A. Multi Element Charge Plan

REC'D OCT 25 1999

The Multi Element Charge Plan covers any work done at the request of the subscriber.

1. Elements Covered

This work is broken down into elements as to service.

(a) Service Ordering Charge

Covers all work associated with creation of a Service order, including initial interview with subscriber, work down as to application card and other permanent records, typing Service Order, distribution of Service Order copies and completion of records originating from Service Order.

(b) Central Office Access Charge

Covers all work involving the telephone line extending from the central office to the subscriber's premises.

(c) Reconnection of Service Charge

A Service Reconnection Charge is applicable to each restoration of service that has been temporarily disconnected for nonpayment.

TOLL ACCESS RESTRICTION

NOV 19 1997\*

A. Toll Access Restriction provides a means of restricting access to the Long Distance Message Telecommunications Network. Three options are available to the customer:

1. Restriction of 1+ calls only.
2. Restriction of 1+ calls and 0+ and 0- (operator handled) calls, except 8XX IN-WATS.
3. Restriction of 1+, 0+, 0- and 8XX IN-WATS where facilities allow.

B. Restriction of 0+ and 0- operator handled calls prevents the customer from dialing a long distance telephone number or telephone operator for any purpose including for emergency or telephone assistance purposes. The Company shall not be liable to the customer or any third party for any and all claims, losses or damages caused by the restriction to any toll service.

C. Customers must apply in writing for the establishment of Toll Access Restriction.

D. The appropriate non-recurring charges will apply to establish service.

E. Rates

The rate for this service will be charged on a monthly basis.

E. Liability

- (1) The Telephone Company will make reasonable efforts to cure any material failure to provide service caused solely by year 2000 defects in Telephone Company hardware, software or systems. Due to the interdependence among telecommunications providers and the interrelationship with non-Telephone Company processes, equipment and systems, the Telephone Company is not responsible for failures caused by circumstances beyond its control including, but not limited to, failures caused by: (1) the Customer; (2) other telecommunications providers as defined by Missouri statute; or (3) customer premises equipment. In addition, the Telephone Company does not ensure compatibility between Telephone Company and non-Telephone Company services used by the customer.

## LIFELINE SERVICE

### Lifeline Service

Lifeline Service is a government benefit program established by the Federal Communications Commission (FCC) and Missouri Public Service Commission (Commission) and is available to qualifying low-income subscribers for certain residential telecommunications services. The terms and conditions of Lifeline service, including monthly discount amounts, are set forth in rules established by the FCC and Commission and available at the Company's office.

In addition, the terms and conditions of Lifeline service are available on the Company's website as follows: [www.grm.net](http://www.grm.net)

### Disabled Service

Disabled Service is a government benefit program established by the Missouri Public Service Commission (Commission) as part of the Missouri Universal Service Fund (MoUSF). It is a residential retail service that offers a qualifying disabled customer reduced charges for certain telecommunications services. The terms and conditions of disabled service, including monthly discount amounts, are set forth in rules established by the Commission and available at the Company's office.

In addition, the terms and conditions of Disabled Service are available on the Company's website as follows: [www.grm.net](http://www.grm.net)

GENERAL EXCHANGE SERVICE TARIFF

DEC 16 1993

A. OPTIONAL METROPOLITAN CALLING AREA (MCA) SERVICE

MO. PUBLIC SERVICE COMM.

1. Service Description

- a. Metropolitan Calling Area (MCA) service is available in three distinct metropolitan areas in Missouri (i.e. St. Louis, Kansas City and Springfield) as provided by the Missouri Public Service Commission in its December 23, 1992, Report and Order in Case No. TO-92-306.
- b. The Kansas City Metropolitan Exchange as defined in Southwestern Bell's tariff, is included in the Kansas City MCA. The basic local calling scope for each of these exchanges is the MCA-wide calling scope as described in this tariff.
- c. In selected exchanges, MCA service is an optional service which provides the subscriber with an optional calling area which includes the respective metropolitan exchange and certain customers in other exchanges where MCA service is also available.
- d. In each MCA, exchanges (and metropolitan exchange zones) are grouped into different rate classifications. In the Kansas City MCA, exchanges where Optional MCA Service is available are classified as MCA-3, MCA-4 or MCA-5.

