TARIFF FORMAT

A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the MO PSC. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the MO PSC follows in their tariff approval process, the most current sheet number on file with the Commission is not always the tariff pages in effect. Consult the check sheet for sheet currently in effect.

C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.
- 2.1.1.A.1.(a).
- 2.1.1.A.1.(a).I.
- 2.1.1.A.1.(a).I.(i).
- 2.1.1.A.1.(a).I.(i).(1).

SECTION 1.0 - TECHNICAL TERMS AND ABBREVIATIONS, *continued*

1.2 Definitions, *continued*

Subscriber - The person, firm, corporation, or other legal entity which arranges for services of the Company on behalf of transient third party Consumers. The Subscriber is responsible for compliance with the terms and conditions of this tariff. A Subscriber may also be a Customer when the Subscriber uses services of the Company. See also Traffic Aggregator.

Switched Access - Where access between the Customer and the interexchange carrier is provided on local exchange company Feature Group circuits. The cost of switched Feature Group access is billed to the interexchange carrier.

Third Party Billing - A billing arrangement by which the charges for a call may be billed to a telephone number that is different from the calling number and the called number.

Terminal Equipment - Devices, apparatus, and associated wiring, such as teleprinters, telephones, or data sets.

Traffic Aggregator - A Subscriber that in the ordinary course of its operations, makes telephones available to the public or to transient users of its premises, for telephone calls using a provider of operator services.

V & H Coordinates - Geographic points which define the originating and terminating points of a call in mathematical terms so that the airline mileage of the call may be determined. Call mileage is used for the purpose of rating calls.

SECTION 2.0 - RULES AND REGULATIONS, *continued*

2.3 Payment and Credit Regulations

2.3.1 Payment Arrangements

The Customer is responsible for payment of all charges for services and equipment furnished to the Customer for transmission of calls via the Company. The Customer agrees to pay to the Company any cost(s) incurred as a result of any delegation of authority resulting in the use of his or her communications equipment and/or network services which result in the placement of calls via the Company. The Customer agrees to pay the Company or its authorized agent any and all cost(s) incurred as a result of the use of the service arrangement, including calls which the Customer did not individually authorize.

All charges due by the Customer are payable to any agency duly authorized to receive such payments. The billing agency may be a local exchange telephone company, credit card company, or other billing service. Terms of payment shall be according to the rules and regulations of the agency and subject to the rules of regulatory agencies, such as the Missouri PSC. Any objections to billed charges must be promptly reported to the Company or its billing agent. Adjustments to Customers' bills shall be made to the extent that circumstances exist which reasonably indicate that such changes are appropriate.

Charges for installations, service connections, moves, and rearrangements, where applicable, are payable upon demand by the Company or its authorized agent. The billing thereafter will include recurring charges and actual usage as defined in this tariff.

SECTION 2.0 - RULES AND REGULATIONS, *continued*

2.3 Payment and Credit Regulations, *continued*

2.3.2 Deposits

The Company does not require a deposit from the Customer or Subscriber. If, in the future, the Company does require deposits, it will comply with the requirements as set forth in 4 CSR 240-33.050, which pertains to deposits and guarantees of payment for residential customers.

2.3.3 Advance Payments

The Company does not require an Advance Payment from the Customer or Subscriber.

2.3.4 Late Payment Charge

All bills are due upon receipt. Any bill outstanding and unpaid more than thirty (30) days after the date the bill is postmarked, shall be considered past due. A late fee of 1.5% per month will be charged on any past due balance.

2.3.5 Return Check Charge

A return check charge of \$20.00 will be assessed for checks returned for insufficient funds. Any applicable return check charges will be assessed according to the terms and conditions of the billing entity (i.e. local exchange company and/or commercial credit card company) and pursuant to Missouri law and Commission regulations.

SECTION 2.0 - RULES AND REGULATIONS, *continued*

2.5 Refunds or Credits for Service Outages or Deficiencies

2.5.1 Interruption of Service

Credit allowances for interruptions of service which are not due to the Company's testing or adjusting, to the negligence of the Customer or Subscriber, or to the failure of channels, equipment and/or communications systems provided by the Customer or Subscriber, are subject to the general liability provisions set forth in this tariff. It shall be the obligation of the Customer to notify Company immediately of any interruption in service for which a credit allowance is desired by Customer. Before giving such notice, the Customer shall ascertain that the trouble is not within his or her control, or is not in wiring or equipment, if any furnished by Customer and connected to Company's terminal. Interruptions caused by Customer-provided, Subscriber-provided or Company-provided automatic dialing equipment are not deemed an interruption of service as defined herein since the Customer has the option of using the long distance network via LEC access. For purposes of credit computation every month shall be considered to have 720 hours. For services with a monthly recurring charge, no credit shall be allowed for an interruption of continuous duration of less than two hours. For message rated toll services, credits will be limited to, at maximum, the price of the initial period of individual call that was interrupted.

