Subject: Procedural Sch

Points of note to court.

EC 2017-0281
Fisher
Vs
Amren Missouri

1.Amren Missouri freely admitted in written response to complaint.

" Pleded gulty to denial of service. "

My complaint rests solely on legitimate right of service denial by monopoly provider.

Court system failure to decide validity of service denial by monopoly providers still in doubt.

Justice denied by Amren Missouri influence to avoid resolution by court key to unresolve basic decision.

Rational thought supports my contention.

Monopoly protection shields Amren Missouri from competition and allows budgetary responsibilities to be pasted on to municipalities served.

This insured profitability. Needless to say Amren Missouri financial bottomline much enhanced.

So comes reluctance to deregulate and face competition.

With monopoly status and guaranteed profitability come responsibility to public serviced and access.

Withholding access to public served is criminal as total disregard shown to regulated rules such as heat conditions,cold conditions and vital access for security equipment. Total disregard for critical medical equipment so vital for lifesupport.

Trusting wisdom of this regulating body to have mandatory discretion to recognize injustice and courage to speak to right obvious wrongs done.

Over 2 years indifference to access.Unnecessary losses and hardship endured because of lack of access.

Continued violation of my property,mounting losses without remedy.

Years passing without access to basic protection afforded by alarms and security lighting.

Illegal MPSC statement document "Denial of Service "
Provision of restrictions for "start of service only."

Provision only for issues not in dispute (clearly in dispute here)

Power company bears burden of proof.

Amren Missouri total disregard for access to medical equipment on registry mandatory power requirements.

Recognize Amren Missouri continued persecution of indigent elderly veteran clearly displays mercilessness of their motives.Understand opposition necessary to avoid responsibilities for greivous damages mounting as we speak.

Creating a hope to die situation to vindicate their averous and greed.

Their motives exposed and futile attempts to vindicate their flawed denial of responsibility.

Been pretending since 2014 and unbroken until this day.

Saut privately to resolve quitely issues between us.Meet hard lawyer tactics.

Clearly all that's necessary for evil to prevail is for good men and women to do nothing.
