G. 900 BLOCKING SERVICE

(N) A. GENERAL

900 Blocking Service provides business and residence access line customers the ability to block access from a particular network access line to all telephone numbers for which the 900 NPA must be dialed.

(N) B. CONDITIONS

1. 900 Blocking Service is offered only to customers served by a central office equipped to provide this service.
2. 900 Blocking Service blocks access to all 900 telephone numbers from a particular network access line. It is not capable of blocking access to a specific 900 telephone number.
3. The minimum contract period for this service is one month.
4. Customers who wish to discontinue 900 blocking service must make their request in writing.

GENERAL EXCHANGE SERVICE TARIFFS

MISCELLANEOUS SERVICES AND FACILITIES (CONT'D)

I. Reserved for future use.

J. Special Construction and Facilities

The Telephone Company will provide an estimate of actual charges to the customer prior to the start of construction.

The customer will provide the Company without charge written permission for the placing of the Company's facilities on the property.

Where no facilities are in place, the Company will build and extend facilities at prices to be determined on an individual case basis.

Ownership of all facilities constructed under this section up to the demarcation point will remain with the Telephone Company.

Special Construction is that construction undertaken:

1. where facilities are not presently available, and there is no other requirement for the facilities so constructed;
2. of a type other than that which the Company would normally utilize in the furnishing of its services;
3. over a route other than that which the Company would normally utilize in the furnishing of its services;
4. in a quantity greater than that which the Company would normally construct;
5. on an expedited basis;
6. on a temporary basis until permanent facilities are available;
7. in advance of its normal construction;
8. involving abnormal costs.

Where the Company furnishes a facility on a special construction basis, charges will be based on the costs incurred by the Company and may include: (1) partial or full payment in advance; (2) non-recurring type charges; (3) recurring type charges for contract periods longer than one month; (4) termination liabilities; or (5) combinations thereof.

(N)

(N)

GENERAL EXCHANGE SERVICE TARIFFS

MISCELLANEOUS SERVICES AND FACILITIES (CONT'D)

K. Extension Stations.

Detached extension stations are provided upon customer request on the customer's premises or at off-premises locations only if facilities are available. Customers may be required to reimburse the Company for a portion of the construction costs according to the rules and regulations as specified in Special Construction Charges section of this Tariff. In the case of off-premise extensions, primary exchange service must be established at the same location as the detached extension.

- Extension service is not available if cable route is over 500 feet.
- Extension service is not available where facilities must be bridged/joined in the Central Office.

(N)
(D)
(D)

Mileage charges apply for each extension station that is located in a different building on the same premise and over one hundred fifty feet (150') from the main station and for all off-premise extension outlets.

See "Mileage Charges" section of this Tariff below for applicable rates.

L. Mileage Charges

Mileage rates apply for extending standard voice grade intra-exchange service between locations on the same premises, or between premises where adequate facilities exist. The rates and charges contained herein are in addition to all other applicable rates and charges located in other parts of this tariff, such as Special Construction.

Detached Extension Mileage

Below is the rate for a detached extension, airline mileage measurement via the central office if that route is necessary.

		<u>Monthly Rates*</u>
a.	Between buildings on different premises	
	First ¼ mile or fraction thereof	\$4.00
	Each additional ¼ mile	\$2.00
b.	Between buildings on the same premises	
	First ¼ mile or fraction thereof	\$2.00
	Each additional ¼ mile	\$1.00

GENERAL EXCHANGE SERVICE TARIFFS
OPTIONAL SERVICES AND FEATURES

RECEIVED

A. Description

FEB 28 1997

Optional Services and Features are services which provide special features from exchange areas where the central offices are appropriately equipped, and are in addition to basic telephone services. (N)

MISSOURI
Public Service Commission

The rate and charges for these features are in addition to all other applicable rates and charges in other parts of this tariff.

1. Feature Descriptions

Automatic Callback

Repeat Dialing, when activated, automatically redials the last number the customer attempted to call. If the called line is not busy, the call will be placed. If the called line is busy, a confirmation announcement is heard, the customer hangs up and a queuing process begins. For the next 30 minutes, both the calling and called lines are checked periodically for availability to complete the call. If during the queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place the call. When the customer picks up the telephone, the call will automatically be placed.

