

Missouri-American Water Co.

Missouri PSC No. 2
Original Adoption Notice Page

RECEIVED

ADOPTION NOTICE

DEC 29 1994

MISSOURI
Public Service Commission

Missouri-American Water Company, hereby adopts, ratifies, and makes its own, in every respect as if the same had been originally filed by it, all tariffs, schedules, rules, notices, concurrences, schedule agreements, divisions, authorities or other instruments whatsoever, filed with the Public Service Commission, State of Missouri, by Missouri Cities Water Company prior to January 1, 1995 (collectively hereinafter referred to as the Tariff Sheets).

By this notice, Missouri-American Water Company also adopts and ratifies all supplements or amendments to any of the Tariff Sheets which Missouri Cities Water Company has heretofore filed with said Commission.

Issued: December 27, 1994

Effective: January 1, 1995

Rules and Regulations Governing Rendering
of Water Service

MAY 22 1974

Rule 1 GENERAL

MISSOURI
Public Service Commission

- (a) Every Customer, upon signing an application for ~~any service~~ rendered by the Company, or upon taking of water service, shall be considered to have expressed consent to be bound by these rates, rules, and regulations.
- (b) The Company's rules and regulations governing rendering of service are set forth in these numbered sheets. The rates and charges applicable to appropriate service or rate determination areas are set forth in alphabetically numbered appendices to these rules and regulations.
- (c) The Company reserves the right, subject to authority of the Public Service Commission of Missouri, to prescribe additional rates, rules or regulations or to alter existing rates, rules or regulations as it may from time to time deem necessary or proper.
- (d) At the effective date of these revised rules and regulations, all new facilities, construction contracts, and written agreements shall conform to these rules and regulations in accordance with the statutes of the State of Missouri and authority of the Public Service Commission of Missouri. However, nothing in these revised rules and regulations shall require reconstruction or alteration of existing facilities, contracts, or written agreements to provide conformance either at the effective date or thereafter, excepting where such alteration is mutually agreeable between the Company and the customers involved, or is considered necessary by the Company.
- (e) The water service made available under these rules is for the use of the Customer on his premises, and he shall not re-sell any of it without the written consent of this Company.
- (f) The properly authorized agents of the Company shall have the right to enter upon the premises of the Customer at all reasonable times for the purpose of inspecting any appliance of the Customer used in connection with this service.

Rules and Regulations Governing Rendering of Water Service MAY 22 1974

Rule 2 DEFINITIONS

MISSOURI Public Service Commission

- (a) The "COMPANY" is the Missouri Cities Water Company, acting through its Officers, Managers, or other duly authorized employees or agents.
- (b) The "COMMISSION" is the Missouri Public Service Commission.
- (c) The "CUSTOMER" is any person, individual, partnership, firm, association, corporation, or governmental body receiving water service from Company, or whose facilities are connected for utilizing such service.
- (d) The word "PREMISE" shall be used herein to define the standard billing unit or unit of service of the Company. The Company reserves the right to meter and bill separately each Premise as defined below. The readings of meters serving two or more Premises can be combined for billing purposes, only for the convenience of the Company. A Premise as used herein shall designate:
 - (1) A building owned or leased by a Customer and occupied as a single residence or place of business; or
 - (2) A building owned or leased by a Customer containing more than one apartment and having one entrance and using one hall in common; or
 - (3) A building owned or leased by a Customer having a number of apartments which are rented to tenants; or
 - (4) A public building such as a town hall, school house, fire station, etc.; or
 - (5) Each dwelling unit, house or building in a row having party walls; or
 - (6) A contiguous group or combination of buildings owned or leased by a Customer and occupied by a single family or firm as a residence or place of business.

Rule 2 DEFINITIONS (cont.)

MISSOURI
Public Service Commission

- (7) A contiguous group or combination of buildings operated as a hospital or other public service institution; or
- (8) A single lot or park or playground;
- (9) A multiple family service is where service is provided to a structure or group of structures which contains at least two premises normally used as a residence by an individual or a family and where such structure or group of structures are served by a single service connection.

with specific understanding that in instances where two or more of the above designations might apply, the most restrictive shall be deemed appropriate.

- (e) A "MAIN" is a pipeline which is owned and maintained by the Company, located on public property or on private easements, and used to supply water to a number of customers.
- (f) A "SERVICE CONNECTION" is the service pipe from the main to a curb stop or service box at the property line, owned and maintained by the Company, used to conduct water from the main to and including a metering installation near the Customer's property line.
- (g) A "CUSTOMER'S WATER SERVICE" is a pipe with appurtenances from the Service Connection to the Customer's premises.
- (h) "YEARLY SERVICE" is the furnishing of year round water supply to a Customer, except as provided on Rule 2 (j).
- (i) "STANDBY SERVICE" is the furnishing of water supply to a Customer to supplement his own supply in case his own supply is inadequate to meet peak demands or is unreliable.
- (j) "TEMPORARY SERVICE" is the furnishing of water supply to a Customer for a limited time, or to houses without foundations.

MAY 22 1974

Rule 3 LIABILITY OF THE COMPANY

MISSOURI
Public Service Commission

- (a) The Company shall in no event be liable for any damage or inconvenience caused by reason of any break, leak or defect in the Customer's service or fixtures or in the physical connection between the Customer's service and the Company owned service connection.
- (b) If for any reason beyond the control of the Company it becomes necessary to shut off water in the mains, the Company will not be responsible for any damages occasioned by such shut off. The Company will not be responsible for damages caused by turbid water which may be occasioned by cleaning of pipes, reservoirs or standpipes, or the opening or closing of any gates or hydrants, or any other cause when the same is due to no lack of reasonable care on the part of the Company.
- ✓ (c) The actual ownership of a minority of the service connections is indeterminate in several areas served by the Company. It is therefore the intent of these rules and regulations that the Company shall assume the responsibility and expense for maintenance of all service connections to the Customer's property line or the meter installation, whichever be the shorter distance to the main. When, in the opinion of the Company, such a service connection is in need of replacement, the Company shall make the replacement at its own expense. The Company will hold title to all service connections installed by the Company.
- (d) Employees or agents of the Company are expressly forbidden to demand or accept any compensation for any service rendered to its Customers except as covered in the Company's rules and regulations.
- (e) The Company shall not be responsible in damages for any failure to supply water to the premises or ~~for~~ interruption if such failure or interruption is without willful default or negligence on its part.

MISSOURI
Public Service Commission

- (f) The Company shall not be liable for damages resulting to Customer or to third persons, unless due to contributory negligence on the part of the Company, and without any contributory negligence on the part of the Customer or such third party.
- (g) The Company reserves the right to discontinue water service in its mains at any time, without notice, for making repairs, extensions or alterations to the distribution system or station equipment; however, where service is to be discontinued for six (6) hours or longer, notice will be given to Customer.
- (h) No employee or agent of the Company shall have the right or authority to bind it by any promise, agreement or representation contrary to the letter or intent of these rules and regulations. Nor shall any employee or agent of the Company have authority to bind it by any promise, agreement, or representation not provided for in these rules.
- (i) The Company shall use reasonable diligence in providing a regular and uninterrupted supply of water, but in case the supply of water is interrupted by reason of strike, riot, invasion, storm, fire, accident, breakdown, legal process, state or municipal interference or any cause beyond its control, the Company shall not be liable for damage to the Customer for interruption in service due to any of the aforesaid causes.

Rule 4 SERVICE CONNECTIONS - YEARLY SERVICE MISSOURI
 Public Service Commission

- (a) Application for water service shall be made in writing at the offices of the Company by the prospective Customer. The application for water service shall specify the location of the premises to be served, the name of the applicant and of the owner, the size of service connection desired and the scope and type of use to be made of the service.
- (b) Any new occupant at a premise shall require a new application. The Company may, after reasonable notice, discontinue the water supply until such new application has been made accepted.
- (c) The Company will not be required to enlarge any existing service connection if in the Company's opinion the connection is of adequate size.
- (d) Only persons duly authorized by the Company shall make any connection to or disconnection from a water main or service connection of the Company, or set, change, remove, interfere with or by-pass any water meter of the Company. Penalties provided by law for any such action will be rigidly enforced.
- (e) At the time of application for service, applicant may be required to execute a written application or contract; provided, however, that the Company shall have the right to reject any application that does not meet the requirements of their rules and regulations. In any case where unusual construction or equipment expense is necessary to furnish the service, the Company may require a contract for such reasonable period of time as is specified by the Company at the time of the making of such contract.
- (f) The Customer shall, upon request of the Company, present in writing to the Company, a list of the devices which are to be attached to the Company's lines, giving the location of the building, and the Company will then advise the form and the character of the water facilities available.

Rule 4 SERVICE CONNECTIONS – YEARLY SERVICE (Contd.)

(Q) Waiver of Service Connection Charges –

Where the Company faces competition for business with other water suppliers, the Company may waive all or part of any service connection charges in order to effectively compete with offers made to developers and/or customers by other water suppliers after requesting approval of the waiver from the Missouri Public Service Commission on a case-by-case basis and receiving an Order granting the waiver for good cause shown.

“Good cause” shall be shown where the Company has provided the Missouri Public Service Commission Staff and the Office of the Public Counsel with reasonable and adequate documentation that:

- 1) Bonafide competition exists between water suppliers for new customers;
- 2) The addition of customers for whom the waiver applies would not result in a positive revenue requirement; and,
- 3) A positive net income will likely be achieved within a five-year period from the time the first new construction is placed in service.

In the event a positive revenue requirement does result from the transaction, then any additional revenue requirement will be borne by the Company’s shareholders, not its ratepayers.

The following listed areas, individuals, and/or subdivisions have been granted waivers by the Commission per the associated order numbers:

Rule 6 INSIDE PIPING AND CUSTOMER WATER SERVICE MISSOURI
Public Service Commission

(a) Each applicant for service must, at his own expense, equip his service supply line with an accessible compression stop and waste cock inside the foundation wall, as well as all piping and attachments, all of which shall be constructed and maintained by him, subject to the approval of any authorized inspectors and in accordance with the rules and regulations of the Company in force at that time.

(b) Customer's water service, unless otherwise authorized by Company, shall meet these specifications:

(1) The Customer's water service pipe shall be of a size not smaller than the service connection, and the minimum size shall be three-quarter (3/4") inch. The type of pipe shall conform to existing plumbing codes and the reasonable requirements of the Company in furnishing adequate and safe service.

(2) The Customer's water service shall include the connection to the outlet side of the metering installation installed as a part of the service connection, and the responsibility for such connection shall be the Customer's. The Company may, as a practical matter, agree to make the physical connection between the Customer's water service and its metering facilities, but the Company by so doing shall assume no liability for said connection.

(3) All new Customer's water services shall have a minimum cover of thirty-six (36") inches. The service pipe shall be placed on firm earth providing permanent support, and shall be installed at least four feet (4') in a horizontal direction from any gas pipe, and ten feet (10') from any sewer pipe, or other facilities, public or private, unless otherwise specifically authorized by the Company.

Rule 6 **INSIDE PIPING AND CUSTOMER WATER SERVICE (cont.)** Missouri Public Service Commission

- (4) Service pipe in buildings shall be protected from frost. In buildings where there are no cellars, the pipe shall be carried up from the center of the building or unexposed part, or shall be otherwise installed in such manner as to reasonably protect said pipes from freezing.
- (5) Unless otherwise agreed to, Company will not install its service connection and metering equipment until Customer's water service is installed as herein provided.
- (c) The Company reserves the right to inspect Customer's installation prior to rendering water service and from time to time thereafter, but assumes no responsibility whatsoever for any portion thereof. Charges for inspection by Company personnel shall be in accordance with Rule 12. Where municipal or other governmental inspection is required by local rules or ordinances, the Company cannot render water service until such inspection has been made and a formal notice of approval from the inspecting authority has been received by the Company.
- (d) All meters or other appliances and equipment furnished by and at the expense of the Company, which may at any time be on said premises, shall, unless otherwise expressly provided herein, be and remain the property of the Company, and the Customer shall protect such property from freezing and from loss or damage, and no one who is not an agent of the Company shall be permitted to remove such property or tamper therewith.
- (e) When street main pressure exceeds 100 p.s.i., Customer shall install at his expense, an approved pressure-reducing valve in the water service near its entrance to the building to reduce the water pressure to 100 p.s.i. or lower except where the water service pipe supplies water directly to a water pressure booster system, an elevated water gravity tank, or to pumps provided in connection with a hydropneumatic or elevated gravity water supply tank system. Pressure at any fixture shall be limited to no more than 100 p.s.i. under no-flow conditions.

