**ORDER REGARDING APPLICATIONS TO INTERVENE**

Issue Date: March 19, 2014

Effective Date: March 19, 2014

On February 12, 2014, Noranda Aluminum, Inc. and 37 other individual customers filed a complaint against Union Electric Company, d/b/a Ameren Missouri, alleging that the company's Large Transmission Service rate should be reduced. In response to that complaint, the Commission directed Ameren Missouri to file its answer by March 17. The Commission also directed parties wishing to intervene to apply to do so no later than March 7. Responses to any application to intervene were to be filed by March 17.

The Consumers Council of Missouri; the City of O'Fallon and the City of Ballwin; Wal-Mart Stores East, LP, and Sam's East, Inc.; Missouri Industrial Energy Consumers; River Cement Company; Continental Cement Company; and the Missouri Retailers Association filed timely applications to intervene. No party objected to any of the applications to intervene. Commission rule 4 CSR 240-2.075(3) provides that the

Commission may grant an application to intervene if it finds that the proposed intervenor has an interest in the case that differs from that of the general public and that may be adversely affected by a final order arising from the case. In the alternative, the Commission may grant an application to intervene if it finds that granting the intervention would serve the public interest. After reviewing each application to intervene, the Commission concludes that those applications should be granted.

1. The Application to Intervene by the Consumers Council of Missouri is granted.
2. The Application to Intervene of Continental Cement Company is granted.
