**ORDER APPROVING RIDER ENERGY
EFFICIENCY INVESTMENT CHARGE TARIFF SHEET**

Issue Date: January 3, 2019

Effective Date: January 25, 2019

Union Electric Company d/b/a Ameren Missouri ("Ameren Missouri") filed a tariff sheet to adjust the rate of its Missouri Energy Efficiency Investment Act ("MEEIA") Rider, Energy Efficiency Investment Charge ("EEIC Rider"). The terms of EEIC Rider require a filing at least once per calendar year to be effective with the subsequent calendar year's February billing month. Ameren Missouri's annual filing to adjust its EEIC Rider bears an effective date that coincides with the start of the company's February billing month, January 25, 2019.

Ameren Missouri's proposed EEIC Rider adjustment decreases rates by approximately \$70.8 million, with specific rate classes being impacted differently. An average residential customer will experience a \$3.33 decrease in the EEIC Rider charge.¹

The Commission issued notice of the filing and directed the Commission's Staff to submit a recommendation. Staff's Tariff/Rate Design Unit reviewed the tariff sheet, supporting work papers, and worksheets showing Ameren Missouri's calculations of the

proposed rates for the EEIC Rider and projected costs and throughput disincentive for MEEIA Cycle 2 components. Staff also verified that Ameren Missouri is not delinquent with any required filings, including its Quarterly Surveillance Monitoring reports. Staff recommended the Commission approve Ameren Missouri's EEIC Rider tariff sheet. No other responses were filed.

Having reviewed Staff's recommendation, the Commission will approve the proposed tariff sheet. Since the EEIC Rider is unopposed and Ameren Missouri seeks to have the revised tariff sheet go into effect at the start of the February billing month, the Commission finds good cause exists to allow this order to go into effect in less than thirty days.
