ORDER GRANTING LEAVE TO AMEND APPLICATION

Issue Date: January 19, 2023

Effective Date: January 19, 2023

On July 7, 2022, Union Electric Company d/b/a Ameren Missouri filed an application with the Commission seeking an order granting a Certificate of Convenience and Necessity (CCN) authorizing it to construct, install, own, operate, maintain, and otherwise control and manage a 200 megawatt (MW) solar generation facility located in Audrain and Ralls Counties, Missouri, referred to by Ameren Missouri as the “Huck Finn Solar Project.”

On November 14, 2022, Ameren Missouri filed a *Notice Regarding Impact of the Inflation Reduction Act on Relief Sought*. In the notice, Ameren Missouri explains that the recently passed federal Inflation Reduction act makes federal tax credits available to finance the project that were not available when the original application was filed.

On January 4, 2023, Ameren Missouri filed a *Motion for Leave to File Amended Application and an Amended Application*. In the motion, Ameren Missouri explains that federal tax credits are now available to finance the project that will save its customers significant costs over the life of the project. Therefore, it asks leave of the Commission to file its *Amended Application*, which reflects the updated, final financing structure of the

project. Ameren Missouri has provided workpapers reflecting the updated financing to the other parties. No parties have opposed this motion.

The Commission finds the motion reasonable and will grant it.

THE COMMISSION ORDERS THAT:

1. Ameren Missouri is granted leave to amend its application, filed July 7, 2022, by replacing it with its *Amended Application*, filed January 4, 2023.
2. This Order shall be effective when issued.
