In Re: Nodaway Valley Telephone Company  
(Holway Telephone Company)

Dear Mr. Hearst:

This is to advise you that Nodaway Valley Telephone Company has changed its name to the Holway Telephone Company. I enclose for the files of the Commission a certified copy of the Amendment to the Articles of Incorporation approved by the Secretary of State on the 15th day of January, 1981, changing the name of the Company. Please change your records accordingly.

If you need anything further, please advise.

Very truly yours,

LILLEY & COWAN, P. C.

STATE OF MISSOURI  
PUBLIC SERVICE COMMISSION

At a Session of the Public Service  
Commission held at its office  
in Jefferson City on the 6th  
day of November, 1980.

CASE NO. TM-81-111

In the matter of the application of  
Century Telephone Enterprises, Inc.,  
for authority to acquire all of the  
common stock with a par value of \$100  
each of The Nodaway Valley Telephone  
Company.

ORDER AUTHORIZING STOCK PURCHASE

On October 6, 1980, Century Telephone Enterprises, Inc. (Applicant)  
filed with the Commission an application seeking authority pursuant to Section  
392.300, RSMo 1978, to purchase the outstanding common stock of The Nodaway Valley  
Telephone Company (Nodaway).

Upon the consideration of the application and the exhibits attached  
thereto along with the recommendation of the Commission Staff, the Commission is  
of the opinion that a hearing is not necessary to resolve the issues presented in  
this matter and finds as follows:

Applicant is a telephone holding corporation organized under the laws of  
the State of Louisiana with its principal office and place of business located at  
Monroe, Louisiana. Applicant is organized for the purpose of acquiring independent  
telephone companies throughout the United States and of assisting the management  
of such companies to meet the demands for capital resulting from the modernization  
and expansion of telephone service. Also, it proposes to provide local companies  
with such specialized information and managerial services as may be required for  
their most efficient operation.

Nodaway is a telephone operating company organized under the laws of the  
State of Missouri, conducting its operations through telephone central offices  
located in Maitland and Skidmore, Missouri, and serving approximately 650 main  
stations. Its capital stock consists of 1,000 shares of common stock with a par  
value of \$100 each, of which 327 shares are issued and outstanding. Six additional  
shares are held as treasury stock. The outstanding shares are owned by Robert R.  
King, an individual.

Applicant has entered into an agreement with the owner of the issued and  
outstanding common stock of Nodaway, entitled "Purchase Agreement" and dated

ORDERED: 2. That this Order shall become effective on the 18th day of  
November, 1980.

CASE NO. TM-88-238

In the matter of the joint application  
of RBJ Corp. and Holway Telephone  
Company for authority (1) for RBJ Corp.  
to acquire, take or hold more than ten  
percent of the total capital stock of  
Holway Telephone Company; and (2) for  
Holway Telephone Company to issue its  
note for \$975,000, and to secure said  
note with a lien on its property.

ORDER

On April 8, 1988, RBJ Corp. (RBJ) and Holway Telephone Company (Holway) filed a Joint Application requesting authority for certain proposed transactions. RBJ and Holway filed an Amended Joint Application on April 25, 1988. A Second Amended Joint Application was filed by the parties on May 17, 1988. Such application requests authority for RBJ to acquire, take or hold more than ten percent of the total capital stock of Holway pursuant to Section 392.300, RSMo (Supp.) 1987, and for Holway to issue its note for \$975,000 and to secure said note with a lien on its property pursuant to Sections 392.300 and 392.310, RSMo (Supp.) 1987.

The Commission, upon consideration of the application, the exhibits offered in support thereof and the recommendations of its Staff, determines that a hearing is unnecessary to resolve the issues herein and finds and concludes as follows:

RBJ is a corporation, duly organized and existing under the laws of the State of Missouri, with its principal office and place of business located at Route 2, Box 103, Bourbon, Missouri. RBJ is a holding company formed, among other things, for the purpose of acquiring a telephone operating subsidiary (i.e., Holway) which will provide regulated local exchange telephone service to the public.

financing the redemption of preferred stock of Holway in the approximate amount of \$240,000.

Holway proposes to execute and deliver to the St. Louis Bank for Cooperatives, as security for the loan, a Mortgage and Security Agreement, a copy of which is attached to the Second Amended Joint Application as Second Revised Exhibit 9.

On May 23, 1988, the Commission's Staff (Staff) filed memoranda recommending approval of the application. The Communications Department staff states that the general operations of Holway would not change significantly if the application were granted since RBJ intends to employ many, if not all, of the existing employees of Holway. The Commission's Office of Financial Analysis states that no evidence exists to indicate that the refinancing of debt or the acquisition of Holway's common stock by RBJ would result in a change in rates or be detrimental to Holway's ratepayers. Consequently, the Staff recommends approval of the Second Amended Joint Application.

The Commission, having considered the application, the exhibits filed in support thereof and its Staff's recommendation, concludes that the application should be granted.

It is, therefore,

ORDERED: 1. That RBJ Corp. be, and hereby is, authorized to acquire, take, and hold all of the issued and outstanding capital stock of Holway Telephone Company in accordance with the terms and conditions of the Purchase Agreement and First Amendment to the Purchase Agreement attached to the First Revised Joint Application as Revised Exhibit 2 and Exhibit 2A.

ORDERED: 2. That Holway Telephone Company be, and hereby is, authorized to borrow \$975,000 from the St. Louis Bank for Cooperatives pursuant to the terms and conditions as set forth in the Amended and Restated Loan Agreement attached to the Second Amended Joint Application as Second Revised Exhibit 5.

ORDERED: 8. That this Order shall become effective on the date hereof.

**Missouri School Discount Program**

1. A discount from standard monthly rates for local exchange service may be allowed in connection with service furnished through the Missouri School Discount Program, pursuant to the Video Instructional Development and Educational Opportunity Program, as enacted by the Missouri State Legislature.
2. Upon the customer's request, a discount of twenty percent (20%) from standard monthly access line rates may be allowed to educational institutions within the Company's certified area, as determined in Paragraph .3, following.
3. An educational institution shall be defined as an accredited public or private school in the state of Missouri. Private schools must be accredited by either the Missouri Chapter of the National Federation of non-Public Schools Accrediting Association, Independent Schools Association of The Central States, North Central Association of Colleges and Schools, and/or the University of Missouri - Columbia. Public schools must be accredited by the Department of Elementary and Secondary Education for the State of Missouri and/or the North Central Association of Colleges and Schools.
4. The qualifying discount will be permitted only on the local exchange access line. All other features, ancillary services or options, relative to the particular service, shall continue to be filled at the appropriate tariffed rates.
5. The qualifying discount will be permitted only where the predominant use is providing educational and instructional programs and for the educational institutions' administrative use. The discount is not allowed to residential complexes associated with the institution.
6. In addition to meeting the qualification specified in Paragraph .3 preceding, an eligible customer must sign an affidavit certifying that the qualification is met. The affidavit will be retained on file with the Company.
7. The customer should request to receive the discount on all subsequent additions of eligible services which are ordered. There will be no additional affidavits required.
8. The following local exchange services are eligible for a discount under this program:
  - Flat Rate, business one-party service.