(c) Fire Protection Systems

1. All new fire protection systems, other than residential systems utilizing a combination service line for one and two family premises, connected to the Company's water supply shall be protected from back pressure and back siphonage by one of the following testable devices:
 - Double Check Detector assembly (DCDA).
 - Reduced Pressure Detector Assembly (RPDA).
2. Fire protection systems that contain antifreeze, fire retardant, or other chemicals must be equipped with an RPDA.
3. A reduced pressure assembly (RP) may be used to isolate a branch line(s) of the fire service that contains chemicals, at the discretion of the Company. In this case, a DCDA may be installed as the containment assembly.
4. Existing fire protection systems must be equipped, at a minimum, with a double check valve assembly (DC) unless the system contains chemicals. In this case, the system must be equipped with an RP.
5. When an existing fire protection system equipped with a DC is extended or renovated, the system's backflow prevention device must be upgraded to a DCDA.

Rule 8 BILLS FOR WATER SERVICE

- (a) The charges for water service shall be at the rates specified in the applicable rate schedules. The point of delivery of service shall be at the outlet or Customer's side of the meter installation for all metered service or at the property line for all other classes. Service charges for connection (turn-on) or disconnection (turn-off) are set forth in Rule 12.
- (b) A Customer who has made application for water service to a premises shall be held liable for all charges for water furnished to such premise until the Customer notifies the Company to discontinue service.
- (c) Bills for water service will be distributed on a monthly basis. The due date on the tariff shall be ten (10) days after the "date of rendition" of the bill to the customer. The customer's bill will be due and payable after this due date. The delinquent date printed on the bill will not be less than twenty-one (21) days after the date of the postmark of the bill. Any accounts remaining unpaid at the expiration of twenty-one (21) days shall be considered delinquent and the Company may take such action as specified in its filed rules and regulations. +
- (d) A separate bill shall be rendered for each meter installation, and the use of water by the same Customer in different premises or localities will not be combined. Each meter installation shall stand by itself. +
- (e) Each Customer is responsible for furnishing the Company with his correct address. Failure to receive bills will not be considered an excuse for non-payment nor reason to permit an extension of the date when the account would be considered delinquent. +
- (f) Bills and notices relating to the Company or its business will be mailed or delivered to the mailing address entered in the Customer's application unless the Company is notified by the Customer of a change of address. +

Rule 8 BILLS FOR WATER SERVICE (cont.)

- (g) Payments shall be made at the office of the Company or at such other places conveniently located as may be designated by the Company.
- (h) The Company shall have the right to read meters and render bills either monthly, bi-monthly, or quarterly, and such bills shall be due and payable on the due date indicated on the bill.
- (i) Water bills are rendered for the entire premises and will not be subdivided.
- (j) The Company may render a bill based on estimated usage if: (Method of estimating is outlined in Rule 8 (p).)
 - (1) Extreme weather conditions, emergencies, labor agreements, or work stoppages prevent actual meter readings.
 - (2) The Company is unable to obtain access to the Customer's premises for the purposes of reading the meter, or in situations where the Customer makes reading the meter unnecessarily difficult.
- (k) If the Company is unable to obtain an actual meter reading, it shall undertake reasonable alternatives to obtain a Customer reading of the meter, such as mailing or leaving postpaid, pre-addressed postcards upon which the Customer may note the reading.
- (l) In the event the Company is unable to obtain a meter reading which would otherwise be cause for discontinuance of service in accordance with the Rules of the Public Service Commission of Missouri, the Company will offer special appointments to Customers for meter reading between 4:30 p.m. and 9:00 p.m. on Monday through Friday and between 8:00 a.m. and 4:00 p.m. on Saturday, both excluding holidays. The charge for such special appointment will be FIFTEEN DOLLARS (\$15.00).

RULE 9 - DISCONTINUANCE OF WATER SERVICE - Continued

VIII. Non-payment of a sewer bill pursuant to a contract between the Company and a sewer corporation, municipality or sewer district authorized by state statute.

IX. As provided by state or federal law. *

(C) None of the following shall constitute sufficient cause for the Company to discontinue service:

I. The failure of a customer to pay for merchandise, appliances or services not subject to commission jurisdiction as an integral part of the Company service provided by the Company, except for a sewer bill pursuant to Rule 9.(B) VIII.

II. The failure of the customer to pay for service received at a separate metering point, residence or location. In the event of discontinuance or termination of service at a separate residential metering point, residence or location in accordance with these rules, the Company may transfer and bill any unpaid balance to any other residential service account of the customer and may discontinue service after twenty-one (21) days after rendition of the combined bill, for nonpayment, in accordance with this rule; *

III. The failure of the customer to pay for a different class of service received at the same or different location. The placing of more than one (1) meter at the same location for the purpose of billing the usage of specific devices under optional rate schedules or provisions is not construed as a different class of service for the purpose of this rule;

IV. The failure to pay the bill of another customer, unless the customer whose service is sought to be discontinued received substantial benefit and use of the service; *

RULE 9 - DISCONTINUANCE OF WATER SERVICE - Continued

V. The failure of a previous owner or occupant of the premises to pay an unpaid or delinquent bill except where the previous occupant remains an occupant or user; or *

VI. The failure to pay a bill correcting a previous underbilling, whenever the customer claims an inability to pay the corrected amount, unless a utility has offered the customer a payment arrangement equal to the period of underbilling. *

(D) Except for Rule 9(B) VIII, notwithstanding any other provision of this rule, The Company shall postpone the discontinuance of water service to a residential customer for a time not in excess of twenty-one days if the Company is advised the discontinuance will aggravate an existent medical emergency of the Customer, a member of his family or other permanent resident of the premises where service is rendered. The Company may require a Customer to provide satisfactory evidence that a medical emergency exists.

(E) Notwithstanding any other provision of this rule, the Company may discontinue service temporarily without advance notice for reasons of maintenance, health, safety or a state of emergency.

(F) If a Customer disputes a particular bill, the Company will not terminate service for non-payment so long as the Customer (i) pays the undisputed portion of the bill (if the parties are unable to determine the undisputed portion, the Customer shall pay to the utility fifty percent (50%) of the bill in dispute), (ii) pays all future periodic bills by the due date, and (iii) enters into bonafide discussions with the Company to settle the dispute in accordance with rules of the Public Service Commission. If agreement cannot be reached on settlement of the dispute, the Customer may register his dispute with the Public Service Commission in accordance with Commission rules.

(G) Except for Rule 9(B) VIII, the Company shall not discontinue residential service pursuant to section 9(B) unless written notice by first class mail is sent to

the customer at least ten (10) days prior to the date of the proposed discontinuance. Service of notice by mail is complete upon mailing. As an alternative, the Company may deliver a written notice in hand to the customer at least ninety-six (96) hours prior to discontinuance. A notice of discontinuance of service shall not be issued as to that portion of a bill which is determined to be an amount in dispute pursuant to sections 4 CSR 240-13.045(5) or (6) that is currently the subject of a dispute pending with the utility or complaint before the commission, nor shall such a notice be issued as to any bill or portion of a bill which is the subject of a settlement agreement except after breach of settlement.

(H) On the date specified on the notice of discontinuance or within eleven (11) business days after that, and subject to the requirements of these rules, the Company may discontinue service to a residential customer between the hours of 8:00 a.m. and 4:00 p.m. Service shall not be discontinued on a day when Company personnel are not available to reconnect the customer's service or on a day immediately preceding such a day. After the eleven (11) business day effective period of the notice, all notice procedures required by this rule shall again be followed before the Company will discontinue service. *

(I) The Company shall make reasonable effort to communicate with the customer, at least twenty-four (24) hours prior to any discontinuance, regarding the reason(s) for discontinuance of service, and the resolution. If discontinuance of service would affect an occupant who is not the company's customer, or is not responsible for payment of the bill, then the Company shall make reasonable effort to inform such occupant(s). *

(J) Discontinuance of service will be made during reasonable hours. Company personnel shall identify themselves and announce the intention to disconnect service, or leave a conspicuous notice of the disconnect. *

(K) The provisions of paragraphs (i) and (j) above may be waived if safety of Company personnel while at the premises is a consideration. *

RULES, REGULATIONS GOVERNING RENDERING OF WATER SERVICE

Rule 9.1 – Renewal of Water Service After Discontinuance (Cont'd)

(F) When it has been necessary to discontinue water service to any premises because of a violation of the Rules and Regulations or on account of non-payment of any bill, except for non-payment of a sewer bill pursuant to Rule 9(B) VIII, a charge will be made to restore water service. Refer to Sheet No. F-1 for charges to restore service during regular hours or after regular hours or on Saturdays, Sundays, or holidays. This charge together with any arrears that may be due the Company for charges against the Customer, and any service deposit required by the Company, must be paid before the water will again be turned on.

+
+
+

(G) If at the time of such discontinuance of service, the Customer does not have a deposit with the Company, the Company will require a cash deposit as a guarantee of the payment of future bills before the water will be turned on.

Rule 9.2 – Security Deposits

(A) The Company may require a security deposit or other guarantee as a condition of new water service due to any of the following:

- I. The Customer has outstanding with the Company or a utility providing the same type of service, an unpaid service account which accrued within the last five years and at the time of the request for water service, remains unpaid and not in dispute.
- II. The Customer has an unauthorized manner interfered with or diverted the service of a utility providing the same service situated on or about or delivered to the Customer's premises within the last five years.
- III. The Customer is unable to meet credit rating standards for water utilities. The Customer shall be deemed to have established an acceptable credit rating if the Customer meets any of the following criteria:

(c) A security deposit required by the Company in accordance with the following terms and conditions:

- (1) A deposit shall not exceed the Company's charges applicable to one billing period plus thirty days and shall be computed on the basis of the estimated annual billing for service, unless the security deposit is required under the terms of Section (b) of this Rule, in which case the deposit shall not exceed two times the highest bill of that Customer during the preceding twelve months.
- (2) Interest at the rate of six percent (6%) per annum compounded annually shall be payable on all deposits. Interest shall be paid upon the return of the deposit. Interest shall not accrue on any cash deposit after the date the Company has made a reasonable effort to return such deposit to the Customer.
- (3) Upon termination of service, the deposit, with accrued interest, shall be credited to the final bill and the balance, if any, shall be returned promptly to the Customer.
- (4) The credit of a Customer shall be established and the deposit and accrued interest shall be refunded promptly by the Company upon satisfactory payment by the Customer of all proper charges for water service for a period not to exceed twelve consecutive months. For purposes of this Rule, payment is satisfactory if made prior to the date upon which the bill becomes delinquent. The Company may withhold refund of the deposit funds pending the resolution of a matter in dispute involving discontinuance for non-payment or unauthorized interference by the Customer.

Rule 10 DISCONTINUANCE OF WATER SERVICE
AT CUSTOMER'S REQUEST

MISSOURI
Public Service Commission

- (a) Service will be permanently discontinued at the Customer's request when proper notification is made as noted in Rule 8(b). On receipt of such notification the Company shall read the Customer's meter and charges for water service rendered up to and including the time of shut-off shall be computed and will become due and payable immediately.
- (b) The Company may, on verbal notice of the Customer, or his agent, temporarily disconnect (turn-off) and reinstate service for repairs or alterations without in any way affecting the existing application. There shall be no service charge during regular company business hours for such service occasioned by replacement of a Customer's water service pipe. However, the appropriate service shall be due upon reinstatement of service occasioned by repairs upon a Customer's plumbing or for any such service rendered after regular business hours except to disconnect a Customer's ruptured service.
- (c) Discontinuance of water service to a premise for any reason shall not prevent the Company from pursuing any lawful remedy by action at law or otherwise for the collection of monies due from Customer.