GENERAL EXCHANGE SERVICE TARIFF DEC 16 1993

B. CALLING SCOPE

MO. PUBLIC SERVICE COMM.

1. The total service area for the Kansas City MCA is comprised of the following six groups or zones and exchanges:

- a. Southwestern Bell's Kansas City Metropolitan Exchange including the Principal Zone (Missouri and Kansas).
- b. MCA-1 Zone: Southwestern Bell's exchanges of Gladstone, Independence, Parkville, Raytown, South Kansas City, Bethel (KS) and Melrose (KS).
- c. MCA-2 Zone: Southwestern Bell's exchanges of Belton, Blue Springs, East Independence, Lee's Summit, Liberty, Nashua, Tiffany Springs, Bonner Springs (KS), Olathe (KS) and Stanley (KS).
- d. MCA-3 Zone: Southwestern Bell's exchanges of Farley, Smithville, Grain Valley and Greenwood; the Missouri customers in Southwestern Bell's exchange of Leavenworth; and United Telephone Company's exchange of Platte City, Ferrelview, Kearney, Missouri City, Buckner and Lake Lotawana.
- e. MCA-4 Zone: Southwestern Bell exchanges of Excelsior Springs; United Telephone Company's exchanges of Weston, Camden Point, Edgerton, Holt, Orrick, Oak Grove, Lone Jack, Pleasant Hill, and Harrisonville; and GTE's exchanges of Trimble, Peculiar and Cleveland.
- f. MCA-5 Zone: Southwestern Bell's exchanges of Richmond and Archie; United Telephone Company's exchanges of Dearborn, Henrietta, Wellington, Odessa, Holden, Kingsville and Strasburg; GTE's exchanges of Plattsburg, Lawson, East Lynne, Garden City and Drexel; Lathrop Telephone Company's exchange of Lathrop; and MO-KAN Dial Inc's exchange of Freeman.

2. Optional MCA Calling Scopes

a. Kansas City MCA-3 Optional Calling Scope:

The Calling Scope for MCA subscribers in MCA-3 includes all customers in the metropolitan exchange, (composed of the Principal Zone and MCA-1 and MCA-2 Zones) all customers in MCA-3 exchanges, and MCA subscribers in MCA-4 and MCA-5 exchanges.

MO. PUBLIC SERVICE COMM.

2. Optional MCA Calling Scope (Cont'd)

b. Kansas City MCA-4 Optional Calling Scope:

The Calling Scope for MCA subscribers in MCA-4 includes all customers in the metropolitan exchange, (composed of the Principal Zone and MCA-1 and MCA-2 Zones) all customers in MCA-3 and MCA-4 exchanges and MCA subscribers in MCA-5 exchanges.

c. Kansas City MCA-5 Optional Calling Scope:

The Calling Scope for MCA subscribers in MCA-5 exchanges includes all customers in the metropolitan exchange, (composed of the Principal Zone and MCA-1 and MCA-2 Zone). All customers in MCA-3 and MCA-4 exchanges, and MCA Subscribers in MCA-5 exchanges.

C. REGULATIONS

1. Unless otherwise specified in these regulations, MCA is offered to all classes and grades of residence and business customers located in an MCA exchange.
2. Optional MCA Service is not offered in conjunction with public, semi-public, customer-owned pay telephone, cellular service and any switched FGA service.
3. MCA is designed and intended for the exclusive use of the end-user customers of the telephone company. MCA is not to be shared, resold or used in any configuration of customer-provided equipment with the intent of reselling the service.
4. In situations where multiple access lines share the same working telephone number, if one such line subscribes to MCA service, then all lines must subscribe to MCA service.
5. Where a hunting arrangement between access lines is provided by the Telephone Company, no MCA line may be configured to hunt to a non-MCA line.

C. REGULATIONS (CONT'D)

MO. PUBLIC SERVICE COMM.

6. Unless otherwise specified, MCA is subject to the rules and regulations applying to all customer contacts as specified in the General Exchange Tariff of the Telephone Company.

a. All rules and regulations governing local exchange service apply to MCA service.

7. The minimum service period for subscription to optional MCA service is one month.

D. RATE APPLICATION

1. The MCA monthly rates specified in 5.A below, apply on a per-line basis except for centrex type services which are billed on a PBX trunk equivalent basis, as specified in the General Exchange Tariff.