ACCESS SERVICES TARIFF CONCURRENCE

Access Services

Access services are those services which are described in the Access Services Tariff of Oregon Farmers Mutual Telephone Company. These services are offered by the Company to intrastate interexchange customers (ICs) in accordance with the rules and regulations specified in the Access Services Tariff of Oregon Farmers Mutual Telephone Company and approved by the Missouri Public Service Commission, and in any amendments thereto and authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for access services of Oregon Farmers Mutual Telephone Company. Rates for these services are set out in the following pages of this concurrence.

Provision of Services

The Company, to the extent that such services are or can be made available with reasonable effort, and after provisions has been made for the Company's telephone exchange services, will provide to an intrastate IC, upon reasonable notice, services of the type offered in Oregon Farmers Mutual Telephone Company's Access Services Tariff pursuant to the terms and conditions specified therein and at the rates specified in the following pages of this concurrence. The Company's concurrence in Oregon Farmers Mutual Telephone Company's Access Services Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company.

Cancellation Rights

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements, as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

<del>GENERAL EXCHANGE SERVICE</del>	
CONNECTING, MOVING OR CHANGING SERVICE	
<p>GENERAL</p> <p>The charges specified in this section for the connection, move or change of service contemplate work being performed by the Telephone Company employees involved at a time when overtime wages do not apply.</p> <p>If the customer requests that overtime labor be performed at hours of the day or days of the week other than normal work hours of days, or on holidays, or interrupts work once begun, an additional charge based on the additional costs involved applies.</p> <p>The term "Service Charge" represents one of the following work functions necessary to perform a service connection, inside move or change for a business or residence class of service customers:</p> <p>A. Service Ordering Charge - receiving, recording and processing information in connection with a customer request, per due date, per premises. However, when multiple service orders are required for company reasons, only one Service Ordering Charge applies.</p> <p>B. Trip Charge - when it is necessary to travel to the customer's premises, one Trip Charge is applicable per customer request, per due date, per premises. When more than one trip to the customer's premises is necessary for company reasons, only one Trip Charge is applicable.</p> <p>C. Central Office Access Charge - work associated with the line extending from the serving central office to the customer's premises. It includes, but is not limited to, central office connections, cable cross connections, and connecting or moving the drop or block wire.</p> <p>D. Station Handling Charge - associated with connecting, moving or changing terminal equipment on the customer's premises.</p>	<p><b>REVIEWED</b></p> <p>JUN 20 1984</p> <p>MISSOURI Public Service Commission</p>

E. Premise Wiring Charge

MISSOURI  
Public Service Commission

1. Standard Service

Work associated with installing, moving or changing inside wiring consisting of less than twenty-five pairs of wire on the customer's premises to provide service at the locations requested. The Premises Wiring Charge applies for each location on the customer's premises where the customer desires inside wiring for either an item of terminal equipment to be connected or a suitable outlet to be placed as a provision for future connection of terminal equipment, where suitable inside wiring is not already in place. For inside wiring placed at a residence premises, the Premises Wiring Charge applies for either Residence Prewiring or Residence Postwiring, which terms are defined as follows:

a. Residence Prewiring

The term Residence Prewiring means the inside wiring placed during initial construction of a residence premises or during remodeling of that premises. Residence Prewiring will be place only if inside wall and ceiling coverings are not yet installed.

b. Residence Postwiring

The term Residence Postwiring means inside wiring placed at a residence premises during initial or subsequent provision of telephone service at that premises after inside wall and ceiling coverings are installed.

GENERAL EXCHANGE TARIFF

RECEIVED

GENERAL (Continued)

JUN 20 1984

No distinction is made between a "New Installation or Connection" and an "Outside Move". All changes in location of customer's equipment and service from one premises to another, except as otherwise provided in this section, are treated as new service connections with Service Charges applying. A premise is defined as: The buildings, portion of a building, on continuous property used and/or occupied at one time by the customer in the conduct of his business or as a residence. Where floor space in adjoining building is made continuous at one or more floor levels, all floor space in both buildings is considered as the same premises insofar as the customer who used and occupies such continuous floor space is concerned, the two buildings otherwise being considered as separate buildings.

Service Charges are in addition to other rates and charges normally applying under the Tariffs. They apply in addition to construction charges made because of unusual costs in establishing service and are not in lieu of mileage charges.

MOVE AND CHANGE CHARGES

A move is a transfer of telephone service or equipment from one location to another location on the same premises where there is no interruption of service other than is incident to the work involved.

A change is a substitution of a different type, style or color of a telephone instrument which does not involve a change in location of the instrument.

SERVICE CONNECTIONS - LINK UP MISSOURI

NOV 19 1997

A. General Regulations

The Link Up Missouri Service Connection Program is a Federal Lifeline assistance program applicable to eligible residential subscribers, as defined below, and designed to promote subscribership to the telephone network among low income residential households.

1. Service Connection Charges, as set forth in this tariff\*, for initial installation of the main residential service access line, will be discounted at a rate of 50 percent, or \$30.00, whichever is less. These reduced charges shall be assessed only for a single residential telephone line per eligible household at the principle place of residence. +
2. The customer may defer payment on up to \$200 of the above charges without interest for a period not to exceed one year. The deferred charges do not include any permissible security deposits required. Payments shall be equally paid over a twelve month period. If any payments are delayed interest shall accrue from that date forward. \*
3. A qualifying low-income customer may choose with 1 or 2, or both 1 and 2 as described above.
4. Link Up assistance is available for a second or subsequent time only for a principal place of residence with an address different from the residence address where assistance was previously provided.
5. The residence premises at which the residence service is requested must be the applicant's principal place of residence.
6. There is only one telephone line serving the residence premises. The residence premises household (dwelling unit) shall consist of that portion of an individual house or building or one flat or apartment occupied by a single family or individuals functioning as one domestic establishment.
7. Link Up will not be furnished on a Foreign Exchange service. \*

\* The discount established herein does not apply to other charges that may be required at the initiation of service such as security deposit, contributions in aid of construction, customer advances, etc.

