3.31 Busy Line Verification and Interrupt

Busy Line Verification and Interrupt services are offered in areas where the service may be obtained from the local exchange carrier.

With Busy Line Verification (BLV), the CenturyTel operator will contact the LEC operator to determine if the called number or line is in use. Only one BLV will be made per telephone call and an associated service charge will apply whether or not conversation was detected on the line. The operator will not complete the call for the Customer initiating the verification request. The following service charge will apply per BLV request.

Busy Line Interrupt (BLI) allows the CenturyTel operator to contact a LEC operator to interrupt a telephone conversation in progress, upon the caller's request and after a Busy Line Verification occurs. Upon the caller's request, the CenturyTel operator will contact the LEC operator, who will interrupt the busy line and inform the called party that there is a call waiting from the caller. The LEC operator will not complete the call, but will only inform the called party of the request. If the call is released the CenturyTel operator will offer to complete the call for the Customer initiating the interrupt request. The following service charge will apply per BLI request. Applicable per minute charges will apply to the completed call. Only one BLI attempt will be made per telephone call and a charge will apply whether or not the called party releases the line. Verification must be made prior to interrupt.

Busy Line Verification, per request: \$9.99

Busy Line Interrupt, per request: \$19.98

When a call is subject to more than one service charge, only the highest service charge applies.

SECTION 3 - DESCRIPTION OF SERVICES AND RATES, (CONT'D.)

3.39 Choice™ Monthly Minimum

(N)

Choice Monthly Minimum is a direct-dialed long distance offer designed for business customers that has a monthly minimum dollar commitment.

3.39.1 Terms and Conditions

This service is provisioned in conjunction with the interstate Choice Monthly Minimum service under which the Company provides interstate long distance calling.

This service is an add-on to the interstate Choice Monthly Minimum service that includes a monthly minimum dollar commitment. The Choice Monthly Minimum service is only available on an intrastate basis when the Customer has subscribed to the interstate Choice Monthly Minimum service. All other terms, conditions and customer eligibility under this service are specified in the Company's Long Distance Interstate and International Service and Pricing Guide.

The monthly minimum dollar commitment set forth below will apply for this intrastate plan. This charge is identical to, and shall not be in addition to, any monthly minimum dollar commitment applicable to the corollary interstate Choice Monthly Minimum for long distance calling. If the Customer's invoiced usage charges are less than the required minimum monthly usage commitment, the Customer will be billed and required to pay a short fall charge equal to the difference between the monthly commitment and the actual amount billed. Direct dialed and International Direct Dialed usage will contribute to the monthly minimum*.

Calls are measured and billed for an initial period of 30 seconds and timed in 6-second increments for usage over 30 seconds. The call rating is rounded to the nearest full cent. Rate quotes are provided in 60 second increments. If the computed charge for a call includes a fraction of a cent, the fraction is rounded up to the whole cent (e.g., \$1.244 is rounded up to \$1.25).

(N)

- * Does not include calls which are pay-for-use, including but not limited to calls to 900, 976, 555 and 700 numbers, calls to Directory Assistance, operator service calls, including emergency interrupt and intercept call completion, inbound toll free service calls, Switched Data Services ("SDS").
