SECTION 16 - ACCUNET GENERIC DIGITAL ACCESS SERVICES

16.1 GENERAL

An ACCUNET Generic Digital Access Service provides for the transmission of digital signals at either 9.6, 56 or 64 kbps.

DEC 21 1999

16.1.1 DESCRIPTION

An ACCUNET Generic Digital Access Service provides a digital channel for the two-way simultaneous transmission of signals at the rates of 9.6, 56 kbps or 64 kbps in a framed DSO signal format. The transmission specification standards for ACCUNET Generic Digital Access Service are contained in Technical Publication-PUB 62310 (see Technical Publication Information, Sheet 18).

An ACCUNET Generic Digital Access Service may be furnished (1) between a Customer's premises and an AT&T Central Office or (2) between two Customer's premises or (3) solely as an Access Coordination Function. An ACCUNET Generic Digital Access Service may not be used with DATAPHONE Digital Service.

16.1.2 REGULATIONS

In addition to the regulations in Section 2 preceding, the following apply.

A. AVAILABILITY OF A LOCAL CHANNEL SERVICE

ACCUNET Generic Digital Access Services are available where digital access is available from the AT&T Central Offices. ACCUNET Generic Digital Access Services may not be available in every LATA.

B. CREDIT ALLOWANCES FOR INTERRUPTIONS

For purposes of determining credit allowances in accordance with the regulations in Section 2.7 preceding, an ACCUNET Generic Digital Access Service is considered to be interrupted when:

- there has been a loss of continuity, or
- 300 or more seconds of transmission containing errors occur in a 15-minute period.

16.1 GENERAL (Continued)

Missouri Public
Service Commission

16.1.2 REGULATIONS (Continued)

REC'D DEC 21 1999

C. INSTALLATION CHARGE WAIVER

(FC) (AT)

Installation charges will be waived for ACCUNET Generic Digital Access Local Channel Services (GDA) including the Access Coordination Function for Customers who order a new ACCUNET Spectrum of Digital Service (ASDS) with IOC provided under AT&T's Tariff P.S.C. Mo. No. 9, used in conjunction with ACCUNET Generic Digital Access Local Channel Service.

Excluded from the installation charge waiver are:

- Replacement of existing service with a service of the same type and speed
- Additions to and/or rearrangements to existing services

A Customer who discontinues service prior to 12 full months will be billed for the waived charges.

However, a Customer may discontinue service without liability for waived charges as specified in Section 16 under AT&T's Tariff P.S.C. Mo. No. 9.

(AT)

D. CONNECTION OF CHANNEL SERVICE UNIT FUNCTIONALITY

(FC)

The Customer is responsible for providing Channel Service Unit Functionality for each termination of an ACCUNET Generic Digital Access Service at a Customer's premises.

In the event that a trouble indication exists which necessitates a visit of a repair person to a Customer's premises because of the absence of a loop-back in the Customer's equipment, a Maintenance of Service Charge will apply (see Maintenance of Service Charge, Section 18.2.4).

The connection of Channel Service Unit Functionality to ACCUNET Generic Digital Access Services shall be in accordance with Part 68 of the FCC's Rules and Regulations (Registration Program).

16.1.3 MINIMUM PAYMENT PERIOD

The minimum payment period for an ACCUNET Digital Access Coordination Function shall be one month. The minimum payment period for a Local Channel will be developed on an individual case basis as indicated in Section 16.2.1 following.

Material previously shown on this sheet now appears on Sheet 137

SECTION 16 - ACCUNET GENERIC DIGITAL ACCESS SERVICES

16.1 GENERAL (Continued)

16.1.4 NOTICE OF DISCONTINUANCE

The Notice of Discontinuance for an ACCUNET Generic Digital Access Service is 15 days. Recurring charges apply for a period of 15 days from the date AT&T receives the discontinuance notice or until the requested discontinuance date, whichever is longer. The charges will continue to apply whether or not the Customer continues to use the local channel service.

16.1.5 CANCELLATION CHARGE

As specified in Section 2.6.7.B.1 preceding, the cancellation charge will apply for ACCUNET Generic Digital Access Service orders canceled by the Customer on or after the SID.

