	)	Tariff No. JE-2014-0537

**ORDER REGARDING APPLICATION**

Issue Date: July 2, 2014

Effective Date: July 6, 2014

**Application**

On June 11, 2014<sup>1</sup>, KCP&L Greater Missouri Operations Company ("GMO") asked the Commission to approve its residential lighting program. This program will be part of GMO's Missouri Energy Efficiency Investment Act ("MEEIA") program plan.

At the same time, GMO filed a tariff that has an effective date of July 11.<sup>2</sup> But, in a Motion for Expedited Treatment, GMO asks that the tariff go into effect on July 6. This will allow GMO's program to go into effect simultaneously with Kansas City Power & Light's ("KCP&L") similar residential lighting program.

GMO states that in File No. EO-2014-0095, the parties filed a stipulation that allows GMO to have the same residential lighting program as KCP&L. Thus, the Commission notified the parties in File No. EO-2014-0095. No party from that file responded to the application.

<sup>2</sup> GMO filed substitute tariff sheets on June 24.

Further, GMO asks for variances from certain Commission rules. GMO states that the signatories to the stipulation resolving its MEEIA case all agreed that GMO should have these variances.<sup>3</sup> GMO states that these variances, regarding net shared benefits, tariff flexibility, integrated resource plans, and annual reporting, are still needed.<sup>4</sup>

### **Staff Recommendation**

The Staff of the Commission (“Staff”) filed a Recommendation on June 27. Staff states that GMO has complied with the stipulation in File No. EO-2014-0095.

Staff recommends that the Commission approve: GMO’s proposed residential home lighting rebate program;<sup>5</sup> the program’s cumulative annual energy and demand savings targets of 25,162,228 kWh and 2,673 kW, respectively; the modified GMO MEEIA program plan’s cumulative annual energy and demand savings targets of 161,280,888 kWh and 66,525 kW, respectively; and all variances from Commission rules that GMO requests. GMO further recommends expedited approval of the tariff sheets.

### **Discussion**

The Commission has reviewed the above-mentioned filings, and determines that the filings comply with the Commission’s order approving the stipulation in File No. EO-2014-0095. The Commission further finds that good cause exists for GMO to be
