RATES FOR STEAM SERVICE FEB 7 1990

MISSOURI
Public Service Commission

TRIGEN KANSAS CITY

RATES FOR STEAM SERVICE

Trigen-Kansas City District Energy Corporation (the "Company") shall provide steam service at the rates set forth below under the provisions of customer service agreements which shall include the provisions of the Company's general rules and regulations in effect and on file and the Commission's applicable general orders. The rates shall include a usage charge covering the incremental fuel, water and marginal costs incurred by the Company in the supply of each unit of steam, and an annual base charge which is designed to cover the fixed costs of operating the system, the fixed amount of thermal losses, and the capital recovery and system restoration.

## I. USAGE CHARGE.

- A. The Company shall charge a monthly usage charge for each one thousand pounds (Mlb) of steam consumed not to exceed to \$3.90.
- B. The Company may apply a reduction to the \$3.90 per Mlb usage charge to reflect its success in reducing operating costs and improving system efficiency. Any reduction to the usage charge shall be uniformly applied to all customers receiving steam service under the terms of this rate schedule.
  - The usage charge shall be computed and billed monthly and be based on the consumption of steam by the customer in the prior month, as measured by the Company's meters, or estimated as set forth in the general rules and regulations.

RECEIVED RATES FOR STEAM SERVICE FFR 7 1990 New customers who do not have a record of use during the aforesaid Realis Sanata Chave ission their Base Usage estimated and mutually agreed upon prior to connection to the system, and shall be billed accordingly until they have completed an October through March period of connection to the Company during which the facility in question was at normal full occupancy. At the conclusion of this period, the Company shall review the consumption during the billing periods of October through March, adjust that consumption for both differences in the actual degree days and the average number of degree days experienced in the same periods in 1986-1988, adjust for differences between the number of days in the Base Period and the number of days in the actual service period due to selection of meter reading dates, and shall then use this result as the annual base usage for future billings. Changes shall be made to the Base Usage in the event that usage in the most recent October through March period, after a degree day weather adjustment, varies by more than 15% from the 1988-1989 base usage amount, or from the initial usage amount as adjusted to actual experience, per Section II. Such changes shall become effective in the F. billing period following their determination.

#### III. MINIMUM CHARGE.

Regardless of Base Usage, there shall be a \$50 per month minimum base charge. The Company generally will install one meter, at its expense, to measure service to a customer's premises, fout may elect to employ multiple meters.

## VEOLIA ENERGY KANSAS CITY, INC. RATES FOR STEAM SERVICE STANDARD COMMERCIAL SERVICE ("SCS") SCHEDULE

Veolia Energy Kansas City, Inc. (the "Company") shall provide steam service at the rates set forth below under the provisions of Customer service agreements which shall include the provisions of the Company's general rules and regulations in effect and on file and the Commission's applicable general orders.

### I. AVAILABILITY.

All Customers using 5,000 mlb or less, of total annual steam usage. This rate is also applicable to those Customers otherwise qualifying for the LCS rate schedule whose demand the Company determines cannot be reasonably or accurately measured using a demand meter. The annual steam usage of existing SCS Customers shall not exceed 5,000 mlb in at least one of the two immediately preceding twelve month periods ending March 31<sup>st</sup>, unless the Company determines that the Customer's demand usage cannot be reasonably or accurately measured with a demand meter required for service under the LCS rate schedule.

## II. STEAM CHARGE.

In addition to any Meter Charge, the Company shall bill Customer a monthly Steam Charge (in thousand pounds of steam or "mlb") based on Customer's actual metered usage in the prior month by reference to the rate table below:

For the first 5 mlbs per month; (\$11.00 + \$14.90) X mlbs For the next 20 mlbs per month; (\$11.00 + \$13.59) X mlbs For the next 75 mlbs per month; (\$11.00 + \$10.72) X mlbs For all mlbs over 100 per month; (\$11.00 + \$8.95) X mlbs

## III. METER CHARGE.

Service Commission

HN-2020-0205: YH-2020-0115

In addition to any steam charge, and irrespective of whether there is steam usage by Customer in a given month, there shall be a meter charge of \$75 per month for the first meter and \$50 per month for each additional meter.

## VEOLIA ENERGY KANSAS CITY, INC. RATES FOR STEAM SERVICE STANDARD COMMERCIAL SERVICE ("SCS") SCHEDULE

The Company generally will install one meter to measure service to a Customer's premises. In certain circumstances, more than one meter may be necessary in order to properly register steam usage over a Customer's entire load range. In those instances, the Company will install an additional meter(s).