2.5.2 Inspection, Testing and Adjustment

Upon reasonable notice, the facilities provided by the Company shall be made available to the Company for such tests and adjustments as may be deemed necessary for maintenance in a condition satisfactory to the Company. No interruption allowance will be granted for the time during which such tests and adjustments are made.

2.6 Liability of the Company

- 2.6.1** The Company's liability for damages arising out of mistakes, interruptions, omissions, delays, errors, or defects in transmission which occur in the course of furnishing service or facilities, in no event shall exceed an amount equivalent to the proportionate charge to the Customer for the period during which the faults in transmission occur.
- 2.6.2** The Company shall not be liable for claim or loss, expense or damage (including indirect, special or consequential damage), for any interruption, delay, error, omission, or defect in any service, facility or transmission provided under this Tariff, if caused by any person or entity other than the Company, by any malfunction of any service or facility provided by any other carrier, by an act of God, fire, war, civil disturbance, or act of government, or by any other cause beyond the Company's direct control.
- 2.6.3** The Company shall not be liable for, and shall be fully indemnified and held harmless by the Customer against any claim or loss, expense, or damage (including indirect, special or consequential damage) for defamation, libel, slander, invasion, infringement of copyright or patent, unauthorized use of any trademark, trade name or service mark, unfair competition, interference with or misappropriation or violation of any contract, proprietary or creative right, or any other injury to any person, property or entity arising out of the material, data, information, or other content revealed to, transmitted, or used by the Company under this Tariff; or for any act or omission of the Customer; or for any personal injury or death of any person caused directly or indirectly by the installation, maintenance, location, condition, operation, failure, presence, use or removal of equipment or wiring provided by the Company, if not directly caused by gross negligence of the company.
- 2.6.4** The Company shall not be liable for any defacement of or damages to the premises of a Customer resulting from the furnishing of service which is not the direct result of the Company's gross negligence.

SECTION 2.0 - RULES AND REGULATIONS, *continued*

2.9 Use of Service

Service may be used for any lawful purpose for which it is technically suited. Customers or Subscribers reselling or rebilling the Company's Illinois intrastate service must have a Certificate of Authority as an interexchange carrier from the Illinois Commerce Commission.

2.10 Terminal Equipment

The Company's facilities and service may be used with or terminated in Customer-provided or Subscriber-provided terminal equipment or systems, such as PBXs, key systems, multiplexers, repeaters, signaling sets, teleprinters, handsets, or data sets. Such terminal equipment shall be furnished and maintained at the expense of the Customer or Subscriber, except as otherwise provided. The Subscriber or Customer is responsible for all costs at his or her premises, including personnel, wiring, electrical power, and the like, incurred in the use of Company's service.

2.13 Operator Services for Casual Callers and Traffic Aggregators

The Company's services are available to Consumers for a fee as described in the Rates section of this tariff, for direct dial, credit card, and automated collect operator assisted calls.

2.13.1 Incomplete Calls

The Company does not bill for incomplete calls and will remove any charges for incomplete calls upon (i) subscriber notification, or (ii) Company's knowledge. The Company utilizes answer supervision to determine completeness of calls.

2.13.2 Carrier Identification

The Company identifies itself to the Caller at the time the caller accesses its services. The Company will identify itself to the billed party, if different from the caller, at the time of initial contact.

2.13.3 Rate Information

Upon request, the Company quotes all rates and charges for its services to the End User accessing its system at no charge. The Company will also disclose billing method and complaint resolution procedures upon request.

2.13.4 Notice

When the Company provides its operator assisted calling to the public or transient Consumers, the Subscriber is required to post a notice in plain view at each telephone location which automatically accesses the Company's network. The notice shall include the following information:

- A. the Company's name and address;
- B. a toll-free telephone number for bill and service dispute information;
- C. a statement that The Company will quote rates upon request at no charge via the 800 number;
- D. a statement informing Consumers that they may access another interexchange telecommunications company from the traffic aggregator's location;
- E. instructions on how to reach the nearest emergency services provider at no charge;
- F. a statement that the Customer has the right to appeal any disputes concerning intrastate telephone calls to the Commission.

2.13.5 Non-Blocking of other Carriers

The Company will not take any action or enter into any arrangement which restricts Consumer selection among competing interexchange telephone corporations or which restricts Consumer access to competing providers of intrastate operator assisted communications services. Any entity which the Company knows to be engaged in such action or arrangement will be considered in violation of contract.

3.2 Calculation of Distance

Usage charges for all mileage sensitive products are based on the airline distance between serving wire centers associated with the originating and terminating points of the call.

The serving wire centers of a call are determined by the area codes and exchanges of the origination and destination points.

The distance between the Wire Center of the Customer's equipment and that of the destination point is calculated by using the industry-standard "V" and "H" coordinates.

Step 1 - Obtain the "V" and "H" coordinates for the Wire Centers serving the Customer and the destination point.

Step 2 - Obtain the difference between the "V" coordinates of each of the Wire Centers. Obtain the Difference between the "H" coordinates.

Step 3 - Square the differences obtained in Step 2.

Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 - Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the Wire Centers.

Formula

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

3.3 Timing of Calls

Billing for calls placed over the network is based in part on the duration of the call. Timing of each call begins when the called party answers the call (i.e. when two way communications are established.) Answer detection is based on standard industry answer detection methods, including hardware and software answer detection. Call timing ends when either party hangs up.

3.3.1 Unless otherwise described in the individual service description in this tariff, calls are measured and billed in one (1) minute increments. The minimum call duration for billing purposes is one (1) minute.

3.3.2 There is no billing applied for incomplete calls.

3.3.3 When a call is established in one rate period and ends in another rate period, the rate in effect at the calling station applies to the portion of the call occurring within that rate period. When a unit of time is split between two rate periods, the rate applicable to that unit of time is based on the rate period in which it began.

3.5 Pay Telephone Surcharge

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

3.6 Service Offerings

3.6.1 Operator Services

Operator Services is the furnishing of services for the completion of calls by Consumers and Customers presubscribed to Company made with the assistance of a company operator within the state including aggregator sites and locations. Aggregator sites include, but are not limited to hotels/motels, hospitals, business, military establishments; and locations of public, semi-public, or private pay telephones. Commercial credit cards are only accepted for payment for calls from pay telephone locations.

Usage charges apply to all operator service calls. Additionally, appropriate service charges are billed on a per call basis. The following per call service charges apply individually or in combination as described herein.

A. Calling Card Charge

This charge applies to an operator assisted or automated call placed by a Customer or Consumer where the call charges are billed to a local telephone company issued authorization code rather than to the originating or terminating telephone number. Three levels of assistance are available, depending on the extent of operator involvement in placing the call. See rate schedule following

B. Operator Station Charge

This charge applies to a service whereby the Customer or Consumer places a non-Person to Person call with the assistance of an operator (live or automated).

D. Third Party Billing Charge

This charge applies to a billing arrangement by which the charges for a call may be billed to a telephone number that is different from the calling number and the called number.

E. Sent Paid Charge

This charge applies when the Consumer requests the operator to bill back to the number from which they are calling. The operator can only do this if the Consumer is calling from a non-restricted number.

F. Person to Person Charge

This charge applies to a service whereby the person originating the call specifies a particular person to be reached, or a particular station, room number, department or office to be reached.

H. Busy Line Verification and Interrupt

1. Busy Line Verification

Busy Line Verification and Interrupt services are offered in areas where the service is available. With Busy Line Verification (BLV), the Company operator will determine if the called number or line is in use. Only one BLV will be made per telephone call and an associated charge will apply whether or not conversation was detected on the line. The operator will not complete the call for the Customer initiating the verification request.

2. Busy Line Verification - Interrupt

Busy Line Verification - Interrupt (BLVI) allows the Company operator to interrupt a telephone conversation in progress, upon the caller's request and after a Busy Line Verification occurs. Upon the caller's request, the Company operator will interrupt the busy line and inform the called party that there is a call waiting from the caller. The Operator will not complete the call, but will only inform the called party of the request. If the call is released the Company operator will offer to complete the call for the Customer initiating the interrupt request. An applicable service charge and applicable per minute charges will apply to the completed call. Only one BLVI attempt will be made per telephone call and a charge will apply whether or not the called party releases the line.

3.8 Institutional Collect-Only Calling Service

The Company processes one type of institutional collect calls: automated collect. Automated Collect Calls are billed to the called party and completed through an automated call processing system that prompts the call originator and the called party such that the call is completed without live operator assistance. The call processing system collects the billing information of the called party and routes the call through terminating facilities. The called party must accept the charges for the call, or the connection will be dropped.

Calls are measure as described in Sections 3.2, 3.3, and 3.4 of this tariff and rated based on time of day, call duration and mileage. Per-minute usage sensitive charges, as well as per-call automated operator surcharge apply.

Service may be limited or restricted at the request of the Institution administration. Restrictions include, but are not limited to: call duration limits, call-to number blocking, emergency call blocking, blocked access to a live operator and to alternate carriers, collect or person to person collect only, service availability hours, or other restrictions deemed necessary for the welfare of the institution and safety of the public. All services are offered in conjunction with interstate services.

4.6 Exemptions and Special Rates

4.6.1 Emergency Call Exemptions

The following calls are exempted from all charges: Emergency calls to recognizable authorized civil agencies including police, fire, ambulance, bomb squad and poison control. The Company will only handle these calls if the caller dials all of the digits to route and bill the call. Credit will be given for any billed charges pursuant to this exemption on a subsequent bill after verified notification by the billed Customer within thirty (30) days of billing.

4.7 Individual Case Basis Rates (ICB)

Private line services will be made available to customers in a nondiscriminatory manner. Rates for interexchange and local exchange dedicated access, private line, non-switched services will be determined on an Individual Case Basis (ICB). ICB rates will be structured to recover the Company's cost of providing the service and will be made available to the Missouri Public Service Commission Staff upon request on a proprietary basis. ICB rates will not be used for switched services.
