**GENERAL AND LOCAL EXCHANGE TARIFF**

Payphone Service

A. General

1. Payphone Service includes lines to which coin, coinless, card reader or a combination of coin/card reader telephones may be attached.
2. Payphone Service is a two-way or, optionally, one-way originating only business exchange access line composed of the serving central office line equipment, all outside plant facilities needed to connect the serving central office with the customer's premises, and the Network Interface Device at the demarcation point. These facilities are Company-provided and maintained and provide access to and from the telecommunications network for long distance service and local calling.
3. In the case of one-way service, intercept treatment will be provided.
4. A maximum of one customer-provided instrument implemented pay telephone may be connected to any one Instrument or CO implemented coin line.
5. General Rules and Regulations found in other sections of this tariff are applicable to the provision of Payphone Service.
6. HOLD FOR FUTURE USE (D)
7. A Network Interface Device will be installed at a location mutually agreed upon by the Payphone Service Provider and the Company. The Network Interface Device is a company-provided jack or its equivalent. It is the point of connection between the telephone company owned wiring and wiring owned by the Customer.
8. HOLD FOR FUTURE USE (D)
9. Installation Charges and the appropriate Network Interface Device (NID) material charge are applicable for the installation, move or rearrangement of the NID on the customer's premises to establish or reestablish network access.

**A. General (Cont'd)**

**MO. PUBLIC SERVICE COMMISSION**

10. Installation Charges and the appropriate NID material charge apply when a premises visit is made for the sole purpose of installing a customer requested NID.
11. The Company shall not be liable for shortages of coins collected and deposited at the subscriber's equipment. The limit of the Company's liability for end user fraud of whatever nature occurring at or in association with the subscriber's equipment shall be governed by provisions of this Tariff and rule or regulations of the Missouri Public Service Commission. In case of conflict between the tariff provisions and Commission rules and regulations, the rule or regulations shall prevail.
12. Off-Premise Extensions are not permitted.
13. Hold for Future Use (D)
14. The Multiline Business Subscriber Line Charge, found in the interstate access tariff, is applicable to all payphone Instrument and CO Implemented coin lines.

**B. Responsibility of the Customer**

1. The Customer for the purposes of this tariff is defined as the Payphone Service Provider.
2. The customer shall be responsible for the installation, operation and maintenance of the customer-provided instrument, plus all ancillary equipment, such as booths, shelves, lighting, directories, etc., used in connection with this service. The customer is responsible to comply with the requirements set forth in the American With Disabilities Act of 1990.

The customer-provided instrument must be registered in compliance with Part 68 of the FCC's Registration Program. In addition, the customer must comply with the Missouri Public Service Commission's Rules and Regulations regarding the use of customer-provided pay telephones.

B. Responsibility of the Customer (Cont'd)

3. The customer shall be responsible for the payment of charges for public, local and toll messages originating from or accepted at this type of service, including any Directory Assistance Calls.
4. The customer shall be responsible for obtaining a Certificate of Service Authority (CSA) to provide Payphone Service and for providing proof of said authority prior to installation of service.
5. Customers who elect not to subscribe to Selective Class of Call Screening will be fully responsible for all calls billed to customer's exchange access line. The Telephone Company shall have no responsibility to adjust any such charges and/or release customer from paying any such charges. Customer will hold the Telephone Company harmless from and against any liability or loss resulting from all calls billed to customer's exchange access line.
6. Any federal, state, or local taxes on the Customer Owned Pay Telephone or calls made from that phone are the responsibility of the customer.
7. The customer shall not program or cause to be programmed any such telephone used in connection with this service to limit the duration of a local message.

MISSOURI  
Public Service Commission

C. Violation of Regulations

1. Upon notification from the Company that the customer-provided equipment or inside wire is causing or is likely to cause harm, the customer shall make such change as is necessary to remove such harm. Failure to make such change will result in the disconnection of service until such change is completed to the satisfaction of the Company.

MISSOURI  
Public Service Commission

D. Instrument Implemented Payphone Service

Instrument Implemented Payphone Service is offered for use with a customer provided pay telephone. All attachments of a customer provided instrument to the network must be made pursuant to the rules and regulations set forth in this Tariff and as required by State and Federal commissions.

E. Central Office (CO) Implemented Coin Line

1. Central Office Implemented Coin Line provides coin signaling. It is a line side connection from the local exchange switch to the point of demarcation at the customer premise.
2. Features are additives to the operation of a flat rate access line that provide for CO Implemented coin line service. The Company offers those features that are provided by the functionality of the Company's switches. These include coin supervision, coin control (collect and return of coins, if applicable), and answer supervision. CO implemented coin line features that are implemented by the functionality of an operator service provider, such as coin rating, coin refund, repair referral, and operator call screening, are the responsibility of the Payphone service provider (Customer).

3. CO Implemented Coin Line features, including coin line signaling, coin collect and return (where applicable) and answer supervision, are provided by the Telephone Company per the technology available from the Company's facilities. It shall be the responsibility of the CO Implemented Coin Line payphone owner to assure technical and operational compatibility with the coin line features offered by the Telephone Company.