Missouri School Discount Program

- A. A discount from standard monthly rates for local exchange service may be allowed in connection with service furnished through the Missouri School Discount Program, pursuant to the Video Instructional Development and Educational Opportunity Program, as enacted by the Missouri State Legislature.
- B. Upon the customer's request, a discount of twenty percent (20%) from standard monthly access line rates may be allowed to educational institutions within the Company's certified area, as determined in Paragraph 3, following.
- C. An educational institution shall be defined as an accredited public or private school in the state of Missouri. Private schools must be accredited by either the Missouri Chapter of the National Federation of non-Public Schools Accrediting Association, Independent Schools Association of The Central States, North Central Association of Colleges and Schools, and/or the University of Missouri - Columbia. Public schools must be accredited by the Department of Elementary and Secondary Education for the State of Missouri and/or the North Central Association of Colleges and Schools.
- D. The qualifying discount will be permitted only on the local exchange access line. All other features, ancillary services or options, relative to the particular service, shall continue to be billed at the appropriate tariffed rates.
- E. The qualifying discount will be permitted only where the predominant use is providing educational and instructional programs and for the educational institutions' administrative use. The discount is not allowed to residential complexes associated with the institution.
- F. In addition to meeting the qualification specified in Paragraph 3 preceding, an eligible customer must sign an affidavit certifying that the qualification is met. The affidavit will be retained on file with the Company.
- G. The customer should request to receive the discount on all subsequent additions of eligible services which are ordered. There will be no additional affidavits required.
- H. The following local exchange services are eligible for a discount under this program:
  - Flat Rate, business one-party service

Discounts for Schools and Libraries Participating in the Federal Universal Service Program

- A. Discounts on the intrastate services offered through this tariff will be available to eligible schools and libraries. A school or library will be eligible to participate in the discount program if it receives funds from the Federal Universal Service Fund.
  
- B. The level of discount available will mirror the discount percentage level available to the school or library through the Federal Universal Service Fund program. The discount will be applied against the intrastate service rate otherwise applicable under this tariff. The discount only applies to the extent funds are available to the eligible school or library, through the Federal Universal Service Fund.

OPTIONAL SERVICES AND FEATURES

Missouri Public Service Commission

REC'D MAR 06 2001

6. Optional Services and Features

6.3 CLASS Service

Custom Local Area Signaling Services (CLASS): Provides end-user services that allow the subscriber more control over incoming and outgoing calls based on Signaling System 7 (SS7) Hardware and Software. Services are offered where technically feasible and may be available on both an intra- or inter-exchange basis.

A. Feature Descriptions:

1. Caller ID: allows the subscriber (called party) to view the calling number on customer premise equipment that is designed to receive and thus display the calling party's number. Special station equipment is required for this feature.

The calling telephone number is only available in those areas where appropriate signaling network connections exist to forward the calling party's number. This may exclude calls made from most cellular phones or units, calls made through interexchange carriers, and calls originated from other local exchange carriers. The calling number is also not available when incoming calls have been handled by an operator or charged to credit cards. Number delivery for calls originated from a PBX will display the main PBX number only. If the caller's number is a multi-party line, or is blocked, the number will not be displayed.

Telephone numbers transmitted via Called ID may not be sold or given to another party without the caller's consent. Caller ID information may only be used for: a) routing or completion of calls, b) billing of calls, c) account management purposes, d) services directly related to the call or transaction, e) verification of calling party identity and f) marketing products or services that are directly related to those previously acquired by the customer from the number delivery services subscriber. Caller ID customers failing to comply with any of these conditions will have their service terminated.

REC'D MAR 06 2001

- 2 Customer-Originated Trace: allows the subscriber to initiate a trace on the last incoming call by dialing an activation code. The call will be traced automatically, and the telephone number that originated the call and the time the call was made will be recorded either in the Company office or in the offices of a law enforcement agency. Information recorded will be released by the Company only to an authorized representative of a law enforcement agency and, in no event, other than as provided by applicable state and federal law. Customer-Originated Trace will be made available to all customers where technically feasible. Charge for this service will be made on a per call basis when the subscriber uses the activation code. \*
- 3 Selective Distinctive Ringing: allows the subscriber to define a list of special Directory Numbers. Anytime the subscriber receives a call from one of these special numbers, a Distinctive Ring will be applied. Calls received from Directory Numbers not on the list, or which cannot be identified, will produce a standard ring. If the subscriber also subscribes to the Call Waiting feature, a distinctive tone pattern will be applied to the Call Waiting feature if the incoming call is also identified from the special list. \*
- 4 Selective Call Acceptance: allows the subscriber to define a list of calling Directory Numbers that will be accepted. Any calling numbers not on that list will be routed to announcements and rejected. The calling party, not on the acceptance list, will receive an announcement that states the call will not presently be accepted by the subscriber (called party). \*
- 5 Selective Call Forwarding: allows the subscriber to have certain terminating calls forwarded to a designated remote station. The activity will occur whenever a call is received from a Directory Number which has been indicated on a list of numbers referred to as the Selective Call Forwarding screening list. Calls from Directory Numbers which cannot be identified or have not been indicated on the list will be given standard terminating treatment. \*
- 6 Selective Call Rejection: allows the subscriber to define a list of Directory Numbers which, upon placing a call to the subscriber's line, will be routed to an announcement and rejected. All other calls will be treated normally. The calling party on the rejection list will receive an announcement stating the call is not being accepted by the called party. \*

6.3 CLASS Service (Cont'd)

REC'D MAR 06 2001

A. Feature Descriptions: (Cont'd)

- 7 Automatic Callback: permits a subscriber to automatically redial a call to the last number dialed by activating Automatic Recall. This feature is designed to automatically set up a call to the last telephone number called by the subscriber, regardless of whether the called telephone number is busy or idle, answered or unanswered. If the call cannot be completed immediately because of a busy line, the call is queued and call completion is attempted when both lines are idle. As part of the completion attempt, the calling subscriber is given special ringing and when the called telephone number answers, the calling subscriber is given regular ringing. \*
- 8 Call Return: permits a subscriber to automatically redial the most recent call received whether or not the call was answered. If that line is busy when the recall attempt is made, the call is queued until both the subscriber and the last calling party are idle; then the subscriber is rung first. When the subscriber answers, the other party (call return party) is rung to complete the call. The Call Return feature cannot be activated for all telephone numbers, such as 800 numbers, blocked numbers or PBX extensions. \*
- 9 Call Forwarding No Answer: with this feature, the subscriber's telephone is automatically forwarded to another party if the subscriber does not answer. Calls to the subscriber's telephone will ring normally. If the subscriber does not answer after a predetermined number of rings, the call is automatically forwarded to a number which the subscriber has entered, when the subscriber activates this feature. \*
- 10 Call Forwarding Busy: lets the subscriber forward calls to another phone when the line is busy. The subscriber chooses a number to which calls are forwarded. Call Forwarding Busy automatically transfers the subscriber's incoming calls to that phone, when the subscriber's phone is busy. \*
- 11 Auto Recall: allows the subscriber to recall the last telephone number that placed a call to the subscriber. This feature allows the subscriber to recall the last number, even if the subscriber missed the call on was using a another line. \*
- 12 Anonymous Call Rejection: lets the subscriber refuse a telephone call from a calling party that has blocked the calling number from being displayed on the Caller ID device. The calling party will receive an announcement indicating that the called party will not accept anonymous calls. The calling party will be requested to call again once the calling party has removed the blocking of the calling number. \*

