A. APPLICATION

These Tariffs apply to the General Telephone Exchange Services of the Grand River Mutual Telephone Corporation, hereinafter referred to as the Telephone Company, in all Exchanges of the Telephone Company. In the event of any conflict between any rate, rule or regulation contained in these General Exchange Service Tariffs and any rate, rule or regulation contained in the Local Exchange Service Tariffs, the rate, rule or regulation contained in the Local Exchange Service Tariff shall apply.

FILED

AUG 15 1955

The provision of services and facilities, as provided herein, is subject to the General Rules and Regulations of the Telephone Company, which General Rules and Regulations as they now exist or as they may be revised, added to or supplemented by superseding issues are hereby made a part of these General Exchange Service Tariffs.

PUBLIC SERVICE COMMISSION

These Tariffs cancel and supersede all other Tariffs of the Telephone Company issued and effective prior to the effective date of these Tariffs.

B. EXPLANATION OF SYMBOLS

- (C) Signifies a changed regulation.
- (D) Signifies a discontinued rate, treatment or regulation.
- (I) Signifies an increased rate or new treatment resulting in increased rate.
- (N) Signifies a new rate, treatment or regulation.
- (R) Signifies a reduced rate or new treatment resulting in reduced rate.
- (T) Signifies a change in text but no change in rate, treatment, or regulation.

SERVICE CONNECTION CHARGES

- 1.0 The term "Service Connection Charges" is used to define refundable charges made for the establishment of a phone service or subsequent additions, moves, or changes to that service.
- 1.1 Service Connection Charges are in addition to any other scheduled rates and charges normally applying under the tariffs. They apply in addition to and not in lieu of Mileage Charges, Installation Charges, or Construction Charges made because of unusual costs in establishing service.
- 1.2 Service Connection Charges are payable at the time application is made for the particular service or facility, and prior to the establishment of service, or upon presentation of a bill. Service may be established in advance of payment in the case of Service Connection Charges for additions to the service of existing subscribers or for Departments, Administrations, and Agencies of the Federal, State, County, Township, or Municipal Governments.

A. GENERAL

1. The term "Service Connection Charges" is used to define the non-refundable charge made for the establishment of a class of telephone service or subsequent additions to that service.
2. No distinction is made between a "New Installation" and an "Outside Move." All changes of subscribers' equipment or service from one premises to another (except as otherwise provided under "Inside Moves and Changes") are treated as new service connections with Service Connection Charges applying. (For definition of "Premises" see "Definitions" under General Rules and Regulations Part I.)
3. Service Connection Charges are in addition to any other scheduled rates and charges normally applying under the tariffs. They apply in addition to and not in lieu of Mileage Charges, Installation Charges, or Construction Charges made because of unusual costs in establishing service.
4. Service Connection Charges are payable at the time application is made for the particular service or facility, and prior to the establishment of service, or upon presentation of a bill. 2.0 SERVICE CONNECTION CHARGES:

These charges cover any work done at the request of the subscriber for single or individual line business or residence service.

2.1 SERVICE ORDERING CHARGE

Covers all work associated with creation and processing of a service order, including initial interview with subscriber, work done as to application card and other permanent records, typing service orders, distribution of service order copies and completion of all other records originating from service orders.

2.2 CENTRAL OFFICE ACCESS CHARGE

Covers all work (i.e. central office wiring, programming, or outside wiring) involving the access line extending from the Company's Central Office to the subscriber's premises. One charge will apply for each access line. This charge does not anticipate "construction" which is covered in other parts of these tariffs.

SERVICE CONNECTION CHARGES

- 2.0 SIX ELEMENT CHARGE PLAN  
 The Six Element Charge Plan covers any work done at the request of the subscriber for single or individual line business or residence service.  
 ELEMENTS COVERED:
- 2.1 SERVICE ORDERING CHARGE  
 covers all work associated with creation and processing of a service order, including initial interview with subscriber, work done as to application card and other permanent records, typing service orders, distribution of service order copies and completion of all other records originating from service orders.
- 2.2 TRIP CHARGE  
 covers the trip to the customer premises when work is required under either categories (2.3), (2.4), (2.5), or (2.6).
- 2.3 CENTRAL OFFICE ACCESS CHARGE  
 covers all work (i.e. central office wiring, programming, or outside wiring) involving the access line extending from the Company's Central Office to the subscriber's premises. One charge will apply for each access line. This charge does not anticipate "construction" which is covered in other parts of these tariffs.
- 2.4 STATION HANDLING CHARGE  
 covers all work associated with connecting, moving, or changing a telephone or other terminal equipment on the subscriber premises. One charge will apply for each telephone or each other item of miscellaneous terminal equipment.
- 2.5 INSIDE WIRING CHARGE  
 covers all work associated with placement, change, or rearrangement of each wiring unit on the subscriber's premises, but does not anticipate "concealed" wiring, which is covered in other parts of these tariffs.
- 2.6 JACK CHARGE  
 covers all work associated with placement of a jack at customer's premises. One charge will apply for each jack installed.

LOW INCOME CONNECTION ASSISTANCE PROGRAM - LINK UP MISSOURI

A. GENERAL

1. The Link up Missouri Service Connection Program is a Federal Lifeline Assistance program applicable to eligible residential subscribers, as defined below, and is designed to promote subscribership to the telephone network among low income residential households.
2. Link Up assistance is available for a second or subsequent time only for a principle place of residence with an address different from the residence address where assistance was previously provided.
3. The premises at which the residence is requested must be the applicant's principle place of residence.
4. There is only one telephone line serving the residence premises. The residence premises household (dwelling unit) shall consist of that portion of an individual house or building or one flat or apartment occupied by a single family or individuals functioning as one domestic establishment.
5. Link Up will not be furnished on a Foreign Exchange Service.

B. ELIGIBILITY REQUIREMENTS

The following requirements shall be used by the company to determine the eligibility of a subscriber for Link Up Missouri. An applicant must meet the following criteria in order to qualify for Link Up.

1. The customer must participate in one of the following programs:
  - a. Medicaid
  - b. Food Stamps
  - c. Supplemental Security Income (SSI)
  - d. Federal public housing assistance
  - e. Low Income Home Energy Assistance Program
  - f. Temporary Assistance to Needy Families (FANF)
  - g. National School Lunch Program (N)
2. The customer must sign, under penalty of perjury a document certifying:
  - a. He/she is receiving benefits from one of the programs in B.1 above.
  - b. Name of the program(s) from which they are receiving benefits.
  - c. That he/she will notify the company if he/she no longer participates in the program(s) named in 1. preceding (N)

LOW INCOME CONNECTION ASSISTANCE PROGRAM-LINK UP MISSOURI

Public Service Commission

A. GENERAL

- 1. The Low Income Connection Assistance Program-Link Up Missouri is a plan to assist qualified low income applicants by providing a credit to the service connection charges applicable to the provisioning of a single telephone line per household at the applicant's principal place of residence. The rules and regulations contained herein are in addition to all other applicable rules and regulations located in other parts of this company's tariff.