## IV. ADJUSTMENTS, SURCHARGES AND CREDITS.

The rates and charges hereunder are subject to adjustments, surcharges or credits pursuant to the Production Adjustment Cost Clause ("PACC").

## V. TAX ADJUSTMENT.

There shall be added to the monthly bill of the Customer, as separate items, a surcharge equal to the proportionate part of any license, occupation or other similar fee or tax applicable to steam service by the Company to the Customer, which fee or tax is imposed upon the Company by taxing authorities on the basis of the gross receipts, net receipts or revenues from the steam sales by the Company.

## VI. GENERAL RULES AND REGULATIONS.

All Customers shall be subject to the General Rules and Regulations which are filed separately.

#### VEOLIA ENERGY KANSAS CITY, INC RATES FOR STEAM SERVICE LARGE COMMERCIAL SERVICE ("LCS") SCEHDULE

Veolia Energy Kansas City, Inc. (the "Company") shall provide steam service at the rates set forth below under the provisions of Customer service agreements which shall include the provisions of the Company's general rules and regulations in effect and on file and the Commission's applicable general orders.

#### I. AVAILABILITY.

All Customers using greater 5,000 mlb total annual steam usage, provided that this rate is not available for those Customers with greater than 5,000 mlb annual steam usage whose demand the Company determines cannot reasonably or accurately be measured with a demand meter. The annual steam usage of existing LCS Customers shall exceed 5,000 mlb in at least one of the two immediately preceding twelve month periods ending March 31<sup>st</sup>.

#### II. DEMAND CHARGE.

- A. In addition to any Usage Charge and Meter Charge, all LCS Customers who take steam for substantially 100% of their space heating needs and optionally for their air conditioning needs, shall pay a demand charge, as determined below.
- B. The annual demand charge shall be based on the demand charge rates in Section C below and the Billing Demand as defined in Section D below. The annual demand charges, as listed in section C, shall be billed in twelve equal monthly installments.

#### TRIGEN KANSAS CITY

#### RATES FOR STEAM SERVICE

LARGE COMMERCIAL SERVICE ("LCS") SCHEDULE

Trigen-Kansas City Energy Corporation (the "Company") shall provide steam service at the rates set forth below under the provisions of customer service agreements which shall include the provisions of the Company's general rules and regulations in effect and on file and the Commission's applicable general orders.

#### I. AVAILABILITY

All customers using greater than 5000 mlbs total annual steam usage, provided that this rate is not available for those customers with greater than 5000 mlbs annual steam usage whose demand the Company determines cannot reasonably or accurately be measured with a demand meter.

#### II. DEMAND CHARGE,

- A. In addition to any Usage Charge and Meter Charge, all LCS customers who take steam for substantially 100% of their space heating needs and optionally for their air conditioning needs, shall pay a demand charge, as determined below.
- B. The annual demand charge shall be based on the demand charge rates in Section C below and the Billing Demand as defined in Section D below. The annual demand charges, as listed in section C, shall be billed in twelve equal monthly installments.

LARGE COMMERCIAL SERVICE ("LCS") SCHEDULE

C. ANNUAL DEMAND CHARGE SCHEDULE (billed in twelve equal monthly installments in thousand pounds of steam (or "mlbs") per hour):

First 3 mlbs/hour of Billing Demand; \$13,693.22 per mlb/hour up to \$41,079.66.

The next 2 mlbs/hour up to a total of 5 mlbs/hour of Billing Demand; \$11,654.13 per mlb/hour.

The next 3 mlbs/hour up to a total of 8 mlbs/hour of Billing Demand, \$11,362.97 per mlb/hour.

For all pounds/hour over 8 mlbs/hour of Billing Demand; \$10,955.54 per mlb/hour.

- D. Billing Demand: For purposes of calculating Demand Charges, the term "Billing Demand" for existing customers means the Customer's highest hourly peak consumption of steam in any 60-minute interval in the two immediately preceding, completed December 1-March 31 time frames. However, for tariff transitional purposes, the Billing Demand will be based on the prior year December 1-March 31 time frame until April 1, 2010.
  - (i) Demand charges will be recalculated each year in April and apply to all billings for services rendered after March 31 of each year.
  - (ii) For new Customers not receiving steam service from Trigen as of the effective date of these tariffs, the initial year's Billing Demand will be determined by mutual agreement between the Company and the Customer.