F. Features and Functions

1. Answer Supervision provides signaling on the line notifying the line that the called party has answered. This feature is an additive to the CO Implemented Coin Line.
2. Coin Collection and Return provides an electrical signal on a CO Implemented Line indicating to the payphone equipment to collect coin(s) from or return coin(s) to the calling party. This feature is an additive to the CO Implemented Coin Line.
3. Customized Number Service is offered to the CO Implemented Coin Line or to the Instrument Implemented Payphone Service. For more information and rates refer to Section 10, Customized Number Service.
4. Selective Class of Call Screening will be provided where such facilities are available at the customer's option. Selective Class of Call Screening treatment enables the customer to restrict outgoing operator-handled calls, placed over the Telephone Company's network, from the service point to only those calls which are charged to a called telephone, a third number or a calling card.
5. Validation may be performed through Originating-Line Screening (OLS). OLS enables operator service providers to determine whether there are billing restrictions on the exchange access line from which a call originates. OLS service delivers codes on operator assisted calls to identify calls originating from privately owned payphones, inmate locations, and hotels/motels, etc. Rates for this service are found in the appropriate interstate access tariff, when facilities and service are available. The customer has the option to request either Selective Class of Call Screening or OLS.

A. General

1. Local Operator Service is furnished to customers upon their request in order to complete local calls.
2. There are five classes of local service offered: Busy Line Interrupt, Busy Line Verify, Calling Card, Operator Station Calls and Person-to-Person Calls. When operator assistance is required to complete a local call, the rates appearing in this Tariff will apply.
  - a. Busy Line Interrupt - The operator, at the request of the customer, will interrupt conversation on the line and inform the called party that an attempt to place a call to that line is being made.
  - b. Busy Line Verify - The operator, at the request of the customer, will determine the status of an exchange service line (e.g., conversation in progress) and report the status to the customer.
  - c. Calling Card - Customer dialed "0+" calls which are completed by the caller or completed by the operator that will be billed to the calling card instead of the telephone originating the call.
  - d. Operator Station Calls - Customer dialed "0-" calls where the operator completes the call and arranges billing. Can be billed to the originating telephone number, calling card, collect or to a third number. Includes operator placed calls to Directory Assistance.
  - e. Person-to-Person Calls - Customer dialed "0-" calls where the operator completes the call and arranges billing. Can be billed to the originating telephone number, calling card, collect or a third number.

B. Selective Class of Call Screening Service

1. Selective Class of Call Screening is an optional service available to the Company's local exchange service customers and is offered on a per line basis. The service is offered to provide customers with a choice of originating screening options. The screening provides information that will allow the restriction of originating operator-handled toll calls to be billed outgoing to a credit card, a third number or to the called party.

a. The customer will specify, at the time of the order, the restriction or restrictions desired. The customer may specify any combination of the following to restrict the billing of outgoing toll calls to:

- A Credit Card
- A Third Number
- Collect to the Called Number

b. This service provides for information designating the customer's line as having a requirement for special billing and defines these requirements for the operator.

c. The Company makes no guarantee and assumes no liability for the accuracy of Selective Class of Call Screening Service for calls outside the calling area. The customer agrees fully and completely to indemnify and save harmless the Company, its successors and assigns, from and against any and every claim, loss, damage, suit or liability arising out of the furnishing or failure to furnish Selective Class of Call Screening Service.

d. The minimum period for Selective Class of Call Screening Service is one month.

e. All local calls and calls to Company numbers, such as repair, Directory Assistance, and public emergency service numbers such as 9-1-1 will be permitted.

f. Selective Class of Call Screening Service is offered subject to the availability of suitable facilities.

C. Toll Blocking Service

1. Toll Blocking Service is a central office service that restrict one plus (1+), International (011+), zero plus (0+) and/or zero minus (0-) calling. Calls to 8XX IN-WATS will not be restricted (1+8XX+XXX-XXXX). Restricted calls are directed to a central office announcement. (T)
2. Two Toll Blocking Service options are available:
  - a. Option 1 - Restricts any direct dialed one plus (1+) or direct dialed International (011+) calls. This includes directory assistance (1+411, 1+555-1212, 1+NPA+555-1212). Option 1 also includes Originating Line Screening which allows outgoing intraLATA toll calls to be charged to the called telephone, a third number, or a credit card account. (T)
  - b. Option 2 - Restricts any direct dialed one plus (1+) or direct dialed International (011+) calls. This includes directory assistance (1+411, 1+555-1212, 1+NPA+555-1212). Option 2 also restricts any local or long distance zero plus (0+) or zero minus (0-) calls. If 9-1-1 service is not available in an exchange, zero minus (0-) calls will be restricted to local operator assisted emergency calls.
3. Toll Blocking Service will be provided to residence and business individual line customers. This service will not be provided on party lines, trunks or Digital Centrex Service lines.
4. Toll Blocking Service is offered to the availability of suitable facilities and is limited to central offices specifically equipped to provide this service.

