- (C) For a specified monthly recurring charge, the Customer receives a specific amount (block) of time for placing (1) one plus (1+) Direct-Dialed outbound calls that originate from a line presubscribed to the Company and (2) fully automated calling card calls and billing those calls to the Proprietary Calling Card - Option 1. Operator Toll Assistance calls originating from presubscribed lines are not included in the block of time. Operator Toll Assistance calls, other than fully automated calls billed to the Proprietary Calling Card - Option 1, are not included in the block of time. The per call charges shown in Section 4.1.1 (B).2.a of this Tariff apply to all fully automated calling card calls billed to the Proprietary Calling Card - Option 1.
- (D) For a monthly recurring charge, the Customer receives a 300 MOU (block) of intrastate and/or interstate one plus (1+) Direct-Dialed calling and usage generated from fully automated calling card calls billed to the Proprietary Calling Card - Option 1. All usage in excess of the selected block of time will be billed at a fixed rate per minute. See Section 4.8.1 of this Tariff for the per minute rate after the block of time has been used. The Customer may only subscribe to one block of time per BTN. Any minutes not used in a billing cycle will not be carried over to the next billing cycle. No credits will be given for any unused minutes.

3.8.2 Block of Time: 300 Minutes (continued)

(E) Reserved for future use

(F) The block of time selected at the time the Customer's order is processed will remain in effect until cancelled or changed by the Customer. Changes to a block of time plan will be effective on the day the Customer's change order is processed. If an existing Customer initially subscribes to the Block of Time: 300 Minutes in the middle of its billing cycle, the change will be effective on the first day after the Customer's change order is processed.

(G) For all calls, the initial and additional periods are billed in increments of one (1) minute or a fraction thereof. This optional pricing plan is established at the BTN level. If a Customer selects a different price plan for specific WTN(s), the Customer is required to establish a separate BTN for each variation.

SECTION 3 - DESCRIPTION OF SERVICES

3.10 Miscellaneous

3.10.1 Account Codes

- (A) Account codes are an optional feature associated with outbound long distance Service that provides the Customer the ability to track usage by requiring the caller enter a string of digits ("digit string"). Account codes enable the Customer to obtain call detail from the Company which is sorted and summarized based on digits entered by the caller. The call detail is provided to the Customer without charge.
- (B) Account codes are available to Business Customers that (1) subscribe to one of the Company's outbound long distance service offerings described in Section 3.7 of this Tariff for the provision of interstate, intrastate InterLATA, and intrastate IntraLATA Service; (2) request the optional feature; and (3) are billed via a Company direct bill or a shared LEC or CLEC bill. Account codes are not available with SBC Long Distance Virtual Private Network Service, TFS or calling card Service. To subscribe to Account Codes for intrastate calling, the Customer must also subscribe to one of the Company's outbound Service offerings for the provision of interstate calling.
- (C) The length of the string digits available to a Customer is limited and the number of digits is based on whether the call originates at an On-Net or Off-Net location. The Company controls the length of the string digits. The caller will be allowed three (3) attempts to enter a valid account code before the call is terminated.
- (D) The account codes are available on a mandatory and non-mandatory basis. If the Customer subscribes to the mandatory feature, the caller must enter account codes for the call to complete. If the Customer subscribes to the non-mandatory feature, the caller may bypass entering the code by pressing the pound key (#) on the keypad.
- (E) The account codes are available on a validated and non-validated basis. If the Customer subscribes to the validated feature, the caller must enter specific account codes in order to complete the call. If the Customer subscribes to the non-validated feature, the caller may enter any digits as an account code as long as the string is the designated number of digits in length.