Automatic Recall

This feature enables a customer to place a call to the telephone number associated with the most recent call received, whether or not the call was answered or the number is known. The customer can dial a code to request that the network place the call.

If the called line is not busy, the call is placed. If the called line is busy, a confirmation announcement is heard, the customer hangs up, and a queuing process begins. For the next 30 minutes, both the calling and the called lines are checked periodically for availability to complete the call. If during this queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place the call. When the customers picks up the telephone, the call will automatically be placed.

Call Forwarding

Permits a subscriber to have all incoming calls forwarded to another preselected number. Calls may be transferred to any other location providing the necessary facilities are available in the central office from which the calls are to be transferred. Customers utilizing this service are responsible for the payment of each toll call charge that may be incurred.

Call Waiting

Permits a subscriber to who is using the telephone to be alerted that another call is waiting by receiving an audible tone signal. The called party may put the existing call on hold and connect to the waiting call.

1. Feature Descriptions (Continued)

Calling Number Identification

MO. PUBLIC SERVICE COMM
Public Service Commission

(T)

This feature enables the customer to view on a display unit the Directory Number (DN) on incoming telephone calls.

When Caller ID is activated on a customer's line, the Directory Numbers of incoming calls are displayed on the called CPE during the first long silent interval of the ringing cycle.

Any GREEN HILLS TELEPHONE CORP. calling party may prevent the delivery of the calling party number (CPN) to the called party by dialing an access code immediately prior to placing a call. The access code activates per call blocking. Per call blocking is available at no charge. The blocking of CPN will not be provided on calls originating from public, semi-public or customer-owned and coin operated telephone.

Per line blocking for the delivery of the calling number is available upon request, at no charge, to the following entities for lines over which the official business of the agency is conducted, where an executive officer of the agency registers a need for blocking and provides the required certification to GREEN HILLS TELEPHONE CORP. (a) private, nonprofit, tax exempt, domestic violence intervention agencies and (b) federal, state, and local law enforcement agencies. The calling number will not be transmitted from a line equipped with this capability. Per line blocking is operational on a continuous basis but can be deactivated by the customer by dialing an access code immediately prior to placing a call.

Any customer subscribing to Caller ID will be responsible for the provision of a display device which will be located on the customer's premises. The installation, repair, and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

Caller ID - Name and Number

This feature enables the customer to view on a display unit the Name, as well as the Directory Number (DN), associated with the calling party on incoming telephone calls.

When Caller ID - Name and Number is activated on a customer's line, the Name associated with the Directory Number of a incoming call is displayed on the called CPE during the first long silent interval of the ringing cycle.

If the calling telephone number and name are not available for forwarding to the called party, a message indicating unavailability will be forwarded.

A. Description (Continued)

SEP 30 1997

1. Feature Descriptions (Continued)

MO. PUBLIC SERVICE COMM

Customer Originated Trace

Customer Originated Trace enables the customer to initiate an automatic trace of the last call received.

Upon activation by the customer, the network automatically sends a message to the Company indicating the calling number, the time the call was received, and the time the trace was activated. The customer using this feature would be required to contact the local business office for further action. The customer is not provided the traced number. The results of a trace will be furnished only to legally constituted authorities upon proper request by them.

Only calls from appropriately equipped and technically capable area are traceable using Customer Originated Trace.

This feature will not work if the incoming call is from a telephone number in a multi-line hunt group, unless the telephone number is the main telephone number in the hunt group, or is Telephone Number identified.

If the customer makes or receives another call after hanging up from the annoying call, prior to activating the trace, Customer Originated Trace will not record the correct number.

Selective Call Acceptance

This feature provides the customer the ability to screen incoming calls against a list of up to thirty-one subscriber-specified directory numbers and then accepts any calls only from those specified directory numbers.

A screening list is created by the customer either by adding the last number associated with the line (incoming or outgoing), or by pre-selecting the telephone numbers to be accepted. When a call is placed to the customer's number from a number not on the screening list, the call receives an announcement indicating that the party he is attempting to call does not wish to receive calls at this time.

This feature will not work if the incoming call is from a telephone number in a multi-line hunt group, unless the telephone number is the main telephone number for the hunt group, or is telephone number identified.

