SECTION 2 - RULES AND REGULATIONS2.8. Payment of Charges (cont'd)

- 2.8.4. Monthly charges for all access service components, provided hereunder, are billed in advance of service and reflect the rates in effect as of the date of the invoice. A Customer's first invoice may contain charges from previous periods for service provided from the date of installation through the current invoice period.
- 2.8.5. Bills are due and payable as specified on the bill. Bills may be paid by mail or in person at the business office of Sage or an agency authorized to receive such payment. All charges for service are payable only in United States currency. Payment may be made by cash, check, money order, cashier's check, or certain major credit cards. Customer payments are considered prompt when received by Sage or its agent by the due date on the bill. Amounts not paid within twenty-one (21) days after the mail date of invoice will be considered past due. In the event that a postmark on a customer's payment received after the due date is not discernible, a three day mailing period will be presumed. If the last calendar day for remittance falls on a Sunday, legal holiday, or other day when the offices of Sage are not open to the general public, the final payment date shall be extended through the next business day. If Sage becomes concerned at any time about the ability of a Customer to pay its bills, Sage may require that the Customer pay its bills and make such payments in cash or the equivalent of cash.
- 2.8.6. If any portion of the payment is not received by Sage, or if any portion of the payment is received by Sage in funds that are not immediately available, within thirty (30) days after the date of rendition, then a late payment penalty may be assessed. The penalty for late payments shall be a 1.5% charge on the amount of the bill past due.
- 2.8.7. Any disputed charge may be brought to Sage's attention by verbal or written notification. In the case of a billing dispute between the Customer and Sage that cannot be settled to their mutual satisfaction, the undisputed portion and subsequent bills must be paid on a timely basis, or the service may be subject to disconnection. The Customer may request an in-depth investigation into the disputed amount and a review by a Sage manager. During the period that the disputed amount is under investigation, Sage shall not pursue any collection procedures or assess late fees with regard to the disputed amount. The Customer shall be required to pay the undisputed part of the bill, and if not paid, Sage may discontinue service. In the event the dispute is not resolved, Sage shall inform the customer that the customer has the option to pursue the matter with the Public Utility Commission.
- 2.8.8. The Customer is responsible to pay Sage for all toll calls or other third party charges resulting from the origination of calls to points outside the local exchange and for charges or calls billed to the Customer's number.
- 2.8.9. Sage may assess up to a twenty-five dollar (\$25) charge for each returned check or credit card chargeback.
- 2.8.10. If service is suspended/disconnected by Sage in accordance with the provisions of the Tariff and later restored, restoration of service will be subject to all applicable installation charges.
- 2.8.11. When circumstances prevent customers from paying their invoices in full, Sage may make special accommodations to assist customers by setting up a regular payment plan. Payment plans are only set up at the request of the customer. Payment plans are intended to function as a short-term solution and will be reviewed and approved on an individual case basis.

**SECTION 3 - DESCRIPTION OF SERVICES**

**3.1 General**

The Company provides intrastate interexchange services, including direct-dialed message telecommunications services and 800/888/877/866 service to residential and business customers who also subscribe to the Company's Local Exchange Telecommunications Services, as described in Missouri P.S.C. Tariff No. 1. Intrastate interexchange services are only provided in conjunction with the Company's local exchange services, and no alternative arrangements will be made to provide these services to a customer that is not subscribed to the Company's local exchange service. Each service is offered via Sage's facilities, conventional network elements purchased from other local or inter-exchange carriers, or via resale of facilities of other local or inter-exchange carriers for the transmission of one-way or two-way communications, unless otherwise noted. Calls are rated based on the duration of the call. Services are available twenty-four (24) hours a day, seven (7) days a week.

Residential service offerings that include unlimited usage are limited to use for residential voice applications. This includes service offerings providing for unlimited local usage, unlimited intraLATA usage and/or unlimited interLATA usage. No commercial use of any form is permitted for such unlimited service offerings. Incidental calling for dial-up internet access, for data and fax type applications and for other similar restricted uses reflected in this tariff is permitted up to a maximum of 1200 minutes within any thirty-day period; any such usage beyond this threshold shall be presumed to be non-residential in nature. If, at any time, the Company determines that the Customer's usage is non-residential or is not consistent with use for residential voice applications, the Company may immediately take actions to enforce adherence to this tariff and to the Company's Statement of Terms and Conditions of Service that are applicable to interLATA and international long distance. Such actions may include the transition to a higher tier within the customer's existing service plan.

The Company will notify the Customer in writing when the previous month's usage exceeds that normally associated with residential voice applications. Such written notice will inform the Customer that a higher tier rate will apply if, after two additional months, the usage remains above usage thresholds established in the existing service plan. Customers whose excessive usage levels resulted in a higher rate will, upon request, qualify for the lower-tier rate(s) after three consecutive months of usage below usage thresholds established in the existing service plan.

Service offerings that include unlimited long distance usage are restricted to residential voice applications. No commercial use of any form is permitted for such unlimited service offerings. This includes service offerings providing for unlimited intraLATA usage and/or unlimited interLATA usage. If the company determines<sup>1</sup> that the customer is using the service in violation of this Section 3.1 the customer will be given seven (7) days written notice to contact the Company with regard to the usage data gathered. If no contact has been made to the Company within the specified period, the customer's account will be blocked for outgoing long distance calls. The block will remain until the customer elects to change to another Sage service plan, which does not include unlimited long distance calling. The customer would no longer be eligible to subscribe to a Sage unlimited calling plan.

- <sup>1</sup> High usage accounts associated with a Sage unlimited long distance usage plan will be subject to periodic review by the Company. Each account selected for further review will be analyzed as follows:
- o The Company will track frequently dialed numbers and duration of calls. If many different numbers are being dialed for periods of seconds, use of an auto-dialer is suspected and called numbers will be sampled for business or data usage.
  - o The Company will test-call frequently dialed numbers to listen for data recipient. If data is heard, use of Internet and/or facsimile is positively identified.
