

Elizabeth R Coates, O Fallon, MO.

I do not understand why you are shutting this pipeline down going into winter! As a resident of Missouri we are already worried about the 60% increase in the cost of natural gas this year but now we may not even have natural gas!!

This is outrageous. What do expect citizens to do if we do not have natural gas??? I know you are trying to get rid of fossil fuels but you may want to have some options before you freeze people to death!!!! I guess it will take people dying before you change your mind. Unbelievable.

Please open this pipeline so people do not die.

Thank you  
Beth Coates