CRITICAL DATES

<u>COMPONENT</u>	<u>USOC</u>	<u>APP</u>	<u>SID</u>	<u>DLRD</u>	<u>RID</u>	<u>WOT</u>	<u>CTA</u>	<u>DD</u>
Access Coordination								
Function								
9.6 kbps	NROCN	0	\$88	\$127	\$145	\$150	\$171	\$180
56,64 kbps	NROCN	0	\$117	\$164	\$189	\$194	\$232	\$240
Local Channel								
9.6, 56,								
64 kbps								
(See Note)	NROCN	0	0	18%	29%	57%	100%	100%

NOTE: The percentages indicated are applied against the installation charge for each local channel involved.

The applicable charge is based on the last scheduled critical date reached in the service order process. For example, for a 56 kbps order which is canceled after the DLRD but prior to the RID, a charge of \$164 for each Access Coordination Function will apply. In addition, if a local channel has been ordered a charge equal to 18% of the installation charge for each local channel involved will also apply.

16.1.7 SELECT SAVINGS PLAN (SSP)

Select Savings Plans (SSP) with terms from one to five years are available as an alternative to conventional monthly rates for Local Channel Services and Channel Options of Digital Data Local Channel (DDLCL) Services, Voice Grade Local Channel (VGLC) Services and ACCUNET Generic Digital Access (AGDA) Services connected to ACCUNET Spectrum of Digital Services (ASDS). In exchange for a term commitment on each individual service, the customer is given monthly rates that are discounted for the duration of the term. Rates may change from time to time however, the discount levels applied will not change during the term of the plan. If a customer requests additions/changes to any service currently included under a SSP, the monthly discounts that were in effect on the date the customer originally committed to a plan will be applied to the new rates.

Non-recurring charges will not be discounted. When a customer requests service, the non-recurring charges will be applied based on the rates in effect on the date that the service order is completed by AT&T.

A. SELECT SAVINGS PLAN STRUCTURE

A SSP will include all AGDA Services, DDLCL Services and VGLC Services or service components with the exception of Voice Grade Signaling Channel Option and Digital Data Transfer Arrangements.

The plan will be available in one month increments from twelve months (one year) through sixty months (five years). The discount is fixed for the life of a plan. Monthly rates for all months will be discounted based on the term commitment as follows:

<u>Term commitment</u>	<u>Local Channel Discount</u>
12-23 Months	6%
24-35 Months	8%
36-60 Months	10%

MO. PUBLIC SERVICE COMM.

B. SELECT SAVINGS PLAN COMMITMENT AND PLAN RESTRICTIONS

The customer must commit each individual service into a SSP. Each service must include all AT&T Private Line Services Tariff - Schedules 9 and 11 components under a plan. Both existing and new services are eligible. The following are not eligible for inclusion in a SSP:

- Individual Case Basis (ICB) rates
- Local Channel Special Routing
- Local Channels not connected through an AT&T Central Office
- Signaling
- Transfer Arrangements
- Administrative Charges
- Non-recurring Charges
- Special Access Surcharge

C. DISCONTINUANCE OF SELECT SAVINGS PLAN - WITHOUT LIABILITY

The customer may terminate a SSP without liability under the following conditions:

1. An ASDS Customer with 9.6 kbps or 56 kbps service and voice grade access may replace their end to end service with a new ASDS 9.6 kbps or 56 kbps service with digital access, provided the replacement service is enrolled in a SSP with an expiration date equal to or later than that of the service being replaced. The requested installation date for the new service must be on or before the requested disconnect date of the service being replaced.

2. An existing SSP service may be replaced with a new AT&T ACCUNET digital service of a higher speed, provided the replacement service, if it is ASDS, is enrolled in a SSP that has an expiration date that is equal to or later than that of the service being replaced. The installation date requested for the new ACCUNET service must be on or before the requested disconnect date of the service being replaced.
3. A customer may also move an existing SSP service to a different location(s) or change the AT&T point-of-presence provided that the installation date requested for the move and/or change is on or before the requested disconnect date, and both installation and disconnect requests are made concurrently. The moved and/or changed service will be subject to the time commitment remaining under the original SSP.
4. If the customer commits to a new twenty-four through sixty month replacement SSP with an expiration date that is 12 or more months later than the expiration date of the plan being replaced. The plan being replaced will terminate on the day preceding the start date of the new plan. The rates for the new SSP will be determined using the rates in effect at the time the customer commits to service under the new plan.
5. An ASDS Customer with DDLC access service may replace their DDLC access service with AGDA Service, provided AGDA Service is of equal speed. The AGDA Service will be subject to the time commitment remaining under the customers' original SSP, and all SSP components will be repriced and/or recalculated as specified in existing SSP regulations, concerning customer requested additions and/or changes.