- (a) A service charge of five dollars (\$5.00), net, during the Company's regular business hours and ten dollars (\$10.00), net, after the Company's regular business hours shall be charged for a connection (turn-on) of service based upon a new application for a service connection in accordance with Rule 4.
- (b) A disconnection (turn-off) of an existing service will be made during the Company's regular business hours without charge.
- (c) A connection of service to a specific Customer which was discontinued in accordance with Rule 9 will be made during the Company's regular business hours for a charge of five dollars (\$5.00), net.
- (d) A service call during the Company's regular business hours which results in collection of a delinquent account (in lieu of discontinuance in accordance with Rule 9) shall require collection of the delinquent amount plus a five dollar (\$5.00), net, service charge to avoid discontinuance.
- (e) A service call at any time other than during the Company's regular business hours for connection, disconnection or any other reason except disconnection for a ruptured Customer's water service shall require a service charge of ten (\$10.00) dollars, net. In instances where such a service call is to restore service for a delinquent account, this service charge shall be collected in addition to any other amounts due prior to making the connection.

MAY 22 1974

Rule 13 METERS AND METER INSTALLATIONS (cont.) MISSOURI

Public Service Commission

- (f) All service to any one Customer at one building shall be furnished through a single metering installation. Where a building is occupied by more than one Customer, Company will set as many meters as there are separate applications for service, and will connect the meters to one service line. The Company's meters will be located adjacent to each other unless otherwise approved by the Company. Where service is now supplied through one meter to a location having two or more separate premises, the service shall be considered a multiple service. The Customer may rearrange piping, at his own expense, so as to separate the multiple service and permit the Company to install a separate meter for each premise.
- (g) The meters and meter installations furnished by the Company shall remain its property and the owners of premises wherein they are located shall be held responsible for their safekeeping and liable for any damage thereto resulting from the carelessness of said owner, his agent, or tenant. For failure to protect same against damage, the Company may refuse to supply water until the Company is paid for such damage. The amount of the charge shall be the cost of the meter and appurtenances (including applicable taxes and other incidental charges) and the labor cost necessary to make the meter change.
- (h) When a meter is installed at or near the Customer's property line, it shall be placed in a meter box vault constructed by the Company in accordance with its specifications.
- (i) The Customer shall promptly notify the Company of any defect in, or damage to, the meter, its connections or housing.
- (j) Any change in the location of any existing meter or meter installation at the request of the Customer shall be made by the Company at the expense of the Customer.

Rule 15 BILL ADJUSTMENTS BASED ON METER TEST Public Service Commission

- (a) Whenever any test by the Company of a meter while in service or upon its removal from service shall show such meter to have an average error or more than five (5%) per cent on the test streams prescribed by the Commission, the Company shall adjust the Customer's bills by the amount of the actual average error of the meter and not the difference between the allowable error and the error as found. The period of adjustment on account of the under-registration or over-registration will be determined as follows:
 - (1) Where the period of error can be shown, the adjustment shall be made for such period.
 - (2) Where the period of error cannot be shown, the error found shall be considered to have existed for three months preceding the test.
- (b) If the meter is found on any such test to under-register, the Company may render a bill to the Customer concerned for the estimated consumption not covered by bills previously rendered during the period of inaccuracy as above outlined. Such action shall be taken, however, only in cases where the bill for the estimated inaccuracy amounts to \$2.50 or more, and all such bills shall be conditioned upon the Company's not being at fault for allowing the inaccurate meter to remain in service.
- (c) If the meter is found faster than allowable, the Company shall refund to the Customer concerned any overcharge caused thereby during the period of inaccuracy as above defined. Said refund may, at the Company's option, be in the form of a credit to the Customer's bill.

Rule 17 PRIVATE FIRE PROTECTION

MISSOURI Public Service Commission

- (a) Application for private fire protection service will be considered subject to there being water mains of sufficient size, and the furnishing of fire protection service shall be on the basis of pressures as they may exist in the locality, which pressures are not guaranteed by the Company.
- (b) An applicant for fire protection service shall present to the Company a complete description of the requested fire protection service, giving details of feeder lines and connections, hydrants, sprinklers, hose connections, etc. The use of water through these fire protection facilities must and shall be limited to combating fires only.
- (c) If unauthorized usage is made of the fire protection facilities, or unusual circumstances develop, the Company reserves the right, at any time, to install a meter or flow-detecting device. The cost of such meter or flow-detecting device and the installation thereof shall be paid by the customer.
- (d) Private fire service does not include any special service, pressure, or capacity of facility other than the ordinary day to day conditions of service of the Company. The Company does not assume liability as an insurer of property or persons.
- (e) All new private fire service connections shall include installation of a gate valve of the same size as the service connection at the junction of the water main, along with an approved backflow prevention assembly with detection meter. The backflow assembly must be installed on the customer premises in an inground vault or inside a building. The installation and operation of the backflow assembly must conform to the requirements of the Company and the Dept. of Natural Resources and shall remain the sole responsibility of the customer for periodic inspections, testing and maintenance. The entire installation shall be paid for by the customer. All of the facilities installed on the customer premises shall be owned by the customer. However, that portion which is installed from the Company main to the property line shall be the property of the Company in consideration for its perpetual maintenance and upkeep. Should a customer fail to have the backflow assembly inspected, tested or maintained, the Company will refuse to continue service to the premise until such time as the customer complies to the Rules.

**Rules and Regulations Governing Rendering
Of Water Service****Rule 17 Private Fire Protection Service**

- A. Application for private fire protection service will be considered by the Company subject to the availability of water mains of sufficient size, and the furnishing of fire protection service shall be on the basis of pressure and volumes as may exist in the locality, which pressures and volumes are not guaranteed by the Company. The private fire protection service is not designed to extinguish a fire, but rather to suppress or retard its growth to protect persons and property.
- B. When fire flows are necessary (whether for a single premises or on a Master Water Service Line which is metered at its connection to the Company's main), the meter(s) must be capable of measuring a full range of flows required by the customer (both domestic and fire flows). The Customer with approval from the Company may choose the preferred method of:

A combination service line with a meter designed for both domestic flows and fire flows, typically referred to as a "fire flow" meter, or an approved meter by the Company. For residential single or two family premises combination services only, this meter may not be a "fire flow" meter designed and warranted for use on residential fire suppression systems. That portion of the dual purpose service line from the Company main to the property line shall be the property of the Company in consideration of its perpetual maintenance and upkeep excluding St. Louis County Operations.

Based on Customer's needs and premises requirements, the Customer with approval from the Company may also choose between:

- 1) a split service line configuration which uses a detector check meter(s) on the fire line and a meter suitable for the reasonably anticipated domestic usage requirements on the line not used for fire protection, or
- 2) a dedicated fire service line with detector check meter, which is separate from the domestic water service line.

If a Customer chooses a combination service configuration for a one or two family residential premises that is sized to meet fire flows, this service line will be considered an oversized Domestic Service Line and must conform to the rules for service connections as provided elsewhere in this tariff. An "Application for Special Connection" must be completed and approved in writing by the Company, as well as by the applicable Fire Protection Authority.

A Customer who receives both domestic water and fire protection services through a combination or split service line acknowledges that discontinuance of service for any reason will result in the discontinuance of fire protection service.

- C. If unauthorized usage is made of the fire protection facilities, or unusual circumstances develop, the Company reserves the right, at any time, to install a meter or flow-detection device. In such circumstances the Company will provide the meter, but the cost of meter installation including necessary plumbing, fittings, vaults or meter settings necessary for the installation shall be paid by the Customer.

RULES AND REGULATIONS GOVERNING RENDERING OF WATER SERVICE

Rule 17 Private Fire Protection

A. Application for private fire protection service will be considered by the Company subject to the availability of water mains of sufficient size, and the furnishing of fire protection service shall be on the basis of pressure and volumes as may exist in the locality, which pressures and volumes are not guaranteed by the Company.

B. When fire flows are necessary (whether for a single premises or on a Master Water Service Line which is metered at its connection to the Company's main), the meter(s) must be capable of measuring a full range of flows required by the customer (both domestic and fire flows). The Customer with approval from the Company may choose the preferred method of:

A combination service line with a meter designed for both domestic flows and fire flows, typically referred to as a "fire flow" meter, or an approved meter by the Company. That portion of the dual purpose service line from the Company main to the property line shall be the property of the Company in consideration of its perpetual maintenance and upkeep excluding St. Louis County Operations.

Based on Customers needs and premise requirements, The Customer with approval from the Company may also choose between:

- 1) a split service line configuration which uses a detector check meter(s) on the fire line and a meter suitable for the reasonably anticipated domestic usage requirements on the line not used for fire protection, or
- 2) a dedicated fire service line with detector check meter, which is separate from the domestic water service line.

C. If unauthorized usage is made of the fire protection facilities, or unusual circumstances develop, the Company reserves the right, at any time, to install a meter or flow-detection device. In such circumstances the Company will provide the meter, but the cost of meter installation including necessary plumbing, fittings, vaults or meter settings necessary for the installation shall be paid by the customer.

D. All new Private Fire Service Line Connections shall include installations of a valve, as approved by the Company, of the same size as the service connection at the junction of the water main, along with an approved backflow prevention assembly with detection meter. The Company or Company's representative will make the service tap to its main at the cost and expense of the Customer. The backflow assembly must be installed on the customer premises in an in-ground vault, above ground, or inside a building. The installation and operation of the backflow assembly must conform to the requirements of the Company and the Department of Natural Resources and shall remain the sole responsibility of the Customer for periodic inspections, testing and maintenance by the Customer. Should a Customer fail to have the backflow assembly inspected, tested or maintained, the Company will refuse to continue service to the premise until such time as the Customer complies with the Rules.

E. No Private Fire Service Line Connections shall be used for domestic, commercial or industrial use unless such connection is authorized by the Company in writing.

F. All new sprinkler pipes and other private fire connection pipes shall be so placed as to be readily inspected. If the pipes are concealed on existing services or not readily identifiable, or if any authorized connections for other uses are in existence, meters shall be installed on each service at the expense of the Customer.

RULES AND REGULATIONS GOVERNING RENDERING OF WATER SERVICE

Rule 17 Private Fire Protection (continued)

- G. The size of the private fire service connection shall be determined by the Company. *
- H. Customers desiring private fire service must consult, before installation, with the Company as to the availability of mains and pressure. In the event a private fire service connection is requested at a point not already served by a main of adequate capacity, at the sole discretion of the Company, a main extension will be required as provided in the rule for Extension of Company's Water Mains. *
- I. Private fire hydrants not installed on public right-of-way or on Company easement and connected to Company mains shall be subject to required contracts as provided in the Company's applicable rate schedule. *
- J. At the sole discretion of the Company, the preferred method of private fire line installation that may be permitted would be a combination water service line for both Domestic and Private Fire service. *
- K. Any modifications to any existing service lines to retrofit a fire suppression system for either residential or commercial shall have written approval of the Company, Fire authority, and the division of plumbing having jurisdiction of the Premises to be served prior to modification and or installation of said fire suppression system. *
- L. An applicant for Split, Combination Water Service lines, Special Connections(s) or dedicated fire service lines shall comply with all provisions specified in the Application for Special Connection which may be modified, altered or changed from time to time by the Company. *
- M. Service connections for water to be taken for the extinguishment of fire shall be made only upon the terms as provided for in the "Application for Special Connection" for such service, a copy of which is available at the Company office, and then only after such application has been approved in writing by the Company designee, as well as by the Fire Protection Authority designee. *
- N. A valve controlling the entire supply, as approved by the Company, shall be placed either at the curb or at such other point as may be approved by the Company, and said valve shall be at the expense of the Customer, and any valve pit or vault which may be required will also be furnished by and at the expense of the Customer. *
- O. Where split services are used for both general and fire purposes, separate charges will be made for each type of service in accordance with the established schedule of rates. *

Rules and Regulations Governing Rendering Of Water Service

Rule 17 Private Fire Protection Service (continued)

G. The size of the private fire service connection shall be determined by the Company.

H. Customers desiring private fire service must consult, before installation, with the Company as to the availability of mains and pressure. In the event a private fire service connection is requested at a point not already served by a main of adequate capacity, at the sole discretion of the Company, a main extension will be required as provided in the rule for Extension of Company's Water Mains.

I. Private fire hydrants not installed on public right-of-way or on Company easement and connected to Company mains shall be subject to required contracts as provided in the Company's applicable rate schedule.

J. Any modifications to any existing service lines to retrofit a fire suppression system for either residential or commercial structures shall have written approval of the Company, applicable Fire Protection Authority, and the division of plumbing having jurisdiction of the premises to be served, prior to modification and or installation of said fire suppression system.

K. An applicant for Split, Combination Water Service lines, Special Connection(s) or dedicated fire service lines shall comply with all provisions specified in the Application for Special Connection, which may be modified, altered or changed from time to time by the Company.

