	<u>Page</u>
EXECUTIVE SUMMARY	
OVERVIEW	ES-1
ES.1 LOAD FORECAST SUMMARY	ES-2
ES.2 PROBABLE ENVIRONMENTAL COSTS	ES-5
ES.3 SUPPLY-SIDE SCREENING ANALYSIS	ES-8
ES.4 DEMAND-SIDE MANAGEMENT	
ES.4.1 Demand-Side Planning Process	ES-9
ES.4.2 Energy Efficiency Results	ES-9
ES.4.3 Demand Response Results	ES-10
ES.4.4 Program Portfolio Overview	ES-10
ES.5 RESOURCE INTEGRATION	
ES.5.1 Resource Integration Process	ES-12
ES.5.2 Demand-Side Management Programs	ES-13
ES.5.3 Summary of Alternative Resource Plans with DSM	ES-14
ES.5.3.1 No New Coal Generation	ES-14
ES.5.3.2 Power Purchase Agreements Through 2012	ES-14
ES.5.3.3 Power Purchase Agreements Through 2009	ES-14
ES.5.3.4 No New Gas Generation	ES-14
ES.5.3.5 Green	ES-14
ES.6 SENSITIVITY ANALYSIS	ES-15
ES.7 PREFERRED PLAN SELECTION AND COMPARISON TO ALTERNATIVE RESOURCE PLANS	
ES.7.1 Introduction	ES-16
ES.7.2 Preferred Resource Plan Selection	ES-16
ES.7.3 Financial Analysis of Preferred Plan	ES-19
ES.7.4 Environmental Analysis of Preferred Plan	ES-21
ES.7.5 Sensitivity Analysis of Key Variables	ES-23
ES.7.6 Preferred Plan Alternatives and Flexibility	ES-23
ES.8 IMPLEMENTATION AND RESOURCE ACQUISITION STRATEGY	
ES.8.1 Demand-Side Implementation	ES-24
ES.8.2 Supply-Side Implementation and Contingency Monitoring	ES-25

PART 1 - ENERGY AND DEMAND FORECAST

1.1	SUMMARY	1-1
1.2	ECONOMIC AND DEMOGRAPHIC OUTLOOK	
1.2.1	Economic Outlook	1-4
1.2.2	Service Area Growth	1-6
1.3	ENERGY SALES FORECAST	
1.3.1	Methodology	1-8
1.3.2	Large Customer Load Changes	1-10
1.3.3	Energy Sales Forecasts	1-11
1.3.4	Sensitivity Analysis	1-13
1.4	SYSTEM ENERGY AND PEAK DEMAND FORECAST	1-14
1.4.1	Methodology	1-14
1.4.2	Energy and Peak Demand Forecasts	1-15
1.5	HIGH-CASE AND LOW-CASE LOAD FORECASTS	1-21

PART 2 – SUPPLY-SIDE RESOURCE ANALYSIS

2.1	INTRODUCTION	
2.1.1	Objectives	2-1
2.1.2	Supply-Side Planning Process	2-1
2.1.3	Data Sources and Assumptions	2-1
2.2	EXISTING SUPPLY RESOURCES	
2.2.1	Existing Generation	2-2
2.2.2	Existing Purchased Power	2-4
2.2.3	Changes in Existing Generation	2-4
2.2.4	Transmission System	2-5
2.3	ENVIRONMENTAL IMPACTS	
2.3.1	Environmental Assessment	2-7
2.3.1.1	Air Emissions	2-7
2.3.1.2	Solid Wastes	2-14
2.3.1.3	Water Impacts	2-14
2.3.1.4	Siting Impacts	2-15
2.3.2	Probable Environmental Costs	2-15

2.4	SUPPLY-SIDE SCREENING ANALYSIS	
2.4.1	Introduction	2-18
2.4.1.1	Baseload Technologies	2-21
2.4.1.2	Intermediate Technologies	2-22
2.4.1.3	Peaking Technologies	2-23
2.4.1.4	Non-Dispatchable Technologies	2-24
2.4.1.5	Summary of Dispatchable Technologies	2-25
2.4.2	Screening Analysis Without Environmental Costs	2-26
2.4.3	Uncertainty Analysis	2-28
2.5	SUPPLY RESOURCE OPTIMIZATION	
2.5.1	Introduction	2-29
2.5.2	Production Cost Modeling	2-29
2.5.3	Optimal Supply Plan	2-30
2.5.4	Alternative Resource Plans	2-32
2.5.5	Conclusions	2-34

PART 3 – DEMAND-SIDE RESOURCE ANALYSIS

3.1	INTRODUCTION	
3.1.1	Objectives	3-1
3.1.2	Demand-Side Planning Process	3-1
3.2	SCREENING RESULTS	
3.2.1	Energy Efficiency Results	3-1
3.2.2	Demand Response Results	3-2
3.2.3	Program Portfolio Overview	3-2
3.2.4	Program Budgets and Cost-Effectiveness	3-4
3.3	CONCLUSIONS	3-7