### VEOLIA ENERGY KANSAS CITY, INC. RATES FOR STEAM SERVICE INTERRUPTIBLE HEATING SERVICE ("IHS") SCHEDULE

Community, Town or City

Veolia Energy Kansas City, Inc. (the "Company") shall provide steam service at the rates set forth below under the provisions of Customer service agreements which shall include the provisions of the Company's general rules and regulations in effect and on file and the Commission's applicable general orders.

#### I. AVAILABILITY.

Name of Issuing Corporation

This rate schedule is available to any Customer meeting the eligibility requirements for Interruptible Heating Service under all of the following conditions:

In order to qualify for the IHS rate, a Customer must already be receiving steam service under any rate schedule, be a new Customer at a location currently receiving steam service or a new location that has not received steam service, or be an existing steam Customer initiating service at a new location.

- A. A qualifying Customer must have on Customer's Premises a permanent, operable steam or hot water space heating source installed prior to 2018 either located onsite sized to provide for the Customer's total space heating requirement or be permanently connected via permanent piping to a Company-approved permanent, operable steam or hot water space heating source located in an adjacent building sized to provide for the Customer's total space heating requirement.
- B. The Customer agrees to use steam delivered by Company to satisfy all the Customer's space heating requirements otherwise supplied by the on-site space heating source.
- C. Notwithstanding any other provisions hereof, Company may decline to enter into any steam service agreement for Interruptible Heating Steam Service when, in Company's sole judgment, Company has insufficient resources to carry out its obligations under the agreement.
- D. There is no limit to a qualifying Customer's annual steam consumption.
- E. As of the effective date of this rate schedule at the request of the Company, a Customer desiring service under this rate schedule must certify to Company's satisfaction (continued on next page)

## VEOLIA ENERGY KANSAS CITY, INC. RATES FOR STEAM SERVICE INTERRUPTIBLE HEATING SERVICE ("IHS") SCHEDULE

that the on-site space heating source (referred to in section I (a) of this schedule above) is capable of providing 100% of the Customer's space heating requirement, independent of Company's service.

- F. At Company's sole discretion, but in general only when necessary to assist in Veolia's steam system capacity requirements by reduction of demand, Company may temporarily interrupt up to 100% of steam service to the Customer served under this rate schedule. Such interruption will be imposed only after a minimum twelve (12) hour advance notice to Customer and shall not exceed forty-eight (48) hours in duration, except in the case of emergency or major maintenance or repair. No Customer shall be interrupted under this schedule more than six times in any calendar year.
- G. At Company's sole discretion, Company may periodically confirm compliance with the terms of this rate schedule by requesting demonstration of Customer's ability to supply 100% of space heating requirements from its installed permanent space heating source.
- H. In the event any Customer taking service under this rate schedule can no longer meet the eligibility requirements set forth above, Company will provide written notice to the Customer informing the Customer of such ineligibility. Customer shall have thirty (30) days from such notice to correct such ineligibility and apply to re-qualify for the rate. If the Customer elects not to correct the deficiency, delivery of Company steam service shall continue, albeit pursuant to the Large Commercial (LCS) or Standard Commercial (SCS) rate schedule terms, as applicable, effective upon the expiration of the 30-day period. Customer shall remain on such SCS or LCS tariff (as applicable) from that point onward, or until the Customer meets all IHS eligibility requirements set forth above or chooses a means of space heating other than steam service from Company.

ALTERNATIVE HEATING SOURCE STEAM SERVICE
Schedule AHS (Large) MO. PUBLIC SERVICE COMM.

- 1. Base Period is defined as a period of steam service from October 1st through March 31.
- 2. Peak Usage is the maximum number of thousands of pounds ("Mlbs") of steam required to be delivered to Customer's facility during any consecutive sixty minute period during any month in the Base Period.
- 3. For the initial period of service the Annual Peak Usage shall be estimated and mutually agreed upon prior to connection to the system, and the Customer shall be billed accordingly until a Base Period has been completed or until actual Peak Usage exceeds the agreed upon level. At the conclusion of the initial Base Period, the Company shall review the Peak Usage and adjust the Annual Peak Usage if the Peak Usage is less than the agreed upon estimate. The Company will then issue a credit for the difference between the amount paid by the Customer and the Capacity Charge calculated based on the adjusted Annual Peak Usage.
- 4. Annual Peak Usage shall be the maximum Peak Usage recorded during the present or prior Base Period. If the Customer's Peak Usage exceeds the current Annual Peak Usage the Capacity Charge will be adjusted in the month following the month in which the new Peak Usage occurred.
- 5. Under the terms of this agreement the minimum Annual Peak Usage is 3.0 Mlb/hr.
- 6. The Annual Capacity Charge shall equal FILED the number of dollars as calculated based on