L. Service connections for water to be used for the suppression of fire shall be made only upon the terms as provided for in the "Application for Special Connection" for such service, a copy of which is available at the Company's office, and then only after such application has been approved in writing by the Company, as well as by the applicable Fire Protection Authority.

M. A valve controlling the entire supply, as approved by the Company, shall be placed either at the curb or at such other point as may be approved by the Company, and said valve shall be at the expense of the Customer, and any valve pit or vault which may be required will also be furnished by and at the expense of the Customer.

N. Where split services are used for both general and fire purposes, separate charges will be made for each type of service in accordance with the established schedule of rates.

O. The Company shall not be considered in any manner an insurer of property or persons, or to have undertaken to extinguish fire or to protect any persons or property against loss or damage by fire, or otherwise.

P. The Company shall not in any way or under any circumstance be held liable or responsible for personal injury, death, property damage, or any other claim of loss following or resulting from: the termination or discontinuance of a Customer's service; a deficiency in the pressure, volume or supply of water due to the malfunction or failure of a meter; or a deficiency in the pressure, volume or supply of water while meters or service lines are being repaired or replaced, unless such injury, damage or loss is due to the willful misconduct or gross negligence of the Company.

Rules and Regulations Governing Rendering
Of Water Service

Rule 18 EXTENSION OF COMPANY FACILITIES

(a) The Company will make extensions of its water mains along public highways and streets where grades have been established, or within easements acceptable to the Company on the following terms and conditions. +

1. A written application is required from all persons desiring service as set forth in Rule 4 which provides, among other things, a description of the property to be served, its location, type of service to be provided, and an estimated date service is needed. +

2. If the requested service requires the construction of new mains and facilities or the enlargement, relocation or alteration of existing mains and facilities of the Company, such new construction or alteration will be made at the applicant's cost, pursuant to the provisions of paragraph 3.

3. Applicant shall enter into a written contract with the Company which provides for applicant to: +

(i) Prepare all plans and specifications in accordance with Company specifications of materials, design and its engineering and operating practices. Such plans and specifications shall be approved by the Company.

(ii) Have plans and specifications prepared by an engineer, approved in advance by the Company and who, upon completion of construction, will certify that the installation of the facilities has been completed in accordance with the plans and specifications. +

(iii) When construction is done by the Company, the Applicant shall: Deposit with the Company an amount estimated by the Company to cover the cost of construction including labor and materials to install necessary lines, valves, hydrants and appurtenances, any outside engineering services, necessary testing, and obtaining all necessary easements and permits as required to provide the service requested. The estimate mentioned above shall include overhead costs mentioned in Rule 18 (a) 3.v page 38. If actual costs is less than the estimate, a refund will be made to the applicant. +

MISSOURI CITIES WATER COMPANY For State of Missouri
Name of Issuing Corporation Community, Town or City

Rules and Regulations Governing Rendering Of Water Service MISSOURI Public Service Commission

(x) When construction is done by applicant, applicant shall provide written proof after final inspection and approval by the Company that all contractors, materialmen and workmen have been fully paid for their work on the project. Should it later appear that one or more persons assert liability against the Company because of services or materials rendered in connection with the applicant's construction of the project, applicant shall indemnify and hold harmless the Company from any and all such claims or alleged claims.

(xi) Agrees not to allow any persons to receive services through the facilities until the Company accepts them as provided above.

(xii) Upon the satisfaction of all the prior terms, the Company shall accept the facilities as part of its system, and from that point forward the Company shall own, operate and maintain such facilities.

4. Improvements and extensions made under this Rule shall be and remain the property of the Company. Company reserves the right to extend further and modify the improvements after acceptance of same. The original applicant shall not be entitled to any compensation for customers connecting to such further extension.

5. The sizing and design of additional facilities shall be determined by the Company consistent with the applicant's and Company's requirements, but in no case shall mains of less than six (6) inches in diameter be installed except:

(i) A four inch (4") diameter main may be installed where it will not exceed 300 feet in length, will connect at both ends with mains of the same or larger size, and will not be reasonably required to provide fire protection service either at installation or in the future.

(ii) A two inch (2") diameter main may be installed in dead-end courts or cul-de-sacs where an appropriate fire protection hydrant is provided at the entrance to said cul-de-sacs, the length does not exceed 10 feet, and potential demand upon the main as determined by the Company will not exceed the main.

Rules and Regulations Governing MAY 22 1974
Rendering of Water Service

Rule 18 EXTENSION OF COMPANY FACILITIES (cont.)

(g) Each main extension will be made and computed to the furthest property line of land owned by Customer or Developer. For rural or farming areas, this provision may be modified to reflect future water requirements in said area.

(h) Extensions made under this rule shall be and remain the property of the Company. Company reserves the right to extend further, the main and connecting mains on intersecting streets. The original depositor shall not be entitled to any compensation for customers connecting to such further extension.

(i) When the Company requires the Customer to install facilities larger than the needs of the Customer, the additional cost for such larger facilities shall be borne by the Company.

(j) The sizing and design of additional facilities shall be determined by the Company consistent with the applicant's requirements, but in no case shall mains of less than six (6) inches in diameter be installed except:

(1) A four inch (4") diameter main may be installed where it will not exceed 300 feet in length, will connect at both ends with mains of the same or larger size, and will not be reasonably required to provide fire protection service either at installation or in the future.

(2) A two inch (2") diameter main may be installed in dead end courts or cul-de-sacs where an appropriate fire protection hydrant is provided at the entrance to said courts or cul-de-sacs, the length does not exceed 150 feet, and potential demand upon the main as determined by the Company will not exceed the capacity of the main.

INTERIM TARIFF

DEC 15 1986

After January 1, 1987, the Company shall not accept into its system any taxable Advances or Contributions in addition to construction, whether in cash or property (except amounts paid for remote meter reading service), unless accompanied by an amount equal to the Tax Impact of such acceptance defined as follows:

MISSOURI Public Service Commission

Tax Impact (TI) = $\frac{1 - PV}{1 - T} - 1 \times C$
Where

PV = Present Value of tax savings from tax depreciation as follows:

$PV = \frac{CF_1}{(1+R)^1} + \frac{CF_2}{(1+R)^2} + \dots + \frac{CF_n}{(1+R)^n}$

CFj = Annual cash flow per \$1 of "C" for year j from tax savings due to depreciation on "C" as defined below calculated based on:

- (a) Company's projected tax depreciation life and method in effect for the year in which the taxes on "C" will be incurred with "n" equal to the tax life in years, and
- (b) Company's projected, combined, marginal, statutory income tax rate for each year in which the tax savings will be realized, including state and federal income taxes.

R = Company's most recently allowed Rate of Return on original cost rate base.

T = Company's projected, combined, marginal, statutory income tax rate for the year in which the taxes will be incurred, including state and federal income taxes. Calculated as follows:

MISSOURI
Public Service Commission

All contracts entered into by Company for distribution system and related facilities shall, until further direction from the Commission, contain the following language:

"In the event the monies or properties herewith being contributed to Company shall become subject to income tax, Applicant shall pay to Company that tax impact as hereinafter defined.

Tax impact, unless and until redefined by the Commission, shall be defined, using a proposed federal corporate tax rate of 36%, as 61.5% of the cost of the installation before the tax impact. Any monies paid to Company hereunder for the tax impact of receiving advances, contributions in aid of construction or contributed property which are refunded to Company by taxing authorities, shall be refunded to the Applicant who paid such charges. Pending imposition of any tax on advances, contributions in aid of construction, or contributed property, Company shall require Applicant to provide to Company a letter of credit from an acceptable institution or other acceptable security in the amount of estimated potential tax impact.

This security shall be delivered to Company before it makes any taps on the contributed facilities or accepts the contributed facilities as part of its system."

These rates do not include any municipal, state or federal taxes computed on either billing or consumption basis. Any such taxes applicable shall be added as separate items in rendering each bill.

Billing

Bills for water service will be distributed on a monthly basis. The due date on the tariff shall be ten (10) days after the "date of rendition" of the bill to the customer. The customer's bill will be due and payable after this due date. The delinquent date printed on the bill will not be less than twenty-one (21) days after the date of the postmark of the bill. Any accounts remaining unpaid at the expiration of twenty-one (21) days shall be considered delinquent and the Company may take such action as specified in its filed rules and regulations.

Rules and Regulations Governing
Refunds of Main Extension Deposits

OCT 1 1991

REFUNDS OF MAIN EXTENSION DEPOSITS

MO. PUBLIC SERVICE COMM.

Refunds of deposits required by Rule 18 (e) shall be made only to the depositors, their successors, assigns or authorized agents; as follows:

- (1) A lump sum refund for each permanent customer directly attached to the main extension during the first seven (7) years after the facilities are installed. This lump sum to be:
 - (a) For residential customers, three (3) times the annual average revenues received from residential customers served by the system concerned during the previous calendar year.
 - (b) For non-residential customers, three (3) times the actual annual revenues derived from such customers during their first twelve months of connection, such refunds to be made during the month of June.
- (2) The total amount refunded shall not exceed the original deposit. Any part of such deposit not refunded within said seven (7) year period shall become a non-refundable contribution to the Company.
- (3) Refunds under this rule shall be made only on the basis of services connected to and within the limits of the extension covered by the specific contract or agreement.
- (4) No credit shall be allowed nor shall any refund be made for any standby or temporary service installation, provided, however, in the event service is rendered continuously for a period of five (5) years through any temporary service connection, a refund will be made under paragraph (1) above, as applicable.
- (5) Deposits shall not bear interest.

A. MUNICIPAL OR PUBLIC FIRE PROTECTION

Availability

Standard fire hydrants will be installed and maintained within appropriate governmental or fire protection districts upon specific order or request of governmental authorities for the area, or on new main extensions, consistent with the Company's rules and regulations governing such installations.

Rates

\$132.24 per year or
\$11.02 per month net (1) for each installed fire hydrant plus the net cost of relocated hydrants and unamortized investment of discontinued hydrants.

The charge for hydrants shall be computed as a cost for each customer on the following formula:

H = Monthly hydrant rate times the number of hydrants
R = Cost of relocated hydrants plus unamortized cost of discontinued hydrants divided by twelve.
C = Active metered customers
B = Charge per active customer = $\frac{H + R}{C}$

(1) These rates do not include any municipal, state or federal taxes computed on either billing or consumption basis. Any such taxes applicable shall be added as separate items in rendering each bill.

Billing

Bills will be distributed at monthly intervals and due for payment at the net rate for a period of twenty-one (21) days following mailing to the customer. Any accounts remaining unpaid at the expiration of twenty-one (21) days shall be considered delinquent and the Company may take such action as is specified in its filed rules and regulations.

JAN 15 1982

MISSOURI

Public Service Commission

A. MUNICIPAL OR PUBLIC FIRE PROTECTION

Availability

Standard fire hydrants will be installed and maintained by appropriate governmental or fire protection districts upon specific order or request of governmental authorities for the area, or on new main extensions, consistent with the Company's rules and regulations governing such installations.

Rate

\$114.00 per year or \$9.50 per month net⁽¹⁾ for each installed fire hydrant plus the net cost of relocated hydrants and unamortized investment of discontinued hydrants.

The charge for hydrants shall be computed as a cost for each customer on the following formula:

- H = Monthly hydrant rate times the number of hydrants.
- R = Cost of relocated hydrants plus unamortized cost of discontinued hydrants divided by twelve.
- C = Active metered customers
- B = Charge per active customer = $\frac{H + R}{C}$

(1) These rates do not include any municipal, state or federal taxes computed on either billing or consumption basis. Any such taxes applicable shall be added as separate items in rendering each bill.

Billing

Bills will be distributed at monthly intervals and due for payment at the net rate for a period of twenty-one (21) days following mailing to the customer. Any accounts remaining unpaid at the expiration of twenty-one (21) days shall be considered delinquent and the Company may take such action as is specified in its filed rules and regulations.

A. MUNICIPAL OR PUBLIC FIRE PROTECTION:

Availability:

Standard fire hydrants will be installed and maintained within appropriate governmental or fire protected districts upon specific order of ~~the~~ governmental authorities for the area, or on new main extensions, consistent with the Company's rules and regulations governing such installations.

CANCELLED

JAN 16 1982

Rate:

\$75.00 per year or \$6.25 per month net ^{of Missouri} for each installed fire hydrant plus the net cost of relocated hydrants and unamortized investment of discontinued hydrants.