Selective Call Forwarding

Selective Call Forwarding allows the customer to transfer selected calls to another telephone number. A screening list of up to thirty-one numbers is created by the customer and placed in the network memory via an interactive dialing sequence. Subsequently, calls are forwarded to the Call Forwarding telephone number only if the calling number can be obtained and is found to match a number on the screening list.

A. Description (Continued)

SEP 30 1997

1. Feature Descriptions (Continued)

MO. PUBLIC SERVICE COMMISSION

Selective Call Forwarding (Continued)

If the customer also subscribes to Selective Call Rejection and the same telephone number is entered on both screening lists, the Selective Call Rejection features must be deactivated to allow the call to forward.

This feature will not work if the calling line is not referenced to and originated by the main telephone number, or an identified telephone number that represents all the lines in a collection of lines such as multi-line hunt groups.

Selective Call Rejection

This feature provides the customer the ability to prevent incoming calls from up to thirty-one different telephone numbers.

A screening list is created by the customer either by adding the last number associated with the line (incoming or outgoing), or by pre-selecting the telephone numbers to be blocked. When a call is placed to the customer's number from a number on the screening list, the caller receives an announcement indicating that the party he is attempting to call does not wish to receive calls at this time.

If the customer also subscribes to Selective Call Forwarding and/or Selective Distinctive Ringing \ Call Waiting and the same telephone numbers appear on those screening lists, Selective Call Rejection will take precedence.

This feature will not work if the incoming call is from a telephone number in a multi-line hunt group, unless the telephone number is the main telephone number for the hunt group, or is telephone number identified.

Selective Distinctive Ringing \ Call Waiting

Selective Distinctive Ringing \ Call Waiting provides a distinctive ringing pattern to the subscribing customer for calls received from specific telephone numbers.

The customer creates a screening list of up to thirty-one telephone numbers through an interactive dialing sequence. When a call is received from one of the predetermined telephone numbers, the customer is alerted with a distinctive ringing pattern (short, long, short). Calls from telephone numbers not included on the screening list will produce a normal ring.

If the customer subscribes to Call Waiting in Section 2 of this Tariff and a call is received from a telephone number on the Selective Distinctive Ringing \ Call Waiting screening list while the line is in use, the Call Waiting tone will also be distinctive.

A. Description (Continued)

DEC 05 1997

1. Feature Descriptions (Continued)

MISSOURI
Public Service Commission

Selective Distinctive Ringing \ Call Waiting (Continued)

When a telephone number on the Selective Distinctive Ringing \ Call Waiting screening list also appears on the Selective Call Forwarding list, the Selective Call Forwarding will take precedence. Likewise, when the same number is shown on the Selective Call Rejection list, the call will be blocked.

A customer's line will not produce a distinctive alert if the calling line is not referenced to and originated by the main telephone number or an identified telephone number than represents all the lines in a collection of lines, such as multi-line hunt groups.

Speed Calling

Permits a subscriber to place calls to other telephones numbers by dialing a one or two digit code rather than dialing the complete telephone number.

Three Way Calling

Permits a subscriber to add a third party to an existing call, thereby establishing a three-way conversation. Transmission qualities could be affected depending on the distance involved in the routing of the connected parties.

Toll Access Restriction

(N)

Toll Access Restriction provides a means of restricting access to the Long Distance Message Network. Three options are available to the customer:

- a. Restriction of 1+ calls only.
- b. Restriction of 1+ calls and 0+ and 0- (operator handled) calls, except 8XX IN-WATS.
- c. Restriction of 1+, 0+, 0- and 8XX IN-WATS where facilities allow.

Restriction of 0+ and 0- operator handled calls prevents the customer from dialing a long distance telephone number or telephone operator for any purpose including for emergency or telephone assistance purposes. The Company shall not be liable to the customer or any third party for any and all claims, losses or damages caused by the restriction to any toll service.

Customers must apply in writing for the establishment of Toll Access Restriction.

The appropriate non-recurring charges will apply to establish service.

The rate for this service will be charged on a monthly basis

Toll Access Restriction With PIN

Toll Access Restriction With PIN (Personal Identification Number) is a service allowing customers to block all the outgoing toll calls unless the PIN number is entered before dialing. Outgoing toll calls as referred to in this tariff include all 1+, 0+, 0-, and international calls. This service is available to all residential and business customers. It is not available for public, non-public, or customer owned pay telephones.

