3. TERMS AND CONDITIONS3.1 Definitions

THE PUBLIC SERVICE COMMISSION

Certain terms used generally throughout this tariff for services furnished by the Carrier are defined below:

Authorization Code

The term "Authorization Code" denotes a code given to non-Feature Group D subscribers which, when dialed in proper sequence from the subscriber's premises, identifies subscriber for billing and volume discount purposes.

Authorized User

The term "Authorized User" denotes a person, firm or corporation who is authorized by the subscriber to be connected to the service of the subscriber.

Automatic Number Identification ("ANI")

The term "Automatic Number Identification" refers to the calling telephone number identification which will be forwarded to the Underlying Carrier's network by the Local Exchange Company ("LEC") as a call is placed. ANI is provided by the LEC only when Feature Group B direct or Feature Group D interconnections are used to gain access to Carrier's switched telecommunication service.

Band

The term "Band" represents the spectrum of frequencies within two definite limits.

Carrier

The term "Carrier" refers to Norstan Network Services, Inc.

Hearing Impaired Discount

MR. PUBLIC SERVICE COMMISSION

For Purposes of this tariff, the definition of impaired refers to those persons with communication impairments, including those hearing impaired, deaf, deaf/blind, and speech impaired persons who have an impairment that prevents them from communicating over the telephone without the aid of a telecommunications device for the deaf.

Residential impaired customers or impaired members of a customers' household, upon written application and upon certification of their impaired status, which is evidenced by either a certificate from a physician, health care official, or state agency, or a diploma from an accredited educational institution for the impaired, may receive a discount off their message toll service rates, and if they utilize telebraille devices, they may receive free access to local and intrastate long distance directory assistance. Additionally, TDD lines maintained by nonprofit organizations and governmental agencies, upon written applications and verification that such lines are maintained for the benefit of the impaired may receive a discount off their message toll service rates.

Upon receipt of the appropriate application, and certification or verification, no less than a straight seventy percent (70%) discount off Carrier's current price list, day rates, for basic message toll service shall be made available, on a 24-hour a day basis, for the benefit of the impaired.

MO. PUBLIC SERVICE COMM.

- .1 Carrier will make available its Long Distance services as soon as practicable upon receipt of an order for service between those points as specified.
- .2 The obligation of Carrier to furnish service is dependant upon its ability to secure from and to retain the rights to suitable facilities from its Underlying Carrier(s).

3.3 LIABILITY OF CARRIER

- .1 The liability of the Carrier for damages arising out of mistakes, omissions, interruptions, delays or errors or defects in the transmission occurring in the course of furnishing service, channels or other facilities and not caused by the negligence of the Customers, commences upon activation of service and in no event exceeds an amount equivalent to the proportionate charge to the Customer for the period of service during which such mistakes, omissions, interruptions, delays or errors or defects in the transmission occur. For the purposes of computing such amount, a month is considered to have thirty (30) days (720 hours).
- .2 In no event will Carrier be responsible for consequential, incidental or punitive damages or lost profits suffered by Customer on account of unsatisfactory or interrupted service.
- .3 The Carrier is not liable for any act or omission of any other company or companies furnishing a portion of the service. No agents or employees or other carriers shall be deemed to be agents or employees of the carrier.

- .4 The liability of Carrier for any interruption or failure of service shall in no event exceed the credit allowance provided herein. Carrier shall not be liable to subscriber or any Authorized User for any loss or damage incurred by reason of or incidental to any delay or interruption of service, or for any failure in or breakdown of facilities associated with the service, or for any mistakes, omissions, delays, errors or defects in transmission occurring in the course of furnishing service, except to the extent of such credit allowance, which shall constitute subscriber's sole and exclusive remedy hereunder.
- .6 The Carrier will make no refund of an overpayment by a subscriber unless the claim for such overpayment, together with proper evidence, is submitted within ninety (90) days from the date of alleged overpayment. In calculating refunds, volume discounts will be adjusted based on total usage after all credits or adjustments have been applied.

* NOTE: Approval of the above tariff language by the PUCO does not constitute a determination by the Commission that the limitation of liability imposed by the Carrier should be upheld in a court of law. Approval by the Commission merely recognizes that since it is a court's responsibility to adjudicate negligence and consequent damage claims, it is also the court's responsibility to determine the validity of the exculpatory clause.

3.6 Ownership of Facilities

Title to all facilities provided by Carrier in accordance with these regulations remains with the Carrier or its Underlying Carrier.

3.7 Application For Service

Carrier may require a subscriber to sign an application form furnished by the Carrier and to establish his credit as provided in these Regulations, as a condition precedent to the initial establishment of such service. Carrier's acceptance of an order for service to be provided to an applicant whose credit has not been duly established may be subject to the provisions described in Section 3.9.

Carrier may also require a signed authorization from a subscriber for additions to or changes in the existing service for such subscriber.

An application for service canceled by the subscriber or the Carrier prior to the establishment of the service applied for is subject to the provisions of this tariff.

In the event the Carrier incurs fees or expenses, (T) including attorney's fees, in collection or attempting to collect, any charges owed the Company, the Subscriber will be liable to the Carrier for the payment of all such fees and expenses reasonably incurred.

If subscriber does not give the carrier written notice of a dispute with respect to carrier's charges within six months from the date the invoice was rendered, such invoice shall be deemed to be correct and binding on the subscriber.

.1 Outbound and Inbound Service

For billing of fixed charges, service is considered to be established upon the day in which the Carrier notifies the subscriber of installation and testing of the subscriber's service.

Charges will be billed monthly in arrears and are due immediately upon receipt. Subscriber will be billed for all usage accrued beginning immediately upon access to the service. For the purpose of computing charges, a month is considered to consist of thirty (30) days.

