Community Solar -- Non Participants

Target Audience - Your Voice Panel members

Q1 Do you currently have or plan to install solar panels at your primary residence?

- Yes
- No

Q2 Late last year in 2018, Ameren Missouri invited customers to subscribe to a community solar program where you make a monthly contribution on your bill which helps support the construction and operation of a new solar facility. Prior to this survey, have you heard or seen anything about the Ameren Missouri Community Solar program?

- Yes
- No [Skip to Q5]

Q3 Did you enroll in Ameren Missouri's Community Solar program?

- Yes [Skip to End of Survey]
- No

Q4 Why did you decide not to participate in the Community Solar program?

Attachment D Non-Participant Survey Questions

DESCRIPTION OF THE CURRENT COMMUNITY SOLAR PROGRAM

Community Solar is a simple solution for customers who want to take part in solar generation. Nothing is installed on a customer's roof and experts at Ameren Missouri take care of maintaining the solar panels. It's easy and accessible for virtually everyone; homeowners, renters and small businesses. Only customers who sign up for the program pay the cost of installing this new solar generation facility.

The one megawatt solar energy generation facility will be built at St. Louis Lambert International Airport, an ideal location for solar panels with an abundance of open land that would otherwise go unused. Panels would be positioned away from runways and out of the line-of-sight of pilots taking off or coming in for a landing.

Q5 How interested are you in signing up to participate in the Community Solar program described above?

- Definitely interested
- Very interested
- Somewhat interested
- Not too interested
- Not at all interested

Q6. To what extent do you believe the community solar program will have an impact on your monthly energy costs ? I believe community solar will:

- Decrease my energy costs
- Have no impact on my energy costs
- Increase my energy costs