B. ELIGIBILITY REQUIREMENTS

To be eligible for assistance, an applicant must:

- 1. Not have had telephone service in the applicant's home for at least three months immediately prior to the date of the application;
- 2. Not have received federally sponsored service connection assistance within the last two years;
- 3. Not be a dependent for federal income tax purposes unless the applicant is more than 60 years of age;
- 4. Either be income eligible, or receiving Medicaid/Medical Assistance benefits from the State of Missouri, and have provided their Department of Social Services Client Number (DCN) to the company.

C. APPLICATION FOR PROGRAM

- 1. An applicant for service shall request connection assistance through completion of **CANCELLED** provided by the Telephone Company.

E. CHARGES AND DEFERRED PAYMENTS

1. Service Connection Charges, as set forth in this tariff\*, for initial installation of the main residential service access line, will be discounted at a rate of 50 percent, or \$30.00, whichever is less. These reduced charges shall be assessed only for a single residential telephone line per eligible household at the principle place of residence. (C)
2. The customer may defer payment on up to \$200 of the above charges without interest for a period not to exceed one year. The deferred charges do not include any permissible security deposits required. Payments shall be equally paid over a twelve month period. If any payments are delayed interest shall accrue from that date forward. (C)
3. A qualifying low-income customer may choose either 1 or 2, or both 1 and 2 as described above. (N)

LOW INCOME CONNECTION ASSISTANCE PROGRAM-LINK UP MISSOURI

**MISSOURI**

D. VERIFICATION OF ELIGIBILITY

**Public Service Commission**

1. The Telephone Company will verify that an applicant has not had telephone service for the prior three months or has not received connection assistance within the last two years. If the information to provide verification is unavailable, the applicant shall provide proof that he or she is participating, or is eligible to participate, in the Medicaid benefits program.

E. CHARGES AND DEFERRED PAYMENTS

1. All tariffed charges applied in initiating telephone service to residential customers shall either be reduced by one half of the amount required to connect the customer to the local telephone network or thirty dollars (\$30), whichever is less.<sup>1</sup>
2. The applicant may participate in a deferred monthly payment schedule of four months for payment of remaining company tariffed connection charges, plus any security deposit, with a minimum payment of \$5 per month. When the total deferred payment is less than \$20 the minimum period may be less than four months. No interest charges shall apply for charges incurred on a deferred payment schedule.

IV. B. SALE OF TERMINAL EQUIPMENT

MISSOURI  
Public Service Commission

1. The Company may offer for sale to the general public items of telephone equipment, terminal equipment, and telephone accessory equipment that is not included in the Company's rate base for regulatory purposes. Applicable warranty coverage, if any, for specific items will be provided by the Company, in a written format, at the time of purchase.
2. Items of equipment which may be available for sale:
  - Standard telephone instruments
  - Decorator and specialty telephones
  - Protective connecting arrangements
  - Telephone related accessories
  - Equipment which is obsolete in the Company's tariff subject to availability and of suitable quality.
  - Special assemblies (one of a kind items)
3. The Company will periodically review its service offerings to determine whether additional items should be added as saleable offerings. At the Company's option, specific customers requests to purchase equipment from the Company will be considered.
4. The Company will establish and maintain separate and identifiable accounts with direct sale items in accordance with a uniform system of accounts.

PAYPHONE SERVICE

JAN 15 1997

A. GENERAL REGULATIONS

MISSOURI  
Public Service Commission

1. Payphone Service includes lines to which coin, coinless, card reader or a combination of coin/card reader telephones may be attached.
2. Payphone Service is a two-way or optionally, one-way originating only business exchange access line composed of the serving central office line equipment, all outside plant facilities needed to connect the serving central office with the customer's premises, and the Network Interface Device at the demarcation point. These facilities are Company-provided and maintained and provide access to and from the telecommunications network for long distance service and local calling.
3. In the case of one-way service, intercept treatment will be provided.
4. A maximum of one customer-provided instrument implemented pay telephone may be connected to any one Instrument or CO implemented coin line.
5. General Rules and Regulations found in other sections of this tariff are applicable to the provision of Payphone Service.
6. Directory listings may be provided under the regulations governing the furnishing of listings for business subscribers.
7. A Network Interface Device will be installed at a location mutually agreed upon by the Payphone Service Provider and the Company. The Network Interface Device is a company-provided jack or its equivalent. It is the point of connection between the telephone company owned wiring and wiring owned by the Customer.
8. One directory will be distributed without charge for each payphone business exchange line.
9. Installation Charges and the appropriate Network Interface Device (NID) material charge are applicable for the installation, move or rearrangement of the NID on the customer's premises to establish or reestablish network access.

GENERAL EXCHANGE SERVICE TARIFF

JAN 15 1997

PAYPHONE SERVICE (Continued)

MISSOURI +  
Public Service Commission

A. GENERAL REGULATIONS (Continued)

- 10. Installation Charges and the appropriate NID material charge apply when a premises visit is made for the sole purpose of installing a customer requested NID.
- 11. The Company shall not be liable for shortages of coins, collected and deposited at the subscriber's equipment. The limit of the Company's liability for end user fraud of whatever nature occurring at or in association with the subscriber's equipment shall be governed by provisions of this Tariff and rule or regulations of the Missouri Public Service Commission. In case of conflict between the tariff provisions and Commission rules and regulations, the rule of regulations shall prevail.
- 12. Off-Premise Extensions to a payphone service provider on non-contiguous property are not permitted. Extensions on the same continuous property are permitted.
- 13. Local messages from Payphones are charged at no higher than twenty-five (25) cents for each call.
- 14. The Multi-line Business Subscriber Line Charge, found in the interstate access tariff, is applicable to all payphone Instrument and CO Implemented coin lines.

B. RESPONSIBILITY OF THE CUSTOMER

- 1. The Customer for the purposes of this tariff is defined as the Payphone Service Provider.
- 2. The customer shall be responsible for the installation, operation and maintenance of the customer-provided instrument, plus all ancillary equipment, such as booths, shelves, lighting, directories, etc., used in connection with this service. The customer is responsible to comply with the requirements set forth in the American With Disabilities Act of 1990.