The bill for steam delivered each monthly billing period under this rate schedule shall be the sum of the Meter Charge, Usage Charge, one-twelfth of the Annual Demand Charge, and applicable taxes and fees as follows:

- A. Irrespective of whether there is steam usage by Customer in a given month, there shall be a meter charge of \$100 per month for the first meter and \$50 per month for each additional meter. The Company generally will install one meter to measure service to a Customer's premises. In certain circumstances, more than one meter may be necessary in order to properly register steam usage over a Customer's entire load range. In those instances, the Company will install an additional meter(s).
- B. The Company shall charge Customer a Usage Charge of \$11.00 per mlb for each thousand pounds (mlbs) of steam consumed.
- C. Annual Demand Charge
  - (i) Heating Period is defined as a period of steam service from November 1 through March 31.
  - (ii) Peak Usage is the Customer's highest hourly peak consumption of steam in any sixty minute interval during the immediately preceding, completed Heating Period.
  - (iii) Demand Charges will be recalculated each year in April and apply to all billings for services rendered after March 31.

# VEOLIA ENERGY KANSAS CITY, INC. RATES FOR STEAM SERVICE RESIDENTIAL HIGH-RISE ("RHR") SCHEDULE

Veolia Energy Kansas City, Inc. (the "Company") shall provide steam service at the rates set forth below under the provisions of Customer service agreements which shall include the provisions of the Company's general rules and regulations in effect and on file and the Commission's applicable general orders.

#### I. AVAILABILITY.

Name of Issuing Corporation

All residential Customers located in multi-story buildings, including office building conversions to residential use and/or mixed commercial and residential use, with a minimum of 6,000 square feet of residential living space under contract to purchase district steam. This rate is only applicable to residential Customers, whether renting or owning tenant space.

#### II. STEAM CHARGE.

In addition to any Meter Charge, the Company shall bill Customer a monthly Steam Charge (in thousand pounds of steam or "mlbs") based on Customer's actual metered usage in the prior month:

- The Company shall charge Steam Charge of \$21.26 (\$11.00 + \$10.26) per mlb A. for all mlbs of steam consumed.
- B. The Steam Charge shall be computed and billed monthly based on the consumption of steam by the Customer, as measured by the Company's meters, or estimated as set forth in the general rules and regulations.

#### III. METER CHARGE.

In addition to any Usage Charge, and irrespective of whether there is steam usage by Customer in a given month, there shall be a meter charge by reference to the rate table below:

For each meter cost up to \$500, a per month charge of \$5.63. For each meter cost over \$500 and up to \$1,000, a per month charge of \$11.26. For each meter cost over \$1,000 and up to \$1,500, a per month charge of \$16.89. For each meter cost over \$1,500 and up to \$2,000, a per month charge of \$22.51. For each meter cost over \$2,000 and up to \$2,500, a per month charge of \$28.14.

Veolia Energy Kansas City, Inc. (the "Company") shall provide steam service at the rates set forth below under the provisions of Customer service agreements which shall include the provisions of the Company's general rules and regulations in effect and on file and the Commission's applicable general orders.

#### I. AVAILABILITY.

All residential Customers located in multi-story buildings, including office building conversions to residential use and/or mixed commercial and residential use, with a minimum of 6,000 square feet of residential living space under contract to purchase district steam. This rate is only applicable to residential Customers, whether renting or owning tenant space.

#### II. STEAM CHARGE.

In addition to any Meter Charge, the Company shall bill Customer a monthly Steam Charge (in thousand pounds of steam or "mlbs") based on Customer's actual metered usage in the prior month:

- The Company shall charge Steam Charge of \$19.933 (\$10.32 + \$9.613) per mlb A. for all mlbs of steam consumed.
- B. The Steam Charge shall be computed and billed monthly based on the consumption of steam by the Customer, as measured by the Company's meters, or estimated as set forth in the general rules and regulations.

#### III. METER CHARGE.

In addition to any Usage Charge, and irrespective of whether there is steam usage by Customer in a given month, there shall be a meter charge by reference to the rate table below:

For each meter cost up to \$500, a per month charge of \$5.63. For each meter cost over \$500 and up to \$1,000, a per month charge of \$11.26. For each meter cost over \$1,000 and up to \$1,500, a per month charge of \$16.89. For each meter cost over \$1,500 and up to \$2,000, a per month charge of \$22.51. For each meter cost over \$2,000 and up to \$2,500, a per month charge of \$28.14.