6.3 CLASS Service (Cont'd)

A. Feature Descriptions: (Cont'd)

- 13 Caller ID / Call Waiting: notifies the subscriber that the subscriber has another call when the subscriber is on the telephone. This feature uses a special tone that notifies the subscriber that another call is waiting. The subscriber can identify the other calling number and determine if the subscriber wishes to use the call waiting feature to answer the other incoming call. If the subscriber wishes to answer the other call, and not disconnect the present call, the subscriber presses and releases the switchhook on the telephone and will be connected to the waiting call. To return to the original caller, the subscriber presses and releases the switchhook again.
- 14 Distinctive Ringing: allows the subscriber to have two telephone numbers on a single line for less than the cost of a second line. Each number has its own distinctive ring which allows family members, or in-house businesses, to identify and answer the appropriate incoming calls.

B. Nonchargeable CLASS Features:

- 1 Calling Number Delivery Blocking - Per Call: temporarily allows the subscriber, when placing outgoing calls, to label his or her telephone number as private, thus restricting its availability to the called party. This feature is accessed by dialing (\*67), or 1167 for rotary phones, before dialing the phone number of the called party.
- 2 Called Number Delivery Blocking - Per Line: allows the subscriber, when placing outgoing calls, to permanently label his or her telephone number as private, thus restricting its availability to the called party. This service is available only to established shelters of domestic violence intervention agencies, state and county departments of human resource shelters, law enforcement agencies and other such agencies, their employees and volunteers, or individuals where it is certified that the personal safety of these employees or individuals will be jeopardized without Per Line Blocking.

- 1 Call Waiting: notifies the subscriber that the subscriber has another call while on the telephone. When the subscriber is using the telephone, a special tone tells the subscriber that a second call is waiting. The subscriber presses and releases the switchhook on the telephone and the subscriber is connected to the waiting call. To return to the original call, the subscriber presses and releases the switchhook again. \*
- 2 Call Forwarding: allows the subscriber to transfer calls from the subscriber's telephone to another telephone where the subscriber can be reached. To activate, the subscriber enters the number of the telephone to which the subscriber wants the incoming calls forwarded, and the calls will be automatically sent to that number. \*
- 3 Three Way Calling: allows the subscriber to add a third person to the subscriber's conversation at any time regardless of who initiated the call. After the first call is established, the subscriber taps the switchhook. Dial tone will be heard; then the subscriber enters the number of the other party they wish to add. When that party answers simply tap the switchhook and all three parties are connected. \*
- 4 Speed Call 8: allows the subscriber to assign up to 8 of the subscriber's most frequently used numbers, local or long distance, to a single one-digit code. To call one of the parties on the subscriber's Speed Calling list, the subscriber lifts the handset, waits for a dial time, dials the single digit speed code, and presses the # key. \*
- 5 Speed Call 30: allows the subscriber to assign up to 30 of the subscriber's most frequently used numbers, local or long distance, through the use of two-digit codes. To call one of the parties on the subscriber's Speed Calling list, the subscriber lifts the handset, waits for the dial tone, dials the two-digit speed code, and presses the # key. \*

**GENERAL EXCHANGE TARIFF**

**UNIVERSAL EMERGENCY NUMBER SERVICE (911)**

1. Universal Emergency Number Service (911)

1.1 General

- A. Universal Emergency Number Service, also referred to as 911 Service, is a telephone exchange communication service whereby one or more Public Safety Answering Points (PSAP) designated by the customer may receive telephone calls dialed to the telephone number 911. 911 Service includes a line and equipment necessary (excluding CPE) for the answering, transferring and dispatching of public emergency telephone 911 calls originated by persons within the serving area. 911 Trunking Service involves the provision of interoffice trunks from the Telephone Company Central Office to connect with the PSAP location.
- B. The 911 emergency number is not intended to replace the telephone service of the various Public Safety Agencies which may participate in the use of this number. The 911 customer must subscribe to additional local exchange service at the PSAP for administrative purpose, for the placing of outgoing calls and for receiving other emergency calls, including any which might be related by Company operators.
- C. 911 Trunking Service is offered subject to availability of facilities.
- D. The 911 Trunking Service customer may be a municipality or other state or local government unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated. The customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for police, fire or other emergency services within the telephone Central Office area arranged for 911 calling.

**UNIVERSAL EMERGENCY NUMBER SERVICE (911)**

1. Universal Emergency Number Service (911) (Cont'd)

1.1 General (Cont'd)

- E. The Company may enter into a contract or contracts with the 911 customer or with other telephone companies in order to effectuate the Company's provision of 911 Service in accordance with, pursuant to, and subject to the terms, conditions and limitations of the Tariff. Any such contract(s) shall incorporate by reference the terms, conditions and limitations of this Tariff.
- F. The rates and charges contained herein are in addition to all other applicable rates and charges located in other parts of this tariff.

1.2 Conditions

- A. 911 Trunking Service is provided solely for the benefit of the customer operating the PSAP. The provision of 911 Trunking Service by the Company shall not be interpreted, construed or regarded, either express or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity other than the customer.
- B. The Company does not undertake to answer and forward 911 calls, but furnishes the use of its facilities to enable the customer's personnel to respond to such calls on the customer's premises.
- C. Temporary or vacation suspensions of service are not provided for any part of the 911 Trunking Service.
- D. 911 Service information consisting of the names, addresses and telephone numbers of Subscribers whose listings are not published in directories or listed in the Directory Assistance records is treated as strictly confidential.
- E. End Users dialing 911 forfeit the privacy afforded by nonpublished and unlisted telephone number service to the extent that the telephone number, address and name associated with the originating station location may be furnished by a PSAP. Information will be provided only for the purpose of responding to emergency calls.

**UNIVERSAL EMERGENCY NUMBER SERVICE (911)**

---

1. Universal Emergency Number Service (911) (Cont'd)1.2 Conditions (Cont'd)

- F. The Company's entire liability to any person for interruption or failures of 911 Trunking Service shall be limited to the terms set forth in this section and other sections of this tariff.
- G. The customer shall have the responsibility of discovering all errors, defects and malfunctions, in the transmission of calls and data, data base(s), and overall operation of the system. The customer shall make such operational tests as, in the judgment of the customer, are required to determine whether the system is functioning properly for its use. The customer shall promptly notify the Company in the event the system is not functioning properly.
- H. The Company's liability for any loss or damage arising from errors, interruptions, defects, failures or malfunctions of this service or any part thereof whether caused by the negligence of the Company or otherwise shall not exceed an amount equivalent to the pro-rata charges for the service affected during the period of time that the service was fully or partially inoperative.
- I. Each customer also agrees to release, indemnify and hold harmless the Company from any and all loss, claims, demands, suits or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or by any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the customer or others.
- J. The customer also agrees to release, indemnify and hold harmless the Company for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use of 911 Trunking Service features, the equipment associated therewith, or by any services furnished by the Company in connection therewith, including, but not limited to, the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing 911 Trunking Service hereunder, and which arise out of the negligence or other wrongful act of the Company, the customer, its user, agencies or municipalities, or the employees or agents or any one of them.