A service connection charge will apply to each request to change the PIN (Personal Identification Number).

(N)

(N)

Warm Line

Warm Line is an feature which gives the customer 30 seconds after going off-hook to dial a number before it automatically dials a predestinated number. This feature allows the customer to use the telephone line normally, but to go to a designated number by simply staying off-hook.

Call Forwarding – Busy

Allows a customer engaged in a telephone conversation to have incoming calls routed to another predetermined number. The customer purchasing the Call Forwarding feature is responsible for payment of all charges for each call between his call-forwarding-equipped telephone and the telephone to which the call is forwarded.

(N)

Call Forwarding – No Answer

Allows automatic transfer of all incoming calls, not answered within a prescribed time, to another number. The customer purchasing the Call Forwarding feature is responsible for the payment of all charges for each call between his call-forwarding-equipped telephone and the telephone to which the call is forwarded.

A. Description (Cont'd)

Service Commission

1. Feature Descriptions (Cont'd)

Distinctive Ring Service

Distinctive Ring allows a customer to establish up to two telephone numbers on the same local exchange access line and distinguish calls to each number by a distinctive ringing pattern. The billing number is called the Primary Number and additional associated telephone number is called Distinctive Number. A customer may subscribe to one Distinctive Ring Number. The standard ringing pattern is provided for the Primary Number. Unique ringing is provided for the Distinctive Ring Number.

Distinctive Ring is available in conjunction with compatible residence and business service where technology, facilities and telephone numbers are available.

Some customer provided terminal equipment may not recognize the distinctive ringing patterns associated with this service.

In addition to the provisions of this Tariff, the Telephone Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failure or malfunctions of Distinctive Ring or equipment. Damages arising out of such interruptions, defects, failures, or malfunctions of this service after the Telephone Company has been notified, and has had a reasonable time for repair, shall in no event exceed an amount equivalent to the charges made for the service for the period following notice from the customer until service is restored.

The Primary number is the telephone number associated with the access line and therefore is allowed direct-dialed Directory Assistance calls in accordance with the Directory Assistance Service section of this Tariff. No additional call allowances are provided with Distinctive Ring.

One directory listing is provided for each telephone number associated with Distinctive Ring Service.

Additional listing rates and extra or alternate listing rates shown in the Directory Listings section of this Tariff apply to Primary and Distinctive Ring numbers.

If a customer requests a change in the listings for telephone numbers associated with Distinctive Ring Service, the regular Service Connection Charges of this Tariff will apply.

Distinctive Ring customers who subscribe to Call Forwarding can choose one of two forwarding arrangements. The first arrangement forwards the Distinctive Ring number(s) along with the Primary number when it is forwarded. The second arrangement provides no forwarding of the Distinctive Ring number(s). A forwarding arrangement must be selected at the time Distinctive Ring is ordered. If a customer later requests a change in forwarding, the regular Service Connection Charges of this Tariff will apply.

If a customer requests a number change for either the Primary number, or the Distinctive Ring number, the regular Service Connection Charges of this Tariff will apply.

OPTIONAL SERVICES AND FEATURES (Continued)**

B. General Regulations

1. Optional Services and Features are provided subject to the availability of facilities. Additionally, the features described will only operate on calls originating and terminating within appropriately equipped offices, or similarly equipped offices of interconnecting Local Exchange Companies. Also, feature screening lists can only contain telephone numbers of subscribers served out of service capable offices.
2. Optional Services and Features are available to all one party customers who have Rotary or Push Button service. The Caller ID feature is available to one party residence and business customers.
3. Optional Services and Features cannot be provisioned on an originating basis with Company provided Public, Semi-Public, Customer Owned and Coin Operated Telephone Service, Trunks, or some Remote Switching Locations.

(1) Only one Service Connection Charge applies per section 2 of this tariff when more than One Distinctive Ring Number is ordered or changed simultaneously.

- Rates and charges shown on this tariff sheet are for informational purposes only and are not subject to the jurisdiction of the Missouri Public Service Commission.