D. Extension and Auxiliary Signals

1. Extension and Auxiliary Signals are designed to supplement, or replace the usual station ringers where such ringers do not furnish a sufficient volume of sound, or where a visual signal is desired in addition to or in place of an audible signal.
2. Such signals operated by ringing current are furnished in connection with all classes of service. Audible signals operated by commercial power and visual signals are furnished only in connection with individual lines and private branch exchange station lines in common battery exchanges except that audible signals will be furnished in connection with magneto exchanges when practicable to do so.
3. Extension and Auxiliary Signals operated by commercial power are designed to be used on 110 volts, 60 cycle alternating current or 110 volts direct current. Except for extension bells which are operated by ringing current, the power for operating the signals is furnished by the subscriber and is obtained from convenient outlets furnished, installed and maintained by the subscriber.

PAYPHONE SERVICE (Continued)

JAN 15 1997

B. RESPONSIBILITY OF THE CUSTOMER (Continued)

3. The customer shall be responsible for the payment of charges for all local and toll messages originating from or accepted at this type of service, including any Directory Assistance Calls.
4. The customer shall be responsible for obtaining a Certificate of Service Authority (CSA) to provide Payphone Service and for providing proof of said authority prior to installation of service.
5. Each customer must provide instructions, attached or in close proximity to the set, for use including specific instructions for the above requirements; refunds and complaints; one-way calling if so equipped; long distance access; and must prominently display notice in close proximity to the set that the Instrument Implemented phone is not a Company Telephone. Said instruments shall also show the telephone set's working number and include a local or toll free number to allow the public to directly contact the private payphone owner.
6. Customers who elect not to subscribe to Selective Class of Call Screening will be fully responsible for all calls billed to customer's exchange access line. The Telephone Company shall have no responsibility to adjust any such charges and/or release customer from paying any such charges. Customer will hold the Telephone Company harmless from and against any liability or loss resulting from all calls billed to customer's exchange access line.
7. Any federal, state, or local taxes on the Customer Owned Pay Telephone or calls made from that phone are the responsibility of the customer.
8. The customer shall not program or cause to be programmed any such telephone used in connection with this service to limit the duration of a local message.

PAYPHONE SERVICE (Continued)

MISSOURI  
Public Service Commission

C. VIOLATION OF REGULATIONS

1. Where any customer-owned pay telephone is in violation of this Tariff, the Company will notify the customer in writing of the violation.
2. The customer shall discontinue use of the customer-owned pay telephone or correct the violation and notify the Company in writing within five (5) days after receipt of such notice that the violation has been corrected.
3. Failure of the customer to discontinue such use or to correct the violation will result in the suspension of the customer service until such time as the customer complies with the provisions of this Tariff.

D. INSTRUMENT IMPLEMENTED PAYPHONE SERVICE

Instrument Implemented Payphone Service is offered for use with a customer provided pay telephone. All attachments of a customer provided instrument to the network must be made pursuant to the rules and regulations set forth in this Tariff and as required by State and Federal commission.

E. CENTRAL OFFICE (CO) IMPLEMENTED COIN LINE

1. Central Office Implemented Coin Line provides coin signaling. It is a line side connection from the local exchanges switch to the point of demarcation at the customer premise.
2. Features are additives to the operation of a flat rate access line that provide for CO Implemented coin line service. The Company offers those features that are provided by the functionality of the Company's switches. These include coin supervision, coin control (collect and return of coins, if applicable), and answer supervision. CO is implemented coin line features that are implemented by the functionality of an operation service provider, such as coin rating, coin refund, repair referral, and operation call screening, are the responsibility of the Payphone service provider (Customer).

PAYPHONE SERVICE (Continued)

JAN 15 1997

E. CENTRAL OFFICE (CO) IMPLEMENTED COIN LINE (Continued)

- 3. CO Implemented Coin Line features, including coin line signaling, coin collection and return (where applicable) and answer supervision, are provided by the Telephone Company per the technology available from the Company's facilities. It shall be the responsibility of the CO Implemented Coin Line payphone owner to assure technical and operational compatibility with the coin line features offered by the Telephone Company.

F. FEATURES AND FUNTIONS

- 1. Answer Supervision provides signaling on the line notifying the line that the called party has answered. This feature is an additive to the CO Implemented Coin Line.
- 2. Coin Collection and Return provides an electrical signal on a CO Implemented Line indicating to the payphone equipment to collect or return coin(s) to the calling party. This feature is an additive to the CO Implemented Coin Line.
- 3. Special Number Assignment is a specific number requested by the customer. This service is available where facilities are accessible and it is technical feasible to provide. This feature is an additive to the CO Implemented Coin Line or to the Instrument Implemented Payphone Service.
- 4. Selective Class of Call Screening will be provided where such facilities are available at the customer's option. Selective Class of Call Screening treatment enables the customer to restrict outgoing operator-handled calls, placed over the Telephone Company's network, from the service point to only those calls which are charged to a called telephone, a third number or a calling card.
- 5. Validation may be performed through Originating-Line Screening (OLS). OLS enables operator service providers to determine whether there are billing restrictions on the exchange access line from which a call originates. OLS service delivers codes on operator assisted calls to identify calls originating from privately owned payphones, inmate locations, and hotels/motels, etc. Rates for this service are found in the appropriate interstate access tariff, when facilities and service are available. The customer has the option to request either Selective Class of Call Screening or OLS.

Liability

REC'D DEC 02 1999 (N)

- (A) The Telephone Company will make reasonable efforts to cure any material failure to provide service caused solely by year 2000 defects in Telephone Company hardware, software or systems. Due to the interdependence among telecommunications providers and the interrelationship with non-Telephone Company processes, equipment and systems, the Telephone Company is not responsible for failures caused by circumstances beyond its control including, but not limited to, failures caused by: (1) the Customer; (2) other telecommunications providers as defined by Missouri statute; or (3) customer premises equipment. In addition, the Telephone Company does not ensure compatibility between Telephone Company and non-Telephone Company services used by the customer.