**UNIVERSAL EMERGENCY NUMBER SERVICE (911)**

1. Universal Emergency Number Service (911) (Cont'd)

1.2 Conditions (Cont'd)

- K. Because the Company serving boundaries and political subdivision boundaries may not coincide, it is the obligation of the customer to make arrangements to handle all 911 calls that originate from telephones served by Telephone Company Wire Centers served by the PSAP whether or not the calling telephone is situated on property within the geographical boundaries of the customer's public safety jurisdiction.
- L. Application for 911 Trunking Service must be executed in writing by each customer. If application for service is made by an agent, the Company must be provided in writing with satisfactory proof of appointment of the agent by the customer. At least one local law enforcement agency must be included among the participating agencies in any 911 offering.
- M. The customer is required to furnish the Company its agreement to the following terms and conditions:
  - 1. That all 911 calls will be answered in a 24-hour day, seven-day week basis.
  - 2. That that customer has responsibility for dispatching the appropriate emergency service vehicles within the 911 Service area, or will undertake to transfer all 911 calls received to the governmental agency with responsibility for dispatching such services, to the extent that such services are reasonably available.
  - 3. That the customer will develop an appropriate method for responding to calls for non-participating agencies which may be directed to the 911 PSAP by calling parties.
  - 4. That the customer will provide CPE with a capacity adequate to handle the number of incoming 911 lines recommended to be installed by the Company. It is the customer's responsibility to ensure its CPE is compatible with the service(s) provided by the Company.

**UNIVERSAL EMERGENCY NUMBER SERVICE (911)****1. Universal Emergency Number Service (911) (Cont'd)****1.2 Conditions (Cont'd)**

- N. This service is offered solely as an aid in handling assistance calls in connection with fire, police and other emergencies and does not create any relationship or obligation, direct or indirect, to any person other than the 911 customer contracting for 911 Trunking Services. In the event of any interruption of the service, the Company shall not be liable to any person, corporation or other entity for any loss or damage in an amount greater than an amount equal to the pro rata allowance of the tariff rate for the service or facilities provided to the 911 customer for the time such interruption continues, after notice to the Company. No allowance shall be made if the interruption is due to the negligence or willful act of the 911 customer.
- O. The rates charged for 911 Trunking Service do not contemplate the constant monitoring or inspection of facilities to discover errors, defects and malfunctions in the service, nor does the Company undertake such responsibility. The 911 customer shall make such operational tests as, in the judgment of the customer, are required to determine whether the system is functioning properly for its use. The customer shall notify the Company in the event the system is not functioning properly.
- P. In the absence of willful misconduct or gross negligence, no liability for any death or injury to any person or for any damage to property shall attach to the Company, its employees, agents or representatives as a result of or in connection with any situation in which the Company may be requested, required, have undertaken or participated in the tracing of a 911 call.
- Q. The customer recognizes that the addresses provided to it by the Company are the same addresses that the Company maintains for its ordinary service, billing or directory records and the Company cannot unconditionally guarantee their existence or accuracy in emergency situations. Therefore, the customer recognizes that addresses should, where circumstances permit, be verified from a 911 calling party. The customer shall make the correction within a reasonable time under the circumstances.

2. Deposits (Continued)

- H. Upon discontinuance or termination of service, the deposit shall be credited, with accrued interest, to the charge stated on the final bill and the balance, if any, shall be returned to the customer within twenty-one (21) days of the rendition of such final bill.
- I. Upon satisfactory payment of all undisputed charges during the last twelve (12) billing periods, the deposit shall, with accrued interest, be promptly refunded or credited against charges stated on subsequent bills. Payment of a charge is satisfactory if received prior to the date upon which the charge becomes delinquent provided it is not in dispute. The Company may withhold refund of a deposit pending the resolution of a dispute with respect to charges secured by such deposit.
- J. The deposit shall bear interest of nine (9) percent per annum which shall be credited annually upon the account of the customer or paid upon the return of the deposit, whichever occurs first. Interest shall not accrue on any deposit after the date on which reasonable effort has been made to return it to the customer.
- K. A guarantor shall be released upon satisfactory payment of all undisputed charges during the last twelve (12) billing periods. Payment of a charge is satisfactory if received prior to the date upon which the charge becomes delinquent provided it is not in dispute.
- L. At the option of the Company, a cash deposit may be refunded or credited to the customer at any time prior to termination of service or the customer's twelfth billing period. In the case of a cash deposit interest is paid for the period during which the deposit is held by the Company, provided the period is thirty (30) days or more.
- M. The fact that a deposit has been made shall in no way relieve the applicant or customer from complying with the Company's regulations as to advance payments and payment for service, nor constitute a waiver or modification of the regulations pertaining to the discontinuance of service for nonpayment of any charges due the Company for services rendered. Three-Digit Dialing Service (811)

A. General Regulations

1. The 811 Service is a locally assigned three digit abbreviated dialing code provided to a state One Call System (“SOCS”) for use in providing advance notice of excavation activities to underground facility operators by way of voice grade facilities. Federal Communications Commission (“FCC”) Docket 92-105 mandates that incumbent local exchange carriers in each local calling area make the 811 abbreviated dialing code available to a SOCS as a tariffed, local calling area based service (the “811 Service”).
2. The 811 Service allows a Company subscriber to access a SOCS call center by dialing only the 811 abbreviated dialing code. Subject to other terms and conditions of this tariff, Company subscribers shall be able to make, and the SOCS shall be able to receive, calls using the 811 Service as part of their local exchange service.
3. All 811 Service calls shall be local in nature and shall not result in any expanded area calling, intraLATA toll or interLATA long distance or pay-per-call charges to Company subscribers.
4. The 811 Service is not available for the following classes of service: inmate service, 1+ and 0+ calling, 0- operator assisted calling and 101XXXXX calling. The 811 Service is otherwise available wherever local service is available.
5. 811 Service is available from the Company within the Company’s service area only. To provide access to 811 to end users in another company’s service area or to a Competitive Local Exchange Carrier (“CLEC”) end user within the local calling area, the SOCS must make appropriate arrangements with the other company or CLEC serving that territory. The SOCS should work separately with competing local providers to ascertain that its end user customers will be able to reach one-call services provided by dialing 811.