# VEOLIA ENERGY KANSAS CITY, INC. RATES FOR STEAM SERVICE RESIDENTIAL HIGH-RISE ("RHR") SCHEDULE

- A. The Company generally will install one meter to measure service to a Customer's premises. In certain circumstances, more than one meter may be necessary in order to properly register steam usage unique to the Customer's steam requirements. In those instances, the Company will install an additional meter(s).
- B. Meter costs and metering technology may change over time. The Company shall determine in its sole judgment the meter type that is necessary for steam service provided to an individual residential Customer.
- C. The ownership, installation and maintenance of the metering devices shall be the Company's responsibility. All steam piping within the building, beyond the Company's point of entry to the building but before or after the metering device shall not be the responsibility of the Company. Upon request by the building owner and/or manager, the Company may assist with the maintenance and repair of steam piping pursuant to independently negotiated compensation provisions.

# IV. ADJUSTMENTS, SURCHARGES AND CREDITS.

As a result of the negotiated settlement agreement in Case No. HR-2014-0066, the rates and charges hereunder are not subject to adjustments, surcharges or credits pursuant to the Production Adjustment Cost Clause ("PACC") at this time. The Company may submit a filing with the Commission to apply the PACC to RHR customers in a future proceeding.

# V. TAX ADJUSTMENT.

There shall be added to the monthly bill of the Customer, as separate items, a surcharge equal to the proportionate part of any license, occupation or other similar fee or tax applicable to steam service by the Company to the Customer, which fee or tax is imposed upon the Company by taxing authorities on the basis of the gross receipts, net receipts or revenues from the steam sales by the Company.

## VI. GENERAL RULES AND REGULATIONS.

All Customers shall be subject to the General Rules and Regulations which are filed separately. Veolia agrees to adhere to all Missouri Public Service Commission Rule 4 CSR 240.13 (Chapter 13) as it relates to Gas and Electric Utilities, which provides rules regarding billing, credit and collections, service initiation, termination, customer contacts with the utility and other customer interactions as may be applicable.

VEOLIA ENERGY KANSAS CITY, INC. RATES FOR STEAM SERVICE CAPACITY RESERVE AND EMERGENCY SERVICE ("CR/ES") SCHEDULE

Veolia Energy Kansas City, Inc. (the "Company") shall provide steam service at the rates set forth below under the provisions of Customer service agreements which shall include the provisions of the Company's General Rules and Regulations in effect and on file and the Commission's applicable general orders.

#### I. AVAILABILITY.

Name of Issuing Corporation

This rate schedule is available to any previous Customer or new Customer adjacent to the Company's steam distribution system but not currently receiving district steam service for the previous 12 months that meet the eligibility requirements under the following conditions:

- Customer must have a either (1) a permanent, operable steam or hot water space Α. heating source located on-site sized to provide for the Customer's total space heating requirement or (2) be permanently connected via permanent piping to a Company-approved permanent, operable steam or hot water space heating source located in an adjacent building sized to provide for the Customer's total space heating requirement.
- В. The Customer agrees to use district steam delivered by Company as an emergency back-up supply source in the event of a Customer-owned equipment outage for up to one year or to supplement steam produced by Customer-owned equipment for up to ten (10) heating season days per year. If essentially the entire Customer's steam needs are met by emergency district steam service for twelve (12) months, the Customer will be migrated to the standard tariff rate for which the Customer is otherwise eligible.
- C. Notwithstanding any other provisions hereof, Company may decline to enter into any steam service agreement when, in Company's sole judgment, Company has insufficient resources to carry out its obligations under the agreement.
- D. The Customer's annual steam consumption shall be less 100,000 mlb.
- E. As of the effective date of this rate schedule at the request of the Company, a Customer desiring service under this rate schedule must certify to Company's satisfaction that the on-site space heating source (referred to in section I.A of this schedule above) is capable of providing 100% of the Customer's space heating requirement, independent of Company's service.

