VIA EFIS

Secretary Morris Woodruff
Missouri Public Service Commission
Governor Office Building
200 Madison Street
Jefferson City, MO 65101

Dear Secretary Woodruff:

Enclosed herewith for filing with the Missouri Public Service Commission on behalf of Spire Missouri Inc. d/b/a/ Spire for its western Missouri service territory are Revised Tariff Sheets:

**P.S.C. MO. No. 6 Consolidated, Second Revised Sheet No. 106
CANCELLING P.S.C. MO. No. 6 Consolidated, First Revised No. 106**

The purpose of Second Revised Tariff Sheet No. 106 is to renew Spire's participation in, and co-delivery of, Independence Power & Light's (IPL's) pilot weatherization program. From Spire's standpoint, the program is designed to provide weatherization improvement measures to create long-term natural gas bill reductions for low-income single family Spire natural gas customers who live in IPL's service territory.

This energy efficiency initiative has been discussed and approved by the Company's Energy Efficiency Collaborative. Because the Company has a pending general rate case proceeding, File No. GR-2017-0216, the Company intends to file a substitute proposed tariff sheet in that case to reflect the terms of the Revised Tariff Sheet being filed today following the effective date of the tariff. For the same reason, Spire is also serving a copy of the Revised Tariff Sheets to all parties of record in File No. GR-2017-0216.

Thank you for bringing this matter to the attention of the appropriate Commission personnel.

Sincerely,

/s/ Rick Zucker

Rick Zucker

PROMOTIONAL PRACTICES

PP

Independence Power & Light (IPL) Pilot Weatherization Program

A. Purpose

The IPL Pilot Weatherization Program (“Program”) is an experimental co-delivery program between IPL and MGE (now Spire) designed to provide weatherization improvement measures to create long-term (natural gas) bill reduction savings to low-income single family Spire natural gas customers within the IPL service territory.

B. Definitions:

Administrator: Truman Heritage/Habitat for Humanity (THHFH) will administer the Program for IPL and Spire pursuant to a written contract between THHFH and Spire Missouri Inc.

Participant: Single family property owners who are Spire natural gas customers with natural gas space-heating equipment and/or water heating equipment whose income does not exceed 50% of the average median income (AMI) for Jackson County, Missouri as published by the U.S. Department of Housing and Urban Development (HUD) and reside within the IPL service territory.

Program Term: From the effective date of the tariff until IPL’s termination of the Program or Spire’s withdrawal from the Program, whichever first occurs.

C. Availability:

Household selection into the Program will be based on the need of the family, willingness to partner, income eligibility and homeowner signature on a Homeowner Agreement. Qualifying households will be served on a first come first served basis with “first come” being determined by the receipt of a completed qualifying Program application by THHFH. Mobile homes and rental properties are not eligible for this Program.

D. Terms and Conditions:

The THHFH will conduct a “clip board” audit within the eligible homes with energy saving measures identified. The THHFH Construction Director shall then approve a detailed scope of work for each home consistent with a list of weatherization services which include HVAC repair/replacement with a 90%+ AFUE or greater, attic insulation – up to R-49, water heater replacement and other general sealing and weatherization measures including weather-stripping, caulking, outlet/light switch gaskets, installation of other minor sealing materials where feasible, minor exterior home repair to reduce air infiltration, HVAC filter replacement for existing systems, low-flow faucet aerators and showerheads, and water heater insulation pipe wrap.

The cost of weatherization services provided for any single household cannot exceed \$7,500 with the total allocated 50% - IPL and 50% - MGE.

E. Program Funding

A maximum of \$46,000 from Spire’s Conservation and Energy Efficiency Program funding will be applied to this Program for Spire’s share of the funding.