BY RS A-5
PUBLIC SERVICE COMMISSION

The charge for hydrants shall be computed as a cost for each customer on the following formula:

H = Monthly hydrant rate times the number of hydrants.

R = Cost of relocated hydrants plus unamortized cost of discontinued hydrants divided by twelve.

C = Active metered customers

B = Charge per active customer = $\frac{H + R}{C}$

(1) This rate does not include any Municipal, State or Federal taxes computed on either billing or consumption basis. Any such taxes applicable shall be added in rendering each bill.

Billing:

Billing will be rendered monthly, bi-monthly, or quarterly consistent with billing period for regular water service. Billing for this service shall be in addition to charges for regular water service.

Any accounts remaining unpaid at the expiration of ten (10) days shall be considered delinquent and the Company may take action as is specified in its rules and regulations.

CLASSIFICATION OF SERVICE
RETURNED DEPOSIT ITEM CHARGE

Provided a Customer's check or Electronic Fund Transfer ("EFT") is properly processed by the Company, if a check or EFT that has been received as payment for service is returned by the bank unpaid, a Returned Deposit Item charge as outlined in Sheet F-1 will be assessed to cover the cost of processing this transaction.

+

The Returned Deposit Item charge for the dishonored check or EFT may be reflected, at the Company's option when the Company returns the dishonored check or EFT or may be charged on the Customer's next billing.

The Company may serve a Customer on a cash-only basis if more than one check or Returned Deposit Item of the customer is returned NSF or any other valid return reason in a 12-month period. "Cash" shall be deemed to mean U.S. currency, money order, or certified check.

Rules and Regulations Governing
Refunds of Main Extension Deposits

MAY 22 1974

REFUNDS OF MAIN EXTENSION DEPOSITS

Refunds of deposits required by Rule 18 (e) shall be made only to the depositors, their successors, assigns or authorized agents, as follows:

- (1) A lump sum refund for each permanent customer directly attached to the main extension during the first seven (7) years after the facilities are installed. This lump sum to be:
 - (a) For residential customers, three (3) times the annual average revenues received from residential customers served by the system concerned during the previous calendar year.
 - (b) For non-residential customers, three (3) times the actual annual revenues derived from such customers during their first twelve months of connection, such refunds to be made during the month of June.
- (2) The total amount refunded shall not exceed the original deposit. Any part of such deposit not refunded within said seven (7) year period shall become a non-refundable contribution to the Company.
- (3) Refunds under this rule shall be made only on the basis of services connected to and within the limits of the extension covered by the specific contract or agreement.
- (4) No credit shall be allowed nor shall any refund be made for any standby or temporary service installation, provided, however, in the event service is rendered continuously for a period of five (5) years through any temporary service connection, a refund will be made under paragraph (1) above, as applicable.
- (5) Deposits shall not bear interest.

| 3" | 93.09 | | | + |

These rates do not include any municipal, state or federal taxes computed on either billing or consumption basis. Any such taxes applicable shall be added as separate items in rendering each bill.

Billing

Bills for water service will be distributed on a monthly basis. The due date on the tariff shall be ten (10) days after the "date of rendition" of the bill to the customer. The customer's bill will be due and payable after this due date. The delinquent date printed on the bill will not be less than twenty-one (21) days after the date of the postmark of the bill. Any accounts remaining unpaid at the expiration of twenty-one (21) days shall be considered delinquent and the Company may take such action as specified in its filed rules and regulations.

OCT 1 1991

Rules and Regulations Governing
Refunds of Main Extension Deposits

MO. PUBLIC SERVICE COMM.

REFUNDS OF MAIN EXTENSION DEPOSITS

Refunds of deposits required by Rule 18 (e) shall be made only to the depositors, their successors, assigns or authorized agents, as follows:

- (1) A lump sum refund for each permanent customer directly attached to the main extension during the first seven (7) years after the facilities are installed. This lump sum to be:
 - (a) For residential customers, four (4) times the annual average revenues received from residential customers served by the system concerned during the previous calendar year.
 - (b) For non-residential customers, four (4) times the actual annual revenues derived from such customers during their first twelve months of connection, such refunds to be made during the month of July.
 - (c) For customers requiring 1 1/2" meters or larger, the Company will refund yearly for a period of seven (7) years, thirty-five per cent (35%) of the total annual bill paid by such Customer. Such refunds to be made during the month of July.
- (2) The total amount refunded shall not exceed the original deposit. Any part of such deposit not refunded within said seven (7) year period shall become a non-refundable contribution to the Company.
- (3) Refunds under this rule shall be made only on the basis of services connected to and within the limits of the extension covered by the specific contract or agreement.
- (4) No credit shall be allowed nor shall any refund be made for any standby or temporary service installation, provided, however, in the event service is rendered continuously for a period of five (5) years through any temporary service connection, a refund will be made under paragraph (1) above.
- (5) Deposits shall not bear interest.

RESOLVED
 OCT 10 1985
 MISSOURI
 Public Service Commission

A. MUNICIPAL OR PUBLIC FIRE PROTECTION

Availability

Standard fire hydrants will be installed and maintained within appropriate governmental or fire protection areas upon specific order or request of governmental authorities for the areas, or on new main extensions consistent with the Company's rules and regulations governing such installations.

Rate

\$131.60 per year to
 \$10.97 per month net⁽¹⁾ for each installed fire hydrant plus the net cost of relocated hydrants and unamortized investment of discontinued hydrants.

The charge for hydrants will be computed as a cost for each customer on the following formula:

- H = Monthly hydrant times number of hydrants
- R = Cost of relocated hydrants plus unamortized cost of discontinued hydrants divided by twelve.
- C = Active Metered Customers
- B = Charge per active customer = $\frac{H + R}{C}$

(1) These rates do not include state or federal taxes computed on either billing or consumption basis. Any such taxes applicable shall be added as separate items in rendering each bill.

CANCELLED

OCT 15 1986

Billing

Bills will be distributed at ~~monthly~~ intervals and due for payment at the net rate for a period of twenty-one (21) days following mailing to the customer. Any accounts remaining unpaid at the expiration of twenty-one (21) days shall be considered delinquent and the Company may take such action as is specified in its filed rules and regulations.

MISSOURI
Public Service Commission

A. MUNICIPAL OR PUBLIC FIRE PROTECTION

Availability

Standard fire hydrants will be installed and maintained within appropriate governmental or fire protection areas upon specific order or request of governmental authorities for the areas, or on new main extensions consistent with the Company's rules and regulations governing such installations.

Rate

\$106.16 per year to
\$8.85 per month net⁽¹⁾ for each installed fire hydrant plus the net cost of relocated hydrants and unamortized investment of discontinued hydrants.

The charge for hydrants will be computed as a cost for each customer on the following formula:

H = Monthly hydrant times number of hydrants
R = Cost of relocated hydrants plus unamortized cost of discontinued hydrants divided by twelve.
C = Active Metered Customers
B = Charge per active customer = $\frac{H + R}{C}$

BY 3rd RS B-5
PUBLIC SERVICE COMMISSION
OF MISSOURI

(1) These rates do not include any municipal, state or federal taxes computed on either billing or consumption basis. Any such taxes applicable shall be added as separate items in rendering each bill.

Billing

Bills will be distributed at monthly intervals and due for payment at the net rate for a period of twenty-one (21) days following mailing to the customer. Any accounts remaining unpaid at the expiration of twenty-one (21) days shall be considered delinquent and the Company may take such action as is specified in its filed rules and regulations.

Special Rules & Regulations Governing MO. PUBLIC SERVICE COMM.
Main Extensions for fire hydrant installations

In the event the City requests the installation of fire hydrants on existing streets in an area not already serviced by mains of adequate capacity, such installations will be made, provided the main extension required is not greater than 300 feet. Further, if such installations are greater than 300 feet, the City will be required to make a non-refundable contribution equal to the additional cost thereof. Spacing shall be in accordance with Rule 16 (a).

In the event the City should annex areas, fire hydrants to be located within such areas which are served by water districts financed by Farmers Home Administration or similar agencies, may be placed on their lines if such lines are deemed satisfactory and are acquired by the Company. Otherwise, the Company shall make extensions as provided in Rule 18.

**CLASSIFICATION OF SERVICE
RETURNED DEPOSIT ITEM CHARGE**

Provided a Customer's check or Electronic Fund Transfer ("EFT") is properly processed by the Company, if a check or EFT that has been received as payment for service is returned by the bank unpaid, a Returned Deposit Item charge will be assessed to cover the cost of processing this transaction. Refer to Sheet No. F-1 for fee.

+
+

The Returned Deposit Item charge for the dishonored check or EFT may be reflected, at the Company's option, when the Company returns the dishonored check or EFT or may be charged on the Customer's next billing.

The Company may serve a Customer on a cash-only basis if more than one check or Returned Deposit Item of the customer is returned NSF or any other valid return reason in a 12-month period. "Cash" shall be deemed to mean U.S. currency, money order, or certified check.

Rules and Regulations Governing Refunds of Main Extension Deposits MAY 22 1974

REFUNDS OF MAIN EXTENSION DEPOSITS

Refunds of deposits required by Rule 18 (e) shall be made only to the depositors, their successors, assigns or authorized agents, as follows:

- (1) A lump sum refund for each permanent customer directly attached to the main extension during the first seven (7) years after the facilities are installed. This lump sum to be:
 - (a) For residential customers, four (4) times the annual average revenues received from residential customers served by the system concerned during the previous calendar year.
 - (b) For non-residential customers, four (4) times the actual annual revenues derived from such customers during their first twelve months of connection, such refunds to be made during the month of July.
 - (c) For customers requiring 1½" meters or larger, the Company will refund yearly for a period of seven (7) years, thirty-five per cent (35%) of the total annual bill paid by such Customer. Such refunds to be made during the month of July.
- (2) The total amount refunded shall not exceed the original deposit. Any part of such deposit not refunded within said seven (7) year period shall become a non-refundable contribution to the Company.
- (3) Refunds under this rule shall be made only on the basis of services connected to and within the limits of the extension covered by the specific contract or agreement.
- (4) No credit shall be allowed nor shall any refund be made for any standby or temporary service installation, provided however, in the event service is rendered continuously for a period of five (5) years through any temporary service connection, a refund will be made under paragraph (1) above.
- (5) Deposits shall not bear interest.

Special Rules and Regulations Governing MAY 22 1974
Main Extensions for Fire Hydrant Installations

In the event the City requests the installation of fire hydrants on existing streets in an area not already serviced by mains of adequate capacity, such installations will be made, provided the main extension required is not greater than 300 feet. Further, if such installations are greater than 300 feet, the City will be required to make a non-refundable contribution equal to the additional cost thereof. Spacing shall be in accordance with Rule 16 (a).

In the event the City should annex areas, fire hydrants to be located within such areas which are served by water districts financed by Farmers Home Administration or similar agencies, may be placed on their lines if such lines are deemed satisfactory and are acquired by the Company. Otherwise, the Company shall make extensions as provided in Rule 18.

Billing

Bills for water service will be distributed on a monthly basis. The due date on the tariff shall be ten (10) days after the "date of rendition" of the bill to the customer. The customer's bill will be due and payable after this due date. The delinquent date printed on the bill will not be less than twenty-one (21) days after the date of the postmark of the bill. Any accounts remaining unpaid at the expiration of twenty-one (21) days shall be considered delinquent and the Company may take such action as specified in its filed rules and regulations.

A. MUNICIPAL OR PUBLIC FIRE PROTECTION

Availability

Standard fire hydrants will be installed and maintained with appropriate governmental or fire protection districts upon specific order or request of governmental authorities for the areas, or on new main extensions consistent with the Company's rules and regulations governing such installations.

Rate

\$108.62 per year or \$9.05 per month net⁽¹⁾ for each installed fire hydrant plus the net cost of relocated hydrants and unamortized investment of discontinued hydrants. The charge for hydrants shall be computed as a cost for each customer on the following formula:

- H = Monthly hydrant rate times the number of hydrants.
- R = Cost of relocated hydrants plus the unamortized cost of discontinued hydrants divided by twelve.
- C = Active metered customers $\frac{H + R}{C}$
- B = Charge per active customer

(1) These rates do not include any municipal, state or federal taxes computed on either billing or consumption basis. Any such taxes applicable shall be added as separate items in rendering each bill.