4. Disaster Assistance Plan

In the event that a natural disaster occurs in one of the Company's exchanges and destroys or partially destroys customers' premises, the Company may, at its sole discretion, elect to implement a Disaster Assistance Plan. Under the Plan, the Company may, for example, waive the installation fee and up to three months' recurring service charges for Call Forwarding, Call Forwarding - Busy Line, Call Forwarding - No Answer, and/or other features the Company may deem appropriate. This plan will only be available to residential and business customers whose premises are damaged to the point they are considered unsafe, unsuitable, or uninhabitable. Charges will only be waived with respect to existing local exchange service accounts, which are not partially or fully suspended at the time of the offer. Charges will not be waived on service established at a new location.

CONFERENCE BRIDGE SERVICE

(M)

A. Description of Service

This service allows the end-user to reserve a conference bridge located in the Company's central office for convening a dial-in conference call for up to twenty-four parties. The customer will call the Company's business office to reserve the conference bridge for a specified day and time and will be given a phone number for the conference parties to call at the appointed time.

Up to twenty-four parties may dial into the conference bridge at the appointed time. Local or toll charges from the calling location to the conference bridge number will be applied.

B. Limitations

Only one conference bridge is available so only one party can reserve the bridge at a given day and time.

C. Rates

Use of the conference bridge will be charged on an hourly basis with the following charge applying for each full hour or fraction of an hour that the bridge is in use.

- 1. Charge for first full hour or fraction \$10.00
- 2. Charge per hour for each additional hour or fraction \$ 5.00
- 3. Per attendee fee \$ 1.00
- 4. No service order charge will apply for reserving the conference bridge.

LOCAL REACH

REC'D APR 20 2001

GENERAL

A. Service Description

Service Commission

- 1. Local Reach is an optional one way, outward service where, for a monthly recurring flat rate, customers can place calls within their LATA to other customers in exchanges within the Local Reach calling scope, as defined in sub-section C of this section.
- 2. Qualified usage under this plan is intraLATA customer-dialed, sent-paid, non-coin calls originating at a subscriber's access line and terminating at an access line in an exchange within the Local Reach calling scope as defined in sub-section C of this section.
- 3. Calls included in this plan are dialed using a ten-digit local dialing pattern.

B. Service Availability

- 1. This service is furnished subject to the availability of the required telecommunications facilities. Implementation of local Reach will be simultaneous in Green Hills Telephone Corporation exchanges; therefore the service will be available in all exchanges during the implementation period.
- 2. Subject to the restriction in paragraph B.1 above, service is available to Missouri local exchange customers of Green Hills Telephone Corporation as listed in the Local Exchange Tariff Section.

C. Calling Scope

The Local Reach Calling Scope includes all customer exchanges as listed below:

Carrollton
 Chillicothe
 Metropolitan Kansas City*
 Richmond

Missouri Public

FILED JUN 01 2001

(N)

Service Commission

*Metropolitan Kansas City is defined as all exchange areas included in the Kansas City MCA-Central, MCA-1 and MCA-2 as defined MO. P.S.C. Case No. TO-92-306

GENERAL EXCHANGE SERVICE TARIFFS

Missouri Public
Service Commission

REC'D JUN 21 1989

LOCAL REACH, continued

(N)

REGULATIONS**A. Rules and Regulations**

1. Unless otherwise stated, Local Reach is subject to the Rules and Regulations applying to all customer contracts as specified in the General Exchange Tariff.

B. Qualified Customer Accounts

1. This service is available to single-party, residence and business customers. The service is available to multi-line customers.
2. Local Reach is not offered in conjunction with Customer-Owned Pay Telephone Service.
3. Local Reach is not offered in conjunction with Cellular Service.
4. Local Reach is not offered in conjunction with Foreign Exchange Service.

C. Use Restrictions

1. Local Reach is not offered in conjunction with services designed to forward calls in mass including but not limited to Simultaneous Call Forwarding, Disaster Routing Service and Intelligent Redirect or similar services that might be offered under other names.
2. Local Reach is sold in conjunction with and solely for use on Local Exchange Telephone Service access lines and trunks.
3. Local Reach may only be used for the communications of a single end user. It may not be used to aggregate the communications of multiple end users for resale (including but not limited to, arrangements using services such as Simultaneous Call Forwarding to aggregate calling capability for resale or to provision communications services for others).
4. This tariff shall only be effective as long as the use restrictions and the rules and regulations in this tariff remain in effect for all users (including any exchange telecommunications company or other company reselling this service, and their customers.) In the event any of these restrictions or rules and regulations are held not to apply to all such users, upon notification by the Telephone Company to the Commission, this tariff shall not be available except to existing subscribers of the service at existing service levels at existing locations. The Telephone Company shall also have the right to withdraw this service offering in its entirety.