B. Obligations of the SOCS

1. The SOCS may, but is not required to, submit a written application for 811 service to the Company which will include:

- a. The local, foreign exchange or toll free telephone number into which the Company is to translate the dialed 811 abbreviated code.
  - b. For network sizing and protection, an estimate of annual call volumes, the expected busy hour and holding time for each call to the 811 Service.
  - c. Complete contact information.
2. If requested by the Company, the 811 provider shall assist the Company in responding to complaints made to the Company concerning 811 Service.
  3. Local Calling for Company Subscribers
    - a. The SOCS, in cooperation with the Company, will assure that all 811 Service calls are local and do not generate Extended Area Service ("EAS"), Metropolitan Calling Area ("MCA") service, intraLATA toll, interLATA long distance or pay-per-call charges for Company subscribers.
    - b. The SOCS must supply the Company with a toll free number. The Company will translate the 811 digits into the telephone number provided by SOCS.
    - c. The SOCS is responsible for obtaining all necessary permissions, licenses, written consents, waivers and releases and all other rights from all persons whose work, statements or performances are used in connection with the 811 Service, and from all holders of copyrights, trademarks and patents used in connection with the said service.
- C. Obligations of the Company
1. The Company shall provision the 811 Service in accordance with FCC directives and the terms of this tariff.
  2. When an 811 Service call is placed by the calling party via interconnection with an interexchange carrier, the Company cannot guarantee the completion of said 811 Service call, the quality of the call or any features that may otherwise be provided with 811 Service.

Three-Digit Dialing Service (811)

3. The Company does not undertake to answer and forward 811 Service calls but furnishes the use of its facilities to enable SOCS to respond to such calls at SOCS established call centers.
4. The rates charged for 811 Service do not contemplate the inspection or constant monitoring of facilities to discover errors, defects, and malfunctions in service, nor does the Company undertake such responsibility. The SOCS is responsible for making such operational tests as, in the judgment of the SOCS, are required to determine whether the Company's facilities are functioning properly for its use. The SOCS is responsible for promptly notifying the Company in the event the Company's facilities are not functioning properly.

D. Liability

1. The Company's entire liability to any person for interruption or failure of the 811 Service shall be limited to the terms set forth in this section and other sections of this Tariff.
2. The liability of the Company for losses or damages of any kind arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, or failure or defects in any facility furnished by the Company occurring in the course of furnishing 811 Service, or of the Company in failing to maintain proper standards of maintenance and operation or to exercise reasonable supervision, shall in no event exceed an amount equivalent to the proportionate charge to the SOCS for the 811 Service and local exchange service for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission or defect or failure in facilities occurs.
3. The Company is not liable for any losses or damages caused by the negligence of the SOCS.
4. The Company shall not be liable to the SOCS for any damages the SOCS may incur that result from any changes, modifications or rulings made by the FCC.
5. The Company will make every effort to route 811 calls to the SOCS call center, however, the Company will not be held responsible for routing mistakes or errors.
6. The 811 Service is provided solely for the benefit of the SOCS. The provision of the 811 Service by the Company shall not be interpreted, constructed or regarded, either expressly or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity.

GENERAL REGULATIONS

MISSOURI  
Public Service Comm.

APPLICATION

The rules and regulations specified herein are in addition to those contained in the Local Exchange Service Tariffs, and the General Exchange Service Tariffs. They apply to the intrastate services and facilities furnished in Missouri by the Nodaway Valley Telephone Corporation hereinafter referred to as the Telephone Company or Company. Failure on the part of the subscribers to observe these rules and regulations of the Telephone Company, after due notice of such failure, automatically gives the Telephone Company the privilege to cancel the contract and discontinue the furnishing of service.

In the event of a conflict between any rate, rule, regulation or provision contained in these General Rules and Regulations and any rate, rule, regulation or provision contained in the Local Exchange Service Tariffs, the General Exchange Service Tariffs, the rate, rule regulation or provision contained in the specific Tariffs shall prevail.

These tariffs cancel and supersede all other Tariffs of the Telephone Company issued and effective prior to the effective dates of these Tariffs.

A. OBLIGATION AND LIABILITY OF TELEPHONE COMPANY

MISSOURI  
Public Service Comm.

1. Availability of Facilities

The Telephone Company's obligation to furnish exchange and toll service is dependent upon its ability to secure and retain, without unreasonable expense, suitable facilities and rights for the construction and maintenance of the necessary pole lines, circuits, and equipment.

2. Interruptions of Service

If service is interrupted for more 36 hours other than by the negligence of willful act of subscriber, an allowance at the minimum rate for the telephone facilities and class of service affected at the time of the interruption shall be made for the time such interruption continues, after notice and demand to the Company. No other liability shall in any case attach to the Company on account of interruptions of service.

3. Directory Errors and Omissions

No liability arising from errors or omissions in the making or printing of its directories shall attach to the Company except in the case of charge listings, in connection with which its liability shall be limited to a refund at the monthly rate for each listing for the time an error or omission continues after reasonable notice in writing to the Company.

4. Transmitting Messages

The Telephone Company does not transmit messages but offers the use of its facilities for communications between patrons.

5. Defacement of Premises

The Telephone Company shall exercise due care in connection with all work done on subscriber's premises. No liability shall attach to the Telephone Company by reason of any defacement or damage to the subscriber's premises resulting from the existence of the Telephone Company's instruments, apparatus and associated wiring on such premises, or by the installation or removal thereof, unless such defacement or damage is the result of the sole negligence of the Telephone Company.

B. USE OF SERVICE AND FACILITIES

1. Ownership and Use of Equipment-Equipment, instruments and lines furnished by the Telephone Company on the premises of a subscriber are the property of the Telephone Company, whose agents and employees shall have the right to enter said premises at any reasonable hour for the purpose of installing, inspecting, maintaining or repairing the equipment, instruments and lines, or for the purpose of making collections from coin boxes, or upon termination of the service, for the purpose of removing such equipment, instruments and lines. Such equipment, instruments and lines are not to be used for performing any part of the work of transmitting, delivering or collecting any message where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Telephone Company.

If the installation and maintenance of service are requested at locations which are or may be hazardous to the Telephone Company's employees or to the public or to property, the Telephone Company may refuse to install and maintain such service and, if such service is furnished, may require the subscriber to install and maintain such service and may also require such subscriber to indemnify and hold the Telephone Company harmless from any claims, loss

C. ESTABLISHMENT AND FURNISHING OF SERVICE

1. Applications for Service

a. Applications for service and facilities made in writing become contracts upon the establishment of the service or facility. Applicants for service are required to pay in advance at the time application is made, all charges accruing for the first billing period for exchange service and equipment, and the service connection charge if applicable. The terms and conditions in this General Exchange Tariff and the Local Exchange Tariff will apply for the particular exchange from which service is to be furnished. Any change in rates, rules, or regulations shall act as a modification of the contract to that extent, without further notice.

b. Requests from subscribers for additional service, equipment, etc., may be made verbally, if the original contract provides for such additional service and equipment as may be ordered, and no advance payment will be required.

