JUN 25 1993

MISSOURI TELECOMMUNICATIONS TARIFF

MO. PUBLIC SERVICE COMM.

This tariff contains the descriptions, regulations, and rates applicable to the furnishing of telecommunications services provided by Hertz Technologies, Inc., with principal offices at 5601 Northwest Expressway, Oklahoma City, Oklahoma 73132. This tariff applies for services furnished within the State of Missouri. This tariff is on file with the Missouri Public Service Commission ("PSC" or "Commission"), and copies may be inspected, during normal business hours, at the Company's principal place of business.

Hertz Technologies, Inc. has been designated as a competitive telecommunications company pursuant to Section 392.361 of Missouri Revised Statutes. Hertz Technologies, Inc. has been exempted from the following statutory and regulatory requirements by order of the Commission:

Statutes

392.240(1) -- ratemaking
392.270 -- valuation of property (ratemaking)
392.280 -- depreciation accounts
392.290 -- issuance of securities
392.310 -- stock and debt issuance
392.320 -- stock dividend payment
392.330 -- issuance of securities, debt and notes
392.340 -- reorganization(s)

CANCELLED

OCT 02 2001

Commission Rules

4 CSR 240-10.020 -- depreciation fund income
4 CSR 240-30.010(2)(C) -- rate schedules
4 CSR 240-30.060(5)(B) through (O) -- records re: ratemaking
4 CSR 240.32.030(1)(B) -- exchange boundary maps
4 CSR 240.32.030(1)(C) -- record keeping

TARIFF FORMAT

MO. PUBLIC SERVICE COMMISSION

A. Sheet Numbering - Sheet numbers appear in the upper right corner of the sheet. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each sheet. These numbers are used to determine the most current sheet version on file with the Missouri PSC. For example, the 4th revised sheet 14 cancels the 3rd revised sheet 14.

C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

2.
2.1.
2.1.1.
2.1.1.A.
2.1.1.A.1.
2.1.1.A.1.(a).
2.1.1.A.1.(a).I.
2.1.1.A.1.(a).I.(i).
2.1.1.A.1.(a).I.(i).(1).

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS JUN 25 1993

MO. PUBLIC SERVICE COM.

1.1. Access Line

An arrangement which connects the calling customer's location to a Hertz Technologies, Inc. network switching center or a switching center of one of Hertz Technologies' underlying carriers.

1.2. Authorization Code

A numerical code, one or more of which are available to a customer to enable him/her to access the carrier, and which are used by the carrier both to prevent unauthorized access to its facilities and to identify the customer for billing purposes.

1.3. Called Station

Denotes the terminating point of a call (i.e., the called telephone number).

1.4. Carrier or Company

Hertz Technologies, Inc.

1.5. Customer

The person, firm, corporation or other entity which orders service and is responsible for payment of charges due and for compliance with the Company's tariff regulations. The Company markets its services exclusively to business entities.

1.6. End User

MO. PUBLIC SERVICE COMM.

A person initiating an intrastate telephone call using the services of the Company or the receiver of an 800 intrastate call.

1.7. LATA - (Local Access and Transport Area)

A geographic area established as required by the Modified Final Judgment entered in United States v. Western Electric Co., Inc., 552 F. Supp. 131 (D.D.C. 1982), within which a local exchange telephone company provides communication services.

1.8. LEC

Local exchange telephone company.

1.9. Underlying Carrier

A provider of interexchange telecommunications services from whom the Company acquires service which it resells to its customers.

SECTION 2 - RULES AND REGULATIONS2.1. Undertaking of Hertz Technologies, Inc.

Hertz Technologies, Inc. provides long distance services.

Hertz Technologies, Inc. installs, operates and maintains the communications services provided hereunder in accordance with the terms and conditions set forth under this tariff. It may act as the customer's agent for ordering access connection facilities provided by other carriers or entities when authorized by the customer, **FILED**

allow connection of a customer's location to the Hertz Technologies, Inc. network. The customer shall be responsible for all charges due for such service arrangements.

The Company's services and facilities are provided on a monthly basis unless ordered on a longer term basis, and are available twenty-four hours per day, seven days per week.

