<u>Pricing</u>	<u>Monthly Rate</u>	<u>Nonrecurring Charge</u>
DS3 Passport Service Offer	\$20,000	\$10,000

Rates specified in this Tariff for services requiring dedicated access do not include access and access related charges, including, without limitation, installation charges, inside wiring charges assessed by the local exchange carrier (LEC), construction charges assessed by the LEC, and distance and termination charges assessed by the LEC. Therefore access and access related charges are additional charges.

Customers may change individual circuit locations during the specified contract period for a change fee of \$250 per circuit. The customer will be liable for paying all applicable early termination charges for any Interconnection Services, Local Access Services (including connectivity to CPA), or other related services, whether provided by Qwest or ordered by Qwest on the customer's behalf. The customer also agrees to pay all installation charges associated with any Interconnection Services for the new location. The customer may not move the Hub location.

Additional services such as echo cancellers and multiplexing are not included in this service but may be ordered for an additional charge subject to availability.

Minimum Service Term

The customer acknowledges that the rates and charges described in this section are based on the commitment of the customer to utilize the broadband circuits for a specified minimum period of one year. If the service is terminated before the expiration of the minimum one year period, the service will be subject to early termination penalties.

This promotion is available for enrollment through December 31, 2004.

SECTION 5 - OBSOLETE SERVICE AND RATES5.4 Q.Government Network Services™ (Option 1)

(T)(M)

1. General Service DescriptionD. Optional Features2. Toll Free (Inbound) (Cont'd)j. Extended Call Coverage

The default for Qwest origination is the domestic United States. Subscribers may also order extended call coverage options.

Two options are available:

- (1) Allows calls to originate from Alaska and Hawaii.
- (2) Allows calls to originate from Puerto Rico and the U.S. Virgin Islands.

k. Project Account Codes

Verified Codes offer secure access to a toll-free number by requiring callers to enter a specific 2 to 11-digit code to complete the call. The codes are defined by the subscriber and must be of the same length for any given toll-free number. If the code entered is not valid the call will be blocked.

Non-Verified Codes requires the input of any non-specific 2 to 11-digit code to complete the call. The subscriber defines the length of the codes. The codes of any given toll-free number must be of the same length.

l. Geographic Routing

Geographic Routing cannot be used in conjunction with any other optional feature. This feature allows a subscriber to create two or more originating routing areas and direct each area to a different terminating location with a single 800/888 number. Subscribers may define the originating areas by NPA or by NPA/NXX.

For example, a business with five business locations in five area codes may terminate calls originating in each NPA to the business location in that NPA. Calls are immediately connected to the office in the area without the caller redialing or being transferred.