16.1 GENERAL (Continued)

AUG 15 1995

16.1.7 SELECT SAVINGS PLAN (Continued)

D. DISCONTINUANCE OF A SELECT SAVINGS PLAN - WITH LIABILITY **MO. PUBLIC SERVICE COMM.**

Discontinuance of a service and/or service component furnished under a SSP, prior to the expiration of the applicable term will result in customer liability as specified below:

1. For service discontinued prior to the completion of the specified term plan the customer is liable for a percentage of the total undiscounted fixed monthly rates for the remaining portion as follows:

<u>Remaining Portion</u>	<u>Local Channel Liability</u>
1-12 months	50%
13-24 months	40%
25-36 months	30%
37-48 months	20%
49-60 months	10%

The following examples illustrate how the customer will be charged for early discontinuance:

Examples

- (a) A 12 month plan is established for a two-point service but the service is disconnected prior to the end of the 9th month. Discontinuance charges will be calculated at 50% of the monthly charges for the remaining portion of the 9th month and all of months 10-12.
- (b) A 30 month plan is established for a two-point service but the service is disconnected prior to the end of the 22nd month. Discontinuance charges will be calculated at 40% of the monthly charges for the remaining portion of the 22nd month and for all of month 23-24. In addition, discontinuance charges will be calculated at 30% for months 25-30.

MO. PUBLIC SERVICE COMM.

E. EXPIRATION AND RENEWAL OF A SELECT SAVINGS PLAN

Upon expiration of a SSP, the customer has the option to obtain a new SSP, or other available plan or to obtain service under conventional monthly rates.

If the customer chooses to subscribe to a new SSP, the start date of the new plan may not be earlier than the day following the expiration date of the former plan.

To continue the same service under monthly rates, no action is required on the part of the customer. Upon expiration of the SSP, and unless notification to the contrary is received, the customer's service will automatically be continued at rates specified under the monthly rate plan in effect at that time.

The customer may renew service under a new SSP by notifying AT&T in writing anytime prior to the expiration of the current SSP.

SECTION 16 - ACCUNET GENERIC DIGITAL ACCESS SERVICES

16.2 RATES (Continued)

16.2.3 SPECIAL ACCESS SURCHARGE

A Special Access Surcharge applies to each termination of an ACCUNET Generic Access Service in a PBX or equivalent device capable of interconnecting the channel with the local exchange network. When such terminations are connected by one local channel service, only one Special Access Surcharge applies (for additional information regarding the application of the Special Access Surcharge, refer to the regulations set forth in Section 2.6.6.B preceding).

- Per Special Access Surcharge (USOC and rates are as set forth in Section 5.2.4 preceding).

16.2.4 SPECIAL ROUTING

An ACCUNET Generic Digital Access Service is normally furnished using facilities selected by AT&T. Various special routing options are available for ACCUNET Generic Digital Access Services. These special routing options have associated charges in addition to other applicable charges. If complete Special Routing is not available when ordered, or if it becomes unavailable at a later date due to network rearrangements, Special Routing may only be furnished on a partial basis. The Customer will be advised before partial Special Routing is provided and may cancel the order or discontinue the special routing if the partial Special Routing is not acceptable. No cancellation charge will apply in such cases. The Customer options for special routing follow. Special Routing is furnished subject to the availability of facilities.

A. DIVERSITY

Two or more local channels are furnished partially or entirely over not more than two physically separated routes. Diversity is furnished for any portion of the local channel or in its entirety. If there are more than two local channels, the local channels are divided into two groups and furnished partially or entirely over two physically separated routes.