2. MCA monthly rates are billed one month in advance.

3. Optional MCA rates and charges apply in addition to all other rates and charges paid by the customer for other services of the Telephone Company.

4. Nonrecurring service and equipment charges as specified in 5-B below, are applicable on a per line basis when a customer adds or deletes Optional MCA Service. These charges will be waived for the first 60 days from the date that MCA service becomes available in the exchange.

GENERAL EXCHANGE SERVICE

E. MISCELLANEOUS AND SPECIAL EQUIPMENT

18. Joint User rate is to be applied where a telephone is installed as an extension from an existing main station telephone and serves a different identity. The same telephone number will be used for both parties and a directory listing will be furnished each party.

The monthly rate will equal three-fourths of the main station rate plus extension station line mileage where applicable. Regular installation of telephone charge will apply.

The subscriber with the existing main station line to which the joint user is added will be responsible for payment of all charges accruing to the joint user subscriber in the event the joint user subscriber fails or refuses to pay for such services as provided for elsewhere in this schedule.

19. Seasonal and Vacation Rate<sup>1</sup> service is provided to residence customers whose requirements for telephone service are less than that which might normally be provided in any 12 month period. Customer's line will be placed on intercept for the period of such service and no changes will be made in the customer's listing in the local directory or in the equipment on the customer's premises. No service either to or from the customer is contemplated during the interval this rate applies.

---

<sup>1</sup>Effective January 1, 2014, Seasonal and Vacation Rate will no longer be available to new customers. Existing customers will be allowed to complete or continue any prearranged suspended service until May 1, 2014 when the service shall sunset and no longer be available.

GENERAL EXCHANGE SERVICE

E. MISCELLANEOUS AND SPECIAL EQUIPMENT

19. Seasonal and Vacation Rate<sup>1</sup> (Continued)

The monthly rate will be based upon 50% of the regular rate for the basic and associated additional services suspended for a minimum of 30 days and a maximum of 120 days. One reconnection per calendar year will be allowed without charge.

20. Fees or Taxes to be Billed to Customers

When any municipality imposes upon the Company any license, occupation, or other similar charge or tax applicable to service by the Company to the customer, or imposes a charge or tax based upon a percentage of gross receipts, net receipts, or revenues from sale of telephone service by the Company, the charges for local service to customers within such municipality shall be increased by an amount equal to each such customer's proportionate part of any such charge or tax, and such amount shall be shown separately on the customer's bill.

---

<sup>1</sup> Effective January 1, 2014, Seasonal and Vacation Rate will no longer be available to new customers. Existing customers will be allowed to complete or continue any prearranged suspended service until May 1, 2014 when the service shall sunset and no longer be available.

21. Customer-Owned Equipment

MISSOURI

- a. Grandfathered by or registered with the <sup>Public Service Commission</sup> FCC  
Customers supplying their own equipment will provide information to the telephone company as provided in FCC regulations.

A non-recurring service charge of \$15 will apply for each visit to a customer's premises or service location in connection with a service difficulty when it is determined that the difficulty was due to a condition in customer-provided equipment. The Telephone Company will do no maintenance of any kind on any customer's equipment which may be found to be defective or in need of repair as a result of such visit.

The rates and charges above are in addition to the rates and charges applicable for the services with which these arrangements are associated.

The customer agrees not to apply voltage to the line which would be of a nature or character so as to place stress on the line above the limits of that which is normally placed on the line by the central office equipment.

GENERAL EXCHANGE SERVICES  
CUSTOM CALLING AND CUSTOM LOCAL AREA SIGNALING SERVICE  
MO. PUBLIC SERVICE COMMISSION (N)