# VEOLIA ENERGY KANSAS CITY, INC. RATES FOR STEAM SERVICE CAPACITY RESERVE AND EMERGENCY SERVICE ("CR/ES") SCHEDULE

- F. At Company's sole discretion, but in general only when necessary to assist in Company's steam system capacity requirements by reduction of demand, Company may temporarily interrupt up to 100% of steam service to the Customer served under this rate schedule. Such interruption will normally be imposed only after a minimum twelve (12) hour advance notice to Customer and shall not exceed forty-eight (48) hours in duration, except in the case of emergency or major maintenance or repair. No Customer shall be interrupted under this schedule more than six times in any calendar year.
- G. At Company's sole discretion, Company may periodically confirm compliance with the terms of this rate schedule by requesting demonstration of Customer's ability to supply 100% of space heating requirements from its installed permanent space heating source.
- H. In the event any Customer taking service under this rate schedule can no longer meet the eligibility requirements set forth above, Company will provide written notice to the Customer informing the Customer of such ineligibility. Customer shall have thirty (30) days from such notice to correct such ineligibility and apply to re-qualify for the rate. If the Customer elects not to correct the deficiency, delivery of Company steam service shall continue, albeit pursuant to the Large Commercial (LCS) or Standard Commercial (SCS) rate schedule terms, as applicable, effective upon the expiration of the 30-day period. Customer shall remain on such SCS or LCS tariff (as applicable) from that point onward, or until the Customer chooses a means of space heating other than steam service from Company.
- I. Availability of this rate schedule is restricted to those Customers that are in full compliance with the provisions set forth above. Service under this rate schedule shall only be available to such Customers who continuously qualify for and remain hereon from the effective date of this rate schedule.

## II. APPLICABILITY AND CHARACTER OF SERVICE.

- A. This rate schedule shall apply to all steam service supplied by Company pursuant to an executed Steam Service Agreement under this rate schedule.
- B. Customers may use their on-site heating source at any time and during any period of steam service interruption, consistent with the availability provisions set forth above.

# III. RATE.

The Customer shall pay for all steam delivered under an executed Steam Service Agreement in accordance with this rate schedule (CR/ES). Any renewals of this agreement shall be at this or any superseding rate schedule(s) applicable to this service as filed with the Missouri Public Service Commission and as may be lawfully revised from time-to-time.

## IV. MONTHLY BILL.

The bill for steam delivered each monthly billing period under this rate schedule shall be the sum of the Meter Charge, Usage Charge, one-twelfth of the Annual Demand Charge, and applicable taxes and fees as follows:

- A. Irrespective of whether there is steam usage by Customer in a given month, there shall be a meter charge of \$100 per month for the first meter and \$50 per month for each additional meter. The Company generally will install one meter to measure service to a Customer's premises. In certain circumstances, more than one meter may be necessary in order to properly register steam usage over a Customer's entire load range. In those instances, the Company will install an additional meter(s).
- B. The Company shall charge Customer a Usage charge of \$11.00 per mlb for each thousand pounds (mlbs) of steam consumed.
- C. Annual Demand Charge.

As part of the executed Steam Service Agreement, the Customer shall nominate the peak usage for which it desires to receive service under the CR/ES as emergency back-up supply or to supplement steam produced by Customer-owned equipment. In the event that the actual peak usage exceeds the nominated peak usage, the actual peak usage will apply in the next monthly billing cycle.

- (i) Heating Period is defined as a period of steam service from November 1 through March 31.
- (ii) Peak Usage is the Customer's highest hourly peak consumption of steam in any sixty minute interval during the current Heating Period or the immediately preceding completed Heating Period.
- (iii) Demand Charges will be recalculated whenever a new peak usage is

# VEOLIA ENERGY KANSAS CITY, INC. RATES FOR STEAM SERVICE ECONOMIC DEVELOPMENT RATE ("EDR") SCHEDULE

Veolia Energy Kansas City, Inc. (the "Company") shall provide steam service at the rates set forth below under the provisions of Customer service agreements which shall include the provisions of the Company's General Rules and Regulations in effect and on file and the Commission's applicable general orders.

#### I. PURPOSE.

The purpose of this Economic Development Rider is to encourage the development of commercial business in the Company's Missouri service territory.