Service Restrictions

(N)

NOV 19 1997

A. Toll Access Restriction

MO. PUBLIC SERVICE COMMISSION

1. Toll Access Restriction provides a means of restricting access to the Long Distance Message Telecommunications Network. Three options are available to the customer:
  - a. Restriction of 1+ calls only.
  - b. Restriction of 1+ calls and 0+ and 0- (operator handled) calls, except 8XX IN-WATS.
  - c. Restriction of 1+, 0+, 0- and 8XX IN-WATS where facilities allow.
2. Restriction of 0+ and 0- operator handled calls prevents the customer from dialing a long distance telephone number or telephone operator for any purpose including for emergency or telephone assistance purposes. The Company shall not be liable to the customer or any third party for any and all claims, losses or damages caused by the restriction to any toll service.
3. Customers must apply in writing for the establishment of Toll Access Restriction.
4. The appropriate non-recurring charges will apply to establish service.
5. Rates

The rate for this service will be charged on a monthly basis.

PRIVATE LINE TARIFF CONCURRENCE

RECEIVED

Private Line Concurrence

The Company concurs in the rules and regulations governing intrastate intra-LATA interexchange Private Line Service as set forth in Oregon Farmers Mutual Telephone Company's tariff on file with and approved by the Public Service Commission of the State of Missouri, and in any amendments thereto as authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for private line service of Oregon Farmers Mutual Telephone Company. Rates for these services are set out in the following pages of this concurrence.

Private Line Cancellation Rights

The Company reserves the right to cancel and make void the above concurrence statement, in whole or in part, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

GENERAL EXCHANGE SERVICE TARIFFS

MISCELLANEOUS SERVICES AND FACILITIES (Continued)

Q. SPECIAL CIRCUITS

1. Local loops used in connection with interexchange facilities for either Private Line Telephone Service, Private Line Teletypewriter Service, Teletypewriter Exchange Service, and Private Line Morse Service will be furnished where facilities are available, at the Business Individual Line Rate.

a. An installation charge equal to the cost of labor required to install such Loops applies to each Loop in lieu of a Service Connection Charge. The minimum installation charge will be \$7.50.

2. Channels for services not specifically named elsewhere in these Tariffs, and for purposes other than telephonic communication, will be furnished where facilities are available and where in the judgment of the Telephone Company the use to be made of such Channels is not contrary to regulations.

Monthly Rates

a. Channels for P. B. X. tie lines, or alarm circuits, and like purposes, first half-mile or fraction thereof circuit measurement \$ 3.00  
Each additional one-quarter mile or fraction thereof \$

b. Channels, for use in connection with interexchange facilities for Radio Broadcasts; channels between pick-up points and a Radio Station or Studio, between a Radio Station and Studio, between Studio and/or Station and Transmitter, first one-quarter mile or fraction thereof airline measurement. \$ 3.00  
Each additional one-quarter mile or fraction thereof \$ .70

Note: If the use to which these Channels are to be put

DISTANCE LEARNING COMMUNICATIONS SERVICES

MAY 05 1994

DISTANCE LEARNING COMMUNICATIONS SERVICES CONCURRENCE

MISSOURI  
Public Service Commission

The Company concurs in the rules and regulations governing intrastate interexchange Distance Learning Communications Service as set forth in Oregon Farmers Mutual Telephone Company's Tariff on file with and approved by the Public Service Commission of the State of Missouri, and in any amendments thereto as authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for Distance Learning Communications Service of Oregon Farmers Mutual Telephone Company. Rates for these services are set out in the following pages of this concurrence.

PROVISION OF SERVICES

The Company, to the extent that such services are or can be made available with reasonable effort, and after provisions have been made for the Company's telephone exchange services, will provide to customers, upon reasonable notice, services of the type offered in Oregon Farmers Mutual Telephone Company's Distance Learning Communications Services Tariff pursuant to the terms and conditions specified therein and at the rates specified in the following pages of this concurrence. The Company's concurrence in Oregon Farmers Mutual Telephone Company's Distance Learning Communications Services Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company.

CANCELLATION RIGHTS

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

**GENERAL EXCHANGE SERVICES  
CUSTOM CALLING AND CUSTOM LOCAL AREA SIGNALING SERVICE**

JUN 30 1997

**A. GENERAL**

**MO. PUBLIC SERVICE COMM**

1. Custom Calling Services and Custom Local Area Signaling Services (CLASS) are optional service arrangements that allow the customer more control over incoming and outgoing calls.
2. Custom Calling Services will be offered to customers in exchange areas of the Company where these services are technically feasible.
3. Custom Local Area Signaling Services (CLASS) are a specialized group of services that allow customers control over incoming and outgoing calls through the use of the Signaling System 7 (SS7) Network and data base entries. Services are offered where technically feasible and may be available on both intraexchange and interexchange basis.
4. Custom Calling Services and Custom Local Area Signaling Services (CLASS) may be divided into two distinct groups of services; those that apply some type treatment or service to calling which may originate from a customers line or those that apply some treatment or service to calls which are terminating to the customers line.
5. CLASS features will only operate as described in these tariffs, on calls originating or terminating within offices appropriately equipped with SS7 Network capabilities, and are dependent on the connection of other Local Exchange Carriers and Interexchange Carriers to an SS7 Network, where technically feasible.
6. The liability of the Telephone Company is as specified in the General Regulations of this Tariff. In addition to the provisions of this Tariff, a calling party customer of the Company releases and holds the company harmless from any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the transmission of a calling number of a telephone number which the calling party has requested to be omitted from the telephone directory or has requested not to be disclosed to any person.
7. Per Line Blocking for the delivery of the calling number is available upon request, at no charge, only to the following entities for lines over which the official business of the agency is conducted, where an executive officer of the agency registers a need for blocking and provides the required certification to the Telephone Company:
  - a. Private, nonprofit, tax exempt, domestic violence intervention agencies.
  - b. Federal, state, and local law enforcement agencies.

1. At the request of a subscriber, a special arrangement (commonly called wiring plan) of main and extension stations and other equipment will be provided and so arranged that intercommunication is possible between subscriber stations on the same or nearby premises. Intercommunication between stations does not make use of the subscribers central office line or lines.

2. The maximum number of stations that will be so interconnected is two main and six extension stations. Such service is provided only in connection with individual line service.

**CANCELLED**  
JAN 1 1987

3. The rates applicable to such arrangements are as follows: *2nd P.S. 32*

a. The established rates apply for the main and extension stations. Also for all miscellaneous equipment required **PUBLIC SERVICE COMMISSION MISSOURI**  
Monthly Rates

b. For the necessary battery supply required, furnished and maintained by the Telephone Company. \$ 2.50

4. The main and extension stations associated with such an arrangement are installed at the established Service Connection Charges. The other equipment and wiring is installed on an Installation Charge Basis.