A. GENERAL

1. Custom Calling Services and Custom Local Area Signaling Services (CLASS) are optional service arrangements that allow the customer more control over incoming and outgoing calls.
2. Custom Calling Services will be offered to customers in exchange areas of the Company where these services are technically feasible.
3. Custom Local Area Signaling Services (CLASS) are a specialized group of services that allow customers control over incoming and outgoing calls through the use of the Signaling System 7 (SS7) Network and data base entries. Services are offered where technically feasible and may be available on both intraexchange and interexchange basis.
4. Custom Calling Services and Custom Local Area Signaling Services (CLASS) may be divided into two distinct groups of services; those that apply some type treatment or service to calling which may originate from a customers line or those that apply some treatment or service to calls which are terminating to the customers line.
5. CLASS features will only operate as described in these tariffs, on calls originating or terminating within offices appropriately equipped with SS7 Network capabilities, and are dependent on the connection of other Local Exchange Carriers and Interexchange Carriers to an SS7 Network, where technically feasible.
6. The liability of the Telephone Company is as specified in the General Regulations of this Tariff. In addition to the provisions of this Tariff, a calling party customer of the Company releases and holds the Company harmless from any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the transmission of a calling number of a telephone number which the calling party has requested to be omitted from the telephone directory or has requested not to be disclosed to any person.
7. Per Line Blocking for the delivery of the calling number is available upon request at no charge, only to the following entities for lines over which the official business of the agency is conducted, where an executive officer of the agency registers a need for blocking and provides the required certification to the Telephone Company:
  - a. Private, nonprofit, tax exempt, domestic violence intervention agencies.
  - b. Federal, state, and local law enforcement agencies.

LATHROP TELEPHONE COMPANY

FOR JUN 27 1997  
LATHROP

MO. PUBLIC SERVICE COMMISSION

**GENERAL EXCHANGE SERVICES  
CUSTOM CALLING AND CUSTOM LOCAL AREA SIGNALING SERVICE**

**C. DESCRIPTION OF SERVICES**

(N)

1. **Abbreviated Dialing (Speed Calling):** Allows a customer to call any one of a group of frequently called numbers simply by dialing a one or two digit code. Two different configurations are available; short lists (8 numbers) and long lists (30 numbers).
2. **Anonymous Call Rejection (CLASS):** Allows customers with or without Calling Number Delivery and/or Calling Name Delivery to reject calls for which the caller has intentionally blocked calling name/number display information.

If the display information is not available due to network restrictions or any other reason, the receiving customer CPE (if equipped) is presented with a message to indicate the unavailability of the call information.

Rejected calls are sent to a company supplied announcement that informs the calling party why the call is being rejected. Anonymous Call Rejection can be overridden by an operator in case of an emergency.

3. **Automatic Call Back (CLASS):** A feature when activated by the customer will attempt to redial the last number called from their station regardless of whether the original call was answered, unanswered or busy. The calling and called lines will be monitored by the system and attempt to connect the call for up to 30 minutes. Activation can be canceled at any time.
4. **Automatic Line:** This feature provides an automatic connection between a calling station that goes off-hook and a preassigned directory number. The originating station is denied the ability to call any directory number other than the preassigned number.

SECTION II  
MO. PUBLIC SERVICE COMM

GENERAL EXCHANGE SERVICES  
CUSTOM CALLING AND CUSTOM LOCAL AREA SIGNALING SERVICE

C. DESCRIPTION OF SERVICES: (Continued)

(N)

- 5. Automatic Recall (CLASS): This feature allows subscribers to have a call returned to the calling party of the last incoming call. This applies whether the incoming call was answered or unanswered. When activated, the customer is allowed to hear the directory number of the last incoming call prior to deciding whether or not to recall that number.

Calls cannot be returned to a number which was delivered with a "private" delivery status, and only one successful call to a number using the Automatic Recall feature will be allowed.

- 6. Call Forward Busy/No Answer: These features provide forwarding capability to incoming calls that encounter a busy or no-answer state. The forward-to directory number is programmed by the customer as well as the number of rings before transfer.
- 7. Call Forward-Fixed: Allows a customer to have all incoming calls to a location automatically forwarded to a predetermined telephone number. This programming is performed by company personnel.
- 8. Call Forward-Remote Access: This feature allows a customer to activate or deactivate the Call Forward option on their telephone from a local or toll remote location by dialing a dedicated directory number, their own seven digit directory number, followed by a Personal Identification Number (PIN) and the activation/deactivation codes.
- 9. Call Forward Customer Programmable: This feature directs calls from a local telephone number to another location, with the forwarding station receiving billing for any calls that are forwarded to a toll location. The location to which calls are to be forwarded must be entered by the customer each time this service is activated.

