MOTION TO INTERVENE OF SIERRA CLUB

Comes now Sierra Club, and pursuant to 20 CSR 4240-2.075, applies to intervene herein. In support of its motion to intervene, Sierra Club states the following.

1. Sierra Club is a nonprofit organization organized and existing under the nonprofit corporation laws of the state of California. Sierra Club has more than 700,000 members nationally and over 12,000 members in Missouri. The Missouri Chapter of Sierra Club has an office at 2818 Sutton Blvd., St. Louis, MO 63143; email Gretchen.waddellbarwick@sierraclub.org; telephone 314-644-1011. Sierra Club exists for the purposes of preserving and protecting environmental values. Consistent with this mission, Sierra Club has long advocated for investment in clean, low-cost energy resources in the state of Missouri and across the country. Sierra Club is interested in promoting solar energy as an alternative to fossil fuel generation.

2. Sierra Club's interests in promoting solar energy are different from those of the general public in their environmental emphasis. Sierra Club seeks to move away from fossil-fueled electricity to energy efficiency and renewable energy in order to reduce pollution and ameliorate the adverse effects of fossil energy on the climate. The Sierra Club's interests would be positively affected by the addition of solar energy in Missouri. On the other hand, the Sierra Club's interests could be adversely affected if the project

were to harm sensitive lands, waters or species. Sierra Club generally supports community solar projects.

3. Sierra Club has been involved in prior wind CCN cases brought by Ameren and Empire District and has supported these projects with the addition of conservation measures.