Billing

Bills will be distributed at monthly intervals and due for payment at the net rate for a period of twenty-one (21) days following mailing to the customer. Any accounts remaining unpaid at the expiration of twenty-one (21) days shall be considered delinquent and the Company may take such action as is specified in its filed rules and regulations.

Availability

Standard fire hydrants will be installed and maintained with appropriate governmental or fire protection districts upon specific order or request of governmental authorities for the areas, or on new main extensions consistent with the Company's rules and regulations governing such installations.

MISSOURI
Public Service Commission

Rate

4 5.40

\$101.51 per year or \$8.46 per month net⁽¹⁾ for each installed fire hydrant plus the net cost of relocated hydrants and unamortized investment of discontinued hydrants.

The charge for hydrants shall be computed as a cost for each customer on the following formula:

H = Monthly hydrant rate times the number of hydrants.
 R = Cost of relocated hydrants plus the unamortized cost of discontinued hydrants divided by twelve.
 C = Active metered customers $\frac{H + R}{C}$
 B = Charge per active customer = $\frac{H + R}{C}$

(1) These rates do not include any municipal, state or federal taxes computed on either billing or consumption basis. Any such taxes applicable shall be added as separate items in rendering each bill.

Billing

Bills will be distributed at monthly intervals and due for payment at the net rate for a period of twenty-one (21) days following mailing to the customer. Any accounts remaining unpaid at the expiration of twenty-one (21) days shall be considered delinquent and the Company may take such action as is specified in its filed rules and regulations.

The monthly fire hydrant service charge shall be adjusted annually on March 1 of each year based on December 31 data of the previous year, or, at its option, the Company may recompute the monthly service charge at anytime to reflect changes in number of customers or fire hydrants that results in a variation of 1¢ or more in monthly charge.

B "Other Area" Fire Protection (Unincorporated Areas or Areas Outside Fire Protection Districts)

Availability:

For fire hydrants on public streets and highways where there are mains 6" or more in diameter. Company will furnish fire service in "other areas" where 15 or more customers within the protection zone of a fire hydrant (seven hundred (700) feet) request service. Service request blanks shall be obtained from Company office and submitted with at least the minimum of 15 subscribers. Company will file with the Public Service Commission of Missouri, a map outlining the area to which fire protection service is rendered.

Rate:

- (a) 50¢ per month for each residential customer taking water service.
- (b) 50¢ per month for each 4 living units in a multiple dwelling where such building is served by one meter.
- (c) 50¢ per month for commercial buildings for the first 3,000 square feet and 35¢ per each additional 3,000 square feet of building area.

These rates do not include any Municipal, State or Federal taxes computed on billing basis. Any such taxes applicable shall be added as separate items on each bill.

REVISED

Water Service Schedule No. 6 (continued)

Private Fire Protection

MAY 22 1974

Where a reservoir or standpipe is connected to the connection, one refill per calendar year not directly due to fire extinguishment shall be included in the rate. Customer shall notify the Company when the refill will be made. Any other refills will be paid for at the regular metered rate.

- (1) These rates do not include any Municipal, State, or Federal taxes computed on either billing or consumption basis. Any such taxes applicable shall be added as separate items on each bill.

Special Provision:

If water usage is detected, customer will be billed for such use. Continued use will be considered a violation of these provisions and Company may discontinue service.

Billing:

Bills will be distributed at monthly intervals and due for payment for a period of ten (10) days following mailing to the customer. Any accounts remaining unpaid at the expiration of ten (10) days shall be considered delinquent and the Company may take such action as is specified in its filed rules and regulations.

Rules and Regulations Governing
Refunds of Main Extension Deposits

RECEIVED
MAY 22 1974
MISSOURI

REFUNDS OF MAIN EXTENSION DEPOSITS

Refunds of deposits required by Rule 18 (e) shall be made only to the depositors, their successors, assigns or authorized agents, as follows:

- (1) A lump sum refund for each permanent customer directly attached to the main extension during the first seven (7) years after the facilities are installed. This lump sum to be:
 - (a) For residential customers, three (3) times the annual average revenues received from residential customers served by the system concerned during the previous calendar year.
 - (b) For non-residential customers, three (3) times the actual annual revenues derived from such customers during their first twelve months of connection, such refunds to be made during the month of June.
- (2) The total amount refunded shall not exceed the original deposit. Any part of such deposit not refunded within said seven (7) year period shall become a non-refundable contribution to the Company.
- (3) Refunds under this rule shall be made only on the basis of services connected to and within the limits of the extension covered by the specific contract or agreement.
- (4) No credit shall be allowed nor shall any refund be made for any standby or temporary service installation, provided, however, in the event service is rendered continuously for a period of five (5) years through any temporary service connection, a refund will be made under paragraph (1) above, as applicable.
- (5) Deposits shall not bear interest.

Billing

Bills for water service will be distributed on a monthly basis. The due date on the tariff shall be ten (10) days after the "date of rendition" of the bill to the customer. The customer's bill will be due and payable after this due date. The delinquent date printed on the bill will not be less than twenty-one (21) days after the date of the postmark of the bill. Any accounts remaining unpaid at the expiration of twenty-one (21) days shall be considered delinquent and the Company may take such action as specified in its filed rules and regulations.

A. MUNICIPAL OR PUBLIC FIRE PROTECTION

Availability:

Standard fire hydrants will be installed and maintained within appropriate governmental or fire protection districts upon specific order or request of governmental authorities for the areas, or on new main extensions, consistent with the Company's rules and regulations governing such installations.

Rate:

\$55.00 per year net (4.58 per month) for each installed hydrant.

Plus the net cost of relocated hydrants and unamortized investment of discontinued hydrants.

The charge for hydrants shall be computed as a cost for each customer on the following formula:

H = Monthly hydrant rate times number of hydrants.

R = Cost of relocated hydrants plus unamortized cost of discontinued hydrant divided by twelve.

C = Active metered customers.

B = Charge per active customer = $\frac{H + R}{C}$

CANCELLED

This rate does not include any municipal, state or federal taxes computed on billing basis. Any such taxes shall be added in rendering each bill.

Billing:

Billing will be rendered monthly, bi-monthly, or quarterly consistent with the billing period for regular water service. Billing for this charge shall be in addition to charges for regular water service. Any accounts remaining unpaid at the expiration of ten (10) days shall be considered delinquent and the Company may take action as is specified in its rules and regulations.

Rules and Regulations Governing Refunds of Main Extension Deposits

JAN 19 1993

MO. PUBLIC SERVICE COMM.

REFUNDS OF MAIN EXTENSION DEPOSITS

Refunds of deposits required by Rule 18 (e) shall be made only to the depositors, their successors, assigns or authorized agents, as follows:

- (1) A lump sum refund for each permanent customer directly attached to the main extension during the first seven (7) years after the facilities are installed. This lump sum to be:
(a) For residential customers, three (3) times the annual average revenues received from residential customers served by the system concerned during the previous calendar year.
(b) For non-residential customers, three (3) times the actual annual revenues derived from such customers during their first twelve months of connection, such refunds to be made during the month of June.
(2) The total amount refunded shall not exceed the original deposit. Any part of such deposit not refunded within said seven (7) year period shall become a non-refundable contribution to the Company.
(3) Refunds under this rule shall be made only on the basis of services connected to and within the limits of the extension covered by the specific contract or agreement.
(4) No credit shall be allowed nor shall any refund be made for any standby or temporary service installation, provided, however, in the event service is rendered continuously for a period of five (5) years through any temporary service connection, a refund will be made under paragraph (1) above, as applicable.
(5) Deposits shall not bear interest.

B. PRIVATE FIRE PROTECTION (cont.)

MAY 22 1974

Standpipe, Reservoir or Sprinkler Systems:

Availability:

Standpipe, reservoir or sprinkler system private fire service connections shall be available as specified within the Company's rules and regulations.

Rates:

- a. \$75.00 per year net for each 50,000 gallons or fraction thereof of standpipe or reservoir capacity, which rate shall include one refill per calendar year not directly due to fire extinguishment.
- b. \$75.00 per year net for the first 1,000 sprinkler heads or portion thereof installed on automatic fire sprinkler systems plus \$0.10 per year net for each additional sprinkler head, which rate shall include up to one cubic foot of water per sprinkler head or equivalent per calendar year for system test and flushing. It is further provided that where hose connections 1½" or smaller are installed in conjunction with sprinkler heads, or in lieu thereof, each hose connection outlet shall be considered the equivalent of 50 sprinkler heads.
- c. Billing at the appropriate rate in the month consumed for any consumption as shown on the installed detector check meter over the allowances per calendar year in a. and b., above, for all ~~fire extinguishment~~ directly used for fire extinguishment.

BY 1st RS D-4
PUBLIC SERVICE COMMISSION

Billing:

Monthly billing shall be computed at one-twelfth of the annual amount for installations completed on the customer's billing date for rates a. and b., and as it occurs for any consumption under rate c.

These rates do not include any municipal, state or federal taxes computed on either billing or consumption basis. Any such taxes applicable shall be added as separate items rendering each bill.

Rules and Regulations Governing
Refunds of Main Extension Deposits

REFUNDS OF MAIN EXTENSION DEPOSITS

MAY 22 1974

Refunds of deposits required by Rule 18 (e) shall be made only to the depositors, their successors, assigns or authorized agents, as follows:

- (1) A lump sum refund for each permanent customer directly attached to the main extension during the first seven (7) years after the facilities are installed. This lump sum to be:
 - (a) For residential customers, three (3) times the annual average revenues received from residential customers served by the system concerned during the previous calendar year.
 - (b) For non-residential customers, three (3) times the actual annual revenues derived from such customers during their first twelve months of connection, such refunds to be made during the month of June.
- (2) The total amount refunded shall not exceed the original deposit. Any part of such deposit not refunded within said seven (7) year period shall become a non-refundable contribution to the Company.
- (3) Refunds under this rule shall be made only on the basis of services connected to and within the limits of the extension covered by the specific contract or agreement.
- (4) No credit shall be allowed nor shall any refund be made for any standby or temporary service installation, provided, however, in the event service is rendered continuously for a period of five (5) years through any temporary service connection, a refund will be made under paragraph (1) above, as applicable.
- (5) Deposits shall not bear interest.

CLASSIFICATION OF SERVICE
RETURNED DEPOSIT ITEM CHARGE

Provided a Customer's check or Electronic Fund Transfer ("EFT") is properly processed by the Company, if a check or EFT that has been received as payment for service is returned by the bank unpaid, a Returned Deposit Item charge as outlined in Sheet F-1 will be assessed to cover the cost of processing this transaction.

+

The Returned Deposit Item charge for the dishonored check or EFT may be reflected, at the Company's option when the Company returns the dishonored check or EFT or may be charged on the Customer's next billing.

The Company may serve a Customer on a cash-only basis if more than one check or Returned Deposit Item of the customer is returned NSF or any other valid return reason in a 12-month period. "Cash" shall be deemed to mean U.S. currency, money order, or certified check.

RATE A
METER RATE - RESIDENTIAL AND COMMERCIAL

AVAILABILITY – This rate is available to all residential (“domestic”), commercial and all other metered customers not eligible for Rate B, Rate D, Rate J, and Rate K tariff customers.

A "residential" ("domestic") customer, under this residential rate classification, is a customer who purchases water for "Domestic use", under this residential rate classification, includes that portion of water which is ultimately delivered to a single or multiple family dwelling, and shall apply to all such purchases regardless of whether the customer is the ultimate consumer.

This tariff is intended to satisfy the provisions of section 144.030 (23), RS Mo, by establishing and maintaining a system and rate classification of "residential" to cause the residential sales and purchases of water under this tariff to be considered as sales made for domestic use and thus exempt from sales tax.

(1) CONTRACT TERM AND BILLING - Standard contracts are on a yearly basis, with monthly billing for service.