2. Telephone Numbers

The subscriber has no property right in the telephone or any right to continuance of service through any particular central office, and the Telephone Company may change the telephone number or the central office Designation, or both, of a subscriber whenever it deems it advisable in the conduct of its business to so do.

3. Alterations

The subscriber agrees to notify the Company promptly in writing whenever alterations or new construction on premises owned or leased by him will necessitate changes in the Company's wiring or equipment; and

The interest shall be credited annually upon the account of the customer or paid upon the return of the deposit, whichever occurs first. Interest shall not accrue on any deposit after the date on which a reasonable effort has been made to return it to the customer.
- C. Upon discontinuance or termination of service, the deposit will be credited, with accrued interest, to the charges stated on the final bill, and any balance will be returned to the customer within twenty-one (21) days of the rendition of the final bill.
- D. Upon satisfactory payment of all undisputed charges during the last twelve (12) billing periods, guarantors will be released or deposits with accrued interest will be refunded or credited against charges on subsequent bills. Payment of charges will be considered satisfactory if received prior to the date on which the charge becomes delinquent provided the charge is not in dispute. The Company may withhold the refund of a deposit pending the resolution of a dispute with respect to charges secured by the deposit.
- E. The Company will maintain records of all pertinent information with regard to each deposit held.
- F. The Company will provide within ten (10) days of a customer request a receipt that contains information pertinent to that deposit.

Payment for Services and Facilities

- A. The customer shall pay for services and facilities monthly in advance. Failure to receive a bill does not relieve the customer of the responsibility for payment in accordance with the provisions set forth herein. All customers shall have twenty-one (21) days from date bill is rendered to make payment.
- B. When the customer has had service discontinued within the last twelve (12) months or where the customer incurs toll or other charges at any time during the billing period which are equal to at least 400% of the amount of the deposit or guarantee previously required from the customer, payment may be demanded for toll charges by a telephone call to the customer followed by written notification of such demand sent by first class mail.
- C. If the toll charges billed under Rule B remain unpaid for ten (10) days from rendition of written notification or a mutually established late payment arrangement date or twenty-one (21) days from rendition of the bill, such charges will be deemed delinquent.
- D. In the event of failure by the customer, or those responsible, to pay any regular bill or to promptly settle special toll bills, the Company may discontinue service upon proper notice to the customer. Service need not be restored unless or until all amounts due at the day of payment are paid in full including the resotation of service charges or satisfactory arrangements made therefor.

C. DISPUTES BY RESIDENTIAL CUSTOMERS

MISSOURI  
Public Service Commission

1. A customer shall advise the Company that all or part of a charge is in dispute by written notice, in person or by a telephone message directed to the Company during regular business hours. A dispute must be registered with the Company prior to the delinquent date of a charge for the customer to avoid discontinuance of service as provided by this tariff.
2. When a customer advises the Company that all or part of a charge is in dispute, the Company shall record the date, time and place the inquiry is made; investigate the matter promptly and thoroughly; and attempt to resolve the dispute in a manner satisfactory to both parties.
3. Failure of a customer to cooperate with the Company in efforts to resolve an inquiry which has the effect of placing charges in dispute shall constitute a waiver of the customer's right to continuance of service under this tariff.
4. If a customer disputes a charge, the customer shall pay an amount to the Company equal to that part of the total bill not in dispute. The parties shall consider the customer's prior usage, the nature of the dispute and any other pertinent factors in determining the amount not in dispute. The Company shall not discontinue service for nonpayment of charges in dispute while the dispute is pending.
5. If the parties are unable to determine the amount not in dispute, the customer shall pay to the Company, at the Company's option, an amount not to exceed fifty (50) percent of the charge in dispute or an amount based on usage during a like period under similar conditions which shall represent the amount not in dispute. The Company shall not discontinue service to a customer for nonpayment of charges in dispute while that dispute is pending.
6. Failure of the customer to pay to the Company the amount not in dispute with four (4) working days from the date the dispute is registered or by the delinquent date of the disputed bill, whichever is later, shall constitute a waiver of the customer's right to continuance of service and the Company may then proceed to discontinue service as provided in this tariff.

and semi-public service. In connection with public and semi-public service, extension stations are only furnished when they are essential to the efficient handling of service.

2. Extension stations may be furnished in connection with rural line service, provided they are located on the same premises as the main station. Extension stations on rural lines are provided only when such stations will not interfere with the satisfactory operation of the line.
3. Separate telephone numbers or other distinctive designations are not assigned to extensions, nor is code ringing permitted. Extension stations are not listed except as provided in the section entitled "Directory Listings" and no additional free listings are allowed in connection with the main station on account of the extension stations.
4. Extension stations must be located so that their use will be restricted to those entitled to use the subscriber's service, including joint users.
5. Intercommunication is not contemplated between a main station and an extension, or between extension stations, (except with the use of wiring plans, key equipments, or key telephone systems.)
6. Where either the main or extension station is at a business location, business rates apply to both stations.

B. SIGNAL EQUIPMENT AND STATION LIMITATIONS

1. One bell (ordinary type) may be furnished, if desired, at each extension station, and must be located at the extension station. The number of extension stations which may be connected with any main stations may be restricted to three, except that on additional extension station may be bridged to either a main station or extension station in connection with individual line service, provided the number of bells to be rung at one time does not exceed four. The number of bells which may be connected for each rural subscriber is dependent on the circumstances in each case.

PAYPHONE SERVICE

JAN 15 1997

A. General Regulations

1. Payphone Service includes lines to which coin, coinless, card reader or coin/card reader telephones may be attached.
2. Payphone Service is a two-way or, optionally, one-way originating only business exchange access line composed of the serving central office line equipment, all outside plant facilities needed to connect the serving central office with the customer's premises, and the Network Interface Device at the demarcation point. These facilities are Company-provided and maintained and provide access to and from the telecommunications network for long distance service and local calling.
3. In the case of one-way service, intercept treatment will be provided.
4. A maximum of one customer-provided instrument may be connected to any one Instrument or CO implemented coin line.
5. General Rules and Regulations found in other sections of this tariff are applicable to the provision of Payphone Service.
6. Directory listings may be provided under the regulations governing the furnishing of listings for business subscribers.
7. A Network Interface Device will be installed at a location mutually agreed upon by the Payphone Service Provider and the Company. The Network Interface Device is a company-provided jack or its equivalent. It is the point of connection between the telephone company owned wiring and wiring owned by the Customer.
8. One directory will be distributed to the Payphone Service Provider without charge for each payphone business exchange line.
9. Installation Charges and the appropriate Network Interface Device (NID) material charge are applicable for the installation, move or rearrangement of the NID on the customer's premises to establish or reestablish network access.

