*The following features are available to Customers where services and facilities permit.*

(N)

**A. Call Return**

Allows the Customer to return a call to the last incoming call whether answered or not. Upon activation, it will re-dial the number automatically and continue to check the number every 45 seconds for up to 30 minutes if the number is busy. The Customer is alerted with a distinctive ringing pattern when the busy number is free. When the Customer answers the ring, the call is then completed. The calling party's number will not be delivered or announced to the call recipient under any circumstances. *Call Return is available on either a flat monthly rate or on a usage-sensitive basis, where facilities are available.*

(N)

(N)

**B. Repeat Dialing**

Permits the end-user to have calls automatically re-dialed when the first attempt reaches a busy number. The line is checked every 45 seconds for up to 30 minutes and alerts the Customer with a distinctive ringing pattern when the busy number and the Customer's line are free. The Customer can continue to make and receive calls while the feature is activated. The following types of calls cannot be reached using Repeat Dialing:

Calls to 800 Service number  
Calls to 900 Service number  
Calls preceded by an interexchange carrier access code  
International Direct Distance Dialed calls  
Calls to Directory Assistance  
Calls to 911

*Repeat Dial is available on either a flat monthly rate or on a usage-sensitive basis, where facilities are available.*

(N)

(N)

**C. Call Trace**

Call Trace enables a Customer to initiate a trace of the origin of the last incoming call by dialing an activation code. If a trace is successful, the Company's equipment will record the incoming call detail (date, time, telephone number). The results of the trace will be disclosed to a law enforcement agency. Call Trace is available where facilities permit.

REC'D JUL 08 2003

6.1 Optional Calling Features (Continued)6.1.1 Feature Description (Continued)C. Caller ID with Name and Number (Continued)

(M)

Any Customer subscribing to Caller ID will be responsible for the provision of a display device that will be located on the customer's premises. The installation, repair, and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of the customer. Sprint assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

Telephone Calling Party Number (CPN) information transmitted via Caller ID is intended solely for the use of the Caller ID subscriber. Resale of this information is prohibited by this Tariff. CPN will be displayed for calls made from another central office only if it is linked by appropriate facilities. Caller ID is not available on operator-handled calls. In areas where Caller ID with Name is not available, Caller ID, which only displays the caller's telephone number, will be substituted.

D. Call Waiting with Caller ID

Call Waiting with Caller ID provides a tone signal to indicate to a Customer already engaged in a telephone call that a second caller is attempting to dial in and allows a Customer to see a caller's name and number previewed on a display screen allowing a Customer to prioritize and/or screen incoming calls. This feature permits the Customer to place the first call on hold, answer the second call, and then alternate between both callers. Cancel Call Waiting (CCW) allows a Call Waiting (CW) Customer to disable CW for the duration of an outgoing telephone call. CCW is activated (i.e., CW is disabled) by dialing a special code prior to placing a call, and is automatically deactivated when the Customer disconnects from the call. In areas where Caller ID with Name is not available, Caller ID, which only displays the caller's telephone number, will be substituted.

It will also permit the Customer to place the first call on hold, answer the second call and then alternate between both callers. Cancel Call Waiting (CCW) allows a Call Waiting (CW) Customer to disable CW for the duration of an outgoing telephone call. CCW is activated (i.e., CW is disabled) by dialing a special code prior to placing a call, and is automatically deactivated when the Customer disconnects from the call.

P. Speed Dial 30

Permits the Customer to place calls to up to thirty telephone numbers by dialing a code rather than the complete telephone number.

Q. Caller ID

Allows a customer to view, on a customer provided display unit, the calling party directory name and/or calling party number on incoming telephone calls.

1. Caller ID-Number – Allows a customer to view the Calling Party Number (CPN) on a customer-provided display unit.
2. Caller ID-Name and Number – Allows a customer to view, on a customer-provided display unit, the Calling Party Directory Name and Number on incoming telephone calls.

