9. Interexchange Carrier Pays Billing Option

The Interexchange Carrier Pays (IC Pays) Billing Option is an option that permits an IC to be charged by the Company for their end user's LPIC change charge when the Company changes an end user's IC assignment.

The LPIC change may either be requested via an IC provided end user or agent list submitted in the Customer Account Record Exchange format (IC Pays – Carrier Initiated) or by the end user customer directly to the Company (IC Pays – Customer Initiated).

ICs that subscribe to "IC Pays – Carrier Initiated" have the option to redirect billing of the LPIC change charge on a case-by-case basis.

For ICs that subscribe to "IC Pays – Customer Initiated", all end user LPIC changes to the IC's CIC initiated through the Telephone Company will be redirected to the IC.

The IC submitting the LPIC change must sign an IC Pays Billing Option agreement with the Company for either of the IC Pays Billing Options to apply.

When these conditions have been met, the end user customer will not be assessed the charge for the LPIC change. The IC participating in the IC Pays Billing Option will be charged the change charge as set forth in Section 13.3.3(D) following.

The IC will be held liable for 90 days. The IC will be billed for each change in the PIC and LPIC designation (i.e., two PIC and LPIC changes for each line) plus an Unauthorized PIC and LPIC change charge for each PIC and LPIC change. I. PIC Switchback is an option under which no investigation activities are performed by the Telephone Company when a business or residence end user customer denies requesting a PIC change previously submitted by an IC participating in PIC Switchback.

PIC Switchback is available to all ICs who participate in the Equal Access subscription process and have a Limited Blanket Agency Agreement for submitting PIC orders on file with the Telephone Company. In addition, ICs must provide written notification to the Telephone Company of their desire to participate in PIC Switchback.

When the Telephone Company is notified by a business or residence end user who denies requesting a PIC change within 90 days from when the PIC change was made and provided the IC participates in this option, the Telephone Company will restore the end user to their previous IC at no charge. Additionally, the end user will be credited the PIC change charge(s) assessed by the Telephone Company for the disputed PIC change.

The participating IC who initiated the disputed PIC change will be billed the PIC change charge(s) credited to the end user's account, as well as the PIC change charge(s) to change the end user back to their previous IC. A Letter of Authorization (LOA) will not be requested from the IC nor accepted at a later date under the PIC Switchback option. ICs participating in the PIC Switchback option will be assessed the applicable Easy Access Dialing Change Charge(s).

**CANCELLED**

JUL 22 1999

Easy Access Dialing Unauthorized PIC Change regulations and rates will continue to apply to ICs choosing not to participate in PIC Switchback.

This option does not relieve the IC of the F.C.C.'s requirements for verifying all PIC orders obtained by telemarketing prior to submitting orders to the Telephone Company and for instituting steps to obtain LOAs on all PIC orders submitted to the Telephone Company. In addition, the end user has the option of initiating a complaint to the F.C.C. concerning unauthorized PIC changes.