RATE COMPONENTS:

MINIMUM CUSTOMER CHARGE (2) - The minimum charge for water service available through the facilities of the Company for the billing period and for the meter size furnished the customer is:

| Meter Size | (AM) Monthly Billing | |
|------------|----------------------|---|
| 5/8" | \$9.65 | + |
| 3/4" | \$10.77 | + |
| 1" | \$13.05 | + |
| 1-1/2" | \$18.66 | + |
| 2" | \$25.40 | + |
| 3" | \$43.42 | + |
| 4" | \$63.67 | + |
| 6" | \$119.97 | + |
| 8" | \$187.51 | + |
| 10" | \$277.57 | + |
| 12" | \$367.63 | + |

COMMODITY CHARGE (1) - In addition to the Minimum Customer Charge, for all water used as registered by the meter the Commodity Charge is \$2.3925 per 100 cubic feet or \$3.1901 per 1,000 gallons.

| <u>Billing</u> | | | | | | |
| Bills for water service will be distributed on a monthly basis. The due date on the tariff shall be ten (10) days after the "date of rendition" of the bill to the customer. The customer's bill will be due and payable after this due date. The delinquent date printed on the bill will not be less than twenty-one (21) days after the date of the postmark of the bill. Any accounts remaining unpaid at the expiration of twenty-one (21) days shall be considered delinquent and the Company may take such action as specified in its filed rules and regulations. | | | | | | |

RATE E
PRIVATE FIRE PROTECTION

AVAILABILITY

For fire protection systems installed on private property. Expense of the installations will be borne by the customer. If in the opinion of the Company, a detector check meter is needed, the cost shall be a part of the installation. If a detector check meter has to be added to an existing service not having the check meter, the cost will be paid by the customer.

RATE (1) - Customer with unmetered fire protection will be billed at the following rates based upon the tap size in the Water Company's main (tap size for multiples of smaller taps for one line shall be the equivalent connection had a single tap been used) :

| <u>Tap Size</u> | <u>Annual Rate</u> | <u>Monthly Rate</u> |
|-----------------|--------------------|---------------------|
| 2" or less | \$30.98 | 2.58 |
| 3" | \$100.49 | 8.37 |
| 4" | \$123.67 | 10.31 |
| 6" | \$278.26 | 23.19 |
| 8" | \$494.74 | 41.23 |
| 10" | \$773.07 | 64.42 |
| 12" | \$1,113.32 | 92.78 |
| 20" | \$2,946.76 | 245.56 |

+
+
+
+
+
+
+
+
+
+

Charges for Private Fire Protection for larger than 12" taps must be individually negotiated with the Water Company.

DETECTOR CHECK METERS - In addition to the tap size charge, fire lines with detector check meters will be billed as follows:

For all water used as registered by the meter the Commodity Charge is the same as the Rate A Commodity Charge shown on Sheet No. E-1.

+

Minimum Charge - The following charges must be paid on all detector check meters in addition to the Commodity Charge:

| <u>Meter Size</u> | <u>Monthly Charge</u> | <u>Annual Charge</u> |
|-------------------|-----------------------|----------------------|
| 5/8" | \$12.99 | 155.88 |
| 3/4" | \$14.01 | 168.12 |
| 1" | \$16.05 | 192.60 |
| 1-1/2" | \$21.11 | 253.32 |
| 2" | \$27.20 | 326.40 |
| 3" | \$43.43 | 521.16 |
| 4" | \$61.67 | 740.04 |
| 6" | \$112.38 | 1,348.56 |

CERTIFICATED AREAS IN ST. CHARLES COUNTY, MISSOURI
COMMUNITY, TOWN, OR CITY

RECEIVED

METERED WATER SERVICE
SPECIAL CONTRACTOR SERVICE

NOV 12 1997

MISSOURI
Public Service Commission

Availability

Available to Contractor at construction site for purposes of sewer line jetting, compaction, sodding, etc. through a hydrant tag or a meter attached to a fire hydrant. The Company may limit the total of such arrangements in a given area, or prohibit usage due to lack of supply or inclement weather.

Rate

At the Company's option, the rate will be either \$17.00 per day flat rate per hydrant tag; or metered and billed at the rate of \$1.9548 per 1000 gallons for excessive usage.

Service Charge

A service charge of twenty-eight dollars (\$28), NET, during the Company's regular business hours only shall be charged for each installation of the fire hydrant tag or meter. Meter to be furnished by Company and installed and removed from fire hydrant by Company personnel.

These rates do not include any municipal, state or federal taxes computed on either billing or consumption basis. Any such taxes applicable shall be added as separate items in rendering each bill.

Billing

At the Company's option, tags may be purchased in advance from the water company office. Bills will be calculated upon removal of meter and due for payment. Any damage to the meter or fire hydrant will be the responsibility of the user, for which the user will pay actual cost of repair.

Missouri-American Water Company For Certificated Areas in St. Charles County, MO

Rate for Public Water Supply District No. 2 of
St. Charles County

Missouri Public
Service Commission

REC'D JUL 13 2000

APPLICATION - This rate is applicable to water service provided to Public Water Supply District No. 2 of St. Charles County ("District") in order to comply with the agreement dated July 5, 2000, between Missouri- American Water Company ("Company") and the District. It is recognized that in accordance with said agreement, the Company has obtained an emergency supply of water from the District in exchange for certain charges.

Pursuant to Paragraph 4 of the July 5, 2000 Agreement, the rate in this tariff shall be charged by the Company to the District for the quantity of water used by the District in any month.

RATE - \$1.00 PER 1,000 GALLONS

RATE E-1
PUBLIC FIRE HYDRANT SERVICE - CITIES, TOWNS, VILLAGES

APPLICABILITY - This Public Fire Protection Service Charge shall apply to all active Rate A and J customers located in incorporated cities, towns and villages.

MONTHLY CHARGE - A monthly public fire hydrant service charge shall be determined for each incorporated city, town or village and shall be computed in accordance with the following formula:

$$\text{Monthly Charge (1)} = \frac{(N \times R) + U}{A \times 12}$$

Where within city, town or village:

N = Number of Public Fire Hydrants at date of determination.

R = Annual Service Charge of \$278.26 per fire hydrant.

U = Unamortized investment in fire hydrants ordered removed, relocated, or discontinued plus cost of removal less salvage in the most recent 12 - month period ending December 31.

A = Number of Active Rate A and J customers at date of determination.

BILLING - Billing will be rendered either monthly in advance, consistent with the billing period for regular water service. Billing for this service shall be in addition to charges for regular water service. For each new active customer billing shall start with the first billing period. Customers terminating service within a billing period shall not be entitled to a refund of any part of a previously paid fire hydrant charge.

PAYMENT TERMS – Refer to Sheet E-1 for payment terms. In all cases of nonpayment of the public fire hydrant service charge, water service may be discontinued in accordance with the provisions of Rule 9.

ADJUSTMENT of fire hydrant service charge. The monthly fire hydrant service charge shall be adjusted annually on March 1 of each year, based on December 31 data of the previous year or, at its option, the Company may recompute the monthly service charge at any time to reflect changes in number of customers or fire hydrants in the incorporated city, town, or village that results in a variation of \$0.01 or more in the monthly charge.

This rate does not include any Municipal, State, or Federal taxes computed on either billing or consumption basis. Any such taxes shall be added as separate items in rendering each bill.

RATE J
RATE FOR MANUFACTURERS AND LARGE QUANTITY USERS OF WATER

AVAILABILITY - This rate is available to Manufacturers and Large Quantity Users of Water whose usage throughout the year is not less than 60,000 cubic feet or 450,000 gallons per month.

This rate is not available to users of water for domestic purposes as defined under Tariff Rate A, or for irrigation, construction, or resale purposes.

RATE COMPONENTS:

METER CHARGE (1) - The charge for each month shall be based on the meter size or multiple meter sizes if more than one meter is installed as follows:

| <u>Meter Size</u> | <u>Monthly Charge</u> |
|-------------------|-----------------------|
| 5/8" | \$8.79 |
| 3/4" | \$9.83 |
| 1" | \$11.87 |
| 1 1/2" | \$17.01 |
| 2" | \$23.16 |
| 3" | \$39.56 |
| 4" | \$58.02 |
| 6" | \$109.30 |
| 8" | \$170.84 |
| 10" | \$252.89 |
| 12" | \$334.93 |

COMMODITY RATE (1) - In addition to the Meter Charge, for all water used as registered by the meter the Commodity Charge is \$1.0767 per 100 cubic feet or \$1.4356 per 1,000 gallons.

MINIMUM USAGE CHARGE (1) - in addition to the Meter Charge, a monthly usage charge for any month shall be equal to the commodity rate, times the greater of 1) 60% of the maximum usage during any of the months of June, July, August, or September in the twelve (12) month period preceding the month for which the bill is to be rendered or 2) 60,000 cubic feet or 450,000 gallons or 3) actual usage as registered by the meter.

(1) Exclusive of every tax or payment imposed upon the Company by any political subdivision of the State of Missouri, for the right to do business in such political subdivision.

RULES AND REGULATIONS GOVERNING
MAIN EXTENSION DEPOSITS

JAN 19 1994

FRONTAGE CHARGE ON MAIN EXTENSIONS

MO. PUBLIC SERVICE COMM. +

(a) Where a main extension has been installed by or on behalf of an applicant to reach a subdivision or personal dwelling in accordance with Rule 18, anyone requesting a service connection during the first seven (7) years after the facilities are installed shall pay, in advance, a frontage charge equal to 50% of the actual per foot cost of the mains with appurtenances, times the front footage (front footage shall mean the property footage along the main) of the premises to be served.

(b) If the opposite side of the roadway cannot be developed, then the person requesting the service connection shall pay, in advance, 100% of the actual per foot cost of the mains with appurtenances, times the front footage of the premises to be served. The Company shall have the sole responsibility in making such determinations.

(c) In the event said mains with appurtenances have been oversized, the applicant shall pay a frontage charge based on the average cost of the main size required prior to oversizing.

(d) No frontage charges will be made for mains required to serve within platted subdivisions or for premises owned or controlled by applicant.

NOV 15 1996

RULE 21 - REFUNDS OF MAIN EXTENSION DEPOSITS

MISSOURI
Public Service Commission

(a) Refunds of deposits for main extensions, excluding public fire hydrant costs, shall be made only to the depositors, their successors, assigns or authorized agents, as follows:

(1) A lump sum refund for each permanent customer directly attached to the main extension during the first seven (7) years after the facilities are installed. This lump sum to be:

(i) For residential customers, three (3) times the annual average revenues received from residential customers served by the system concerned during the previous calendar year.

Upon acceptance of the main extension installed pursuant to Rule 18 (Extension of Company Facilities), the Company will remit to the applicant the first year's applicable refund. The refund amount will be based on the Company's estimate of lots receiving metered water service in the first year after acceptance of the extension. Additional refunds will not be made until metered water service is provided to all of the lots estimated for the first year (contractor service excluded).

(ii) For non-residential customers, three (3) times the actual annual revenues derived from such customers during their first twelve months of connection, such refunds to be made during the month of June.

(2) A lump sum refund of the frontage charges for each permanent customer directly attached to the main extension to reach a subdivision or personal dwelling during the first seven (7) years after the facilities are installed. No frontage charges will be collected and no refunds of frontage charges will be made for mains required to serve within platted subdivisions or for premises owned or controlled by applicant.

(b) The total amount refunded shall not exceed the original deposit. Any part of such deposit not refunded within said (7) year period shall become a non-refundable contribution to the Company.

MCI World Com and Bender Properties

The MCI World Com Property consists of the following:

PARCEL ONE

The following described property located in the County of St. Charles, State of Missouri:

Lot No. 35 of the Howell Prairie Tract, part of U.S. Survey No. 1669, Township 46 North, Range 3 East, containing 45.15 acres. For a more particular description of said lot, reference is made to the Plat and field notes of the Survey of said Howell Prairie Tract, which are attached to and recorded with a Deed to one Frederick Busch, recorded in Book "H," No. 2, Page 140, of the Recorder's Office of St. Charles County, Missouri.

EXCEPTING THEREFROM THE FOLLOWING TRACTS OF LAND:

TRACT NO. 1, that part acquired by the State of Missouri as set forth in Commissioners Report recorded in Book 455, page 293. An easement for right-of-way for State Highway Route 40TR in St. Charles County, Missouri, (all direct access to the thruway of Route 40TR from the abutting property is herewith prohibited or limited except as herein set out) across the following parcel of land containing 4.94 acres, more or less, of new right-of-way situate in Lot 5 of Howell's Prairie Tract in U.S. Survey 1669, Township 46 North, Range 3 East, St. Charles County, Missouri, described as follows: Being all of defendants' land bounded on the Southeast by defendants' Southeast property line, also being the South line of said Survey 1669; on the Southwest by the existing Northeast right-of-way line of Route 40TR; bounded on the Northwest by defendants' Northwest property line; and bounded on the Northeast by a line described as follows: Beginning at a point on defendants' said Northwest property line being 199.96 feet radial distance Northeast of Station 578+81.41 on the hereinafter described centerline of Route 40TR; thence South 35 degrees 39 minutes 05 seconds East 1195.32 feet to a point being 270 feet perpendicular distance Northeast of centerline Station 590+00; thence parallel to said centerline South 26 degrees 11 minutes 50 seconds East 488.41 feet to a point on defendants' said Southeast property line, being 270 feet perpendicular distance Northeast of centerline Station 594+88.41.