Any customer subscribing to Caller ID will be responsible for the provision a display device that will be located on the customer's premises. The installation, repair, and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of the customer. Sprint assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

**6. Miscellaneous Services and Rates (Continued)****6.1 Optional Calling Features (Continued)****6.1.1 Feature Description (Continued)****W. Selective Call Rejection**

*Allows a Customer to block incoming calls from a pre-selected list and/or the last incoming call, even if the number is not known. Unknown numbers may be added to the pre-selected list by entering a code after receiving the call. This service is available where facilities exist and where technologically and economically feasible. Blocked calls are routed to a recorded announcement which specifies that the called party is not accepting calls. Diverted callers will not be billed for intraLATA toll charges.*

**X. Selective Call Acceptance**

*Selective Call Acceptance - an arrangement that allows a subscriber to selectively accept only calls arriving from a list of up to 31 previously identified directory numbers. A call will only be accepted when it is received from a telephone number that matches one of up to 31 numbers on the Selective Call Acceptance list. Calls from telephone numbers that do not match one of the 31 numbers on the Selective Call Acceptance list will be routed to an announcement stating that the called party does not wish to receive the call. If the incoming call is from a telephone number in a multi-line hunt group, this feature will not work unless the number is the main telephone number in the group, or each terminal has a unique telephone number associated with it within the group. The Selective Call Acceptance list is a list created by the Selective Call Acceptance subscriber, through an interactive dialing sequence, and can be altered at the subscriber's discretion. This feature can be activated or deactivated at the subscriber's discretion.*

*An arrangement that allows a subscriber to selectively forward incoming calls from a list of up to 31 previously identified directory numbers to a remote destination number. Calls that terminate on a line with this feature are forwarded only if the call is received from a telephone number that matches one of up to 31 numbers on the Selective Call Forward list. If the incoming call is from a telephone number in a multi-line hunt group, this feature will not work unless the number is the main telephone number in the group, or each terminal has a unique telephone number associated with it within the group. The Selective Call Forward list is a list created by the Selective Call Forward subscriber, through an interactive dialing sequence, and can be altered at the subscriber's discretion. This feature can be activated or deactivated at the subscriber's discretion. Calls may be forwarded to a number within the subscriber's home exchange or Local Calling Area or to a long distance message telecommunications point subject to the availability of the necessary facilities in the central office from which the calls are to be transferred. Due to transmission limitations, it is recommended that calls be transferred only within the Customer's Local Calling Area. This feature is available where facilities permit on an individual feature basis or any combination thereof.*

**Z. Selective Call Ring**

*An arrangement wherein certain terminating calls are identified at the called station by a distinctive ring. This allows the Selective Call Ring subscriber to recognize who is calling by use of the distinctive ring. If the Selective Call Ring subscriber also has call waiting and is using his line, and then he will be alerted to a Selective Call Ring call by a distinctive call waiting tone. The distinctive ring or call waiting tone is activated when a call is received from a telephone number that matched one of up to 31 numbers on the Selective Call Ring list. If the incoming call is from a telephone number in a multi-line hunt group, this feature will not work unless the number is the main telephone number in the group, or each terminal has a unique telephone number associated with it within the group. *Permits the Customer's calls to be automatically forwarded by the central office equipment to a predetermined number over local or long distance facilities. The terminating locations must have the capacity to accept incoming calls. Remote Call Forwarding is offered where economically and technologically feasible. This feature will not be offered to locations which terminate the calls in a coin telephone instrument. Caller ID is not available to Remote Call Forwarding subscribers. Transmission quality may vary depending upon the distance and routing necessary to complete the forwarded call, therefore, may not be suitable for data transmissions. A Change Order - Subsequent Charge applies for each change of a telephone number associated with Remote Call Forwarding.*

**BB. Sprint Talking Call Waiting<sup>SM</sup>**

*Sprint Talking Call Waiting<sup>SM</sup> allows Customers to know who is calling while they are on the telephone with another party. Sprint Talking Call Waiting<sup>SM</sup> enhances Call Waiting by allowing the Customer to hear the name associated with the directory listing of the calling number after hearing the call waiting tone while the Customer is on the line, unless the message is suppressed via Caller ID Blocking or unless the calling and called parties are not connected via SS7 facilities, or the number is not passed by the calling party's service provider, or the calling party's number is not associated with a name in the database. Available names will be voiced to the subscriber. If the name is not available, the terms "private" or "unavailable" will be voiced in the appropriate situation. The term "private" is voiced if the caller has suppressed the delivery of name and number using per-line or per-call blocking. The term "unavailable" is voiced if the calling and called parties are not connected via SS7 facilities, or the number is not passed by the calling party's service provider, or the calling party's number is not associated with a name in the database. Sprint Talking Call Waiting subscribers will hear a call waiting tone and the name of the calling party, if available, on an incoming call. The subscriber then presses the switch hook or flash button to place the current call on hold and talk to the call waiting party. Customers must subscribe to Call Waiting or any package containing Call Waiting feature in order to subscribe to Sprint Talking Call Waiting<sup>SM</sup>. Service Connection Charges for the initial establishment of telephone service are payable with the first bill rendered for service.