PART 4 – RESOURCE INTEGRATION

4.1	INTRODUCTION	
4.1.1	Objectives	4-1
4.1.2	Performance Measures	4-2
4.1.3	Resource Integration Process	4-3

4.2	RESOURCE INTEGRATION	
4.2.1	Demand-Side Management Programs	4-4
4.2.2	Wind Generation Power Purchase Agreements and Ownership	4-8
4.3	SUMMARY OF ALTERNATIVE RESOURCE PLANS WITH DSM	4-8
4.3.1	No New Coal Generation	4-9
4.3.2	Power Purchase Agreements Through 2012	4-9
4.3.3	Power Purchase Agreements Through 2009	4-9
4.3.4	No New Gas Generation	4-9
4.3.5	Green	4-9
4.4	COMPARISON OF ALTERNATIVE RESOURCE PLANS	
4.4.1	Generation Additions for Alternative Resource Plans	4-9
4.4.2	Financial Comparison of ARPs	4-12
4.4.3	Environmental Comparison of ARPs	4-14
4.5	CONCLUSIONS	4-16

PART 5 – RISK ANALYSIS AND STRATEGY SELECTION

5.1	INTRODUCTION	
5.1.1	Objectives	5-1
5.1.2	Risk Analysis and Strategy Selection Process	5-1
5.2	PROBABILITY ASSESSMENT AND DECISION TREES	
5.2.1	Probability Assessment Procedure	5-3
5.2.2	Ranges for Key Uncertainty Variables	5-3
5.2.3	Rationale for Decision Tree Analysis	5-4
5.2.4	Sensitivity Analysis	5-5
5.3	SCENARIO ANALYSIS	5-8

5.4	STRATEGY SELECTION AND IMPLEMENTATION	
5.4.1	Introduction	5-11
5.4.2	Preferred Resource Plan Selection	5-11
5.4.3	Financial Analysis of Preferred Plan	5-13
5.4.4	Environmental Analysis of Preferred Plan	5-16
5.4.5	Preferred Plan Sensitivity Analysis	
5.4.5.1	Sensitivity Analysis of Key Variables	5-18
5.4.5.2	Decision Tree Analysis of Key Variables	5-19
5.4.5.3	Scenario Analysis	5-20
5.4.6	Expected Value of Better Information	5-21
5.4.7	Preferred Plan Alternatives and Flexibility	5-22
5.4.8	Reliability Analysis	5-23
5.5	IMPLEMENTATION PLAN AND RESOURCE ACQUISITION STRATEGY	
5.5.1	Demand-Side Implementation	5-24
5.5.2	Supply-Side Implementation and Contingency Monitoring	5-24
	CORPORATE APPROVAL STATEMENT	5-26

PART 6 – NONTRADITIONAL ACCOUNTING FOR DEMAND-SIDE RESOURCE COSTS

6.1	INTRODUCTION	
6.1.1	Objectives	6-1
6.2	PROPOSAL	
6.2.1	Requirements of 4 CSR 240-22.080(2)(A)	6-1
6.2.2	Requirements of 4 CSR 240-22.080(2)(B)1	6-1
6.2.3	Requirements of 4 CSR 240-22.080(2)(B)2	6-1
6.2.4	Requirements of 4 CSR 240-22.080(2)(B)3	6-2
6.2.5	Requirements of 4 CSR 240-22.080(2)(B)4	6-3

APPENDICES

Missouri Reporting Requirements	1-A
MPS End-Use Forecast Models	1-B
SJLP End-Use Forecast Models	1-C
MPS Forecast Reports	1-D
SJLP Forecast Reports	1-E
 Missouri Reporting Requirements	 2-A
MIDAS Gold™ Software Manual	2-B
Capacity Expansion Module User Guide	2-C
Study of Emission Reduction Strategies to Comply With CAIR and CAMR	2-D
Climate Change and Power: Carbon Dioxide Emissions Costs and Electricity Resource Planning	2-E
Supply-Side Screening Results	2-F
Generating Resource and Power Purchase Agreement Information for Production Cost Modeling	2-G
Optimal Supply-Side Only Plan Results	2-H
 Missouri Reporting Requirements	 3-A
Demand Side Management Plan	3-B
Hourly Avoided Costs for DSM Screening	3-C
Hourly Avoided Demand for DSM Screening	3-D
DSM Annual Peak Demand Impact by Program	3-E
 Missouri Reporting Requirements	 4-A
No New Coal Generation Plan Results	4-B
Power Purchase Agreements Through 2012 Plan Results	4-C
Power Purchase Agreements Through 2009 Plan Results	4-D
No New Gas Generation Plan Results	4-E
Green Generation Plan Results	4-F
Financials for Alternative Resource Plans	4-G
 Missouri Reporting Requirements	 5-A
Tables for Sensitivity Analysis	5-B
Electric Power Horizons 2006	5-C
Preferred Resource Plan Results	5-D
Preferred Plan Financials	5-E