CLASSIFICATION OF SERVICE
RETURNED DEPOSIT ITEM CHARGE

Provided a Customer's check or Electronic Fund Transfer ("EFT") is properly processed by the Company, if a check or EFT that has been received as payment for service is returned by the bank unpaid, a Returned Deposit Item charge as outlined in Sheet F-1 will be assessed to cover the cost of processing this transaction.

+

The Returned Deposit Item charge for the dishonored check or EFT may be reflected, at the Company's option when the Company returns the dishonored check or EFT or may be charged on the Customer's next billing.

The Company may serve a Customer on a cash-only basis if more than one check or Returned Deposit Item of the customer is returned NSF or any other valid return reason in a 12-month period. "Cash" shall be deemed to mean U.S. currency, money order, or certified check.

FRONTAGE CHARGE ON MAIN EXTENSIONS

MAY 22 1974

Where a main extension has been installed by a developer or the Company to reach a subdivision in accordance with Rule 18, an applicant for service shall pay, in advance, a frontage charge of \$2.50 per foot times the front footage of applicant's premises adjacent to said main.

REFUNDS OF MAIN EXTENSION DEPOSITS

Refunds of deposits for main extensions required to reach a platted subdivision shall be refunded to the party who initially paid for said main extension as follows:

1. A lump sum refund for each permanent customer directly attached to the main extension during the first seven (7) years after the facilities are installed. This lump sum to be the frontage charge as outlined above.
2. The total amount refunded shall not exceed the original deposit.
3. Refunds under this section shall be made only on the basis of service connections to and within the limits of the main extension covered by the specific contract or agreement made to reach a subdivision.
4. No refunds of deposits will be made for mains required to serve within platted subdivisions in accordance with Rule 18.
5. Deposits shall not bear interest.

RECEIVED

ECONOMIC DEVELOPMENT RIDER RIDER EDR

DEC - 1 1995

Purpose

The purpose of this Economic Development Rider is to encourage industrial and commercial development in Missouri.

MO. PUBLIC SERVICE COM. I.

Availability

Water service under this rider is only available in conjunction with local, regional, and state governmental economic development activities where incentives have been offered and accepted by a customer who is requesting service, in conjunction with the location of new or expanding facilities, in the Company's service areas.

Water service under this rider is only available to customers otherwise qualified for service under the following Company's Service Classifications:

- Industrial
Commercial

Water service under this rider is not available in conjunction with service provided pursuant to any other special contract agreements.

Applicability

This Rider is applicable to a new customer, or the additional separately-metered facilities of an existing customer, who will be served under one or more of the above service classifications and who meet the following criteria:

- 1) The annual load factor of the new customer or additional facilities is reasonably projected to equal or exceed fifty-five percent (55%) during the entire term of application of this rider. The projected annual customer load factor shall be determined using the following relationship: Projected Annual Water Consumption, Expressed as MGD

Divided by Maximum Summer Monthly Billing Demand, Expressed as MGD

- 2) The average annual billing demand of the new customer or additional facilities shall be at least 0.5% of the total district consumption during each contract year under this rider.
3) The customer's new or additional facilities must create new permanent jobs within the facilities qualifying for this rider. The number of jobs created must be 0.1% of the total population of the district service area. Any location providing at least 50 jobs qualifies under this paragraph.

Requests for service under this rider must be submitted prior to the customer having committed to moving into or expanding within the Company's service territory and shall be accompanied by sufficiently detailed information to enable the Company to determine whether the new customer or additional facilities meet the above criteria.

Service under this rider shall be evidenced by a contract between the customer and the Company in the general form as that contained in the following sheets, which shall be filed within ten days of execution with the Commission for information purposes.

Customer must notify Company in writing of the date at which customer would like the provisions of this rider to commence. Such commencement date must be within twelve (12) months of the execution of the contract.

This rider shall only be available in districts in which adequate capacity is available to meet the additional load throughout the year.

INCENTIVE PROVISIONS:

Amount of Discount:

Subject to the provisions below, the discount during the first contract year shall be 30 percent; during the second contract year, 25 percent; during the third contract year, 20 percent; during the fourth contract year, 15 percent; and during the fifth contract year, 10 percent. After the end of the fifth contract year, no other discount pursuant to this Rider shall be applied to the customer's bill and the applicability of this Rider and its associated contract to the particular facilities shall cease.

Calculation:

At the conclusion of the first contract year (i.e., 12 full monthly billing periods after the effective date of the contract), the Company shall review customer's annual load factor and calculate an average monthly billing demand. If the customer has demonstrated at least a 55 percent annual load factor and at least an annual consumption level of 0.5% of total consumption for the district, then a bill credit shall be issued to apply the 30 percent discount for the first contract year, as set out below.

Calculation cont'd:

MO. PUBLIC SERVICE COM.

The same review shall be made at the end of each succeeding year during the five year period and the applicable discount amount applied as a credit for that year if the criteria were met.

If the customer fails to meet the criteria for a particular year, the applicable discount for that one year shall be forfeited by the customer but the contract shall remain in effect and the customer shall remain eligible for the discounts which would be applicable during the remainder of the five year period.

If customer fails to meet the criteria in both the first and the second year, or in any two successive years during the five year period, service to the customer under this Rider shall terminate and the contract for service under the Rider shall be void.

Application of the discount:

Since the discount is to be calculated at the end of the year after determination that all criteria have been met, the customer will have been billed for the otherwise applicable rate schedule and been charged for the appropriate taxes (e.g., sales and other gross receipts or franchise taxes). To afford the customer the full benefit of the discount (e.g., 30 percent for the first year) to the amount the customer paid for water service pursuant to the otherwise applicable rate schedule for the previous twelve billing periods, not including taxes. The discount will be given to the customer by that amount being applied as a credit on the next bill, prior to the calculation of taxes. No discount will be applied to items on the bill which are otherwise required to be charged to a customer by statute or rule of the Commission. e.g., the Missouri Primacy Fee.

Revenue Determination:

The pre-tax revenues under this rider, shall be determined by reducing otherwise applicable charges, associated with the rate schedules. The discount, where applicable, will be determined based on service rendered to customer during the Company's designated and applicable billing periods of each contract year and shall be as follows:

Table with 2 columns: Contract Year, Discount. Rows: First Contract Year (30%), Second Contract year (25%), Third Contract Year (20%), Fourth Contract Year (15%), Fifth Contract Year (10%).

After the conclusion of the fifth contract year, these discounts shall cease. All other billing, operational and related provisions of the aforementioned shall remain in effect.

Form of Contract

MO. PUBLIC SERVICE COMMISSION

This Agreement is entered into as of this _____ day of _____, _____, by and between Missouri-American Water Company and _____ (Customer).

WITNESSETH:

Whereas, Company has on file with the Public Service Commission of the State of Missouri (Commission) a tariff providing for an Economic Development Rider (Rider), and;

Whereas, Customer is a new customer, or has acquired additional separately metered facilities within the Company's service territory, and;

Whereas, Customer has furnished sufficient information to the Company to demonstrate that its new facilities or additional separately metered facilities (Facilities) satisfied the Availability and Applicability provisions of the Rider, and;

Whereas, Customer wishes to take water service from the Company, and the Company agrees to furnish water service to the Customer under this Rider and pursuant to all other applicable tariffs of the Company;

Now, therefore, the Company and Customer agree as follows:

- 1. Service to the Customer's Facilities shall be pursuant to the Rider, all other applicable tariffs, and the Company's General Rules and Regulations Applying to Water Service, as may be in effect from time to time and approved by the Commission.
2. Customer acknowledges that this Agreement is not assignable voluntarily by Customer, but shall nevertheless inure to the benefit of and be binding upon the Customer's successors by operation of law, so long as the successor continues to meet the criteria of the Rider.
3. Customer will furnish additional information, as requested by the Company, to assure the continued eligibility for service under the Rider.

- 4. Customer acknowledges that all information provided to the Company for the purpose of determining whether the Customer is eligible for service under the Rider shall be retained by the Company, and shall be subject to inspection and disclosure under Chapters 386 and 393, RSMO 1986, as amended from time to time. Should the customer designate any of such information proprietary or confidential, Company shall notify customer of any request for inspection or disclosure, and shall use good faith efforts to secure an agreement or Commission order protecting the proprietary or confidential nature of such information.
5. This Agreement shall be governed in all respects by the laws of the State of Missouri (regardless of conflict of law provisions), and by the orders, rules and regulations of the Commission as they may exist from time to time. Nothing contained herein shall be construed as divesting, or attempting to divest, the Commission of any right jurisdiction, power or authority vested in it by law.

In witness whereof, the parties have signed this Agreement as of the date first above written.

Refunds of deposits required by Rule 18 (e) shall be made only to the depositors, their successors, assigns or authorized agents, as follows:

- (1) A lump sum refund for each permanent customer directly attached to the main extension during the first seven (7) years after the facilities are installed. This lump sum to be:
 - (a) For residential customers, three (3) times the annual average revenues received from residential customers served by the system concerned during the previous calendar year.
 - (b) For non-residential customers, three (3) times the actual annual revenues derived from such customers during their first twelve months of connection, such refunds to be made during the month of June.
- (2) The total amount refunded shall not exceed the original deposit. Any part of such deposit not refunded within said seven (7) year period shall become a non-refundable contribution to the Company.
- (3) Refunds under this rule shall be made only on the basis of services connected to and within the limits of the extension covered by the specific contract or agreement.
- (4) No credit shall be allowed nor shall any refund be made for any standby or temporary service installation, provided, however, in the event service is rendered continuously for a period of five (5) years through any temporary service connection, a refund will be made under paragraph (1) above, as applicable.

FRONTAGE CHARGE ON MAIN EXTENSIONS

MISSOURI
Public Service Commission

Where a main extension has been installed by an applicant to reach a subdivision or personal dwelling in accordance with Rule 18, anyone requesting a service connection shall pay, in advance, a frontage charge equal to 50% of the actual per foot cost of the mains with appurtenances, times the front footage (front footage shall mean the property footage along the main) of the premises to be served.

If the opposite side of the roadway cannot be developed, then the person requesting the service connection shall pay, in advance, 100% of the actual per foot cost of the mains with appurtenances, times the front footage of the premises to be served. The Company shall have the sole responsibility in making such determinations.

In the event said mains with appurtenances have been oversized, the applicant shall pay a frontage charge based on the average cost of the main size required prior to oversized.

Main Extensions for fire hydrant installations MISSOURI

Public Service Commission

In the event the City requests the installation of fire hydrants on existing streets in an area not already serviced by mains of adequate capacity, such installations will be made, provided the main extension required is not greater than 300 feet. Further, if such installations are greater than 300 feet, the City will be required to make a non-refundable contribution equal to the additional cost thereof. Spacing shall be in accordance with Rule 16 (a).

In the event the City should annex areas, fire hydrants to be located within such areas which are served by water districts financed by Farmers Home Administration or similar agencies, may be placed on their lines if such lines are deemed satisfactory and are acquired by the Company. Otherwise, the Company shall make extensions as provided in Rule 18.

Rule 18 a

EXTENSION OF COMPANY FACILITIES - RESTRICTED

MISSOURI
Public Service Commission

POWELL PARK SUBDIVISION

(Also known as Forest Garden and Howell School Additions)

1. The Company is extending service to an existing subdivision with an inadequate community, non-regulated, water system. A standard charge per lot will be made in advance when service application is made. This rule shall be automatically terminated when all lots covered by this main extension rule are receiving service.
2. The following charge shall be paid in advance by Customers applying for service from the Powell Park Main Extension.
 - a) Contribution toward main extension \$280.00 per lot
3. Service provided in the area delineated on the map attached shall be furnished at the Company's filed rates and subject to its rules and regulations except as modified by the provisions of this extension rule.