GENERAL EXCHANGE SERVICES

CUSTOM CALLING AND CUSTOM LOCAL AREA SIGNALING SERVICE

C. DESCRIPTION OF SERVICES: (Continued)

10. Call Transfer: Allows users to transfer a call to another directory number and then drop out of the call, leaving the users connected. Customers must have Three-Way Calling and User Transfer Station Options to use this feature.
11. Call Waiting: This feature informs a customer who is on an established call that a third party is trying to call. An incoming call which arrives at a busy line receives audible ringing instead of a busy tone. The called party is alerted by a tone that is only available to the called party.
12. Call Waiting-Cancel: This feature allows a customer to prevent, on a per call basis, an incoming call from Call Waiting on their line. Income calls to the station receive a busy signal. This feature ensures that Call Waiting indication ones to not interrupt important calls or disrupts data transmissions.

GENERAL EXCHANGE SERVICES  
CUSTOM CALLING AND CUSTOM LOCAL AREA SIGNALING SERVICE

C. DESCRIPTION OF SERVICES: (Continued)

(N)

14. Calling Name Delivery Blocking (CLASS): This feature allows calling customers to keep their name from appearing on a called party's display unit and can be blocked on a per-call basis.
15. Calling Number Delivery (CLASS): This feature allows customers to receive the calling number or incoming calls. The number is delivered to the called party's CPE in the interval between the first and second ring and remains for duration of the call.
16. Calling Number Delivery Blocking (CLASS): This feature allows the calling party to suppress their directory number so that the called party with Calling Number Delivery does not receive the information. The called party receives a "private" message instead of the calling party's directory number. The customer can set the privacy indicator on a per-call basis.
17. Customer-Originated Trace (CLASS): This feature allows customers to initiate a trace on the last incoming call by dialing an activation code. The call is traced automatically, and a printout of the originating directory number and the time the call was made is forwarded to a company location. The results of a successful trace will only be provided to legal authorities with written authorization from the customer. A charge applies when a successful trace is delivered to proper legal authorities.
18. Distinctive Ringing/Call Waiting (CLASS): This is an incoming call management feature that allows customers to define a list of calling directory numbers that provide the customer with a distinctive ringing pattern or a distinctive Call Waiting tone. Terminating calls which are not on the list will have standard ringing or tones.
19. Malicious Call Hold: This feature enables the called party to hold the connection on any call and can be used to augment the capability provided by the Calling Line Identification feature.
20. Restrict Outgoing: This feature allows for the screening of outgoing calls and can allow or deny calls as requested by the customer based on company developed screening tables.

DATE OF ISSUE: 06-27-97

DATE EFFECTIVE: ~~SEP 1 1997~~

ISSUED BY: PHILIP S. JOHNSON, GENERAL MANAGER,

PRINCETON, MO. SEP 1 1997

**GENERAL EXCHANGE SERVICES  
CUSTOM CALLING AND CUSTOM LOCAL AREA SIGNALING SERVICE**

C. DESCRIPTION OF SERVICES: (Continued)

21. Selective Call Acceptance (CLASS): Allows customers to define a list of calling directory numbers that will be accepted. Any number not on the list is routed to announcements and rejected. The calling party not on the acceptance list receives an announcement stating that the call is not presently being accepted by the called party.
22. Selective Call Forwarding (CLASS): Allows customers to have certain incoming calls forwarded to a designated remote directory number. Calls not on the SCF screen lists are terminated in the standard manner. The number of calls included on a SCF screening list will be limited based on system parameters.
23. Selective Call Rejection (CLASS): Allows customers to define a list of calling directory numbers that are routed to recorded announcements and rejected. All other calls are treated normally. Lists will be limited based on system parameters.
24. Teen Service: This feature allows two telephone numbers to be assigned to a single-party line. Each telephone number assigned a unique ringing pattern so the called party can determine the nature of the call. Only one call may be active on the line at a given time.
25. Teen Service with Voice Mail: Teen Service enables two telephone numbers-the primary directory number (PDN) and the secondary directory number (SDN) to be assigned to a single line. Teen Service with Voice Mail forwards the SDN to Voice Mail to allow the SDN to have separate announcements and messages.
26. Simultaneous Ring Service: This service allows a user to define a group of up to five numbers to ring at the same time. The first alerted number to answer the call is connected to the calling party, and all other alerted numbers are released. At least one of the simultaneous ring numbers must be a line served by the Company's switch. All calls to secondary locations are subject to the services and rates that apply.  
  