2.2. Limitations

2.2.1. Directory assistance services are provided by the underlying carrier whose operator is identified as that of the underlying carrier. Hertz Technologies, Inc. acts as the billing agent for directory assistance services provided by the underlying carrier. Certain operator functions and calls (411, collect calls, conference calls, person-to-person calls) are referred to and billed by a local exchange operator. Emergency calls (911, 1911 and 0911) are referred to a local exchange operator.

2.2.2. Service is offered subject to the availability of facilities and the provisions of this tariff.

2.2.3. Hertz Technologies, Inc. reserves the right to discontinue furnishing service, or limit the use of service necessitated by conditions beyond its control; or when the customer or end user is using service in violation of the law or the provisions of this tariff.

- 2.2.4. Hertz Technologies, Inc. may terminate service without liability upon receipt by Hertz Technologies Inc. of notice that any tariff, contract, or other arrangement with Hertz's underlying carrier is declared to be unlawful by any federal or state court or other governmental entity or if Hertz is ordered to cease provision of such service by a federal or state court or other governmental entity.

2.3. Liabilities of the Company

- 2.3.1. Hertz Technologies, Inc.'s liability for damages arising out of mistakes, omissions, interruptions, delays, errors or defects in the transmission occurring in the course of furnishing service, channels or other facilities, and not caused by the negligence of the customers, commences upon activation of service and in no event exceeds an amount equivalent to the proportionate charge to the customer for the period of service during which such mistakes, omissions, interruptions, delays, errors or defects in the transmission occur. For the purposes of computing such amount, a month is considered to have thirty (30) days.

- 2.3.2. In no event will carrier be responsible for consequential damages or lost profits suffered by a customer or end user as a result of interrupted or unsatisfactory service.

Responsibilities of the Customer MO. PUBLIC SERVICE COMM

- 2.4.1. The customer is responsible for taking all necessary legal steps for interconnecting the customer-provided terminal equipment or communications systems with carrier facilities or services. The customer shall secure all licenses, permits, rights-of-way and other arrangements necessary for such interconnection.
- 2.4.2. The customer shall ensure that the equipment and/or system is properly interfaced with carrier facilities or services, that the signals emitted into the carrier network are of the proper mode, bandwidth, power and signal level for the intended use of the customer and in compliance with the criteria set forth in this tariff, and that the signals do not damage equipment, injure personnel or degrade service to other customers. If the Federal Communications Commission or some other appropriate certifying body certifies terminal equipment as being technically acceptable for direct electrical connection with interstate communications service, carrier will permit such equipment to be connected with its channels without the use of protective interface devices.
- 2.4.3. If the customer fails to maintain the equipment and/or system properly, with resulting imminent harm to carrier equipment, personnel or the quality of service to other customers, carrier may

upon written notice, require the use of protective equipment at the customer's expense. If this fails to produce satisfactory quality and safety, carrier may, upon written notice, terminate the customer's service.

2.5. Interruption of Service

2.5.1. Credit allowance for the interruption of service which is not due to the Company's testing or adjusting, negligence of the customer or to the failure of channels or equipment provided by the customer, are subject to the general liability provisions set forth in 2.4 herein. It shall be the obligation of the customer or end user to notify the Company immediately of any interruption in service for which a credit allowance is desired. Before giving such notice, the customer or end user shall ascertain that the trouble is not being caused by any action or omission by the customer within his/her control, or is not in wiring or equipment, if any, furnished by the customer and connected to the Company's facilities.

2.5.2. For purposes of credit computation, every month shall be considered to have 720 hours.

2.5.3. No credit shall be allowed for an interruption of a continuous duration of less than two hours.

- 2.5.4. The customer shall be credited for an interruption of two hours or more at the rate of 1/720th of the monthly charge for the facilities affected for each hour or major fraction thereof that the interruption continues.

Credit Formula:

Credit = $A/720 \times B$

"A" - outage time in hours
"B" - total monthly charge for effected facility

- 2.5.5. If written notice of a dispute as to charges is not received by the Company within thirty (30) days of the date a bill is issued, such charges shall be deemed to be correct and binding on the customer or end user.

2.6. Restoration of Service

The use and restoration of service shall be in accordance with the priority system specified in Part 64, Subpart D of the Rules and Regulations of the Federal Communications Commission.

