RE: FAC Reporting Requirements – Stipulation & Agreement ER-2009-0090

Date: January 4, 2012

Pages 10 and 11 of the Non-unanimous Stipulation and Agreement from Case No. ER-2009-0090 requires additional FAC information to be submitted to the Missouri Public Service Commission Staff. A number of these items relate to the reporting of new or changed fuel contracts. Supply has now developed a monthly report which lists all fuels contracts with highlights of the contract terms. KCP&L GMO will file this report in EFIS monthly.

Attached are the reports for November and December 2011. Please note that these documents are **HIGHLY CONFIDENTIAL**.