6.2.1 Service Order Charges - Nonrecurring Service Connection Charges apply to processing Service Orders for new service and for changes in service, as specified following:

Primary Service Connection Charge - applies to the establishment of service, per location, per occasion. The charge is for receiving, recording and processing information necessary to execute a Customer's request for service and for initial connection or establishment of service.

Secondary Service Connection Charge - applies to the second or additional line of a new access line installation and connection and Customer requests for an inside move, change or addition to regular service. This charge applies only when the second or additional line is ordered simultaneously with the initial connection for service.

Transfer of Service Charge, Primary Line - applies to the first line of a Transfer of Service (TOS) Order, when a Customer requests a move or change in physical location. This charge applies whether a Customer changes telephone number or not. If, in addition, the Customer requests the telephone number be changed, a separate charge may apply.

Transfer of Service Charge, Secondary Line - applies to the second, or third, etc., line of a Transfer of Service (TOS) Order, when a Customer requests a move or change in physical location. This charge applies whether a Customer changes telephone number or not. If, in addition, the Customer requests the telephone number be changed, a separate charge may apply.

Secondary Service Connection Charge - applies to the second or additional line of a new access line installation and connection and customer requests for an inside move, change or addition to regular service. This charge applies only when the second or additional line is ordered simultaneously with the initial connection for service.

Transfer of Service Charge, Primary Line - applies to the first line of a Transfer of Service (TOS) Order, when a customer requests a move or change in physical location. This charge applies whether a customer changes telephone number or not. If, in addition, the Customer requests the telephone number be changed, a separate charge may apply.

Transfer of Service Charge, Secondary Line - applies to the second, or third, etc., line of a Transfer of Service (TOS) Order, when a customer requests a move or change in physical location. This charge applies whether a customer changes telephone number or not. If, in addition, the Customer requests the telephone number be changed, a separate charge may apply.

## LOCAL EXCHANGE SERVICES

Missouri Public  
Service Commission

REC'D DEC 30 2002

5. Miscellaneous Services and Rates (Continued)5.5 Listing Services

For each Customer of Company-provided Exchange Service(s), one listing (Initial Listing) without charge for each Local Exchange Service access line, to be published by the dominant Local Exchange Carrier in the area at no charge. At a Customer's option, the Company will arrange for additional listings for an additional charge.

5.5.1 Non-Published Service

Non-Published Service provides for suppression of printed and recorded directory listings. A Customer's name and number do not appear in printed directories or Directory Assistance records. The telephone numbers of Non-Published Service or the Name and Billing Address that correspond to a non-published number may be divulged in the following instances:

1. First, in the interest of public safety, where a government agency subscribes to Enhanced Universal Emergency Telephone Number Service (E911) the telephone number and address, but not the name, of a customer with non-published service will be displayed when the customer dials 911 to a government employee at a console at a Public Safety Answering Point for dispatch of emergency service.
2. Second, the billing name and address that correspond to a non-published telephone number will be furnished to a subscriber to Billing Name and Address (BNA) Service if the customer with the non-published service makes a call that uses the service of the BNA subscriber.

5.5.2 Non-Listed Service

Non-Listed Service provides for suppression of printed directory listings only. Parties may still obtain the Customer's number by calling Directory Assistance.

6.5.8 Extra Listing

Where available, a listing in a telephone directory which is not in the Customer's immediate calling area.

6.5.9 Extra Line Listing

An extra line listing may be provided in the directory if it facilitates the use of telephone service. An extra line consists of five words or any fraction thereof. Ordinarily, an extra line will be provided only when a customer has more than one listed telephone. When a customer needs more than five words to properly direct calls, he may arrange for two or more extra lines.

6.9 SPRINT VOICE COMMAND<sup>SM</sup> For Your Home Phone

(T)

6.9.1 Description

(T)

SPRINT VOICE COMMAND<sup>SM</sup> For Your Home Phone is a voice activated dialing application which provides consumers a web based solution for voice dialing contacts and accessing and storing a personal address book. Customers must be presubscribed to Sprint Long Distance Service. The service will not change a Customer's basic local service provider.