D. Multi-line Accounts

With the following exceptions, Local Reach subscribers are not required to purchase Local Reach on all access lines of a multi-line account. Exceptions are as follows:

1. In cases where a single working telephone number is used for multiple access lines, if Local Reach is purchased for one line in the arrangement, it must be purchased for all lines.
4. Within a multi-line hunting arrangement, if one access line is subscribed to Local Reach, all lines must be subscribed to Local Reach.

E. Minimum Service Period

The minimum service period for subscription to Local Reach is one month.

RATE APPLICATION

A. General

1. Local Reach rates and charges apply in addition to all other charges paid by the customer for other service of the Telephone Company.

B. Monthly Recurring Rates

1. The Local Reach monthly recurring rates apply on a per-line or per-trunk basis.
2. The Local Reach monthly recurring rates are billed one month in advance.

RATES*

A. Monthly Recurring Rates, per line or per trunk:

<u>Type of Service</u>	<u>Base Minutes of Use</u>	<u>Local Reach Basic Rate</u>	<u>Minutes of Use over Base</u>
Residence	240	\$16.95	\$.07
Residence	500	\$34.95	\$.07
Business	240	\$16.95	\$.07
Business	500	\$34.95	\$.07

OPTIONAL DETAIL BILLING

- Optional Detail Billing provides individually rated message detail at the customer's request when the billing system has the capability of providing by specific customer.
- This request must be made in advance of the month to be billed.
- The details of messages billed during the current billing cycle are on a printed listing.
- The following rates and charges apply for Optional Detail Billing.
 1. Monthly Preparation Charge \$1.00
 2. Printed Listing (per message charge) \$0.01
- Applicable Service and Equipment Charges apply for both initiating and terminating Optional Detail Billing.
- These charges apply in addition to the monthly recurring rates stated in RATES section, above.

*Rates shown on this tariff are for informational purposes only and are not subject to the jurisdiction of the Missouri Public Service Commission.

H. PUBLIC TELEPHONE SERVICE

1. A public telephone is an exchange station installed at the Telephone Company's option, in charge of an attendant, or equipped with a coin collecting device, at a location chosen or accepted by the company as suitable and necessary for furnishing service to the general public.
2. Persons with whom arrangements are made by the Telephone Company for the installation of Public Telephones are considered as the agents of the Company in serving the public.
3. Public telephones are installed upon the agent signing established forms of application, without specific term, terminable by either an agent or the telephone company upon written notice.
4. No listings in the directory are allowed in connection with public telephone service.
5. Local Messages from Public Telephones are charged for at the rates shown in the General Exchange Service Tariffs and Toll Messages are charged for at the Telephone Company's established rates. No charges are applied to connections with the Telephone Company's toll operator, information clerk, repair clerk, business office or any of its duly authorized officials or to emergency calls to Fire and Police Departments, within the exchange area.

I. SEMI-PUBLIC TELEPHONE SERVICE

MISSOURI
Public Service Commission

1. Semi-public telephone service is an arrangement under which subscriber station is equipped with a coin collecting device designed for a combination of subscriber and public usage, and will be furnished, on individual lines only, to the following types of locations:

- a. At locations where, in the opinion of the Telephone Company, the installation of a public telephone is not warranted but where there is an appreciable demand for service on the part of transients.
- b. At locations where there is a collective use of the service by a relatively stable body of guests, members, employees, or occupants.
- c. At any location where the demand for service is for a combination of transient and subscriber usage.

2. The Telephone Company does not undertake to provide booths for housing semi-public telephones but the subscriber may, at his option, provide, at his own cost, suitable booths, shelves or cubicles for such purpose.

3. Subscribers to semi-public telephone service are entitled to regular listings in the Telephone Company's official directory and may advertise such numbers for incoming calls and business purposes subject to rules and regulations otherwise specified in this tariff.

