

ATTACHMENT F:
CORPORATE APPROVAL

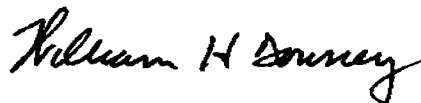

CASE NO. EE-2008-0034

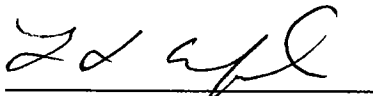

**KANSAS CITY POWER & LIGHT COMPANY
2008 INTEGRATED RESOURCE PLAN
CORPORATE APPROVAL STATEMENT (4 CSR-240.22.080(1)(D)) FOR
RESOURCE ACQUISITION STRATEGY**

The 2008 Integrated Resource Plan ("Resource Plan") of Kansas City Power & Light Company ("KCP&L") was prepared under our direction and control. This includes the eight (8) Volumes of KCP&L's original 2008 Integrated Resource Plan filing, Volume 1-S, the Supplemental Filing, and KCP&L's "Response to Parties' Summary Reports and Deficiencies". To the best of our knowledge, information and belief, the methods used and the procedures followed by KCP&L in formulating the Resource Acquisition Strategy shown as Attachment D to "Nonunanimous Stipulation and Agreement" for Case No. EE-2008-0034 comply with the provisions of Chapter 22 of the regulations of the Missouri Public Service Commission ("Commission") subject to waivers previously granted by the Commission. KCP&L has approved the Resource Acquisition Strategy shown as Attachment D.

As required by 4 CSR 240-22.080(10) the referenced Resource Acquisition Strategy includes: 1) the Preferred Resource Plan from the 2008 IRP filing, 2) implementation plans for the new resource additions included in the Preferred Resource Plan, 3) analysis of critical uncertainties, 4) contingency plans and 5) monitoring and reporting processes. The implementation plans including the noted changes to the Preferred Resource Plan additions of wind and DSM programs are in agreement with current budget spending as approved during the February, 2009 Board of Directors Meeting. The contingency plans provide the necessary flexibility to react to changing market conditions and other uncertainties. KCP&L will continue to monitor critical uncertainties and will notify the Commission if KCP&L determines that circumstances have changed so that the Preferred Resource Plan identified in KCP&L's 2008 Integrated Resource Plan is no longer appropriate.