To access this service, a customer must first dial an access code. After accessing the service, customers can place these calls by speaking the number or destination/name from the customer's personal directory. The system will repeat the number or name/destination to the customer, for confirmation, and will then place the call to the selected destination.

6.9.2 Use of Service

(T)

Once the customer says a number, name or destination, the system will activate and dial the appropriate telephone number. Calls outside the customer's local calling area will be subject to long distance charges pursuant to Sprint Communications L. P. Mo. P.S.C. Tariff P.S.C. No. 2. This service is only available where technically feasible. A Monthly Recurring Charge applies.

Selective Call Screening is designed to restrict certain types of billing from a line that originates a call. The screening is designed to inform the operator services provider about special characteristics with the line. Under this arrangement, the operator services provider processes the operator-assisted, and/or operator-handled, and/or automated operator-assisted originating call so that the call will conform to one of the allowable types of billing, which could be those which conform only to billing as collect, billed to a third number, or billed to a calling card.

**6.16.2 Regulations**

- A. The Company assumes no liability for calls completed by any other entity or carrier or operator services provider as long as the screening code accompanies the call forwarded to the other entity. The Company is responsible for properly handling calls, which are selectively screened and are not carried over any other entity's network or facilities.

**7. Promotional Offerings (Continued)****Term Discount Promotion II**

Beginning March 1, 2005, business customers may be eligible for a discount when they subscribe to Sprint Integrated Local Services. To be eligible, customers who are contacted by Sprint or who contact Sprint and request this promotion must subscribe to Sprint Integrated Local Services for a one-year, two-year, three-year commitment period.

Eligible customers who subscribe to Sprint Integrated Local Services during the promotion period, will receive one of the following discounts off the monthly recurring charges ("MRC") associated with the applicable Sprint Integrated Local Service. The discount will be applied for the duration of the customer's commitment period.

<u>Term</u>	<u>Discount</u>
One Year	5%
Two Years	10%
Three Years	15%

The discount levels apply only to the MRC for Sprint Integrated Local Services as described in this Tariff and to the MRC for all optional services and features ordered from other sections of this Tariff in conjunction with Sprint Integrated Local Services. Discounts do not apply to CPE, maintenance, or usage based charges of any kind (Long Distance, Directory Assistance and Operator Assistance). No discounts apply for charges billed pursuant to federal or state long distance tariffs, additional data services, non-regulated services, Sprint PCS services, taxes, late payment charges, charges collected on behalf of municipalities, (including but not limited to services for 911 service and dual party relay services), and charges for services provided by other companies.

Customers who discontinue their services prior to the end of their commitment period will be billed an amount equal to the difference between the charges before the promotion discounts were applied and the amount actually billed, in addition to termination liability charges. These charges will be applied on the Customer's final bill. This promotion may not be combined with any special pricing arrangements for Sprint Integrated Local Services. **LOCAL EXCHANGE SERVICES****7. Promotional Offerings (Continued)****Term Discount Promotion II**

Beginning March 1, 2005, business customers may be eligible for a discount when they subscribe to Sprint Integrated Local Services. To be eligible, customers who are contacted by Sprint or who contact Sprint and request this promotion must subscribe to Sprint Integrated Local Services for a one-year, two-year, three-year commitment period.

Eligible customers who subscribe to Sprint Integrated Local Services during the promotion period, will receive one of the following discounts off the monthly recurring charges ("MRC") associated with the applicable Sprint Integrated Local Service. The discount will be applied for the duration of the customer's commitment period.

<u>Term</u>	<u>Discount</u>
One Year	5%
Two Years	10%
Three Years	15%

The discount levels apply only to the MRC for Sprint Integrated Local Services as described in this Tariff and to the MRC for all optional services and features ordered from other sections of this Tariff in conjunction with Sprint Integrated Local Services. Discounts do not apply to CPE, maintenance, or usage based charges of any kind (Long Distance, Directory Assistance and Operator Assistance). No discounts apply for charges billed pursuant to federal or state long distance tariffs, additional data services, non-regulated services, Sprint PCS services, taxes, late payment charges, charges collected on behalf of municipalities, (including but not limited to services for 911 service and dual party relay services), and charges for services provided by other companies.

Customers who discontinue their services prior to the end of their commitment period will be billed an amount equal to the difference between the charges before the promotion discounts were applied and the amount actually billed, in addition to termination liability charges. These charges will be applied on the Customer's final bill. This promotion may not be combined with any special pricing arrangements for Sprint Integrated Local Services. Subscription to this promotion is available through August 31, 2005, unless it is sooner changed or canceled by Sprint.