Long distance charges will apply to all non-local calls and will be billed by the customer's presubscribed long distance carrier.  
  
In addition to the monthly rate for service, a \$4.00 service order fee will apply.  
  
If Simultaneous Ring Service is used to OPX two locations, then each secondary location requires an additional local access line provided and charged pursuant to the rates, terms and conditions described elsewhere in this tariff.

SECTION II

GENERAL EXCHANGES SERVICES  
CUSTOM CALLING AND CUSTOM LOCAL AREA SIGNALING SERVICE

C. DESCRIPTION OF SERVICE (Continued)

1. Three-Way Calling: This feature allows a customer to form a three-way conference with two other parties. The customer that initiated the conference controls the conference and must remain on line for the duration of the call.
2. Touch Tone Service: The provision of DTMF signaling through tone pads on the communications instruments.
3. Warm Line: This is an Automatic Line feature which gives the subscriber 20 seconds after going (T) off-hook to dial a number before it automatically dials a pre-designated number.

D. CONDITIONS

1. Custom Calling Services and CLASS will be provided in connection with individual line residence and business service. Services may not be compatible with key or PABX system lines or trunks.
2. CLASS Service cannot be provisioned on an originating basis with Company Provided Public Telephone Service, COCOT Service, Toll Terminals, and some PABX Trunks.
3. A non-recurring service ordering charge, found in other parts of this tariff, will apply for the implementation of Custom Calling or CLASS Services if installed at any time other than the initial installation of a customer access line service with the Company, or the installation of additional access line service.

## GENERAL EXCHANGE SERVICE

### Optional Services and Features

- A. Integrated Services Digital Network – Primary Rate Interface (ISDN-PRI)
1. General
    - a. Integrated Services Digital Network (ISDN) – Primary Rate Interface (PRI) is a central office based service arrangement that is an alternative for individual access services, such as Direct Inward Dialing (DID), Direct Outward Dialing (DOD), 800/888 Services, Wide Area Telecommunications Services, and local business trunks.
    - b. ISDN-PRI is provisioned on a 1.544 megabit per second (Mbps) facility and uses the ISDN architecture of 23 “B” channels and one “D” channel to provide the customer with the capabilities of simultaneous access, transmission and switching of voice, data and imaging services via channelized transport. In addition, ISDN-PRI may be provided with fewer “B” channels on an individual case basis (ICB) depending on the special circumstances of the customer.
    - c. ISDN-PRI provides the capability to transport customer information in the form of circuit-switched voice or data up to 64 Kbps over any “B” channel.
    - d. ISDN-PRI and other local services are offered on an end user basis only. Use of such services for transmitting interexchange traffic that does not either originate and terminate at the customer premises is prohibited.

## GENERAL EXCHANGE SERVICE

### Optional Services and Features (Cont'd)

- A. Integrated Services Digital Network – Primary Rate Interface (ISDN-PRI)  
(Continued)
2. Regulations
- a. ISDN-PRI service is only available from serving central offices equipped with the necessary facilities to provide ISDN-PRI service. Feature availability and service capabilities are dependent on the facilities and the digital technology providing the service.
  - b. Customer Provided Equipment (CPE) must be NI-2 compliant (meet the National Standard for PRI). Any CPE that requires custom switch features not supported in the NI-2 specification may be supported as an exception.
  - c. This Tariff provides for PRI switching capabilities only and additional services must be subscribed to under separate sections of this Tariff. Each ISDN-PRI facility is provided with one telephone number.
  - d. This tariff does not provide for the transmission of packet data on the “B” or “D” channels, but this service can be provided on an individual case basis.

### GENERAL EXCHANGE SERVICE

#### Optional Services and Features (Cont'd)

A. Integrated Services Digital Network – Primary Rate Interface (ISDN-PRI) (Cont'd)

3. ISDN-PRI Features

The following B-channel features are offered to the customer, at no additional charge.