**FILED**  
JUL 29 1957

**PUBLIC SERVICE COMMISSION**

Note: Where power transformers or battery eliminators are used, the subscriber is required to furnish the power and wire it to the transformer or eliminator at his expense.

JACKS

2.0 Types of Jacks

2.1 Standard Jacks

Standard jacks are a miniature 6 position jack typically used for the connection of single line, two line, electronic key telephones or ancillary devices to telephone network.

2.2 Programmable Data Jacks

a. Programmable data jacks may be a 4, 6, 8, or 50 position jack required for the connection of data equipment.

b. Data jacks shall be installed and programmed by the Telephone Company so as to allow maximum signal power delivered by such data equipment as the subscriber may use, to the Company's central office to reach but not exceed the maximum allowable signal power permitted at the Telephone Company's central office.

2.3 Weatherproof Jacks

Weatherproof jacks are a 3 contact blade type jack suitable for installations out of doors, and include a weatherproof enclosure.

2.4 Multi-Line Jacks

Multi-Line jacks are 50 position configurations used for the connection of multi-line key telephone instruments behind key telephone systems or PABX systems.

2.5 Network Interface Jacks

Network interface jacks are intended to serve as interface units between the central office access lines of the Company and equipment such as key service units or PABX systems located on the premises of the customer and may be used as or in lieu of the demarcation point.

2. Installation

Regular service connection charges apply for the installation of all stations and trunks, unless otherwise specified. For stations not installed in the same building as the P. B. X. the installation charge is the cost of labor and material plus overheads.

A three year contract is required on systems listed under B. 1 and B. 3 of this Part. A five year contract is required for systems listed under B. 2 of this Part.

3. Power Equipment

Power equipment and batteries, for equipment operation, including talking battery and ringing current, is furnished without additional charge in connection with P. B. X., P. A. B. X. and Dial Inter-communicating systems. A charge is made for battery equipment used in connection with Manual Inter-communicating or Key Systems. Current necessary to operate the power equipment is provided by the customer at his expense and must be suitable to meet operating requirements.

GENERAL EXCHANGE SERVICES  
CUSTOM CALLING AND CUSTOM LOCAL AREA SIGNALING SERVICE  
JUN 30 1997

C. DESCRIPTION OF SERVICES

(N)  
MO. PUBLIC SERVICE COMM

1. Abbreviated Dialing (Speed Calling): Allows a customer to call any one of a group of frequently called numbers simply by dialing a one or two digit code. Two different configurations are available; short lists (8 numbers) and long lists (30 numbers).
2. Anonymous Call Rejection (CLASS): Allows customers with or without Calling Number Delivery and/or Calling Name Delivery to reject calls for which the caller has intentionally blocked calling name/number display information.

If the display information is not available due to network restrictions or any other reason, the receiving customer CPE (if equipped) is presented with a message to indicate the unavailability of the call information.

Rejected calls are sent to a company supplied announcement that informs the calling party why the call is being rejected. Anonymous Call Rejection can be overridden by an operator in case of an emergency.

3. Automatic Call Back (CLASS): A feature when activated by the customer will attempt to redial the last number called from their station regardless of whether the original call was answered, unanswered or busy. The calling and called lines will be monitored by the system and attempt to connect the call for up to 30 minutes. Activation can be canceled at any time.
4. Automatic Line: This feature provides an automatic connection between a calling station that goes off-hook and a preassigned directory number. The originating station is denied the ability to call any directory number other than the preassigned number.

- 5. Automatic Recall (CLASS): This feature allows subscribers to have a call returned to the calling party of the last incoming call. This applies whether the incoming call was answered or unanswered. When activated, the customer is allowed to hear the directory number of the last incoming call prior to deciding whether or not to recall that number.

Calls cannot be returned to a number which was delivered with a "private" delivery status, and only one successful call to a number using the Automatic Recall feature will be allowed.

- 6. Call Forward Busy/No Answer: These features provides forwarding capability to incoming calls that encounter a busy or no-answer state. The forward-to directory number is programmed by the customer as well as the number of rings before transfer.
- 7. Call Forward-Fixed: Allows a customer to have all incoming calls to a location automatically forwarded to a predetermined telephone number. This programming is performed by company personnel.
- 8. Call Forward-Remote Access: This feature allows a customer to activate or deactivate the Call Forward option on their telephone from a local or toll remote location by dialing a dedicated directory number, their own seven digit directory number, followed by a Personal Identification Number (PIN) and the activation/deactivation codes.
- 9. Call Forward: This feature directs calls from a local telephone number to another location, with the forwarding station receiving billing for any calls that are forwarded to a toll location. The location to which calls are to be forwarded must be entered by the customer each time this service is activated.

CUSTOM CALLING AND CUSTOM LOCAL AREA SIGNALING SERVICE**

JUN 3 0 1997

C. DESCRIPTION OF SERVICES: (Continued)

(N)

MO. PUBLIC SERVICE COMM

- 10. Call Transfer: Allows users to transfer a call to another directory number and then drop out of the call, leaving the users connected. Customers must have Three-Way Calling and User Transfer Station Options to use this feature.
- 11. Call Waiting: This feature informs a customer who is on an established call that a third party is trying to call. An incoming call which arrives at a busy line receives audible ringing instead of a busy tone. The called party is alerted by a tone that is only available to the called party.
- 12. Call Waiting-Cancel: This feature allows a customer to prevent, on a per call basis, an incoming call from Call Waiting on their line. Incoming calls to the station receive a busy signal. This feature ensures that Call Waiting indication tones do not interrupt important calls or disrupts data transmissions.
- 13. Calling Name Delivery (CLASS): Calling Name Delivery displays the name associated with an incoming directory number. The name as well as the date and time of the incoming call are displayed after the first ringing cycle.

C. DESCRIPTION OF SERVICES: (Continued)

**MO. PUBLIC SERVICE COMM**

- 14. Calling Name Delivery Blocking (CLASS): This feature allows calling customers to keep their name from appearing on a called party's display unit and can be blocked on a per-call basis.
- 15. Calling Number Delivery (CLASS): This feature allows customers to receive the calling number or incoming calls. The number is delivered to the called party's CPE in the interval between the first and second ring and remains for duration of the call.
- 16. Calling Number Delivery Blocking (CLASS): This feature allows the calling party to suppress their directory number so that the called party with Calling Number Delivery does not receive the information. The called party receives a "private" message instead of the calling party's directory number. The customer can set the privacy indicator on a per-call basis.
- 17. Customer-Originated Trace (CLASS): This feature allows customers to initiate a trace on the last incoming call by dialing an activation code. The call is traced automatically, and a printout of the originating directory number and the time the call was made is forwarded to a company location. The results of a successful trace will only be provided to legal authorities with written authorization from the customer. A charge applies when a successful trace is delivered to proper legal authorities.
- 18. Distinctive Ringing/Call Waiting (CLASS): This is an incoming call management feature that allows customers to define a list of calling directory numbers that provide the customer with a distinctive ringing pattern or a distinctive Call Waiting tone. Terminating calls which are not on the list will have standard ringing or tones.
- 19. Malicious Call Hold: This feature enables the called party to hold the connection on any call and can be used to augment the capability provided by the Calling Line Identification feature.
- 20. Restrict Outgoing: This feature allows for the screening of outgoing calls and can allow or deny calls as requested by the customer based on company developed screening tables.