The rates for diversity are established on an individual case basis.

A. DIVERSITY

Two or more local channels are furnished partially or entirely over not more than two physically separated routes. Diversity is furnished for any portion of the local channel or in its entirety. If there are more than two local channels, the local channels are divided into two groups and furnished partially or entirely over two physically separated routes..

The rates for diversity are established on an individual case basis.

SECTION 18 - ADDITIONAL ADMINISTRATIVE AND OPERATIONAL FUNCTIONS

18.1 GENERAL

This section contains the rates and regulations for Additional Administrative and Operational Functions that may apply in connection with the installation, operation and maintenance of local channel service. The additional functions will be provided only when specifically ordered or requested by the Customer.

All of the Additional Administrative and Operational Functions are subject to the availability of personnel and equipment. In furnishing these functions, AT&T does not assume any additional responsibility for the through transmission of signals beyond that set forth in the following.

AT&T is responsible for engineering, operating and maintaining the private line services it provides. It is also responsible for the quality of transmission or signaling on private line services it provides.

18.2 FUNCTIONS AND CHARGES

18.2.1 TESTING FUNCTIONS

At the Customer's request, AT&T will review test results and participate with the Customer in a design review, technical analysis or testing.

A. REVIEW OF COMMUNICATIONS SYSTEM TEST RESULTS

At the Customer's request, AT&T will review the results of local channel tests of a Customer-provided communications system which is connected to a local channel service. (The Customer must arrange for those results to be furnished to AT&T.) Where appropriate, AT&T will recommend additional tests to be performed on the Customer-provided communications system.

Review of test results will only be provided when the Customer agrees, in advance, to pay the charges for the review.

Public Service Commission

A. RESTORATION PRIORITY CHANGE ¹

Upon receipt of certification in conformance with the Federal Communications Commission's Rules and Regulations which specify the priority system for restoration of Private Line Services, the Company will change the priority designation of a Private Line Service. The Restoration Priority Change Charge applies when the Customer requests a change in the Restoration Priority after the service has been established or after the service has been ordered, but prior to start of service. No charge applies when the Restoration Priority certification is provided with the order to establish the service or when a Restoration Priority is discontinued.

(RT)

(RT)

NOTE 1: Restoration Priority has been superseded by Telecommunications Service Priority (TSP) System as set forth in 18.2.5.B. For 30 months, RP and TSP will both be in effect, but no new assignments of RP will be allowed. The existing RP services will be honored and maintained during the 30 month interim between the Initial Operating Capability (IOC) and Full Operating Capability (FOC) of TSP. No order for changes to existing RP circuits will be accepted without a TSP Authorization Code or a definitive statement to remove the RP assignment. At FOC, the Company will remove all RP assignments that have not been converted to TSP or discontinued.

PRIVATE LINE SERVICES TARIFF

Section 18
1st Revised Sheet 150
Replacing Original Sheet 150

SECTION 18 - ADDITIONAL ADMINISTRATIVE AND OPERATIONAL FUNCTIONS

18.2 FUNCTIONS AND CHARGES (Continued)

18.2.7 DESIGN CHANGE CHARGE

A Design Change Charge applies each time a Customer requests a change of (1) the point of local channel termination on a premises, (2) the interface, or (3) channel options on an order for a local channel service before the service date.

	<u>USOC</u>	<u>CHARGE</u>
- Per design change, per local channel	NRODC	\$26.21

18.2.8 PROVISION OF A DESIGN LAYOUT REPORT

The Customer may order the design information pertaining to a local channel service. This information is provided in a report referred to as a Design Layout Report. A charge applies for the provision of the Design Layout Report.

When a Design Layout Report has been rendered for a given local channel service, revised information will be furnished at no charge if (1) the local channel's design is subsequently altered and (2) that alteration changes the operating characteristics of the local channel as furnished in the initial report. However, if the design layout changes because a local channel service has been modified in response to a Customer's order, a new Design Layout Report will be subject to the charge.

A Design Layout Report for a local channel service includes the following information:

- Cable gauge, loss, resistance, and type of loading.
- Cable pair identification of A and B signaling leads.
- The design type used (i.e., two-wire, four-wire.)