4. Local Messages from semi-public telephones are charged for at the rates shown in the General Exchange Service Tariffs and Toll Messages are charged for at the Telephone Company's established rates. No charges are applied to connections with the Telephone Company's toll operator, information clerk, repair clerk, business office or any of its duly authorized officials, or to emergency calls to Fire or Police Departments, within the exchange area.

5. The monthly rate for semi-public telephone service shall be equal to the individual business access line rate plus appropriate instrument charge.

SPECIAL SERVICE

REC'D JUL 19 2001

A. Special Finishes and Types (1)

Service Commission

- 1. Modifications of standard facilities, specially designed facilities or special services and arrangements in lieu of or in addition to standard facilities, services and arrangements will be furnished at a customer's request only when the customer's requirements cannot be met with regularly offered facilities, services and arrangements and then only when the requested facilities, services or arrangements will not be detrimental to the general service. Charges based upon the cost incurred will apply in all such cases.

If unusual installation costs are also involved, additional charges based on cost will apply.

2. Fire Bar

The telephone company may furnish to a fire department located in any of its exchanges a fire alarm system that will place a continuous ring on one (1) to thirty (30) telephone lines provided they are in the same exchange area. Any station may answer and all parties that answer will have a common two-way communications circuit.

(N)

Fire Bar System billed to city in which located or legally organized Rural Fire Department within the exchange area.

	<u>Monthly Rate</u>

PAYPHONE SERVICE

MAR 16 1999

A. General Regulations (Cont'd)

MO. PUBLIC SERVICE COMM

10. Installation Charges and the appropriate NID material charge apply when a premises visit is made for the sole purpose of installing a customer requested NID.
11. The Company shall not be liable for shortages of coins collected and deposited at the subscriber's equipment. The limit of the Company's liability for end user fraud of whatever nature occurring at or in association with the subscriber's equipment shall be governed by provisions of this Tariff and rule or regulations of the Missouri Public Service Commission. In case of conflict between the tariff provisions and Commission rules and regulations, the rule or regulations shall prevail.
12. Off-Premise Extensions are not permitted.
13. Hold for Future Use (D)
14. The Multiline Business Subscriber Line Charge, found in the interstate access tariff, is applicable to all payphone Instrument and CO Implemented coin lines.

B. Responsibility of the Customer

1. The Customer for the purposes of this tariff is defined as the Payphone Service Provider.
2. The customer shall be responsible for the installation, operation and maintenance of the customer-provided instrument, plus all ancillary equipment, such as booths, shelves, lighting, directories, etc., used in connection with this service. The customer is responsible for complying with the requirements set forth in the American With Disabilities Act of 1990.

The customer-provided instrument must be registered in compliance with Part 68 of the FCC's Registration Program. In addition, the customer must comply with the Missouri Public Service Commission's Rules and Regulations regarding the use of customer-provided pay telephones.

3. The customer shall be responsible for the payment of charges for all local and toll messages originating from or accepted at this type of service, including any Directory Assistance Calls.
4. The customer shall be responsible for obtaining a Certificate of Service Authority (CSA) to provide Payphone Service and for providing proof of said authority prior to installation of service.

MISSOURI
Public Service Commission (T)

B. Responsibility of the Customer (Cont'd)

- 5. Customers who elect not to subscribe to Selective Class of Call Screening will be fully responsible for all calls billed to customer's exchange access line. The Telephone Company shall have no responsibility to adjust any such charges and/or release customer from paying any such charges. Customer will hold the Telephone Company harmless from and against any liability or loss resulting from all calls billed to customer's exchange access line.
- 6. Any federal, state, or local taxes on the Customer Owned Pay Telephone or calls made from that phone are the responsibility of the customer.
- 7. The customer shall not program or cause to be programmed any such telephone used in connection with this service to limit the duration of a local message.

C. Violation of Regulations

- 1. Upon notification from the Company that the customer-provided equipment or inside wire is causing or is likely to cause harm, the customer shall make such change as is necessary to remove such harm. Failure to make such change will result in the disconnection of service until such change is completed to the satisfaction of the Company.
- 2. The customer may be required, as a condition of service, to pay in full all sums due the Company including, but not limited to, customer activity charges, termination charges, minimum charges, and reimbursement for loss or damage to Company facilities as may apply.

