**RE: The Empire District Electric Company d/b/a Liberty  
Commission Case No. ER-2021-0312**

Dear Judge Woodruff:

On May 2, 2022, and to comply with the Commission's *Order Approving Stipulations and Agreements* issued March 9, 2022, effective March 19, 2022, and the Commission's *Report and Order* issued April 6, 2022, effective April 16, 2022, in Liberty's general rate case (ER-2021-0312), Liberty submitted certain tariff sheets consisting of revised and original rate schedules. The general rate case compliance tariff sheets, designed to implement Liberty's authorized annual revenue requirement increase of \$35,515,913, bear an effective date of June 1, 2022 (30 days after submission).

Substitutes for certain tariff sheets were submitted on May 12, 2022, and Staff alerted Liberty of the need for an additional correction. In this regard, attached hereto for filing is a substitute for PSC Mo. No. 6, Section 2, Sheet No. 8. The version filed on May 2 mistakenly referenced "Rider DSIM for residential service." The attached substitute properly refers to "Rider DSIM for non-residential service."

Please do not hesitate to contact me with any questions or concerns regarding this substitute tariff submission.

Sincerely,

*Diana Carter*

These additional tariff sheets are attached to the approved transportation electrification stipulation for implementation with the conclusion of the general rate case but were inadvertently not included with the initial rate case compliance tariff package. These additional transportation electrification tariff sheets bear an issue date of May 12, 2022, and a proposed effective date of October 15, 2022. It should be noted that Liberty's Unopposed Motion to Modify Stipulation and Order and Motion for Expedited Treatment remains pending in Case No. ET-2020-0390. That Motion seeks modification of the Stipulation and the Commission's order approving the same in Liberty's transportation electrification docket to the extent necessary to align with the general rate case compliance tariff sheets. For ease of reference, all of the transportation electrification tariff sheets are being filed in both the general rate case docket and the transportation electrification docket.

Please do not hesitate to contact me with any questions or concerns, and please bring these tariff compliance filings to the attention of the Commissioners and the appropriate Commission personnel.

Sincerely,