C. DESCRIPTION OF SERVICES: (Continued)

MO. PUBLIC SERVICE COMM

- 21. Selective Call Acceptance (CLASS): Allows customers to define a list of calling directory numbers that will be accepted. Any number not on the list is routed to announcements and rejected. The calling party not on the acceptance list receives an announcement stating that the call is not presently being accepted by the called party.
- 22. Selective Call Forwarding (CLASS): Allows customers to have certain incoming calls forwarded to a designated remote directory number. Calls not on the SCF screen lists are terminated in the standard manner. The number of calls included on a SCF screening list will be limited based on system parameters.
- 23. Selective Call Rejection (CLASS): Allows customers to define a list of calling directory numbers that are routed to recorded announcements and rejected. All other calls are treated normally. Lists will be limited based on system parameters.
- 24. Teen Service: This feature allows two telephone numbers to be assigned to a single-party line. Each telephone number is assigned a unique ringing pattern so the called party can determine the nature of the call. Only one call may be active on the line at a given time.
- 25. Teen Service with Voice Mail: Teen Service enables two telephone numbers-the primary directory number (PDN) and the secondary directory number (SDN) to be assigned to a single l line. Teen Service with Voice Mail forwards the SDN to Voice Mail to allow the SDN to have separate announcements and messages.

**GENERAL EXCHANGE SERVICE  
CUSTOM CALLING AND CUSTOM LOCAL AREA SIGNALING SERVICE**

C. DESCRIPTION OF SERVICE: (Cont'd)

26. Three-Way Calling: This feature allows a customer to form a three-way conference with two other parties. The customer that initiated the conference controls the conference and must remain on the line for the duration of the call.
27. Touch Tone Service: The provision of DTMF signaling through tone pads on the communication instruments.
28. Warm Line: This is an Automatic Line feature which gives the subscriber 20 seconds after going off-hook to dial a number before it automatically dials a pre-designated number. (T)

D. CONDITIONS

1. Custom Calling and CLASS will be provided in connection with individual line residence and business service. Services may not be compatible with key or PABX system lines or trunks.
2. CLASS Service cannot be provisioned on an originating basis with Company Provided Public Telephone Service, COCOT Service, Toll Terminals, and some PABX Trunks.
3. A Non-Recurring Service Ordering Charge, found in other parts of this tariff, will apply for the implementation of Custom Calling or CLASS services if installed at any time other than the initial installation of a customers access line service with the company, or the installation of additional access line service.

PRIVATE BRANCH EXCHANGE SERVICE (Continued) NOV 30 1982

C. HOTEL PRIVATE BRANCH EXCHANGE SYSTEMS

MISSOURI  
 Public Service Commission

1. General Regulations

General Regulations, Section II, Pages 33-35, inclusive, apply to Private Branch Exchange installations, regardless of whether installed for commercial or residential hotels.

2. Additional General Regulations

The schedule shown below is available for service at hotels and apartment houses. The Telephone Company will install, own, and maintain all equipment, house cable, and wiring used in furnishing telephone service to a hotel. The Telephone Company will install one or more public telephones in the lobbies or corridors of an hotel in accordance with the provisions of the "Public Telephone Service" section of the Tariff when in its opinion the location is accessible and convenient for use by the transient public.

3. Rates

a. For the service and facilities installed for the use of the hotel management, its guests, and patrons, the following charges apply for the payment of which the hotel shall be responsible:

- 1. Switchboard, including one operator's telephone set per position and battery power for talking and ringing current. /1/

Cordless Switchboard:

**CANCELLED**

For each position per month (for capacity indicated)	
Three trunks and seven stations ---	\$ 8.00
Five trunks and twelve stations ---	\$12.00

DIGITAL CENTREX SERVICE

SEP 10 1998

(N)

A. GENERAL

MO. PUBLIC SERVICE COMM

1. Digital Centrex Service (CENTREX) is an integrated business network system made up of feature enhanced digital switching software and hardware located in the Telephone Company offices and customer provided equipment located at the customer premises.
2. CENTREX service will be provided to business customers with a minimum of two access lines and may be provided jointly at business and residence locations.
3. CENTREX service will only be available in those exchange areas where Company provided facilities and equipment exist.
4. A standard feature of CENTREX service, Virtual Facilities Group Control, which limits the number of trunks/lines available for outgoing and incoming calling will be provided to determine the number of End User Common Line charges for CENTREX lines as set forth in the NECA Tariff FCC No. 5 and for any other charges assessed on a per line or trunk basis.
5. The minimum lines to be assessed in the Virtual Facilities Control Group will be two (2) per customer group.
6. CENTREX customers will be provided with one directory listing in the alpha section, and one listing in the classified section at no charge. All other additional listings will be at the rates established in other sections of these tariffs.
7. CENTREX lines may be terminated at locations not considered the customers primary business location at the rates established in the RATE section of this tariff following, providing all locations are served by the same Company central office.
8. CENTREX service or lines of a customer which terminate interexchange, where possible, will be provided by agreement on an Individual Case Bases or according to tariffs in effect for the provision of interexchange private line services.
9. CENTREX service is a service provided to individual business and residence customers of the Company and is not for resale or shared use.

CENTREX SERVICE (Continued)

MO. PUBLIC SERVICE COMM

B. CONDITIONS

1. The minimum charge for CENTREX SERVICE is one month.
2. Customer premises equipment will be provided by the customer and must be compatible with the services and equipment provided by the Company.
3. All applicable features as described in following parts of this tariff are available to each CENTREX line of each customer group.
4. Intraexchange and interexchange calling services available to other classes of service within the exchange of the CENTREX customer such as; Extended Area Service, access to 911, access to operator, and Direct Distance Dialing, are available to CENTREX lines unless denied or restricted by the customer.
5. If CENTREX lines or services are ordered in conjunction with PABX or Key System Trunks the appropriate rates for PABX or Key System Trunks as found in other parts of these tariffs will apply as-well-as the rates for CENTREX lines.
6. All applicable Rules, Regulations, Rates and Charges found in other parts of the Tariffs of the Company are applicable to CENTREX Service.
7. Touch tone line charges as described in other parts of the Company's tariff are required on each CENTREX access line to which a 2500 and/or analog type communications device is attached.

