1. Description of Service

MO. PUBLIC SERVICE COM. REG.

- 1.1 For purposes of this tariff, the service provided by Company is the resale of operator assisted services within the State of Missouri.
- 1.1 The facilities of the Company will be available as soon as practicable upon receipt of an order between those points in different LATAs as specified. Interconnection of the Company's facilities with the facilities of other duly authorized and regulated communications common carriers, and with International Record Carriers ("IRCs"), will be permitted.
- 1.3 The obligation of the Company to provide service is dependent upon its ability to procure and maintain facilities which are required to meet the subscriber's order for service. The Company will make all reasonable efforts to secure the necessary facilities and will amend its tariff accordingly, providing such new service will not adversely affect the Company's present services.
- 1.4 Company, when acting on the subscriber's request, and as subscriber's authorized agent, will make reasonable efforts to arrange for service requirements which may include terminal equipment, circuit conditioning, or connection access.
- 1.5 To use Company's service, the Customer accesses the Company's system, the Customer's phone number or security code is verified and the call is processed.

4.5.1 for any unlawful purpose.

4.5.2 for any purpose for which payment or other compensation is received by the customer, except when the customer is a duly permitted and regulated common carrier.

4.6 Service furnished by Company may be arranged for use for the purposes of resale subject to the following;

4.6.1 The customer will be responsible for charges, costs, etc., incurred by Company service(s).

4.6.2 The customer will be responsible for all interaction and interface with their own subscribers or customers.

4.7 Service furnished by Company shall not be used for any purpose for which any payment or other compensation is received by the customer, except when the customer is an entity which holds itself out as being a communications common carrier. This provision does not prohibit an agreement between the customer, authorized user or joint user to share the cost of the service as long as this arrangement generates no profit for anyone participating in a joint use or authorized use arrangement or where otherwise agreed upon by Company and the customer.

5. Limitations

MO. PUBLIC SERVICE COMM.

- 5.1 Service is offered, subject to the availability of the necessary facilities and/or equipment and subject to the provisions of the tariff. The Company reserves the right not to provide service to or from a Customer where the necessary facilities or equipment are not available.
- 5.2 Company reserves the right to discontinue furnishing service, upon written notice, when necessitated by conditions beyond its control or when the customer is using the service in violation of the provisions of this tariff, or in violation of the law.
- 5.3 Service may be discontinued by Company, without notice to the customer, by blocking traffic to certain cities, or NXX exchanges, or by blocking calls using certain customer authorization codes, when Company deems it necessary to take such action to prevent unlawful use of its service. Company will restore service as soon as it can be provided without undue risk, and will, upon request by the customer affected, assign a new authorization code to replace the one that has been deactivated.
- 5.4 There are no limits on the number of calls placed or the length of individual calls.
- 5.5 Company restricts all 976 exchange calls.

20. Payment and Billing

- 20.1 The customer is responsible for payment of all ^{MISSOURI PUBLIC SERVICE COMM.}tariffed rates and regulations in effect at the time the service is furnished. Usage charges are billed at the end of each Customer's monthly billing cycle. Any other charges are billed monthly in advance. All charges are due when the bill is rendered. Residential Customers may be permitted to pay all charges through automatic debits to a pre-approved credit card account.
- 20.2 Company's operator services billing and collection services are provided by third-party firms with whom Company contracts for such services. The third-party agents have billing agreements with all Regional Bell Operating Companies (RBOC's) and the major independent telephone operating companies. Company may, in certain situations, enter into separate billing agreements directly with RBOC's and major independent telephone operating companies. In the event an end user elects to pay via a major credit card, charges are billed via direct agreements between Company and the credit establishment indicated by the end user's major credit card. Only tariffed rates approved by the Commission will be used by billing agents for billing purposes.
- 20.3 The charge for each completed operator assisted call consists of two charge elements: fixed operator service charge, which will be dependent on the type of billing selected (i.e., calling card, charge third party or other) and/or the completion restriction selected (i.e., station-to-station or person-to-person); and a measured charge dependent on the duration, distance and time of day of the call. The measured element is specified as a rate per minute which applies to each minute of call duration, with a minimum charge for each call of one minute, and with fractional minutes of use thereafter counted as one full minute. ✓

Residential Customers may be permitted to pay all charges through automatic debits to a pre-approved credit card account.
- 20.2 Company's operator services billing and collection services are provided by third-party firms with whom Company contracts for such services. The third-party agents have billing agreements with all Regional Bell Operating Companies (RBOC's) and the major independent telephone operating companies. Company may, in certain situations, enter into separate billing agreements directly with RBOC's and major independent telephone operating companies. In the event an end user elects to pay via a major credit card, charges are billed via direct agreements between Company and the credit establishment indicated by the end user's major credit card. Only tariffed rates approved by the Commission will be used by billing agents for billing purposes.
- 20.3 The charge for each completed operator assisted call consists of two charge elements: fixed operator service charge, which will be dependent on the type of billing selected (i.e., calling card, charge third party or other) and/or the completion restriction selected (i.e., station-to-station or person-to-person); and a measured charge dependent on the duration, distance and time of day of the call. The measured element is specified as a rate per minute which applies to each minute of call duration, with a minimum charge for each call of one minute, and with fractional minutes of use thereafter counted as one full minute.

3. Calculation of Charges and Distance

MISSOURI
Public Service Commission

- 3.1 Usage charges are based on the actual usage of Company's Network.
- 3.2 Charges for Company's service(s) are based on the distance and duration of the call, monthly usage, and the rate period (Day, Evening, Night) when the call is placed.
- 3.3 Usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call. For the purpose of determining airline mileage, vertical and horizontal grid lines have been established across the United States and Canada. The spacing between adjacent vertical grid lines and between horizontal grid lines represents a distance of one coordinate unit. This unit is the square root of 0.1, expressed in statute miles. A vertical (V) and a horizontal (H) coordinate is computed for each local exchange company primary serving office and serving office from its latitude and longitude location by use of appropriate map-projection equations. A pair of V-H coordinates locates a primary serving office or serving office for determining airline mileage, at a particular intersection of an established vertical grid line with an established horizontal grid line. The distance between any two primary serving offices or serving offices is the airline mileage computed as follows:

FORMULA:
$$\sqrt{\frac{(V - V2)^2 + (H1 - H2)^2}{10}}$$