D. Instrument Implemented Payphone Service

Instrument Implemented Payphone Service is offered for use with a customer provided pay telephone. All attachments of a customer provided instrument to the network must be made pursuant to the rules and regulations set forth in this Tariff and as required by State and Federal commissions.

E. Central Office (CO) Implemented Coin Line

- 1. Central Office Implemented Coin Line provides coin signaling. It is a line side connection from the local exchange switch to the point of demarcation at the customer premise.
- 2. Features are additives to the operation of a flat rate access line that provide for CO Implemented coin line service. The Company offers those features that are provided by the functionality of the Company's switches. These include coin supervision, coin control (collect and return of coins, if applicable), and answer supervision. CO implemented coin line features that are implemented by the functionality of an operator service provider, such as coin rating, coin refund, repair referral, and operator call screening, are the responsibility of the Payphone service provider (Customer).
- 3. CO Implemented Coin Line features, including coin line signaling, coin collect and return (where applicable) and answer supervision, are provided by the Telephone Company per the technology available from the Company's facilities. **JAN 15 1997 +**

1. Answer Supervision provides signaling on the line notifying the line that the called party has answered. This feature is an additive to the CO Implemented Coin Line.
2. Coin Collection and Return provides an electrical signal on a CO Implemented Line indicating to the payphone equipment to collect coin(s) from or return coin(s) to the calling party. This feature is an additive to the CO Implemented Coin Line.
3. Special Number Assignment is a specific number requested by the customer. This service is available where facilities are accessible and it is technical feasible to provide. This feature is an additive to the CO Implemented Coin Line or to the Instrument Implemented Payphone Service.
4. Selective Class of Call Screening will be provided where such facilities are available at the customer's option. Selective Class of Call Screening treatment enables the customer to restrict outgoing operator-handled calls, placed over the Telephone Company's network, from the service point to only those calls which are charged to a called telephone, a third number or a calling card.
5. Validation may be performed through Originating-Line Screening (OLS). OLS enables operator service providers to determine whether there are billing restrictions on the exchange access line from which a call originates. OLS service delivers codes on operator assisted calls to identify calls originating from privately owned payphones, inmate locations, and hotels/motels, etc. Rates for this service are found in the appropriate interstate access tariff, when facilities and service are available. The customer has the option to request either Selective Class of Call Screening or OLS.

RULES AND REGULATIONS

A combination of transient and subscriber usage.

2. All local messages are charged for at the rate of 10 cents each, for each five minutes or fraction thereof, and toll messages at the Telephone Company's established rates.
3. When service is furnished beyond the base rate area, regular extra exchange line mileage charges apply to that portion of the line beyond the base rate area boundary lines. Such charges will be payable monthly in advance. Local message receipts in excess of the guarantee are not accepted in payment of such charges.
4. Subscribers to semi-public telephone service are required to guarantee total monthly receipts from local exchange service equal to the rate quoted for the service in the Local Exchange Service Tariffs. When the monthly receipts from local service are less than the amount of the guarantee the subscriber will be billed for the difference. Such bills are subject to the same terms and treatment as bills rendered for other types of local exchange service.
5. Service connection and move charges apply to semi-public telephone service.

RULES AND REGULATIONS

4. Bills are rendered at the reduced rate at regular billing dates during the period of suspension.

RURAL LINE SERVICE

1. New pole line extensions required for furnishing rural line service will be constructed along public highways by the Telephone Company under the following conditions:
  - a. An allowance of 1/4 mile route measurement per applicant will be made for such pole line extensions without the application of a construction charge.
  - b. For the construction in excess of the allowance stated in Paragraph A above, applicants for service are required to pay a construction charge based upon the estimated pole line construction costs involved.
2. Circuits on existing company owned pole lines required for furnishing rural line service will be constructed along public highways by the Telephone Company under the following conditions:
  - a. An allowance of 1/2 mile route measurement per applicant will be made for such rural circuit extensions without the application of a construction charge.
  - b. For the construction in excess of the allowance stated in Paragraph A above, applicants for service are required to pay a construction charge based upon the estimated cost of circuit construction involved.
3. When attachments are made to poles of other companies in lieu of providing pole line construction for which the customer would be charged under the provisions of this section, the cost to the Telephone Company of such attachments and the cost of obtaining the use of such poles is borne by the customer.

legal right to occupy, and on public lands and property across which rights-of-way and easements necessary to the Telephone Company may be obtained without cost or need for condemnation by the Telephone Company.

MISSOURI  
Public Service Commission

B. Rights-of-way and easements, within the subdivision, satisfactory to the Telephone Company, must be furnished by the applicant in reasonable time to meet construction and service requirements before the Telephone Company shall be required to commence its installation. Such rights-of-way and easements must be cleared of trees, tree stumps, and other obstructions and graded to within six inches of final grade, by applicant, at no charge to the Telephone Company. Such clearance and grading must be maintained by the applicant during construction by the Telephone Company.

1.1.4 ADVANCE PAYMENTS

A. Where, due to the manner in which a subdivision is developed, the Telephone Company is required to construct an underground telephone distribution system through a section or sections of the subdivision where service will not be connected for at least two years, then the Telephone Company may require an advance payment equal to the estimated cost of construction from the applicant before construction is commenced. If in the judgment of the Telephone Company an advance is required under the above described conditions, the Telephone Company has the right to refuse installation of the underground system until the required advance is paid to the Telephone Company.

B. If an advance is required under these rules, then the advance, without interest, shall be returned to the applicant on a pro rata basis as the permanent service connection is made to each building or multiple-occupancy building.

C. Any portion of an advance remaining unrefunded ten years from the date the Telephone Company is first ready to render service with the extension will be retained by the Telephone Company and credited to the appropriate construction account.

1.1.5 TEMPORARY FACILITIES

- A. Temporary facilities may be installed to provide service when necessary, for a maximum period of one year.
- B. Where it is necessary to place temporary facilities in advance of the permanent underground telephone system in order to provide telephone service, the Telephone Company may require the applicant to pay the estimated non-recoverable cost of the temporary facilities. If the required costs under the above described conditions apply, the Telephone Company has the right to refuse installation of the temporary facilities until the required costs are paid to the Telephone Company.

1.1.6 SPECIAL CONDITIONS

- A. In circumstances, where the application of these rules appears impracticable or unjust to applicant or the Telephone Company, or discriminatory to other customers, e.g., difficult rock conditions, the Telephone Company or applicant shall refer the matter to the Missouri Public Service Commission for special ruling or for the approval of special conditions which may be mutually agreed upon prior to commencing construction.