- a. Call-by-Call Service Selection provides an option to the dedicated channel configuration by allowing channels to be configured to access multiple services on a per call basis. With this feature, separate facilities are not required for individual services, such as DID, DOD, WATS, 800/888 services, and local switched access lines.
- b. Clear Channel Capability allows the customer to transport 64 Kbps over the PRI channels with no constraint on the quantity or sequence of bits using the “Bipolar with Eight Zero Substitution” method of providing bit sequence independence.
- c. Fractional DS1 ISDN-Originating allows the customer to set up N x 64 Kbps calls from an ISDN-PRI in real-time and in the same manner as any circuit switched ISDN call.
- d. Fractional DS1 ISDN-Terminating allows the customer to receive N x 64 Kbps calls from an ISDN-PRI in real-time and in the same manner as any circuit switched ISDN call.

## GENERAL EXCHANGE SERVICE

### Optional Services and Features (Cont'd)

#### A. Integrated Services Digital Network – Primary Rate Interface (ISDN-PRI) (Cont'd)

4. ISDN-PRI Rate Structure
  - a. ISDN-PRI Access
    1. Non-recurring charges for the initial database configuration work and installation of the ISDN-PRI Interface at the Customer Premises apply per each 1.544-Mbps facility provisioned.
  - b. Channel Activations
    1. Channel Activations will be provided at no charge during initial installment of ISDN-PRI access.
  - c. Channel Usage
    1. Voice/Data channel usage rates will apply on a per channel basis.
  - d. Subsequent Activity
    1. Non-recurring charges for database configuration work will apply for all subsequent activity related to changes in channel configuration or ISDN-PRI attributes. The database charges are applied per PRI.

**GENERAL EXCHANGE SERVICE**

Optional Services and Features (Cont'd)

A. Integrated Services Digital Network – Primary Rate Interface (ISDN-PRI) (Cont'd)

5. ISDN-PRI Rates and Charges

	<u>Monthly Rate</u>	<u>Nonrecurring Charge</u>
a. Channel Activation and Usage, per		
B Channel	\$ 24.50	
D Channel	\$ 29.50	

b. Example 1. Standard ISDN-PRI service

23 B Channels x \$24.50 = \$563.50  
1 D Channel x \$29.50 = \$29.50  
\$593/month

Example 2. Elementary School ICB ISDN-PRI service.

12 B Channels x \$24.50 = \$294.00  
1 D Channel x \$29.50 = \$29.50  
\$323.50/month

c. ISDN-PRI also requires one T-1 line and any applicable port charges at the rates and terms described in the National Exchange Carrier Association (NECA) interstate tariff in which the Company concurs.

d. Installation and configuration change charges are applicable as described elsewhere in this tariff and/or the NECA tariff. Current installation and configuration change charges include 10 hours at the current labor rate, 2 trip charges at the current trip charge rate, and 1 service order fee at the current service order rate.

e. Caller ID Number is a feature described elsewhere in this tariff, and an additional Caller ID charge will apply per each trunk.

## GENERAL EXCHANGE SERVICE TARIFF

### MILEAGE RATES – FIBER OPTIC FACILITIES

A. Individual Case Basis

Services may be provided by the Company on an Individual Case Basis (“ICB”). Pursuant to Section 392.200.8 RSMo, customer-specific ICB pricing is authorized for: (1) dedicated, nonswitched, private line, and special access services, (2) central office based switching systems which substitute for customer premise, private branch exchange (PBX) services, and (3) any retail business service.

B. Customer Specific Contracts and Specialized Pricing Arrangements

The Company may provide certain Services offered under this Tariff, or combinations of Services, to Customers on a case-by-case, contractual basis in response to requests by Customers to the Company for proposals or competitive bids. The terms and conditions of each contract offering are subject to the agreement of both the Customer and the Company. Unless otherwise specified, the regulation of such arrangements is in addition to the applicable regulations and prices in other sections of this tariff. Customer-specific contracts may include, but are not limited to:

1. Central-Office Based Services;
2. High Speed Private Line Services;
3. Customized Services that are required because of size or configuration;
4. Special Construction Services; and
5. Any other Service for which the Company has authority to enter into a Customer-specific contract.

C. Special Service Arrangements

Customer-specific service arrangements, which may include engineering, installation, construction facilities, assembly, or other special Services, may be furnished in addition to existing Tariff offerings. Rates, terms, and conditions plus any additional regulations, if applicable, for the special service arrangements will be developed upon Customer’s request. Unless otherwise specified, the regulations for the special service arrangements are in addition to the applicable regulations specified in other sections of this Tariff.