D. Instrument Implemented Payphone Service

Instrument Implemented Payphone Service is offered for use with a customer provided pay telephone. All attachments of a customer-provided instrument to the network must be made pursuant to the rules and regulations set forth in this Tariff and is required by State and Federal commissions.

E. Central Office (CO) Implemented Coin Line

- 1. Central Office Implemented Coin Line provides coin signaling. It is a line side connection from the local exchange switch point of demarcation at the customer premise.

PAYPHONE SERVICE

JAN 15 1997

MISSOURI
Public Service Commission (T)

2. Features are additives to the operation of a flat rate access line that provide for CO Implemented coin line service. The Company offers those features that are provided by the functionality of the Company's switches. These include coin supervision, coin control (collect and return of coins, if applicable), and answer supervision. CO implemented coin line features that are implemented by the functionality of an operator service provider, such as coin rating, coin refund, repair referral, and operator call screening, are the responsibility of the Payphone service provider (Customer).
3. CO Implemented Coin Line features, including coin line signaling, coin collect, and return (where applicable) and answer supervision, are provided by the Telephone Company per the technology available from the Company's facilities. It shall be the responsibility of the CO implemented Coin Line payphone owner to assure technical and operational compatibility with the coin line features offered by the Telephone Company.

F. Features and Functions

1. Answer Supervision provides signaling on the line notifying the line that the called party has answered. This feature is an additive to the CO Implemented Coin Line.
2. Coin Collection and Return provides an electrical signal on a CO Implemented Line indicating to the payphone equipment to collect coin(s) from or return coin(s) to the calling party. This feature is an additive to the CO Implemented Coin Line.
3. Special Number Assignment is a specific number requested by the customer. This service is available where facilities are accessible and it is technically feasible to provide. This features is an additive to the CO Implemented Coin Line or to the Instrument Implemented Payphone Service.
4. Selective Class of Call Screening will be provided where such facilities are available at the customer's option. Selective Class of Call Screening treatment enables the customer to restrict outgoing operator-handled calls, placed over the Telephone Company's network, from the service point to only those calls which are charged to a called telephone, a third number, or a calling card.
5. Validation may be performed through Originating-Line Screening (OLS). OLS enables operator service providers to determine whether there are billing restrictions on the exchange access line from which a call originates. OLS service delivers codes on operator assisted calls to identify calls originating from privately owned payphones, inmate locations, and hotels/motels, etc. Rates for this service are found in the appropriate interstate access tariff, when facilities and service are available. The customer has the option to request either Selective Class of Call Screening or OLS.

ACCESS SERVICES TARIFF CONCURRENCE

Access Services

Access services are those services which are described in the Access Services Tariff of Mark Twain Rural Telephone Company. These services are offered by the Company to intrastate interexchange customers (ICs) in accordance with the rules and regulations specified in the Access Services Tariff of Mark Twain Rural Telephone Company and approved by the Missouri Public Service Commission, and in any amendments thereto and authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for access services of Mark Twain Rural Telephone Company. Rates for these services are set out in the following pages of this concurrence.

Provision of Services

The Company, to the extent that such services are or can be made available with reasonable effort, and after provisions have been made for the Company's telephone exchange services, will provide to an intrastate IC, upon reasonable notice, services of the type offered in Mark Twain Rural Telephone Company's Access Services Tariff pursuant to the terms and conditions specified therein and at the rates specified in the following pages of this concurrence. The Company's concurrence in Mark Twain Rural Telephone Company's Access Services Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company.

Cancellation Rights

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

PRIVATE LINE TARIFF CONCURRENCE

Private Line Concurrence

The Company concurs in the rules and regulations governing intrastate intra-LATA interexchange Private Line Service as set forth in Mark Twain Rural Telephone Company's tariff on file with and approved by the Public Service Commission of the State of Missouri, and in any amendments thereto as authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for private line service of Mark Twain Rural Telephone Company. Rates for these services are set out in the following pages of this concurrence. (T)

Private Line Cancellation Rights

The Company reserves the right to cancel and make void the above concurrence statement, in whole or in part, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.