#### II. AVAILABILITY.

- Upon request by the Customer and acceptance by the Company, steam service under the EDR is available to new Customers qualified to receive service under the Company's LCS rate schedule and to the added consumption of existing Customers who have received steam service under the LCS rate schedule for at least twelve (12) months prior to the Customer's election to participate in the EDR.
- B. Steam service under this rider is also available to charitable, non-profit, local, state or federal governmental facilities after the effective date of this rider to locate new facilities or expand existing facilities in the Company's service.
- C. For purposes of the EDR, a new Customer shall be defined as the provision of service to a Customer that has not received district steam service at that location in the Company's service territory within the immediately preceding twelve (12) months. Steam service to a new Customer under the EDR is not available in conjunction with service provided pursuant to any other tariff or special contract agreements.
- In the case of retention of an existing Customer, as a condition for service under D. this Rider, Customer must furnish to Company such documentation (e.g., influencing factors and a comparison of the rates and other economic factors) as deemed necessary by the Company to verify the availability of an alternative energy supply option outside of the Company's service territory and Customer's intent to select this viable alternative energy option. Customer must also furnish an affidavit stating Customer's intent to select this alternative energy supply option unless it is able to receive service under this Rider.
- All Customer requests for service under the EDR shall be considered by the Company; however, in no event shall any provision of this rider apply to a

VEOLIA ENERGY KANSAS CITY, INC. RATES FOR STEAM SERVICE ECONOMIC DEVELOPMENT RATE ("EDR") SCHEDULE

customer's consumption for a period prior to the date the Company accepts the Customer's application hereunder. The Customer is responsible for providing sufficiently detailed information for the Company to determine whether new or expanded steam service qualifies for the EDR. Service under the EDR shall be evidenced by a contract between the Customer and the Company disclosing the qualifying locations, Customer account or meter numbers, and steam volumes, as necessary.

All accepted Customer requests for service under the EDR shall apply solely to F. prospective steam purchases. If an EDR Customer subsequently reduces steam purchases and no longer qualifies for their existing tariff, the EDR discount provisions shall terminate immediately and all further Customer use will be billed under the applicable rate schedule.

#### III. INCENTIVE PROVISIONS.

The contract for service under the EDR shall begin on the date the Company accepts the Customer's request and shall continue for a period of five (5) consecutive years. Customers receiving service under the EDR shall be billed at the standard rates and charges pursuant to the applicable commercial tariff, as adjusted by the following provisions.

Rate Discount: The Customer bill shall show the amount otherwise due pursuant A. to the full tariff rates and the amount of the EDR rate discount to the demand charge on qualified EDR volumes during each of the five contract years, as follows:

1<sup>st</sup> Year: 30%

2<sup>nd</sup> Year: 25%

3<sup>rd</sup> Year: 20%

4<sup>th</sup> Year: 15%

5<sup>th</sup> Year: 10%

- Termination: The discount to the demand charge on qualified EDR volumes shall cease following the fifth contract year. Failure to comply with all provisions of the EDR tariff may result in immediate termination of the EDR Rate Discount.
- Other Customer Locations: District steam service provided to a Customer at one

or more locations in the Company's service territory shall not be eligible to the discount under the EDR, unless the service at those other locations were previously determined by the Company to constitute qualifying usage.

## IV. TERM.

Agreements under this schedule shall be for a minimum initial term of five (5) years.

## V. OTHER MATTERS.

- A. The Company may require the qualifying steam usage to be separately metered.
- B. Service under this Rider shall be evidenced by a contract between the Customer and the Company, which shall be submitted along with supporting documentation to the Commission and Commission Staff in the Energy Unit. In the case of a customer locating a new facility in the Company's service territory or expanding an existing facility in the Company's service territory, the contract will contain a statement that the Customer would not locate new facilities in the Company's service territory or expand its existing facilities in the Company's service territory but for receiving service under this Rider.
- C. During the term of this rider, the Company will maintain a report listing the names and locations of Customer receiving service hereunder and a statement of any incentives provided to each customer during the reporting period. The Company will also retain information documenting the basis used to qualify each Customer for the EDR tariff.
- D. In determining the Company's revenue requirement for ratemaking purposes, test year revenues shall be restated to reflect the revenues that would have resulted from application of the LCS tariff without the rate discount for the EDR qualified volumes.

# VI. ADJUSTMENTS, SURCHARGES AND CREDITS.

The rates and charges hereunder are subject to adjustments, surcharges or credits pursuant to the Production Adjustment Cost Clause ("PACC").

# VII. TAX ADJUSTMENT.

There shall be added to the monthly bill of the Customer, as separate items, a

Name of Issuing Corporation

Costs passed through this PACC Rider reflect ninety-five percent (95%) of the difference between actual fuel, purchased power, and consumable costs and these costs as set in base rates. The base PACC factor developed to reflect qualifying production costs is seven dollars and eighteen cents per thousand pounds of steam (\$7.18/mlb). For the purpose of this PACC rider "production costs" are the fuel and purchased power and consumable costs fully defined in Sections III.A and III.B below.