C. DESCRIPTION OF FEATURES AND SERVICES.

1. Standard Features
  - a. Automatic Identification of Outward Dialing (AIOD): Records each outgoing, billable call against the CENTREX line originating the call.
  - b. Automatic Line: This feature provides an automatic connection between a calling station that goes off-hook and a preassigned directory number.
  - c. Call Forward: This feature allows a customer to have incoming calls to a station location automatically forwarded to a predetermined telephone number under any of the following three circumstances:
    1. All Calls: Allows all incoming calls to be automatically forwarded to another preselected line.
    2. Busy: This is a station option that automatically transfers incoming calls directed to a busy subscriber to an alternate subscriber line within the same customer group.

C. DESCRIPTION OF FEATURES AND SERVICES (Continued)

MO. PUBLIC SERVICE COMM

1. Standard Features (Continued)

c. Call Forward (Continued)

3. No Answer: This feature is a station option that allows a terminating call to an idle subscriber to be transferred automatically to another line within the group after a predetermined number of ringing cycles.

4. Remote Access: This feature allows the activation/deactivation of call forward all calls from a location other than the subscribers base telephone.

d. Call Hold: Allows a subscriber to place a call on hold for any length of time, providing neither party goes on hook.

e. Call Park: This feature allows a subscriber to park a call against their directory number so that the call may be retrieved from any other location within the customer group, and allows the subscriber who parked the call to continue to originate and terminate other calls.

f. Call Pick-up: Allows subscribers to answer incoming calls to another station by dialing a feature activation code.

g. Call Pick-up Groups: Allows the formation of specific call pick-up groups within customer groups.

h. Call Transfer: This feature allows users to transfer a call to another directory number then drop out of the call, leaving the users connected.

i. Call Waiting/Cancel Call Waiting: This feature provides an audible call waiting tone when an incoming call arrives at a busy station. Cancel Call Waiting allows the customer with the Call Waiting feature to have the call waiting tone discontinued on preselected calls by activation of a designated code.

j. Class of Service Restrictions: This feature allows a customer the capability to control calls which may originate or terminate to any line within the customer group and may include any of the following options:

- |                     |                         |
|---------------------|-------------------------|
| 1. Deny Originating | 3. Local Only           |
| 2. Deny Terminating | 4. Unrestricted Service |

k. Consultation Hold: This feature permits a subscriber, while on an active call, to retrieve a waiting call or to perform a Three-way conference/Call transfer by activation of a hook switch flash. The original call is in a temporary hold state.

l. Direct Inward Dialing: Permits calls from the exchange network to be terminated to a subscribers station directly within a customer group without attendant intervention.

m. Direct Out Dialing: Permits a subscriber to access the exchange network and to have the subscribers directory number identified as the originating party by the Telephone Company recording equipment.

Public Telephone Service

A. GENERAL

Public telephone service will be furnished by the Company for use by the general public at locations where it will be beneficial to the general public and the Company.

B. REGULATIONS

1. Public telephone service instruments will be the coin collecting "Pay Station" type generally used by the Company or the non-coin collecting type reserved strictly for operator assisted long distance message service.
2. Public telephone stations, at the option of the Company, may be located on public property or on the premises of a company subscriber with their permission.
3. Public telephone service will be accessible to the general public, as nearly as possible, 24 hours per day.
4. Booths, signs, and lighting will be furnished, when in the judgement of the Company, they are required.
5. The Company assumes all responsibility for the care and maintenance of public telephone stations, unless it can be determined that the person on whose property the public telephone station is located, his family, or employees is responsible for the destruction or partial destruction of all or any parts of the Company's public telephone instrument.
6. Extension stations or directory listing are prohibited on public telephone stations (see semi-public telephone service).
7. The Company reserves the right to remove public telephone service from any location should the service be abused in any way or not be beneficial to the Company.

PUBLIC TELEPHONE SERVICE

MISSOURI  
Public Service Commission

1. Public telephone service is provided by use of a device combining the functions of a telephone instrument and a repository for money deposited for its use. Under special circumstances, service may be provided by use of a standard telephone with an attendant to care for the payments.
2. The service is provided at locations chosen or accepted by the company as suitable and necessary for furnishing service to the general public. The installation is made with agreement of the occupant of the premises and may be discontinued and facilities removed at the request of either party upon reasonable notice.
3. Inward calling is not contemplated and no listings in the telephone directory or publication of the telephone number are permitted.
4. Local and toll messages are each charged for at established tariff rates. No charges are applied to connections with the toll operator or directory assistance.
5. Suitable indoor or outdoor booths may be provided at the company's option.

PUBLIC TELEPHONE SERVICE - OPTIONAL MISSOURI  
**CANCELLED** Public Service Commission N

A. General

**DEC - 1 1981**

1. This service is in general ~~designed~~ <sup>BY 2nd R.S. #12</sup> to meet telephone service requirements:

**PUBLIC SERVICE COMMISSION OF MISSOURI**

At locations where the installation of a public telephone, in the opinion of the telephone company, is not warranted but where there is a demand for service for transients, or

At locations where there is a collective use of the service by guests, members, employees, or occupants, or

At locations where the demand for service is for a combination of transient and customer usage.

2. Extension stations, without coin collecting capability, for answering incoming calls only, may be installed when such stations are essential to the efficient handling of the customer's service. The extension station must be on the same premises as the main station, and the latter must be in plain view of the extension station. The main station will have coin collecting capability, as described in paragraph 1, Public Telephone Service.

3. Directory listings, as are regularly provided with business service, will be provided unless the station is so located that calls cannot be readily answered.

4. At intervals determined by the company, company personnel will remove money collected in the pay station. If the collections are less than the total amount due for tolls billed to the number for that billing period, the customer is required to make up the deficit.