.2 Private Line Service

For billing of fixed charges, service is considered to be established on the day following the day in which the Carrier notified the subscriber of completion of installation and testing of the Carrier's channels and equipment.

All recurring charges which are determinable in advance, including minimum charges, are billed monthly in advance. Installation and other non-recurring charges are payable upon demand by the Carrier.

For purposes of credit computations each month shall be considered to have 720 hours. Credit shall be computed by multiplying the monthly rate for the service by the ratio derived by dividing the number of hours in the period of interruption by 720 hours. The credit will be based on the non-usage charges for the month during which the interruption occurred, excluding equipment and access line charges. An interruption shall be measured from the time the Carrier detects trouble, or the subscriber notifies Carrier of the interruption by expeditious means, until the trouble is cleared. Each interruption is considered separately for purposes of establishing credit allowance. Interruptions shall be accumulated to the nearest half-hour period. The credit for a monthly billing period shall in no event exceed the monthly rate.

.2 Interruption of VNS Services

The airline mileage between two carrier service locations is calculated as follows:

$$\text{Mileage} = \frac{\text{Square root of } (V1-V2)^2 + (H1-H2)^2}{10}$$

Where V1 and H1 are the V and H coordinates of point 1 and V2 and H2 are the coordinates of point 2.

The mileage is rounded up to an integer value to determine the airline mileage.

Example:

Distance between Miami and New York City

	<u>V</u>	<u>H</u>
Miami	8,351	529
New York	<u>4,997</u>	<u>1,406</u>
Difference	3,354	-877

Square and add and divide by 10:

$$\frac{(3354)^2 + (877)^2}{10}$$

Round to = 1,201,845

Take Square Root of 1,201,845:

Round to =1,097 miles

The distance is measured using the V&H (N) coordinates associated with either the rate centers of the originating and terminating stations or the V&H coordinates associated with the originating and terminating POP of the underlying carrier. The type of access determines which V&H coordinates are used.

If a call is originated or terminated via switched access, the distance is measured using the V&H coordinates associated with the rate centers of the originating or terminating station. If the call is originated or terminated via dedicated access, the distance is measured using the V&H coordinates associated with the originating or terminating POP of the underlying carrier. The rate for a call between access lines associated with stations that use the same central office is the rate for zero miles.

harmless by the subscriber against claims of
libel, slander, or the infringement of
copyright, or for the unauthorized use of
any trademark, trade name, or service mark,
arising from the material transmitted over
the channels, against claims for
infringement of patents arising from,
combining with, or using in connection with,
channels furnished by the Carrier or
apparatus and systems of the subscriber; and
against all other claims arising out of any
act or omission of the subscriber in
connection with the channels provided by the
Carrier.

.2 The facilities provided hereunder by the
Carrier may be terminated in subscriber-
provided terminal equipment or subscriber-
provided communications systems. When such
terminations are made, the subscriber shall
comply with the minimum protective criteria
which shall be no less stringent than the
criteria as may be prescribed by the
Carrier.

- .3 The subscriber will be responsible for insuring that subscriber-provided signals will not result in interference with any of the services provided by the Carrier or interfere with others using services provided by the Carrier. Physical arrangements for protection of the Carrier's or the Underlying Carrier's facilities serving the subscriber shall be employed if needed. The subscriber will be required to use only those devices found to be necessary to insure proper operation of the local distribution facility and the intercity facility. The intent of this provision is to insure proper signal insertion so as to protect the entire network. All signals must be of the proper technical parameters so as not to damage the Carrier's or Underlying Carrier's equipment or degrade service to other subscribers. It shall also be the responsibility of the subscriber to provide adequate electrical power, wiring, and electrical outlets necessary for the proper operation of Carrier's equipment on his premises.

4.1 Outbound and Inbound Services

OCT 13 1994

.1 Outbound Services

Dedicated Services are intercity services available for use by subscribers 24 hours a day. Calls are originated via dedicated access facilities between the customer's premise and the underlying carrier's POP, and are terminated via normal shared use facilities.

Switched Services are intercity services available for use by subscribers 24 hours a day. Calls are originated in equal access areas via Feature Group D access connections and are terminated via normal shared use facilities.

Charges for Outbound Services are based on duration of the call, rate period (Day, Evening, Night/Weekend) when the call is originated and the total monthly usage.

The following options are available under the Carrier's Services:

Dedicated	-	<i>Optima Plus™</i>	(T)
	-	<i>Classic Plus™</i>	(T)
Switched	-	<i>Optima One®</i>	(T)
	-	<i>Classic One®</i>	(T)

.2 Inbound Services

Carrier's Inbound services are toll services which permit calls to be completed at the subscriber's location without charge to the calling party. Access to the service is gained by dialing a ten digit telephone number (800-NXX-XXXX) which will terminate at the customer's location.

T-1 Service is offered in the form of discrete (T) intercity communications facilities which are dedicated to the use of a specific subscriber and provides simultaneous transmission synchronous digital signals at a speed of 1.544 Mbps. Access from the subscriber's premises to the Underlying Carrier's POP is via a T-1 circuit provided by (T) the Local Exchange Carrier. Charges for T-1 Service are based on distance between the Underlying Carrier's POPs and local access arrangements.

4.3 VNS Services

(T)

VNS Service is an interstate service offering from the (T) Underlying Carrier with subscribers having the option of using the service for intrastate calls.

VNS Service provides the functionality and (T) capabilities of a private network through the use of shared transmission facilities and is operated by a single, software-controlled management system. It interconnects the subscribers' locations via dedicated access lines to the Underlying Carrier's POPs or is accessed via the public switched network.

VNS service is virtually banded. A single circuit can (T) carry traffic to and/or from any mileage band. The rates are automatically applied to the actual traffic originating from a specific location based upon the rate step in which the traffic terminates.