CUSTOMIZED NUMBER SERVICE**MISSOURI**  
Public Service Commission

## A. General

1. Customers of the Company may request assignment of specific telephone numbers. If the telephone number or numbers requested by the customer are available, the Company may assign the number to the customer.
2. The Company will do its utmost to protect specific number assignments requested by the customer from changing. However, unavoidable circumstances may arise where the number assignment may need to be altered. In these instances, the Company reserves and retains the right:
  - a. To discontinue, change or reassign telephone numbers in any exchange area whenever it deems it necessary or appropriate in the conduct of its business, or in accordance with the rules and procedures of the Company. If this should occur, the Customized Number Service Charge will not be refunded to the customer.
  - b. To reject any request for specific telephone numbers for any reason, including but not limited to: relocation of a central office, limited central office capacity, or numbers that may, in the Company's sole opinion, be offensive to the public.
  - c. Of ownership of all telephone numbers and prohibits the assignment of a telephone number by or from any customer to another, except as otherwise provided in this Tariff.

## B. Conditions

1. The Customized Number Service charge applies whenever a customer:
  - a. Requests a telephone number other than the next available number from the allocation list, and such requested number is placed into service within six months of the date of the request.
  - b. Requests a number change from their present number to a customized telephone number.

DIRECT INWARD DIALING SERVICE (DID)

MISSOURI  
Public Service Commission

A. General

1. Direct Inward Dialing Service to customer premises located switching systems is furnished subject to the availability of facilities and the availability of telephone numbers.
2. The service includes the central office switching equipment necessary for direct inward dialing from the exchange and long distance message telecommunications network directly to terminal equipment associated with customer premises located switching systems.
3. The service must be provided on all lines in a trunk or network access line group arranged for inward service. Routing of calls to selected numbers within the direct inward dialing number group over a separate trunk or network access line group is not contemplated.
4. The charges for the service, as provided in B. Rates following, are in addition to all applicable charges for PBX/PABX service with which this service is associated and the applicable network access line and service charges.
5. Operational characteristics of interface signal between the Company-provided connecting arrangements and the customer-provided switching equipment must conform to the rules and regulations the Company considers necessary to maintain proper standards of service.
6. The Company shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations or procedures of the Company render any facilities provided by a customer, authorized user or joint user obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.
7. Direct-in-dial Trunks may be provided in the quantity determined by the Company to be sufficient for adequate service, only in exchanges where the Central Office is equipped for such service. When otherwise provided, Direct-in-dial Trunks will be furnished at rates based on cost.

EMERGENCY CONFERENCE SERVICE

MISSOURI  
Public Service Commission

A. General

1. Emergency Conference Service is furnished in the interest of the public safety by means of equipment located in a central office of the Company. These Conference/Alerting Systems are multistation ringdown telephone conference circuits designed primarily for use in local emergency reporting and alerting applications. These systems provide simultaneous access to up to 60 local stations either from a dedicated telephone (i.e., a "master" station) or from any local telephone via a listed directory number.
2. The systems, in their reporting and alerting capacities, provide volunteer firemen and other emergency teams with emergency conferencing capabilities.

B. Conditions

1. This service will normally be furnished in connection with individual line service. At the option of the Company when equipment and facilities permit, service may be furnished to party-line customers.
2. Emergency Conference Service will be contracted for a minimum service period of five years.
3. Such Emergency Conference equipment is not to be used for performing any function other than the reporting or dissemination of information of an emergency nature.
4. Service Charges apply in addition to the nonrecurring charges.
5. To expand from one system to the next system, i.e. Type 10 to Type 20, the customer will be charged the difference between their previously paid nonrecurring charge and the new nonrecurring charge.

FOREIGN EXCHANGE SERVICE**MISSOURI  
Public Service Commission**

## A. General

1. Foreign Exchange Service is exchange service furnished to a customer from an exchange other than the one in which he is located.
2. Foreign Exchange Service does not come within the Company's general undertaking, nor does the Company obligate itself to furnish such service generally, but will do so where facilities of such a character are available as will permit satisfactory telephone transmission. It will not be provided when there may be a resulting impairment of service or when undue expense is involved.

## B. Conditions

1. Foreign Exchange Service is offered between all exchanges of this Company and other companies located within the same LATA. It will be furnished jointly with other companies only when those companies agree to furnish service in accordance with the provisions contained in this tariff.
2. Only individual central office access line, PBX or Key trunk foreign exchange service is furnished.
3. Off-premises services will be furnished in accordance with the tariff provisions of the local exchange, providing facilities and operating conditions permit. Off-premises service will be furnished only for the use of the foreign exchange customer.
4. If the customer is located outside of the Base Rate Area zone or mileage rates are applicable.
5. Calls beyond the local calling area of the service exchange will not be permitted. Local calling area is considered to be the line terminations served by the serving exchange, plus any extended area service which may be provided from the serving exchange.
6. Customers to Foreign Exchange service are required to take access service from the local exchange of which service would normally be rendered.
