SECTION 3 – DESCRIPTION OF SERVICE AND RATES

3.90 <u>Qwest 1-800-860-6000 Calling Service</u>

General Description

Qwest 1-800-860-6000 Calling Service offers residential customers enhanced features and functions for use when traveling. Customers access the network by dialing a toll-free access number and an authorization code. To initiate a Calling Card call, the customer dials a toll free 800 number (1-800-860-6000). The voice response unit ("VRU") then instructs the customer to input the authorization code, which is the customer's billed to number plus four digits. After the proper verification of the authorization code, the VRU guides the customer through the available options. Two pricing options are available.

Terms and Conditions

This Calling Service is only available to customers subscribing to local service from a carrier other than Qwest Corporation.

Two alternate billing options are available. Option 1 allows the customer to use the 1-800 number to place alternately billed calls at a special rate that is not sensitive to distance, time of day, or day of week. Option 2 allows the customer to use the 1-800 number to place alternately billed calls at special rates that are not sensitive to distance, time of day, or day of week. The codes are defined by the subscriber and must be of the same length for any given toll-free number. If the code entered is not valid the call will be blocked. Non-Verified Codes requires the input of any non-specific 2 to 11-digit code to complete the call. The subscriber defines the length of the codes. The codes of any given toll-free number must be of the same length. 1. Geographic Routing Geographic Routing cannot be used in conjunction with any other optional feature. This feature allows a subscriber to create two or more originating routing areas and direct each area to a different terminating location with a single 800/888 number. Subscribers may define the originating areas by NPA or by NPA/NXX. For example, a business with five business locations in five area codes may terminate calls originating in each NPA to the business location in that NPA. - 3.96 METRO PRIVATE LINE SERVICE (Cont'd)
- C. Rate Elements
- 1. Mileage

Mileage provides for the transmission facilities between two customer POTs. Mileage is comprised of a fixed rate element and a per mile rate element. Mileage is measured by airline miles between the customer's Points of Termination (POT), using the V & H Coordinates method.

2. Multiplexing

Multiplexing provides the ability to convert a higher speed channel to several lower speed channels, or to combine several lower speed channels into a single higher speed channel. Multiplexing is offered to On-Net to On-Net customers only. The multiplexing hierarchy, is as follows:

- DS3 channelizes to 28 DS1s
- OC3 channelizes to 3 DS3s
- OC12 channelizes to 4 OC3s
- OC48 channelizes to 4 OC12s

There are two types of multiplexing:

- Customer premises multiplexing, where the signal will be dropped to a lower bandwidth to different areas of a building, or
- Vendor multiplexing, that occurs in the carrier POT and gives the vendor different speed signals.
- 3. Node

The Node provides for the communication path between a customer's designated premises and the POT to the Qwest network. A Node element applies per service, e.g. DS1 or DS3 terminated at the customer's premises.

D. Rates and Charges

Rates and Charges for QMPL will be developed on an Individual Case Basis (ICB) arrangement in response to a bona fide request for service from a customer or prospective customer. ICB rates will be offered to customers in writing and will be made available to similarly situated customers.

An "Operator Surcharge" applies when the caller: (1) enters nothing, defaults to an operator and requests the operator to complete the call; or, (2) has the ability to complete the dialed digits of their call, but chooses to dial the appropriate operator code only (e.g., 0-, 00, 1010432), and requests the operator to complete the call. This surcharge will be in lieu of the existing per call surcharge. In addition, this surcharge will apply to all month-to-month customers as well as new term customers who subscribe to Qwest Total Advantage. Customers who are currently on term plans will not incur this surcharge until their contracts renew.
