.14 PRIVATE BRANCH EXCHANGE DORMITORY SERVICE

13.14.1 Description of Service

- A. Private Branch Exchange (PBX) Dormitory Service is an optional billing service arrangement available only to accredited public and private educational institutions for the billing of telecommunication services provided to students, faculty members or employees who reside in dormitories or other residential quarters owned, leased or under control of the educational institution.
- B. Private Branch Exchange station lines located in dormitories or other residential quarters of the educational institution and intended for use by students, faculty members or employees will be termed dormitory station lines.
- C. Private Branch Exchange Dormitory Service is furnished to an educational institution upon the basis that all charges associated with the switching system, including dormitory station lines, will be billed to the educational institution. All long distance messages, telegrams, cablegrams and radiograms will be billed to the students, faculty members or employees along with any applicable Directory Assistance service charges.

13.14.2 Rules and Regulations

- A. The following rules, regulations and rates are in addition to those established for all associated services and equipment as well as other regulations as stated in this Tariff and the Long Distance Message Telecommunications Service Tariff.

13.14 PRIVATE BRANCH EXCHANGE DORMITORY SERVICE-(Continued)

13.14.2 Rules and Regulations-(Continued)

- B. Private Branch Exchange Dormitory Service is furnished only in conjunction with switching systems which are equipped with Direct Inward Dialing (DID) Service and Automatic Identified Outward Dialing (AIOD) Service as outlined in this Section of this Tariff.
- C. The educational institution is responsible for payment of all charges except those set forth in 13.14.2, D.
- D. The Telephone Company will bill directly to students, faculty members and employees all long distance messages, telegrams, cablegrams, radio-grams and applicable Directory Assistance service charges.
- E. The regulations set forth in Section 17 of this Tariff regarding deposits and payments for service are applicable to users of dormitory station lines.
- F. The educational institution shall agree to render assistance to the Telephone Company in the prompt collection of all charges billed to students, faculty members or employees.
- G. For purposes of this Tariff, the educational institution, students, faculty members and employees are considered individual customers of the Telephone Company in respect to those charges for which they are directly billed.

13.14 PRIVATE BRANCH EXCHANGE DORMITORY SERVICE-(Continued)

13.14.2 Rules and Regulations-(Continued)

- H. In the event of nonpayment of any charges billed to a student, faculty member or employee, the educational institution shall agree upon request of the Telephone Company to disconnect the dormitory station used by the student, faculty member or employee until the charges due have been paid. Where the educational institution fails to disconnect the dormitory station line following such request of the Telephone Company, the educational institution shall agree to assume responsibility for payment of all charges incurred on the dormitory station line from the date the Telephone Company requested that the station line be disconnected.
- I. With the consent of the educational institution, PBX dormitory station line extensions will be provided only within the same dormitory room or living quarters as the associated PBX dormitory station line.
- J. Dormitory station lines may be equipped with Touch-Tone Calling Service only when the associated PBX System is arranged to provide Touch-Tone Calling Service.
- K. With the consent of the educational institution, directory listings for dormitory station lines are furnished at the same rates and charges specified for residence additional listing as stated in Section 6 of this Tariff. Rates and charges for additional listings will be billed to students, faculty members or employees subscribing to this service.
- L. Dormitory station calls to Directory Assistance Service are subject to the rules, regulations and rates for Directory Assistance Service as outlined in Section 6 of this Tariff.

13.15.3 Rates and Charges

A. The following charges are for the TeleBranch feature only and are in addition to applicable charges for service and equipment with which it is used.

	Monthly Rate	Service and Equipment Charge (1) (2) (3) (4)
TeleBranch service, first access path (RCF)	\$17.50	\$14.50
Additional access paths, each (RCA)	17.50	14.50

B. The following charges are for the TeleBranch feature on local exchange calls only and are in addition to the applicable local message unit charges specified in the Local Exchange Tariff as found in Paragraph 1.2.2, F.5.B.

	Monthly Rate	Service and Equipment Charge (1) (2) (3) (4)
TeleBranch service, first access path (RCF)	\$17.50 (5)	\$14.50 (5)
Additional access paths, each (RCA)	17.50 (5)	14.50 (5)

- (1) The Service and Equipment Charge(s) will not apply on outside moves of customer's other service if there is no telephone number change.
- (2) To change the number at the call-forwarding location, a nonrecurring charge of \$14.50 is applicable.
- (3) To change the number to which calls are forwarded at the request of the customer, a nonrecurring charge of \$14.50 is applicable.
- (4) To change both numbers as in (2) and (3), above, at the same time, a nonrecurring charge of \$14.50 is applicable.
- (5) For customers displaced by the major river flooding of 1994, the TeleBranch feature may be utilized as an alternative means for providing the customer telephone service on a temporary basis at an interim location. Under this arrangement, the recurring and nonrecurring charges are not applicable. This provision expires on December 31, 1994.
