

No supplement to this tariff will be issued except for the purpose of cancelling this tariff.

RULES AND REGULATIONS

D. Access for Service

1. Right of Way

Before service is connected, the customer shall, when requested by the Company, at his expense, make or procure conveyance to Company of necessary easements for proper location upon premises owned or occupied by customer of Company's lines and facilities employed in serving the customer.

2. Access to Customer's Premises:

Authorized employees of the Company shall have access to the premises of the customer at all reasonable times to read (Company's meters measuring service to customer), to test the customer's metering or to inspect the customer's equipment or connections, or to repair, replace or remove Company property.

E. Type of Service

1. More Than One Point of Delivery:

Where service is rendered at more than one point of delivery or for more than one class of service except where necessitated by the Company's facilities, each shall be billed separately.

2. More Than One Customer:

In case service is rendered at one point of delivery to more than one individual customer, or to more than one location, address, establishment, or interconnected structure, the size of each rate block preceding the final block of the applicable rate schedule shall be multiplied by the number of above described premises so served.

3. Extensions to Fire Hydrants:

Extensions to provide service to public fire hydrants are made only upon order issued by the city and under conditions set forth in the existing municipal water service agreement.

4. Use of Fire Hydrants:

Public fire hydrants shall not be used by any person or persons other than members of the City Fire Department, and then only for the legitimate purpose of extinguishing fires, except on written consent of the Company.

5. Resale of Service:

Except where specifically provided by applicable schedule or special contract, no customer shall resell, redistribute or submeter, either directly or indirectly, to any person any service supplied to customer by Company.

F. Termination of Service

Notice of termination must be given by the customer+. Customer will be responsible for payment for all service used by him until final meter readings of meters are made. Customer shall not, by such notice, be relieved of any accrued obligations under service contract and applicable rate schedule.

G. Advanced Metering Infrastructure (AMI) Opt-Out

Customers receiving Residential Service have the option of refusing the installation of remotely read metering or requesting the removal of previously installed remotely read metering. In such instances, non-standard metering equipment will be installed that requires a manual meter read. Customers requesting non-standard metering service after April 1, 2020, will be charged a one-time setup charge per meter. For all customers requesting non-standard metering services, a monthly recurring Non-Standard Meter Charge will apply. Charges are listed on the Other Service Charges, Schedule OSC.

For customers that chose to opt-out prior to the AMI meter being set (i.e., there is no additional visit to the premises to install a non-communicating meter): the one-time setup fee would not be assessed because there was no new meter set required, but the ongoing monthly fee would still be applicable.

In circumstances where a customer has multiple meters located at the same premises, the monthly Non-Standard Meter Charge will apply to the first meter, and the monthly Non-Standard Subsequent Meter Charge will apply to all additional meters of that customer located on the same premises.

In the normal course of business, Company replacement of meters may occur. To the extent that a customer denies, either through physical impediments, verbal denial or threats of violence, access to property or metering installation, or fails to establish a suitable time for access, customers will be notified, in writing, that failure to provide access will result in customer being considered an opt-out customer not sooner than 30 days after Company's notice. Company's notification will include information for the customer to understand the financial impact of the opt-out status.