The Company will file annual, with an option for semi-annual, rate adjustments to reflect 95% of the changes to production costs.

Many Customers purchase reduced or no steam during summer months. To mitigate potential cost shifting between Customers and/or Customer classes due to seasonally unique steam usage patterns, each PACC filing plus any reconciling adjustments, will be billed to each individual Customer in twelve (12) equal installments based on each Customer's actual steam usage during the originating accumulation period. PACC adjustment charges are in addition to all other charges otherwise billable to each Customer under applicable tariff provisions.

# II. CALCULATIONS.

# A. Current PACC Rate:

The Current PACC rate factor is designed to reflect each Customer's share of the variation in production costs for the most recent accumulation period. The difference between actual production costs and the amount of production costs covered by base rates (both on a dollar basis) is multiplied by 95% and then divided by the total metered steam sales during the accumulation period to quantify the PACC adjustment factor. To determine the amount of an individual Customer's responsibility, the PACC adjustment factor (on a \$/mlb basis) is

## VEOLIA ENERGY KANSAS CITY, INC. RATES FOR STEAM SERVICE PRODUCTION ADJUSTMENT COST CLAUSE ("PACC")

Applicable to Service Provided on January 1, 2015 and Thereafter

All sales to Customers qualifying under the General Rates for Steam Service (PSC Mo. No. 1) offered by Veolia Energy Kansas City, Inc. (the "Company"), except for the Customers receiving service under the Residential High Rise rate schedule, shall be subject to adjustment according to this Production Adjustment Cost Clause ("PACC") Rider.

#### I. AVAILABILITY.

Costs passed through this PACC Rider reflect ninety-five percent (95%) of the difference between actual fuel, purchased power, and consumable costs and these costs as set in base rates. The base PACC factor developed to reflect qualifying production costs is seven dollars and sixty-nine cents per thousand pounds of steam (\$7.69/mlb). For the purpose of this PACC rider "production costs" are the fuel and purchased power and consumable costs fully defined in Sections III.A and III.B below.

The Company will file annual, with an option for semi-annual, rate adjustments to reflect 95% of the changes to production costs.

Many Customers purchase reduced or no steam during summer months. To mitigate potential cost shifting between Customers and/or Customer classes due to seasonally unique steam usage patterns, each PACC filing plus any reconciling adjustments, will be billed to each individual Customer in twelve (12) equal installments based on each Customer's actual steam usage during the originating accumulation period. PACC adjustment charges are in addition to all other charges otherwise billable to each Customer under applicable tariff provisions.

#### II. CALCULATIONS.

#### A. Current PACC Rate:

The Current PACC rate factor is designed to reflect each Customer's share of the variation in production costs for the most recent accumulation period. The difference between actual production costs and the amount of production costs covered by base rates (both on a dollar basis) is multiplied by 95% and then divided by the total metered steam sales during the accumulation period to quantify the PACC adjustment factor. To determine the amount of an individual Customer's responsibility, the PACC adjustment factor (on a \$/mlb basis) is

VEOLIA ENERGY KANSAS CITY, INC. RATES FOR STEAM SERVICE SPECIAL CONTRACT STEAM SERVICE ("SCSS")

#### I. PURPOSE.

This rate schedule allows Large Commercial Service customers to enter into Special Contracts subject to the Availability and Conditions sections below.

#### II. AVAILABILITY.

This Rate Schedule is available to Customers, eligible to receive service under the LCS rate schedule, who enter into a Special Contract with Veolia, which is approved by the Missouri Public Service Commission ("MPSC").

#### III. TERM OF SPECIAL CONTRACT.

The term of service under any Special Contract shall begin upon the approval of the applicable Special Contract by the MPSC, and continue until the termination date, as specified in the applicable Special Contract.

#### IV. CONDITIONS.

Veolia agrees that for ratemaking determinations, Customers using Special Contracts under this Rate Schedule will be treated as if they were paying the full generally applicable tariff rate for steam service, and that any other provisions in the Special Contracts will not affect rate base for regulatory purposes.

#### V. APPROVAL.

Service shall not be provided under any Special Contract executed between the Customer and Veolia until such contract is approved by the MPSC.

#### VI. CONTRACTS.

Upon entry into a Special Contract, Veolia shall refile this sheet to publish the following information concerning dockets in which each Special Contract is filed as Highly Confidential documents:

#### 1. Case No. HO-xxxx-xxxx