DIGITAL CENTREX SERVICE

MO. PUBLIC SERVICE COMM

C. DESCRIPTION OF FEATURES AND SERVICES (Continued)

1. Standard Features (Continued)

- n. Directory Number Hunt: This feature allows incoming calls directed to a particular directory number to "hunt" to another customer selected number in a sequence when the called number is busy.
- o. Distinctive Ringing: Allows the customer to have different distinctive ringing patterns for calls which originate within the customer group, or from the exchange network.
- p. Distinctive Call Waiting Tone: This feature is a call management feature which allows the subscribers to define a list of calling directory numbers that have a special incoming Call-Waiting tone when they arrive at a busy station location.
- q. Intercom Groups: This option allows a customer to call other lines within a customer group by using an abbreviated dialing pattern rather than the seven digit directory number.
- r. Manual Line: This feature provides an automatic connection between a calling station that goes off-hook and a predetermined number designated by the customer.
- s. Speed Calling: Allows users to place calls to frequently dialed numbers by using an abbreviated code rather than dialing the complete number. Abbreviated dialing lists may be assigned as follows:
  - 1. Group Speed Call: The Group Lists consist of a maximum of 30 stored numbers which may be assigned for use by several members within a customer location.
  - 2. Individual Short List: A short list consists of a maximum of eight numbers assigned and programmed by an individual for their personal use.
  - 3. Individual Long List: A long list consists of a maximum of thirty stored numbers assigned, programmed and used by an individual for their personal use, and cannot be shared by a group.
- t. Station to Station Calling: This feature permits stations within a customer group to complete calls to other members within the customers group by dialing less than the seven digit directory number assigned to a station.
- u. Three-way Conference with Transfer: This feature allows a subscriber on an established call, either within the system, or outside the system, to transfer the call to another party or to form a three-way conference.
- v. Virtual Facilities Group Control: This feature allows a customer to ~~input the number~~ of simultaneous incoming or outgoing trunks, therefore, establishing non-physical trunk groups for the customers control and network management.

GENERAL EXCHANGE SERVICE TARIFFS  
FOREIGN EXCHANGE SERVICE

RECEIVED

MAY 2 1988

A. General

MISSOURI

1. Foreign exchange service is exchange service furnished to a customer from a central office of an exchange other than the one that normally serves the area in which the customer is located. (N)
2. For the purpose of this tariff, the term, "Foreign Exchange", shall mean the exchange from which the foreign exchange service dial tone is furnished. The term, "Normal Exchange", shall mean the exchange normally serving the area in which the customer's premise is located.
3. Foreign exchange service does not come within the Telephone Company's general undertaking, nor does the Telephone Company obligate itself to furnish such service generally; but will do so where facilities of such a character are available as will permit satisfactory telephone transmission, and where the service is warranted by the circumstances involved.
4. Foreign exchange service will be furnished to exchanges within the same LATA as the normal exchange. (N)
5. Foreign exchange service may be provided only in connection with private branch exchange trunk lines, and individual line business or residence service. The service will be furnished only at one location or premises for each channel or circuit. (C) (M)
6. Where the normal exchange is operated by this Telephone Company, foreign exchange service is furnished only on the condition that the applicant is a customer to individual line business or residence service, or private branch exchange service, in the normal exchange, and at the same location where such service is proposed to be installed. Under this condition, when a foreign exchange service customer discontinues normal (N)

GENERAL EXCHANGE SERVICE TARIFFS

FOREIGN EXCHANGE SERVICE

1. Except in the case of tie lines, individual private branch exchange stations, and rural subscriber's stations, the rate for foreign exchange service is the monthly rate for individual line main station service, private branch exchange trunk lines or private branch exchange system applicable within the base rate area of the designated central office of the foreign exchange area, plus charges as follows for each circuit:

T  
|  
T

a. \$2.00 per month per quarter-mile or fraction thereof, for the distance, route measurement, between the central office from which the subscriber normally would be served and the central office in the foreign exchange from which the subscriber desires to be served, or in the event the Telephone Company has no exchange in any foreign territory or on account of non-patronage or circumstances beyond its control, an exchange is discontinued and any individual main station or private branch exchange system applicable within said foreign territory applies for said individual line service then the foreign exchange rate of \$2.00 per quarter-mile per month applies. In addition the subscriber is charged with any extra exchange line mileage charges which would apply for connection with the central office from which service normally would be rendered.

exchange service, the normal exchange shall immediately notify such foreign exchange customer and foreign exchange business office, that the foreign exchange service will be discontinued ten (10) days thereafter.

- 7. Where the foreign exchange is operated by another telephone company, foreign exchange service will be provided only when satisfactory arrangements can be negotiated with such company to furnish a portion of the necessary facilities.
- 8. Foreign exchange service will be furnished at the rates outlined hereafter, provided the necessary facilities and equipment are available. Where the facilities and/or equipment are not available, and extraordinary facility costs, equipment costs, special operating expenses, and/or other special considerations are incurred in making such service available, the customer may be required to pay an additional charge to cover all or a portion of such unusual expenses, or be required to contract for service beyond the initial period, or both.
- 9. No off premise extensions will be furnished in connection with foreign exchange service.
- 10. The use of the service is limited to the customer and his employees for business purposes, and in the case of residence service, to the members of his immediate household. Foreign exchange service calls will be further limited to calls within the local calling area (including any EAS locations) of the foreign exchange. If any customer to this service is found to be transferring or transmitting messages for parties other than authorized above, in the normal exchange area, and/or making toll calls through the foreign exchange, such customer and foreign exchange business office shall be notified that the practice must be discontinued or the foreign exchange service will be terminated ten (10) days after the date of such notice.

B. Rates

- 1. Rates for foreign exchange service will include rates for local service at the foreign exchange and rates for private line service from the foreign exchange to the customer location in the normal exchange. (N)
- 2. The charge for local service at the foreign exchange is the established monthly service rate, and non-recurring service connection charge of the foreign exchange for the grade of service (individual line business or residence, or PBX and PABX trunks) with which the foreign exchange service is to be associated. (T)  
(D)
- 3. The charges for private line service from the foreign exchange to the customer location in the normal exchange will be as follows: (N)
  - a. For private line facilities provided by this Telephone Company, the rates outlined in this Telephone Company's concurrence in the Oregon Farmers Mutual Telephone Company private line tariff will apply.
  - b. Where all or a portion of the private line facilities are furnished by another telephone company, charges for those facilities shall apply as specified in the regulations of such participating company. (N)
- 5. Where the normal and foreign exchanges have contiguous Exchange Area Boundaries, a foreign exchange service facility arrangement may be provided by a routing method other than using standard interexchange channel facilities. In all such special routing cases, however, the rates specified above will apply as if the standard interexchange channel facilities were used. (N)