**LOCAL EXCHANGE SERVICES****7. Promotional Offerings (Continued)****Service Level Agreement (SLA) - Installation Interval Promotion**

(N)

Beginning April 6, 2005, new business customers may be eligible to receive a credit on their bill for certain Non-recurring Charges and/or Service Connection Charges. To be eligible, new business customers who contact Sprint and request this promotion must subscribe to a Sprint Integrated Local Service under a one-year, two-year or three-year commitment period. This SLA provides a credit to eligible business customers should the Company fail to meet its Installation Interval Commitment (45 business days) associated with the installation of Sprint Integrated Local Services for orders placed on or after April 6, 2005.

When an eligible customer believes Sprint has failed to meet its Installation Interval Commitment and the eligible customer contacts its Sprint Representative in writing within fifteen business days of the missed Installation Interval Commitment, the Company, upon verification that the actual installation interval is more than the committed installation interval, will arrange for the following credit:

<b>Installation Interval Delay- Installation exceeds 45 business days or customer requested installation date; which ever is greater</b>	<b>Non-recurring Installation Charge Credit</b>
1-15 business days late	25%
16-30 business days late	50%
Over 31 business days late	100%

The credits apply only to the Non-recurring Installation Charges for Sprint Integrated Local Services as described in this tariff. One credit will apply per customer request when an Installation Interval is missed. A customer request includes all the service(s) that are to be installed on the same date for the same service and under the same request. This SLA is limited to one credit per customer order; that is, a subsequent missed installation interval date for the same installation is not eligible for an additional credit. The credit will be applied on the customer's next monthly invoice for the affected service

Credits do not apply to: 1) commitments missed during or following a natural disasters, labor difficulties, governmental orders, civil commotions, cable cuts or circumstances beyond the control of the Company; 2) temporarily or permanently discontinued service due to nonpayment of bills; 3) situations when access to a customer's premises was required and neither the customer nor a customer representative was available to provide access to the customer's premises; 4) missed commitments that are the result of delays in the delivery of Customer Premise Equipment (CPE); 5) an installation that cannot be completed due to lack of facilities available from the underlying Local Exchange Carrier; and, 6) missed installations due to incomplete or missing information at the time the order was executed.

Subscription to this promotion is available for Sprint Integrated Local Service orders placed through December 31, 2005, unless it is sooner changed or canceled by Sprint.

**LOCAL EXCHANGE SERVICES****7. Promotional Offerings (Continued)****Service Level Agreement (SLA) - Repair Commitment Promotion**

(N)

Beginning April 6, 2005, new business customers may be eligible to receive a credit of their monthly recurring charges ('MRC'). To be eligible, new business customers who contact Sprint and request this promotion must subscribe to a Sprint Integrated Local Service under a one-year, two-year or three-year commitment period. This SLA provides a credit to eligible business customers should the Company fail to meet its commitment to repair Sprint Integrated Local Services within the appointed timeframe associated with a service outage reported on for customers subscribing to a one, two or three year agreement on or after April 6, 2005.

When an eligible customer believes Sprint has failed to meet its Repair Commitment and the eligible customer contacts its Sprint Representative in writing within fifteen business days of the missed repair commitment, the Company, upon verification that the actual repair commitment is longer than the Repair Committed, will arrange for the following credit:

<b>Dispatch Required</b>	<b>Commitment Period</b>	<b>MRC - Service Credit</b>
On-site dispatch not required	Within 4 hours	1.5 days of the MRC for services affected
On-site dispatch required	Within 8 hours	1.5 days of the MRC for services affected

The credit applies to the Monthly Recurring Charges for Sprint Integrated Local Services as described in this tariff. Service credits issued in any month will not exceed 100% of the Customer's total MRC for the affected service. This SLA is limited to one credit per Repair Commitment. The credit will be applied on the customer's next monthly invoice for the affected service.

Repair Commitment credits will not apply to: 1) commitments missed during or following a natural disaster, labor difficulties, governmental orders, civil commotions, cable cuts or circumstances beyond the control of the Company; 2) temporarily or permanently discontinued service due to nonpayment of bills; or, 3) situations when access to a customer's premises was required and neither the customer nor a customer representative was available to provide access to the customer's premises.

Subscription to this promotion is available for Sprint Integrated Local Services service outages reported through December 31, 2005, unless it is sooner changed or canceled by Sprint.