2.7. Deposits

The Company does not require a deposit from the customer if the customer passes a credit check. If the customer does not pass the credit check, a deposit equal to two months and ten days of the average bill is required.

3.3. Credit and Refunds

MO. PUBLIC SERVICE COMM.

If a credit is requested on a call due to trouble on the line (such as bad connection, disconnection, wrong number dialed, etc.), and the credit is requested immediately through the operator, it is issued promptly. All other credit requests are handled through the Company's business office.

3.4. Calculation of Distance

Usage charges for all mileage sensitive services are based on the airline distance between rate centers associated with the originating and terminating points of the call. For the purpose of determining airline mileage, vertical and horizontal grid lines have been established across the United States and Canada. The spacing between adjacent vertical grid lines and between horizontal grid lines represents a distance of one coordinate unit. This unit is the square root of 0.1, expressed in statute miles. Hertz Technologies, Inc. uses the rate centers and associated vertical and horizontal coordinates that are produced by Bell Communications Research, Inc. in its NPA-NXX V & H Coordinates Tape and the Exchange carrier Association's NECA Tariff F.C.C. No. 4.

3.7.3. HTNS Schedule G

MO. PUBLIC SERVICE COMM.

This schedule applies to switched digital network services 384 kbps calls which originate from and terminate at on-network locations using digital special access.

3.8. HTNS 800 SWITCHED INBOUND

HTNS 800 SWITCHED INBOUND is a service which permits inward calling from stations in diverse service areas. Calls are dialed and completed without the assistance of a Company or Underlying Carrier operator and do not include collect calls, conference calls, calling card calls, person-to-person calls or any other classification of operator-handled calls. Service is provided on a monthly basis. HTNS rates and charges apply to completed calls from the service area selected by the customer to a telephone number associated with the customer's existing local exchange service or an access line provided by the Company or its Underlying Carrier. It is the customer's responsibility to obtain access for the completion of a call to HTNS 800 SWITCHED INBOUND from the Company or its Underlying Carrier.

The applicable rate period is determined by the day and time at the HTNS 800 Service Station. When a connection between a calling station and the HTNS 800 Service station is established in one rate period and ends in another rate period, the rate in effect for each rate period applies to the portion of the call occurring within that rate period.

The Minimum Average Time Requirement for HTNS 800 SWITCHED INBOUND is 30 seconds and applies per

HTNS 800 SWITCHED INBOUND telephone number. This means that if the average duration per call during each billing period is less than 30 seconds, billing will be based on the actual number of calls using an average duration of 30 seconds per call.

3.9.

HTNS DEDICATED INBOUND 800

HTNS DEDICATED INBOUND 800 is a service which permits calling from stations in diverse service areas. Calls are dialed and completed without the assistance of a Company or Underlying Carrier operator and do not include collect calls, conference calls, calling card calls, person-to-person calls or any other classification of operator-handled calls. Service is provided on a monthly basis. HTNS rates and charges apply to completed calls from the service area assigned to a dedicated termination point on the customer's premises or an access line provided by the Company or its Underlying Carrier. It is the customer's responsibility to obtain access for the completion of a call to HTNS DEDICATED INBOUND 800 from the Company or its Underlying Carrier.

CANCELLED

The applicable rate period is determined by the day and time at the HTNS 800 Service Station. When a connection between a calling station and the HTNS 800 Service station is established in one rate period and ends in another rate period, the rate in effect for each rate period applies to the portion of the call occurring within that rate period.

The Minimum Average Time Requirement for HTNS DEDICATED INBOUND 800 is 30 seconds and applies per HTNS DEDICATED INBOUND 800 telephone number.

3.10. HTNS Schedule W

HTNS Schedule W is available either for outbound calling or for inbound calling (i.e., 800 service) and is designed for the Customer who does not require advanced service features. Whether used for outbound or for inbound service, HTNS Schedule W service is available in either of two optional configurations: Switched Access Option and Dedicated Access Option.

3.10.1. Switched Access Option

This option applies to calls initiated or terminated at the Customer's premises via a switched access connection between Customer's premises and the point of presence of the Underlying Carrier.

3.10.2. Dedicated Access Option

This option applies to calls initiated or terminated at the Customer's premises via a dedicated access connection between Customer's premises and the point of presence of the Underlying Carrier.
